## CONFIDENTIALITY

We protect your confidentiality in a number of ways. First, your responses will be sent directly to and processed by ModernThink LLC, an independent research and consulting firm that specializes in higher education climate assessment. Second, your institution is not given any information in a way that would enable them to trace answers back to a specific person -- even if you are part of a small demographic group. We will not report any results from demographic categories containing fewer than five respondents.

Please note, however, that the reports your institution will receive summarize all responses to the two open-ended questions asked in the survey. To ensure that your identity remains confidential, please do not include your name or other identifying remarks in your responses.

## TROUBLE WITH THE LINK?

If clicking on the survey link provided in this email does not take you to the survey access page, please copy the link, paste it directly into the address bar of your internet browser window and hit GO.

Access the survey via secure socket layer (SSL) at: <https://www.modernthink.net/ecsu>

## TROUBLE LOGGING IN?

If you have entered your username and password and you get bounced back to the access page, try one of these solutions:

1 - Make sure you are entering the correct username and password. These are included above in this email and are different from the username and password you use at work. If you are using the login information that was sent to you by someone at your institution, that survey may already have been completed.

2 - Did you forward your email to anyone? If so, someone who received your forwarded email may have logged in using that username and password. Once they completed the survey, the login page was locked to protect confidentiality and prevent someone else from viewing or overwriting the answers. If you suspect this may be the problem, please contact us by replying to this email or by calling the number below.

If you still have a problem accessing the survey call our toll-free Help Desk at 888.684.4658.
