Current Catalog Year: _____ Changing Catalog Year To: _____

OVERVIEW

Students with more than one major or with a minor should see approval from all departments as any change will apply to all undergraduate degree requirements for all majors and/or minors. Students cannot combine graduation requirements from multiple catalogs and must meet ALL graduation requirements, including grade and GPA requirements, from their newly chosen catalog year. Transfer courses may be re-reviewed and redistributed in compliance with the chosen catalog year requirements. If you have already applied for graduation, it may not be possible to change your catalog year at this time. Please check with your Department Chair if your application for Graduation has been submitted.

SIGNATURES

By signing this form, I acknowledge that I have reviewed the degree program for my major and, if applicable, minor and/or concentration, and have elected to continue my studies under the new catalog year as indicated above. I understand that in electing to change to this new catalog, my degree requirements might change and that additional courses may be required to complete my degree. I understand that I am required to meet ALL graduation requirements for the General Education Curriculum, major, and if applicable, minor and/or concentration requirements outlined in the new catalog. I also understand that I am committed to this decision and cannot revise this commitment at a later date.
