

ELIZABETH CITY STATE UNIVERSITY
Special Readmission Policy

Although the traditional policy for readmission is the norm, the University recognizes that individuals can gain personal and intellectual maturity over a period of years. Hence, any former Elizabeth City State University (ECSU) degree-seeking student, whose grade point average was below the current retention standard (2.0), may apply for special readmission provided the student has been out of ECSU for a minimum of two consecutive years. Special Readmission may be granted only at the time of application for readmission. Special readmission, once granted, may not be changed. Degree requirements for the student granted special readmission would be those in effect at the time the student reenrolls. Students will be given the option to apply The Academic Forgiveness Policy. If a student is readmitted with Academic Forgiveness, the student's original academic record will not be altered, and the student will receive academic credit only for past courses in which a grade point average of at least 2.0 ("C") was attained. The student's grade point average will be calculated only for those courses taken subsequent to reenrollment. Failure to acquire a 2.0 grade point average in the first semester after readmission will result in dismissal from the University. A student may only be granted special readmission once.

Note: Students will be advised to consult with Financial Aid Officials regarding the impact of Special Readmission and/or Academic Forgiveness on financial aid eligibility.
