REQUIREMENTS FOR THESIS PREPARATION

A. General Guidelines
The University Honors Program Director requires that all Honors Theses conform to the specifications given below. Unless the thesis advisor which the student is doing research has given their consent in advance (consent must be given by email to the Director of the University Honors Program), departures from these norms will render a thesis unacceptable.

Purpose of the Honors Thesis

The purpose of the Honors thesis is for our students to demonstrate skills that will serve them well after graduation. The Honors thesis is an original piece of student scholarship that demonstrates student’s academic achievement at ECSU. Students work with a faculty committee to produce a scholarly/creative product appropriate for their discipline and conforms to the scope and rigor of the University Honors Program. The Honors thesis must go above and beyond any project for a course; it may expand upon a term paper completed for a course but may not be a repurposed project completed for another course. The Honors thesis must demonstrate that the student:

▪ Has excellent writing skills (Honors thesis must be a professional written piece with minimal to no errors in grammar and spelling.
▪ Can carry-out research as well as analyze and organize results,
▪ Knows the relevance of the project to the field of study and/or to society.
▪ Is able to critically examine the work of other scholars and relate that work to the thesis.
▪ Cites appropriate sources.
▪ Can present writing of a quality acceptable for publication or public presentation, and
▪ Can present ideas clearly and in a compelling manner to various audiences.

Why Complete the Honors Thesis?

Some of the reasons for completing the Honors thesis include:

▪ More Fun Than a Class: Completing the Honors thesis can be more fun than a regular class. You can decide and delve into topics that are of greater interest to you. In the thesis preparation process, you can be creative.
▪ Growth: Honors Thesis completion will enhance professional growth and development.
▪ Strengthen the Honors Student’s Resume: Should you decide to apply for graduate or professor school, your application may be more competitive. This may also be the case when you apply for jobs.
▪ Faculty Mentoring and Positive Letter of Recommendation: The faculty member
you work with on your thesis will be better able to guide, give good advises and give a positive recommendation in the future.

- **Communication Skills:** Improve your verbal and written skills for conference presentations, exhibitions and publications.
- **Graduate School:** Honors Thesis may serve as a good writing sample as part of the application for graduate school. Also, serve as an excellent preparation for graduate school where you may asked to prepare and defend a thesis or dissertation.
- **Recognition in the Commencement Program:** Your name and your thesis advisor’s name will be recognized in the commencement program the semester you.
- **Honors Program Designation on official transcript & diploma:** Students who meet all Honors Program requirements for graduation and complete Honors Thesis will have Honors Program designated on both their official transcript and their diploma.

### B. Thesis Supervision and Approval

**Choosing a Thesis Advisor**

Choosing a thesis advisor to work with is key to a successful thesis experience. The Honors student should choose a faculty member who is familiar with the area the student will be completing their thesis. **Your academic advisor does not have to be your Thesis advisor.**

You may start by talking with professors you have had in the past about their research and teaching interests, read online faculty profiles, schedule an appointment with faculty members with similar interests and ask them more about their work, present your own ideas and see how they respond. Choose someone who is easy for you to talk with, someone who understands you and whom you understand. Consider personality because it matters as well. If you are a student who needs structure, choose someone who is willing to meet regularly, and if you can work independently, you may choose someone who has a light hand when giving guidance.

After you have identified your Thesis advisor and s/he has agreed to serve, with the help of your advisor, complete **Appendix B “Honors Thesis Advisor Agreement Form” and send by email to honors.program@ecsu.edu.**

Responsibilities of the Honors Thesis Advisor include:

- Participate in regular meetings with the scholar.
- Establish specific benchmarks and deadlines for thesis progress.
- Advise and support the student in the development and completion of the Honors Thesis.
- Read and comment on drafts of the thesis.
- Chair the student’s Honors thesis defense.
- Ensure all committee members complete all forms relating to Honors thesis and submit
to the director of the Honors program via email at honor.program@ecsu.edu

Honors Thesis Committee

All Honors theses require approval by a committee of three faculty members – the thesis advisor and two other members in the field of major or related area. Faculty members from other institutions may serve on the committee if approved by the Director of the University Honors Program. The process for approval for non-ECSU faculty member to serve as a member of the committee is for the thesis advisor to send an email in a couple of sentences about the committee member’s qualifications.

Changing Advisor/Committee Members

Situations may arise that could lead to the need for you to change your thesis advisor or members of your thesis committee (e.g., thesis advisor or committee member leaves ECSU). If you need to change your thesis advisor or a member of your thesis committee, discuss the situation with the Honors Program Director as soon as possible. If a change is appropriate, a revised thesis agreement form must be submitted to the University Honors Program office.

Timeline for Honors Thesis

Honors students will learn about the Honors thesis as early as fall Honors Program retreat and through courses offered in the program. In general, Honors students should follow the timeline below:

<table>
<thead>
<tr>
<th>SEMESTER/YEAR</th>
<th>ACTIVITY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall of Junior Year (4 semesters prior to graduation)</td>
<td>Begin to think about the project/research topic and possibly select a thesis advisor.</td>
</tr>
<tr>
<td>March of Junior Year (3 semesters prior to graduation)</td>
<td>The thesis advisor will approve the topic, the process of thesis development, and the timeline.</td>
</tr>
<tr>
<td>Senior Year (minimum of 2 semesters)</td>
<td>Complete the project/thesis and submit thesis approved by the advisor and the committee members by the deadlines during their last semester.</td>
</tr>
</tbody>
</table>
| | **Fall Graduates:** October 31  
**Spring Graduates:** March 31 |
| | Register for HON 410 (Honors Thesis/Defense course) |
| Last semester of senior year | Students will defend the Honors thesis to demonstrate the project understanding and obtain feedback by the deadlines below. Students and thesis advisor (in agreement with the
committee members) will schedule the oral defense by completing Appendix C “Honors Thesis Oral Defense Form”. Completed form must be submitted to the Honors Program by email to honor.program@ecsu.edu

| Fall Graduates: November 15 |
| Spring Graduates: April 15 |

Take time to complete the Honors Thesis as soon as possible since you may find it challenging to complete the thesis during your last year at ECSU.

**Choosing a Topic**

To help generate possible Honors thesis ideas, you may speak with the department chair or faculty members, or look through faculty profiles with research interests in the student’s major. You may also ask yourself the following questions:

- What topics/themes in my courses have interested me the most?
- What am I most curious about?
- What about my major do I love?

It is crucial for you to select a thesis topic you are passionate about so that your thesis will interest you during the period you will be working on it.

**C. Thesis specifications**

**Sections**

The Honors thesis must include the following sections in the order listed below.

- **Title page**: The title page must include: (See sample title page in Appendix D)
  - The title of the thesis
  - The name of the author and department
  - The month and year the thesis was submitted.
- **Honors Thesis Defense Approval Page (Appendix E)**
- **Abstract or Summary**: Every copy of the thesis must have an abstract not more than 200 words. For the project on creative and performing arts, specifics about the exhibition must be provided.
- **Dedication** (optional)
- **Acknowledgement** (optional)
- **Table of contents**
- **Body of Thesis: should include**:
  - Chapter 1 – Introduction
Chapter II – Literature Review
Chapter III – Methodology or Materials and Methods
Chapter IV – Findings (Results)
Chapter V – Discussion (Analysis, Recommendations and Conclusions)
  • Bibliography or List of Works Cited
  • Appendices (Optional)

Length of Thesis

The length of the Honors thesis will vary depending on the major/discipline. As a rule of thumb, all theses should be at least 25 pages including all required and optional sections.

Formatting

The Honors Thesis must be prepared in Microsoft Word and is to follow the parameters below.

  • Margins: at least 1” all around
  • Font: Times New Roman
  • Font size: 11 point, preferably 12 point. Smaller font may be used for footnotes and end notes
  • Spacing: double-spaced

Style Guides

When preparing your Honors thesis, please follow the style guide that is most appropriate to your field of study or discipline. For example:

  • Modern Language Association (MLA) style
  • American Psychological Association (APA) style
  • Chicago Style

Check with your thesis advisor before choosing a style.

The Honors Thesis Evaluation and Oral Presentation/Defense

Each thesis will be evaluated by all thesis committee members using a standard rubric at the end of the project. In addition, you are required to make an oral presentation of your thesis project. Please inform the University Honors Program office of the date of the oral defense by completing Appendix C “Honors Thesis Oral Defense Form”.

All thesis committee members will complete the “Honors Thesis Scoring Rubric” (Appendix F) form during the oral defense. Your thesis advisor will compile all completed forms and send them
via e-mail at honors.program@ecsu.edu to the University Honors Program office.

*Thesis Submission (Final Product)*

*While this is the responsibility of the student, thesis advisors should not sign off on theses that are not as error free as possible.* When the thesis is submitted, the thesis advisor and all committee members are to have signed the “Certification of Completion Honor’s Thesis” form (*Appendix G*) indicating that the thesis meets all the requirements as stated in the Honors Thesis guidelines and is ready for publication as presented on the [North Carolina Digital Online Collection for Knowledge and Scholarship (NCDOCKS)](https://www.ncdocks.com) website.

The submission deadline is the last day of the final exam period of the semester during which the student registers for HON 495 Senior Honors Colloquium Thesis or HON 410 Honors Thesis/Oral Defense.

The final version of your Honors thesis is to be sent by e-mail attachment in Microsoft Word (not PDF) to honors.program@ecsu.edu.

Review your Honors thesis for grammatical and typographical errors before submitting.

All Honors Thesis will be uploaded to the [North Carolina Digital Online Collection for Knowledge and Scholarship (NCDOCKS)](https://www.ncdocks.com).
Body of Thesis Definitions:

Abstract: Every copy of the thesis must have an abstract. The abstract must provide a concise summary of the thesis (not more than 200 words). The word “Abstract” must be centered about one inch from the top of the page. The text must be double-spaced as is in the body of the paper.

Dedication: A Dedication Page may be included in your thesis just before the Acknowledgments Page, but it is not a requirement. Page should be dedicated to someone(s) who has had extraordinary influence on you and or the work. The words here should be brief and without lengthy descriptions (200 words or less).

Acknowledgment: It is appropriate to declare, in the preface or in an acknowledgments section, the extent to which assistance has been given by members of the staff, fellow students, technicians or others in the collection of materials and data, the design and construction of apparatus, the performance of experiments, the analysis of data, and the preparation of the thesis (including editorial help). In addition, it is appropriate to recognize the supervision and advice given by thesis advisors and the committee members.

Table of Contents:
The table of contents must be detailed. Each chapter must be given a page number for the location of a particular text.

Body of Thesis:

- Chapter I: The Introduction clearly states the rationale and objectives of the research. It also includes a summary of the issue(s) being researched, literature review, methodology and Statement of Purpose
- Chapter II: A Review of the Literature should be comprehensive addressing the major relevant research that has been done in the field of study. A chronological literature review is advisable.
- Chapter III: Methodology; (Methods and Materials). indicates the research method to be used to document, test or expand hypothesis and/or research questions.
- Chapter IV: Findings (Results), will include charts, graphs, tables, etc., which detail how your results reflect your hypothesis and/or research questions.
- Chapter V. Analysis, Recommendations, and Conclusions. (Discussion)

Reference List/Bibliography: The list should contain thorough References, following the final chapter. The list should be in the documentation format used in the field of major or discipline.

Appendices/Appendixes: Section should contain an ethics certificate in the case of research involving human or animal subjects, microorganisms, living cells, other bio-hazards and/or
radioactive material. Also, the appendix contains information the researcher wishes the reader to know, but is not an integral part of the work.

**Thesis formatting:**

*Script and Page Format:* The thesis must be typed (preferably using a computer). Standard paper (8.5" x 11") paper must be used. A conventional font, size 12-point, (Preferably Times New Roman) 10 to 12 characters per inch must be used. *Lines must be double spaced.* To facilitate binding, left-hand margins should have a width of not less than 1 in, but not more than 1.5 inches. The right-hand margin need not be justified, but it should be well defined at 1 inch to 1.5 inches.

**Pagination:** Positioning of page numbers is optional. Pages with figures are numbered in sequence with those containing only text.

**Footnotes, References and Appendices:** These should conform to a scholarly style appropriate to the discipline. Footnotes may be placed at the bottom of the page or at the end of each chapter. Consistency of formatting for footnotes and references is required throughout the thesis.

**Figures and Illustrations:** Figures, tables, graphs, etc., should be positioned according to the publication conventions of the APA Style Manual, 6th edition. Illustrations must be drawn using an ink that permits microfilming and high-quality photocopying. (For the same reason, color-coding is not recommended for graphs, charts, etc.). Charts, graphs, maps, and tables that are larger than the standard page should be avoided, unless absolutely necessary. Overlays must be meticulously positioned in the text. Where graphs, illustrations, photographs, etc. fill an entire page, these pages should be numbered in sequence. (see Pagination above). Legends or captions accompanying such full-page graphics must be presented on a separate page.

**Photographs:** Digital photographs may be incorporated into the thesis. High contrast black-and-white photos reproduce well. Photographs with dark backgrounds should be avoided.

**Plagiarism:** Plagiarism will not be tolerated in any form as stated in the University Catalog. It reads: PLAGIARISM is defined as copied work, word for word, or in substance, from the writings of others and presented as one’s written work for credit. It is always assumed that the written work offered for credit is the student’s own unless proper credit is given [to] the original author.
Appendix B

Honors Thesis Advisor Agreement Form

Instruction: Honors Student with the Thesis advisor should complete this form and student must email the form to honors.program@ecsu.edu

<table>

______________________________________________________________________________

______________________  ______________________
Student’s Signature  Date

SECTION B: To be completed by Thesis Advisor

By signing below, the faculty member agrees to serve as the student's thesis advisor for Semester ________ Year ________

(Please review expectations (an excerpt from the Honors Thesis Guidelines) of the Thesis advisor on page 2)

______________________  ______________________
Thesis Advisor’s Signature  Date

Faculty: Please notify the Director of the University Honors Program at honors.program@ecsu.edu if unable to serve as the Thesis advisor after the form has been completed.
Expectations of the Honors Student:
- Meet and communicate with your thesis advisor regularly – this depends on the schedule established by you and your advisor.
- Follow through commitments to project and your thesis advisor.
- Take steps necessary to obtain any research permissions (e.g. IRB).
- Ask and select (with input from thesis advisor) faculty members to serve as committee members for your thesis.
- Keep all committee members up to date on the progress of your thesis.
- Provide drafts of thesis to advisor with ample time for feedback.
- Prepare for oral defense.
- Make needed corrections in a timely manner.
- Complete all related to your Honors thesis and

Expectations of the Honors Thesis Advisor:
- Participate in regular meetings with the scholar.
- Establish specific benchmarks and deadlines for thesis progress.
- Advise and support the student in the development and completion of the Honors Thesis.
- Review drafts of the thesis and provide feedback in advance of circulation to committee members.
- Mentor advisee in preparation for the oral thesis defense (for their presentation and Q&A)
- Chair the student’s Honors thesis defense.
- Review final draft of thesis and communicate any required revisions to the thesis to the student.
- Ensure all committee members complete all forms relating to Honors thesis defense and submit to the director of the Honors program via email at honors.program@ecsu.edu.
Honors Thesis Oral Defense Form

Instruction: The Honors Thesis Oral Defense form must be completed by the student and advisor (in agreement with all Thesis Committee Members). The completed form must be submitted to the University Honors Program via email to honors.program@ecsu.edu by the following dates:

- For spring graduates: March 31
- For fall graduates: October 31

Certification of Completion of Honor’s Thesis

Instruction: This form must be completed and submitted by the Thesis Advisor to honors.program@ecsu.edu by the deadline established by the University Honors Program noted below.

Fall Commencement: November 15th; Spring Commencement: April 15th.

Date Approved: ___________
Student Name: ___________________ Student ID: _______________
Department: _____________________ School: ___________________
Graduation Date (Semester/Year) __________________________

Thesis Title:
______________________________________________________________________________
Name of Thesis Advisor  Signature  Date
______________________________________________________________________________
Name of Committee Member #1  Signature  Date
______________________________________________________________________________
Name of Committee Member #2  Signature  Date

The thesis listed above has been read and reviewed in its entirety, with all final corrections complete and approved by the thesis advisor and all committee members.
Thesis Guidelines Checklist

- I have read the Thesis Guidelines
- The style used in the thesis has been agreed on by all members of the committee.
- The style used is ____________________________________________________________________
- All committee changes have been incorporated into the draft before submission to the Honors Program

- The font size is a minimum of 12-point. All page numbers are in the same font size and style that was used for the body of the thesis.
- Left margin (binding side) is 1.5 (inches); top and right margins are 1.25 (inches).
- All numbered pages have page numbers in the center of the page, 1.0 inches from the bottom of the page. The page numbers do not have dashes, hyphens or any other embellishment around them. All page numbers are in the same font style and size as the body of the paper.
- All preliminary pages are included and follow the format of the instructions found in the Guidelines.
- All preliminary page numbers are in the same font size and style as the body of the paper.
- All subheads in the paper are included in the table of contents.
- All chapters and chapter equivalents begin on a new page; subheads do not begin on a new page unless they would be the last line on the page (if this occurs then place that subheading on the next page.)
- Tables and figures that are not original (created by the author), must have a source note and those sources are included in the References.
- All tables, figures, and appendices are mentioned in the text before they appear and are mentioned in numerical (or alphabetical for appendices) order.
The captions for all tables and figures are listed in a list of tables and a list of figures that follow the Table of Contents. Figures and tables should be numbered according to the chapter where they are placed. For example, the first table in chapter 2 should be 2.1. The first figure in chapter 3 should be 3.1.

There are no partially filled text pages. If a table or figure will not fit in the space remaining on a page, fill the page with text (even if you need to begin a new subhead) and place the tables and figures on the following page(s).

Any table started on a page with text must be completed on that page. If the table will not fit, the text page must be filled with narrative and the table started on the next page.

Type size of tables must be large enough to be read when digitized for binding.

All illustrative materials conform to the requirements stated in the Guidelines.

All citations in the text and, if applicable, in tables/figures have a corresponding entry in the Reference List.

Every direct quotation has a citation that includes the page number from the original source, or in the case of secondary citations, the source that was actually read.

All reference entries are single spaced with a double space between each entry.

Written permission has been granted for inclusion of any material that is not my own (maps, tests, questionnaires, etc).

All References Cited entries are complete and in the proper format.
