NOTE TO STUDENTS
The publisher of this catalog has attempted to present information which, at the time of preparation for publication, most accurately describes the course offerings, faculty listings, policies, procedures, regulations and requirements of the university. However, it does not establish contractual relationships. The university reserves the right to make changes in both curricula and relationships without prior notice. Students should consult academic advisors for current information.

Copies of the general catalog are made available to all students registered at the university, high school guidance counselors, and college university libraries. This catalog is also available on ECSU’s Website at: www.ecsu.edu/registrar
MESSAGE FROM THE CHANCELLOR

WELCOME TO ELIZABETH CITY STATE UNIVERSITY (ECSU)!

Since 1891, students have been the heartbeat of ECSU. We are intentional in providing student-centered services to create an environment where students love where they live and learn; and, employees love where they work! This is the place where we welcome diversity of individuals and ideas.

We offer a broad range of undergraduate degree programs and four master’s degree programs that will prepare students to be competitive in a global market place. Our signature aviation program is the only four-year aviation program offered in the State of North Carolina. This program will be a significant provider of aviation and aerospace employees for the region, state, and nation.

In addition to a stimulating teaching and learning environment, ECSU offers many opportunities for student engagement. Our safe and nurturing campus is the ideal place for student involvement outside of the classroom. Students receive a well-rounded college experience that prepares them to be leaders and contributing members of society.

Use this catalog to chart your course to student success. Refer to it often. Contact your academic advisor should you need assistance.

We look forward to assisting you on your journey to success.

Viking Pride!

Karrie G. Dixon, Ed.D.
Interim Chancellor

Mr. Jeremi Watkins, Director of Financial Aid
Vacant, Director of Admissions
HISTORY OF THE UNIVERSITY OF NORTH CAROLINA

In North Carolina, the 16 public universities that grant baccalaureate degrees are part of the University of North Carolina system. The multi-campus state university system also includes the NC School of Science and Mathematics, the nation's first public residential high school for gifted students. Chartered by the North Carolina General Assembly in 1789, the University of North Carolina was the first public university in the United States to open its doors and the only one to graduate students in the eighteenth century. The first class was admitted in Chapel Hill in 1795. For the next 136 years, the only campus of the University of North Carolina was at Chapel Hill.

Additional institutions of higher education, diverse in origin and purpose, began to win sponsorship from the General Assembly beginning as early as 1877. Five were historically black institutions, and another was founded to educate American Indians. Some began as high schools. Several were created to prepare teachers for the public schools. Others had a technological emphasis. One is a training school for performing artists.

The 1931 session of the General Assembly redefined the University of North Carolina to include three state-supported institutions: the campus at Chapel Hill (now the University of North Carolina at Chapel Hill), North Carolina State College (now North Carolina State University at Raleigh), and Woman's College (now the University of North Carolina at Greensboro). The new multi-campus University operated with one board of trustees and one president. By 1969, three additional campuses had joined the University through legislative action: the University of North Carolina at Charlotte, the University of North Carolina at Asheville, and the University of North Carolina at Wilmington.

In 1971 legislation was passed bringing into the University of North Carolina the state's 10 remaining public senior institutions, each of which had until then been legally separate: Appalachian State University, East Carolina University, Elizabeth City State University, Fayetteville State University, North Carolina Agricultural and Technical State University, North Carolina Central University, the North Carolina School of the Arts (now the University of North Carolina School of the Arts), Pembroke State University (now the University of North Carolina at Pembroke), Western Carolina University, and Winston-Salem State University. In 1985 the NC School of Science and Mathematics was declared an affiliated school of the University; in July 2007 NCSSM by legislative action became a constituent institution of the University of North Carolina. All the schools and universities welcome students of both sexes and all races.

The UNC Board of Governors is the policy-making body legally charged with "the general determination, control, supervision, management, and governance of all affairs of the constituent institutions." It elects the president, who administers the University. The 32 voting members of the Board of Governors are elected by the General Assembly for four-year terms. Former board chairmen and board members who are former governors of North Carolina may continue to serve for limited periods as non-voting members emeriti. The president of the UNC Association of Student Governments or that student's designee is also a non-voting member.

Each of the UNC campuses is headed by a chancellor who is chosen by the Board of Governors on the president's nomination and is responsible to the president. Each university has a board of trustees consisting of eight members elected by the Board of Governors, four appointed by the governor, and the president of the student body, who serves ex officio. (The UNC School of the Arts has two additional ex officio members; and the NC School of Science and Mathematics has a 27-member board as required by law.) Each board of trustees holds extensive powers over academic and other operations of its campus on delegation from the Board of Governors.
In addition to its teaching role, the University of North Carolina has a long-standing commitment to public service. The UNC Center for Public Television, the UNC Health Care System, the cooperative extension and research services, nine area health education centers, and myriad other University programs and facilities reap social and economic benefits for the state and its people.

University Mission
Elizabeth City State University, a constituent institution of the University of North Carolina, offers baccalaureate, graduate, and professional programs for a diverse student body. The institution's rich heritage provides a firm foundation for its educational endeavors, as well as its role in serving the needs and aspirations of individuals and society.

Through teaching, research, and community engagement, Elizabeth City State University provides a student-centered environment, delivered in a manner that enhances student learning, while preparing its graduates for leadership roles and lifelong learning. The University is also a leader in facilitating sustainable economic growth, while safeguarding the unique culture and natural resources of the region.

Historic Location
Located in the historic Albemarle area near the mouth of the Pasquotank River, Elizabeth City State University offers students the opportunity to receive an excellent education while enjoying a wide variety of recreational and cultural amenities. Favoring a mild climate and proximity to the world-renowned Outer Banks recreation area, ECSU can supply ingredients that help make student living and learning both exciting and fulfilling. In addition, the University offers students a variety of social programs, cultural programs, religious and musical organizations, honor societies, and clubs. Fraternities and sororities are also available to students as well as a variety of athletic teams and events.

Students may also wish to take advantage of the historical sites in the greater Albemarle and southeast Virginia areas. Williamsburg, Jamestown, Roanoke Island, Yorktown, several antebellum plantations, and beaches and waterways are among sites within an easy drive from the campus.

United States Highways 17 and 158 make the city and the University easily accessible by automobile and bus routes from all points. Hotels and motels are available to accommodate overnight visitors and ECSU is just over an hour’s drive from the Norfolk (Virginia) International Airport.

ECSU is situated on 114 acres, which represent the campus proper. Another 68 acres comprise the former farm on Weeksville Road (N.C. 34); a 639-acre tract in Currituck County helps preserve the nation’s diminishing wetlands and provides for educational research; and 35 acres serve residential or expansion purposes. There are also small sites in Utah and Virginia, used, respectively, for geological instruction and institutional enhancement.

Growth and Development
Elizabeth City State University has been a coeducational, undergraduate, public, and state-assisted institution since its inception on March 3, 1891, when House Bill 383 was ratified. The bill to establish the institution was introduced in the N.C. General Assembly by Hugh Cale (1835–1910), a black representative from Pasquotank County.

By law, the institution was initially created as a normal school for the specific purpose of "teaching and training teachers of the colored race to teach in the common schools of North Carolina." It was named Elizabeth City State Colored Normal School and began operation in the Rooks Turner Building on January 4, 1892, with a budget of $900, two faculty members, and 23 students.

During ensuing years, the institution survived a statewide effort to consolidate normal schools. Local citizens of both races were of immense help in this effort. The first Summer Session was in 1900 and on September 9, 1912, the institution moved to its current location.

Between 1891 and 1928, curricula and resources were expanded under the yeoman leadership of Peter Wedderick Moore. Nine different academic programs — ranging from grade school to a "post-graduate" curriculum — marked Principal Moore’s incumbency. The Normal curriculum had primary and grammar tracks. Enrollment increased from 23 to 355, and the faculty from two to 15 members by the time Dr. Moore retired on July 1, 1928. His
designation of President-Emeritus is believed to be the first such honor in the state.

Under the leadership of the second president, **JOHN HENRY BIAS**, the institution was elevated from a two-year normal to a four-year teachers’ college in 1937. President Bias served from July 1, 1928, until his death on July 15, 1939. During his tenure the name was officially changed, by an act of the legislature, to Elizabeth City State Teachers’ College, effective March 30, 1939. A second purpose was given to the school: the training of elementary school principals for rural and city schools. The first Bachelor of Science degrees were awarded to 26 graduates by President Bias on May 19, 1939. The sole major was Elementary Education, with primary and grammar tracks; the Secondary School Department was discontinued in 1931.

Serving from November 18, 1939, until he resigned on December 31, 1945, the third president, **HAROLD LEONARD TRIGG**, laid plans for physical expansion and concentrated his efforts on aiding students through the National Youth Administration at the College. He also strengthened the Elementary Education major. While Dr. Bias had the onerous task of maintaining the institution during the Depression, Dr. Trigg faced the rigors of World War II which buffeted the fledgling teachers’ college.

**SIDNEY DAVID WILLIAMS**, who became the fourth president, served from January 1, 1946, until he retired on August 31, 1958. During his administration, the Association of Colleges and Schools (an organization of historically black institutions) recognized Elizabeth City State Teachers College as an "A"-rated institution in 1957, and improvements occurred in the curricula and physical plant. Dr. Williams was designated the second President-Emeritus of the institution by the Board of Trustees on September 16, 1969. President-Emeritus Williams (born 1892) died January 21, 1974.

The college experienced significant growth and development during the administration of **WALTER NATHANIEL RIDLEY**, the fifth president, September 1, 1958–June 1968. Curricular offerings were expanded between 1959 and 1963 from the two-track Elementary Education major to 13 additional degree-granting programs, providing 17 degree granting tracks. Students also earned certificates in five vocational-technical programs for a total of 22 curricular options. Ten departments of instruction came into existence serving students pursuing both teacher-training and, for the first time, non-teaching programs.

The College was elevated from the "approved" list to full membership in the Southern Association of Colleges and Schools (SACS) in December 1961. Its accreditation has been reaffirmed by this regional agency since that time.

The school’s name was changed from "State Teachers College" to Elizabeth City State College by a 1963 legislative act. In honor of his contributions to the institution, Dr. Ridley became the school’s third President-Emeritus on March 3, 1988. President-Emeritus Ridley died September 26, 1996.

**MARION DENNIS THORPE** served as the sixth president (July 1, 1968 – June 30, 1972) and became the first chancellor of the institution (1972–1983), when the University was made one of the 16 institutions of The University of North Carolina.

Dr. Thorpe’s administration was marked by vigorous efforts to improve the institution academically and physically. Increased UNC System funding allowed employment of additional experienced faculty members with doctorates, doubling the faculty size. Special programs for freshmen and increased emphasis on inter-institutional cooperation also marked his administration. Various offices and components were established, such as a Planning Division and offices covering Development, Institutional Research, the Archives and Records Center (then one of few historically black colleges with such), and Living-Learning Centers in student residence halls.

Other hallmarks of Dr. Thorpe’s administration included: Trustee approval of recommendations for the school’s first professors emeriti; completion of several buildings — including a 200-student residential complex; three new academic departments; 14 new degree-granting programs; six additional or variant program tracks; and an ROTC program. A Faculty Council was established; computer capability grew significantly; library holdings and usage increased; long-range and affirmative action plans were revised; a PABX telephone system was installed; a National Youth Sports Program was initiated; and the institution’s history was written. Major fund-raising programs also
highlighted Dr. Thorpe’s tenure, including incorporation of the ECSU Foundation (1971).

Dr. Thorpe broadcasted the institution’s message worldwide. Just as President Ridley made a round-the-world educational tour, Chancellor Thorpe made a Far East educational tour and sent the University Choir to Europe and the Bahamas. A sculpture, entitled "Life, Liberty, Pursuit of Happiness," was presented to the citizens of Elizabeth City. Dr. Thorpe served the second longest term as chief executive and was the second to die while actively in office — April 28, 1983. Two posthumous honors came that year: a Joint Legislative Resolution (June 27), believed to be a first of its genre; and an LLD 5 (October 28), granted by his alma mater, North Carolina Central University.

Following extensive service to the institution, successively as Assistant Academic Dean/Administration; Vice Chancellor for Academic Affairs and Dean of the Faculty; and, from May 1, 1983, Acting Chancellor, JIMMY RAYMOND JENKINS, ’65, became the first alumnus to be named chief executive officer of Elizabeth City State University on October 14, 1983. Prior to his elevation as second Chancellor, Dr. Jenkins was instrumental in establishing several institutional improvements. These include a Health Careers center, a Division of General Studies (1977), the institution’s designation as a Bicentennial Campus (1976), inaugurating a faculty extravaganza for student scholarships named "Scholarcade," and beginning the Extended Day Program.

Chancellor Jenkins’ administration fostered numerous other institutional improvements, including seven new academic majors and eight degree-granting variants of existing programs. Other important innovations included community service efforts, attention to campus beautification and aesthetic improvements, establishment of an Airway Science concentration, and formation of an Office of Sponsored Programs, Contracts & Grants.

Additional accomplishments of the Jenkins Administration included the completion of a science complex housing the only planetarium in this part of the state, the erection of a computing laboratory, and construction of the Commuter Center. A 200-bed residence hall was constructed on a newly acquired tract of land long sought by the University, and plans were initiated for constructing a fine arts building on another section of this land. Dr. Jenkins’ staff was the first to occupy the newly finished M. D. Thorpe Administration Building named in honor of his immediate predecessor.

Having brought total alumni to just under 12,000 graduates while enriching his alma mater through the establishment of a Music Recording Studio, Teleconferencing Center, on-campus U.S. Postal Station, and accreditation with plaudits from SACS and NCATE, Dr. Jenkins resigned effective August 31, 1995. A grateful Board of Trustees named him ECSU’s first Chancellor-Emeritus, December 19, 1995.

September 1, 1995, MICKEY LYNN BURNIM was appointed to serve as Interim Chancellor and on July 1, 1996, he became the eighth chief executive officer of the institution upon election by the UNC Board of Governors. Dr. Burnim quickly demonstrated his ability and interest in moving ECSU forward, giving special attention to developing a comprehensive strategic plan; enhancing faculty and staff governance; initiating new business, civic and educational partnerships; establishing the University’s first two endowed professorships; providing leadership for the establishment of the University’s first three master’s degree programs in elementary education, biology, and mathematics; and implementing several new baccalaureate degree programs, including marine environmental science, social work, communication studies, graphic design, aviation science, and pharmaceutical science. In Fall 2005, under his leadership, the University implemented a joint pharmacy program in partnership with the University of North Carolina-Chapel Hill. Dr. Burnim has also led the development of a campus computer network, and he established strong fiscal integrity.

To improve operational efficiency, Dr. Burnim is credited for having reorganized the University into four schools: Arts and Humanities; Business and Economics; Education and Psychology; and Mathematics, Science, and Technology. Additionally, he directed the development of a comprehensive enrollment management and marketing plan, which, in Fall 2005, yielded for the third consecutive year the highest enrollment in ECSU's history. In 2001, he began the oversight of the largest construction and renovation project ($46.3 million) ever undertaken at
ECSU, including the construction of a physical education/fieldhouse facility, a student center, and a new residence hall. In 2004, the University opened its first privatized student housing facility, Viking Village.

Under the leadership of Chancellor Burnim, national validation of ECSU’s exemplary status was received from U.S. News and World Report, which ranked ECSU among its peers as #No.1 in the category of Top Public Comprehensive Colleges in the south in 2004 and ranked the University #No.3 in 1991, 2001, 2002, and 2005. In addition, the University was nationally recognized for its high student graduation rate by the Education Trust in 2004 and 2005, and by the NCAA Foundation and USA Today in 2001 and 2002.

In 1997, 2003, and 2005, accreditation of the teacher education program was reaffirmed by the National Council for Accreditation of Teacher Education (NCATE). In 2001-2002, ECSU’s university-wide accreditation was reaffirmed by the Southern Association of Colleges and Schools (SACS). Additionally, the Department of Technology received accreditation from the National Association of Industrial Technology (NAIT) in 2001, 2003, and 2005, and the ECSU Laboratory School received accreditation from the National Association for the Education of Young Children in 2003.

On September 1, 2006, WILLIE JAMES GILCHRIST was appointed to serve as Interim Chancellor. Immediately upon his appointment, Dr. Gilchrist focused on priority initiatives such as enhancement of master’s degree programs and online distance learning; increasing grant and research options for faculty; and expanding opportunities within the University’s aviation science, music industries, teacher education, and pharmacy (UNC-Chapel Hill/ECSU Pharmacy Partnership) programs. On March 15, 2007, Dr. Gilchrist, ’73, became the second alumnus to be named the chief executive officer of Elizabeth City State University. In the Fall of 2010, ECSU began its third year with Chancellor Willie J. Gilchrist as the ninth chief executive officer. While committed to offering students an outstanding education through 36 degree programs, Dr. Gilchrist identified two signature programs at ECSU. Those programs were selected based on the state’s shortage of professionals available for current jobs or the expansion of new jobs in those areas. The signature programs include Aviation Science and the UNC-Chapel Hill/ECSU Pharmacy Partnership program.

Students can earn a Bachelor of Science in Aviation Science at ECSU, the state’s only four-year degree program. Students can choose from four minors that will prepare them for an assortment of new jobs in aviation and avionics.

In July 2004, the NC General Assembly allotted $428 million to construct facilities for the Pharmacy Complex which opened in the Fall of 2010. The UNC-Chapel Hill/ECSU Pharmacy Partnership prepares students for careers as practicing pharmacists or pharmaceutical scientists. Increasing the number of pharmacists working in northeastern North Carolina is an important objective of this program. The new Pharmacy Complex, a three-story, 52,895 gross square foot building, opened for classes in September 2010. In the Fall of 2011, a new director for the Drug Information Center was hired. The Drug Information Center provides accurate and unbiased health information to health care professionals and the public in northeastern North Carolina and surrounding areas.

Due to a shortage of teachers across the state, Dr. Gilchrist also placed strong emphasis on ECSU's teacher education program. As current teachers retire and the state's population of school-age youths grows, additional teachers will be needed. The University offers a Bachelor of Science degree in education and two master's degrees that will prepare skilled teachers and administrators to dutifully serve in state schools. Under the leadership of Dr. Gilchrist, the University exhibited several signs of growth.

Since Dr. Gilchrist’s interim appointment as chancellor in 2006, student enrollment increased from 2,681 to 3,307 students in the Fall of 2010. The University’s performance as a public institution granting undergraduate degrees drew praise from a publication highly recognized among those ranking academic institutions. The U.S. News and World Report's 2012 Edition of Best Colleges rankings listed ECSU second in the Top Public Schools Regional Colleges (South) category. The Best Colleges report listed ECSU as #14 among the nation's Historically Black Colleges and Universities -- three notches higher than 2011’s rank. The Top Public Schools Regional Colleges (South) is one of four regions considered for this category. Other
public colleges and universities are categorized by their location in the North, the Midwest and the West. The Historically Black Colleges and Universities (HBCU) were compared only with one another for these rankings. In order to be on the list, a school must be designated currently by the U.S. Department of Education as an HBCU.

The University's accreditation was reaffirmed at the annual meeting of SACS (Southern Association of Colleges and Schools Commission on Colleges) in Orlando, Florida on December 6, 2011. SACS requires that all schools are reaffirmed every 10 years. This reaffirmation of accreditation declares that the degrees ECSU awards are coming from an institution that is financially stable and has academically-qualified faculty and administrators and approved academic programs. Thus, the academic programs are sound and thorough and provide a solid education for ECSU graduates. In essence, the University is carrying out its mission.

To better serve the growing student body, faculty and staff, as well as guests from the community, more than 700 parking spaces were added to the campus. Under Dr. Gilchrist’s administration, the University purchased two 56-passenger buses that comfortably transport students, coaches, staff and faculty to destinations across the northeast and southeast. In addition, ECSU owns one 12-passenger van; a handicap accessible shuttle; one 25-passenger bus, and two Cessna Skyhawks (single engine airplanes) purchased for the purpose of training pilots enrolled in the Aviation Science program. Recent facility upgrades include the renovations of E.V. Wilkins Academic Computer Center, H.L. Trigg and Lane Halls, the G.R. Little Library, the Mickey L. Burnim Fine Arts Center, the auditorium of Moore Hall, and the lobby of the K. E. White Graduate and Continuing Education Center.

Construction of the Willie and Jacqueline Gilchrist Education and Psychology Complex began in July 2010 and was completed in December 2011. The $18.7 million facility contains 53 faculty offices, 14 classrooms, 2 computer labs, 2 virtual classrooms, and a Global Education Center on the first floor. Construction of a new three-story residence hall began in May 2011. Viking Tower, a 210-bed residence hall was completed in August of 2012.

Between June 2013 and September 20, 2014, CHARLES BECTON, a former NC Court of Appeals judge, served as interim chancellor on July 1, 2013.

On October 1, 2014, STACEY FRANKLIN JONES was appointed Chancellor of Elizabeth City State University. As Chancellor, Dr. Jones initiated a new Path to Prominence which calls for expanding educational opportunities in Science, Mathematics and other STEM disciplines.

In January 2016, THOMAS E.H. CONWAY became Elizabeth City State University’s 11th chief executive officer and sixth chancellor.

For more information on the development of the University, see: www.ecsu.edu.
ENROLLMENT MANAGEMENT

Elizabeth City State University has positioned itself to thrive in an ever-evolving and increasingly complex global society. With the demands of the 21st century, it is imperative that enrollments increase and are managed effectively. When this occurs, students who reach their potential as a result of their ECSU experience are invaluable in multiple markets. In addition, it is clear that recruiting targeted markets and deploying specific strategies tend to support increased graduation rates. Therefore, using a multi-faceted approach, the University addresses and manages enrollment concerns by coordinating the efforts of the following offices: Admissions and Recruitment, Student Financial Aid and Scholarships, and the Office of the Registrar.

ADMISSIONS

The Office of Admissions works to enroll students whose academic achievements are reflective of a rigorous and engaging curriculum. That means we value intellectual ability, academic achievement, and personal abilities that contribute to the Elizabeth City State University community.

The policy that guides admission to Elizabeth City State University is set by the University Of North Carolina Board Of Governors as available in Chapter 700 of the UNC Policy Manual.

STUDENT FINANCIAL AID AND SCHOLARSHIPS

The Office of Student Financial Aid and Scholarships is committed to assisting students and families in planning for and meeting expenses associated with attendance at the University. We focus on establishing aid eligibility, awarding scholarships, grants, loans, and employment to eligible students, and providing financial aid counseling to students and families for the resolution of problems associated with financing an education.

UNIVERSITY REGISTRAR

The Office of the Registrar is the steward of student records from the point of matriculation to the conferral of the degree. We offer a wide range of services to faculty, students, and members of the administration in the areas of academic records, student status, transcript requests, course enrollment, and graduation.

OFFICE OF ADMISSIONS

Admission to Elizabeth City State University is granted to all applicants who meet the minimum admission requirements. Equal consideration is given to all applicants, regardless of race, creed, national origin, or disabling conditions. The University reserves the right to bring closure to the admissions process when no further space is available. Official notification of admission eligibility will be sent to each applicant immediately after all credentials have been thoroughly evaluated.

It is recommended that high school students apply for admission to ECSU at the start of their senior year of high school. Closing dates for the submission of a completed application are listed below:

- Early Fall Admission Deadline: May 1
- Priority Fall Semester Admission Deadline: August 1
- Early Spring Admission Deadline: November 1
- Priority Spring Semester Admission Deadline: December 1
- Summer Session Admission Deadline: The First Day of Instruction

Admission and application deadlines for Special Programs, Summer Sessions, Weekend/Evening Programs, and other Continuing Education courses
and/or programs are announced through appropriate publications.

Application Process
1. Application forms may be submitted online at www.ecsu.edu or in person at:
   The Office of Admissions
   Elizabeth City State University
   Campus Box 901
   1704 Weeksville Road
   Elizabeth City, North Carolina 27909
2. Applications must be accompanied by a nontransferable, nonrefundable $30 application fee (or fee waiver), a current official transcript, and Scholastic Aptitude Test (SAT) or American College Test (ACT) test scores.
3. Transfer applicants must have forwarded to Elizabeth City State University an official transcript of all previous college work and an official high school transcript(s), if applicable. Applications must list all colleges attended, including date(s) of attendance. After being accepted, each student is required to submit official final documentation of high school transcripts, college transcripts, and test scores. Students who do not submit all required documents and/or forms as requested by the first day of instruction, will have an administrative hold placed on their students account and/or be subject to dis-enrollment from the University.
4. All identified Military affiliated students will be referred to the office of the Director of Military Affairs for further assistance. This office is required to have on file an official high school transcript for all undergraduate students, including transfer students, who are eligible to receive VA benefits. Certification will not occur if official transcripts from previously attended institutions are not submitted for application processing.

Early Admission Program
The Early Admission Program provides the opportunity for promising high school students to take college-level courses while enrolled in high school. To be eligible, students must have completed their junior year, have a combined SAT score of 1000 or higher, or ACT score of 21 or higher, and a cumulative grade point average of 3.0 or higher. The applicant must submit a formal application for admission and recommendations from counselors or the principal. Students who enroll in the Early Admissions Program are guaranteed a standard offer of admission to ECSU provided they fulfill all Minimum Course Requirements (MCR) and Minimum Admission Requirements (MAR) of the UNC System at the conclusion of their senior year.

Minimum Course Requirements
In addition to the requirement that students should hold a high school diploma or its equivalent, the University Of North Carolina Board Of Governors has, since 1988, established minimum course requirements for undergraduate admission, including a fourth unit of mathematics. These Requirements are summarized below:

Six course units in language, including
• four units in English, and
• two consecutive units of a language other than English.

Four course units of mathematics in any of the following combinations:
• Common Core I, II, III, and one unit beyond common core III
• Algebra I and II, Geometry, and one unit beyond Algebra II,
• Algebra I and II, and two units beyond Algebra II, or
• Integrated Math I, II, and III, and one unit beyond Integrated Math III.
• (The fourth unit of math affects applicants to all UNC institutions except the North Carolina School Of the Arts.) It is recommended that prospective students take a mathematics course unit in the twelfth grade.

Three course units in science, including
• at least one unit in a life or biological science (for example, biology),
• at least one unit in physical science (for example, physical science, chemistry, physics), and
• at least one laboratory course.

Two course units in social studies, including one unit in U.S. History, but an applicant who does not have the unit in U.S. History may be admitted on the condition that at least three semester hours in that subject will be passed by the end of the sophomore year at Elizabeth City State University.

Applicants who graduated from high school from June 1990 to June 2006 must meet the following:
• Graduation from an accredited secondary school (If the applicant did not graduate, a high school equivalency or GED is required.)
• Presentation of a satisfactory combination of high school grade point average (GPA), and SAT or ACT scores. A high school GPA of 2.0 or above.
• Students must also pass the North Carolina Competency Examination or its equivalent in their state or country of origin.

*UNC Policy Manual 700.1

Minimum High School GPA and SAT/ACT Scores

Applicants for first-time admission as freshmen must meet minimum high school GPA and SAT scores as indicated in the chart below.

<table>

</tbody>
</table>

*UNC Policy Manual 700.1

RISING VIKING SCHOLARS (RVS)(MAR PILOT)

The “Rising Viking Scholars” Program allows for ECSU to admit students who have high grade point averages and meet RVS Program specified SAT/ACT university requirement thresholds. The RVS Program aims to provide an opportunity to prospective in-state degree seeking applicants.

Graduate of Cooperative Innovative High Schools - Early College

Beginning with the 2016-2017 admissions application cycle for enrollment in the 2017-2018 academic year, each UNC constituent institution must offer to any student who graduated from a cooperative innovative high school program with an associate degree and who applies for admission to a constituent institution the option of being considered for admission as a freshman or as a transfer student.

Frequently Asked Questions

Q. Is the GPA score based on the weighted or un-weighted GPA?
A. The weighted GPA will be used to determine if the student satisfies the minimum GPA requirement.

Q. Is the GPA calculated based on all my courses or just the courses for the college preparatory curriculum?
A. The GPA is the cumulative GPA based on all courses taken during high school.

Q. If I take the SAT or ACT more than once, will my highest combined score be used even if it is derived from two different test dates?
A. Yes. The highest score received on any administration of the SAT for evidence based reading and writing will be combined with the highest score received on mathematics. The highest score on each ACT subscore will be used for computation of the composite.

Q. What if my GPA is under 2.50, but my SAT is more than 880? Do I meet the requirements?
A. No, you must meet both the minimum GPA and the minimum SAT score to be eligible for admission. Exceptions to the minimum requirements are handled on a case-by-case basis and in rare instances.

Q. What if I graduate in 2010, but do not apply to Elizabeth City State University until 2017? What requirements must I fulfill?
A. The minimum scores that were in effect the year you graduated from high school will be applied to determine eligibility.

Q. What if I decide to go to the community college first and transfer later? Does my high school
GPA and SAT/ACT scores count toward admissions?
A. If you complete the A.A. or A.S. degree or a minimum of twenty-four (24) transferable semester hours with a minimum cumulative GPA of 2.00 from the community college, then the minimum GPA and test scores do not apply, but you will be evaluated on your performance at the community college. If you do not complete the A.A. or the A.S. degree or twenty-four (24) transferable hours with a minimum cumulative GPA of 2.00 from the community college, then your high school GPA and SAT scores will be used to determine eligibility.

Admission: Transfer Students or Advanced Standing
1. The Admissions Office will consider applications from students seeking to transfer from junior and/or community colleges or four-year colleges and universities accredited by their respective regional associations if the applicants have an overall cumulative GPA of 2.0 (C) or above in the institution from which they are transferring and if they are eligible to return to that institution.
2. Each transfer applicant must provide official transcripts covering all college work attempted. College courses that have not been completed within the last seven years may need to be reviewed by your academic program of study to determine transferability for transfer credit.
3. Transcripts will be evaluated in relation to the requirements of the specific academic program for which the student is accepted.
4. Grades less than "C" will not be accepted for transfer credit.
5. Students who have been placed on academic probation at their institutions but who are eligible to return to that institution will be considered for admission with the same status at Elizabeth City State University. Students who have been discharged or suspended for disciplinary reasons from their institutions will not be permitted to enroll at ECSU.
6. Prospective students who have attended an accredited college but who have earned less than 24 semester hours of transferable credit must meet the freshman admission requirements. Also, the students must be eligible to return to the previous institution. Therefore, a transfer clearance form must be submitted by all applicants.

Special, Transient, and Military Students
(Not Applicable to Freshmen or Transfer Students)
1. Applicants who are regularly enrolled students at another institution may be admitted as a transient student provided the appropriate official at their institution: (a) authorizes their attendance at Elizabeth City State University, (b) approves in advance the course work, (c) indicates the individual is in good standing at that institution, and (d) approves the transfer credits taken at ECSU.
2. Special students are admitted for one term only (space permitting) and must be readmitted at the beginning of each subsequent term. Such applicants may be required to present evidence of having earned a college degree or evidence of the need for a specific course.
3. All special students who desire to become candidates for a degree at Elizabeth City State University must meet appropriate admission requirements.
4. Special students are designated as those who are: (a) seeking certifications, (b) seeking licensure, (c) members of a college/university consortium, (d) auditing courses, or non-degree seeking.
5. A maximum of 24 semester hours may be completed as a special student. Also, special students are not eligible for financial aid. For specific questions on any of these categories, please contact the Office of Admissions and Recruitment at (252) 335-3305.
6. The University of North Carolina and its constituent institutions are committed to equality of opportunity. The University administers nondiscriminatory admissions policies by fairly evaluating the records of applicants. For purposes of undergraduate admission to any constituent institution of The University of North Carolina, any individual having completed a minimum of two years of cumulative active duty service in the United States Armed Forces who otherwise meets the criteria for a transfer student will be considered a transfer student in the admissions process pursuant to 700.1.1.1[R], Special Consideration 3, with the branch of service functioning as the
institution of transfer. If discharged from active duty, the veteran must have received an Administrative Discharge. This policy shall not apply to veterans receiving a "Bad Conduct or Dishonorable Discharge." Under conditions set forth by the President in regulations associated with this policy, applicants in this profile may be offered special consideration with regard to the minimum admissions and minimum course requirements for transfer students. Nothing in this policy guarantees admission for students who do not meet institutional academic standards for admission. Constituent institutions retain sole authority for admissions determinations.

Residence Status for Tuition Purposes

RESIDENCE STATUS FOR TUITION PURPOSES

NC Residency Determination Service (RDS)

Effective February 20, 2017, UNC General Administration will manage and process all residency determinations, reclassification requests, and appeals for new and continuing undergraduate and non-degree seeking students. After this date, any new or readmitting undergraduate or NDS student who would like to apply for in-state residency consideration for tuition purposes, will need to apply for reclassification through the North Carolina Residency Determination Service questions and concerns can be directed to: rdsinfo@ncresidency.org, 919-835-2290, or 844-319-3640.

Please read below for more details about the new NC RDS process.

Purpose and Background of North Carolina Residency

The state of North Carolina substantially subsidizes the cost of tuition for all students whose domicile, or permanent legal residence, is in North Carolina. Since it first became a state, North Carolina has abided by the philosophy that an educated public is necessary to a democratic government and that the State, therefore, has an obligation to provide for the education of its people. Article IX, Section 9, of the State Constitution states “The General Assembly shall provide that the benefits of the University of North Carolina and other public institutions of higher education, as far as practicable, be extended to the people of the State free of expense”. Therefore, while North Carolina welcomes out-of-state students it considers the privilege of providing a reduced in-state tuition rate to be a taxpayer benefit. Among other benefits provided only to students who meet the domiciliary requirements is eligibility for consideration for State-sponsored programs of student financial aid to help pay for college expenses. The same rules that govern residency determination for in-state tuition are also applicable to the residency status for State aid programs at both public institutions and independent colleges and universities. For decades the determination of residency has resided on the campus where the tuition benefit and/or the State aid were administered.

In 2013 the NC General Assembly became concerned about inconsistency in residency determinations across institutions of higher education in North Carolina. The General Assembly legislatively directed UNC General Administration (GA), the NC Community College System (NCCCS), the NC State Education Assistance Authority (SEAA) and the NC Independent Colleges and Universities (NCICU) to create a centralized, uniform process for determining residency for tuition purposes and for administration of state financial aid. This centralized process is known as the Residency Determination Service (RDS). In order for a student to receive the benefits of in-state tuition and/or State student aid a residency determination from RDS is required. A student generally only has to complete the RDS one time instead of seeking separate residency determinations at multiple colleges and universities. To learn more about residency and complete a determination go to www.NCresidency.org.

Residency Determination Service (RDS)

The purpose and mission of RDS is to provide leadership and administration of residency
determinations in accordance with North Carolina residency laws and applicable federal statutes. The RDS goal is to provide students access to transparent information and the opportunity to claim NC residency in a simple, accurate and straightforward manner. For more information on residency for tuition purposes contact RDS at:
www.NCResidency.org
844-896-2411 (phone)
919-835-2427 (fax)

Determining Residency Status

The specific requirements for establishing residency for tuition classification and State financial aid purposes are prescribed by state law. A North Carolina resident for tuition purposes (and for State financial aid consideration) is a person, or a dependent person (dependent according to IRS tax code – not the FAFSA definition of dependency), whose parent or legal guardian has established and maintained legal residence in North Carolina for at least 12 months. Residence in North Carolina must be legitimate and be a permanent situation rather than just for the purpose of maintaining a residence prior to enrollment at an institution of higher education. Under North Carolina law, to qualify for in-state residency, you must show that:
• You have established your legal residence (domicile) in North Carolina
• You have maintained that domicile for at least twelve (12) consecutive months before the beginning of the term
• You have a residientiary presence in the state
• You intend to make North Carolina your permanent home indefinitely (rather than being in North Carolina solely to attend college)

Persons not meeting the 12-month legal residence requirement may be classified as North Carolina residents for tuition purposes only if they fall within one of the limited categories authorized by the North Carolina Legislature. All other persons are ineligible for classification as a North Carolina “resident for tuition purposes” and will be charged out-of-state tuition and not given consideration for State financial aid. To learn more about residency and complete a determination go to www.NCResidency.org.

Determination of Intent

Because it is difficult to determine a person’s intent to make North Carolina his or her home, RDS must evaluate actions taken by the person that may indicate a “domiciliary intent.” RDS considers the following factors, which may be significant, in determining this intent:
• Do you live in your parent’s home?
• Where were, or are, you permanently employed?
• Where are you registered to vote?
• What are your sources of financial support?
• Where have you registered your vehicle?
• Which state issued your current driver’s license or state I.D. card?
• Where do you own a home or other real estate that serves as your primary residence?
• Where did you file state income tax returns?
• Where did you last attend high school?

No single factor or combination of these factors may be considered conclusive evidence of domicile. Moreover, because domicile is defined as a true, fixed and permanent home, individuals who are present in North Carolina on a temporary basis, e.g., for the purpose of completing a degree, cannot establish domicile merely by taking these actions. To learn more about residency and complete a determination go to www.NCResidency.org.

Requests for Resident Status

For many students, the residency classification process is simple and occurs around the time of your application for admission to college. If you were born in North Carolina and have lived in the State all your life, you will probably be one of many students who are classified as North Carolina residents.
If you lived in another state at the time of application, still have strong ties to another state, or have lived in North Carolina for only a short period of time, the process may be more complicated. RDS may require more in-depth information or documentation to determine whether you are a legal resident of North
Carolina. The information that you submit will be validated against federal and North Carolina state agency databases. Please keep a copy of all application materials for your records. Additional information about the RDS process is available at www.NCresidency.org.

What to expect when using RDS

Applicants can complete the RDS process before, during, or after completing the admissions application. You will only have to complete the process once, no matter how many NC college or university admissions applications you complete. You will complete an online interview and may be asked to provide documentation afterward. Required information will include identification numbers for you and/or your parents, such as you might provide for the Free Application for Federal Student Aid (FAFSA). It is a good idea to have this kind of information easily available at the time you complete the RDS interview. If you do not, RDS will save any confirmed information and allow you to re-enter the interview process where you left off.

Transfer Students

Should you transfer between institutions at any level (community college to community college, community college to university, or vice versa), or if you apply to a different academic level (i.e., undergraduate to graduate) within the same institution, you must reapply via RDS to receive in-state tuition or to be considered for State student aid. For students who are continuously enrolled no reconsideration is necessary when applying to or changing programs at the same academic level, unless the classification is rebutted by new information.

Currently Enrolled Students Claiming Resident Status

Students who have been determined as nonresidents, or who have experienced a change in facts or circumstances that may your current determination, may request a reconsideration of their determination for tuition purposes through RDS. Your presence in NC as an enrolled student does not guarantee that you will be able to gain residency for tuition purposes. To request reconsideration go to www.NCresidency.org and login to your account.

Reconsideration and Appeals

Students who have been determined as nonresidents by RDS may request a reconsideration and appeal of their determination for tuition purposes through RDS. To request a reconsideration or appeal, go to www.NCresidency.org and login to your account.

Military Personnel

“Choice Act”

Section 702 of the Veterans Access, Choice, and Accountability Act of 2014, 38 USC 3679 (c) (the Choice Act), requires that the U.S. Department of Veterans Affairs (VA) disapprove and withhold funding under programs of education under the Post-9/11 GI Bill (Chapter 33) and Montgomery GI Bill (Chapter 30) at a public institution of higher learning (IHL) if the institution charges qualifying Veterans and other eligible individuals (“covered individuals”) tuition and fees in excess of the rate charged to resident students. On June 23, 2015, Senate Bill 478 was enacted to conform North Carolina law with the Choice Act, thereby creating North Carolina General Statute § 116-143.3A, which, on July 9, 2015, the VA certified as being compliant with the Choice Act. N.C.G.S. § 116-143.3A(a)(3) defines “veteran” as a person “who has served active duty for not less than 90 days in the Armed Forces, the Commissioned Corps of the U.S. Public Health Service, or the National Oceanic and Atmospheric Administration and who was discharged or released from such service under conditions other than dishonorable.” This definition covers the groups defined in Section 702.
Please contact the Veteran Resource and Information Center at veteran@ecsu.edu or call 252.335.3774 for more information.

**Advanced Placement Program/College Level Examination Program (CLEP)**

Elizabeth City State University participates in the Advanced Placement Program and the College Level Examination Program (CLEP) of the College Entrance Examination Board. Students who have demonstrated their achievement of specific Advanced Placement Tests or College Level Examination Program – subject exams only – may have the results submitted to the University for consideration for placement in advanced courses and for college credit.

All students are encouraged to take these tests, and they may qualify for advanced placement and credit by taking departmental tests in their area of specialization. Based upon these test results, the amount and nature of the credit granted is determined by the pertinent department of instruction.

**Course Audits**

1. Students enrolled at the University or students admitted with satisfactory records of experience and education may enroll for specific courses as auditors.

2. Students who audit courses must register in the University Registrar’s Office, pay regular fees, and be regular in attendance, but they will not receive grades or credit.

**FINANCIAL AID PROGRAMS**

The Financial Aid Programs at Elizabeth City State University are designed to assist students and their parents in financing the cost of the student’s education. Students who are enrolled or accepted for enrollment and are citizens or permanent residents of the United States are eligible to apply for financial aid. Assistance available to eligible students consists of grants, loans, scholarships, and part-time employment. Limited assistance is available for international students. Students can locate information regarding financial aid missing information, awards, etc. via Self-Service Banner (SSB). New students obtain their student ID # at the time of acceptance to the University.

**How To Apply for Financial Aid**

All students must complete and have processed a Free Application for Federal Student Aid (FAFSA) form every year before financial aid can be offered. Students must also list the school code 002926, on the FAFSA application (www.FAFSA.gov) in order for the University to obtain their financial aid data. The FAFSA opens on October 1st each year and students are encouraged to complete this as early as possible. Students who complete the application process by March 1 will be considered first for priority funding. Certain grants and scholarships may not be available to students who apply after that date, as funds in these programs are limited.

All interested students who wish to receive any kind of financial aid at ECSU must complete the above described application process. Deadline dates for having a complete application on file are July 1 for the Fall Semester, December 1 for the Spring Semester, and May 1 for Summer Semester.

Should you have Financial Aid questions, please call: (252) 335-3283.

**Grants**

**FEDERAL PELL GRANT**

The Federal Pell Grant is based on the Expected Family Contribution (EFC), which is calculated by the Department of Education based on the information listed on the FAFSA, the number of credit hours per semester, and the cost of attendance.

**FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (FSEOG)**

FSEOG is awarded based on your Expected Family Contribution (EFC). Students with the lowest EFC receive priority.

**Scholarships**

Scholarship awards are based upon various criteria and do not require repayment. Academic excellence, financial need, and major of study are just a few of the criteria used for selecting recipients. Each scholarship has different academic performance criteria. The University offers various scholarships either through the Office of Student Financial Aid & Scholarships or through various academic
For a listing of additional scholarships, please visit the following websites:

**ECSU FOUNDATION SCHOLARSHIPS**

The University offers a variety of ECSU Foundation Scholarships that are available to students based on select criteria. Each year eligible recipients are identified and selected either by the Office of Financial Aid & Scholarships or by the appropriate academic department. These scholarships are set up by generous donors of the University.

**UNC CAMPUS SCHOLARSHIPS**

UNC Campus Scholarships are awarded to entering North Carolina Residents as Freshmen that graduate from a North Carolina high school who meet the admissibility criteria and apply for federal aid by completing and submitting the Free Application for Federal Student Aid (FAFSA).

This award has a maximum value equal to the cost of tuition, fees, room, board, and books up to $2,500 per academic year. This scholarship is awarded after all other need-based funds are awarded. Freshman students can receive this scholarship for up to 8 semesters.

Continuing eligibility is based on the student completing the FAFSA each year and maintaining satisfactory academic progress as identified by the institution and be enrolled full-time.

To be eligible as a transfer student, a North Carolina resident student must be a graduate of a community or junior college in North Carolina, must have earned an Associate of Arts (AA), Associate of Science (AS), Associate of Fine Arts (AFA), or a certificate in a program that articulates directly with an academic program offered by ECSU, and must apply for federal aid. In addition, the student must have a cumulative GPA of 2.5 at a North Carolina community or junior college he or she is transferring from and maintain satisfactory academic progress at ECSU. Transfer students can receive this scholarship for up to 4 semesters.

**Loans**

Loans are money borrowed that must be repaid, with interest. Eligible students must be enrolled at least six credit hours to receive a federal loan. A promissory note must be signed and completed along with entrance/exit counseling.

**William D Ford Federal Direct Loan (Direct Loan) Programs**

These loans are backed by the federal government. The U.S. Department of Education is the lender. Credit checks are not required for students loans. There are two types of Direct Student Loans: subsidized and unsubsidized. Students must demonstrate financial need as determined by the FAFSA to receive a subsidized Stafford Loan. The U.S. Department of Education will pay the interest on a subsidized Stafford Loan during certain periods of enrollment. A promissory note and entrance counseling must be completed at www.studentloans.gov. Additional information regarding interest rates and repayment options can be found online at https://studentaid.ed.gov/sa/.

**Direct PLUS Loans:**

These are loans made to eligible parents of dependents, graduate or professional students to help cover the cost of education. PLUS loans do require a credit check. Additional information can be found online at https://studentaid.ed.gov/sa/. Parents can apply online at www.studentloans.gov.

**ANNUAL LOAN LIMITS:**

**Dependent Students:**

- First Year: $5,500 - No more than $3,500 of this amount may be in subsidized loans.
- Second Year: $6,500 - No more than $4,500 of this amount may be in subsidized loans.
- Third Year and each year beyond: $7,500 - No more than $5,500 of this amount may be in subsidized loans.

**Independent students** (and dependent students whose parents are unable to obtain PLUS Loans):

- First Year: $9,500 - No more than $3,500 of this amount may be in subsidized loans.
- Second Year: $10,500 - No more than $4,500 of this amount may be in subsidized loans.
- Third Year and each year beyond: $12,500 - No more than $5,500 of this amount may be in subsidized loans.

**Maximum Total Debt Upon Completion of Undergraduate Studies:**
- Dependent Students: $31,000 - No more than $23,000 of this amount may be in subsidized loans.
- Independent Students: $57,500 - No more than $23,000 of this amount may be in subsidized loans.

**Financial Aid Policies and Conditions of Awards**

The following financial aid policies and conditions of award apply to students who are recipients of federal or state financial assistance while attending Elizabeth City State University:
- Students must apply annually for federal aid by completing the Free Application for Federal Student Aid (FAFSA) at www.fafsa.gov
- Students are encouraged to apply by March 1 of each year for priority funding opportunities
- Students must be regularly admitted to ECSU in a degree-seeking status and must be enrolled in an eligible degree-seeking program prior to the first day of the term to participate in federal and state aid programs. Provisionally-admitted and special-admitted students are not eligible for financial assistance. Transient students should contact their home institution for financial aid.
- Students must (1) meet the school’s Satisfactory Academic Progress Standards, (2) not owe a refund on any grant or be in default on any educational loan and (3) not have borrowed in excess of the loan limits under the Title IV programs at any institution.
- Financial aid is limited to coursework required for the declared major as stated in this catalog. Financial aid is not available for audit courses. Students are allowed to receive financial aid while repeating a previously-passed class once.
- Students must be engaged in classes in which they have enrolled to be eligible for aid payment.
- Students must submit all required documents. Failure to submit the requested documents may result in a delay or loss of financial aid funds.

- The Office of Financial Aid and Scholarships cannot award federal, state, and institutional funds over the student’s published Cost of Attendance budget.
- Any outside scholarships or alternative loans must be reported to the Office of Financial Aid and Scholarships - these funds may require the reduction of other financial aid the student receives.
- Financial aid awards are based on full-time enrollment for each term awarded. Less than full-time enrollment may require an adjustment to the aid award. Undergraduate enrollment consists of a minimum of 12 hours to be full-time. Graduate students enrolled in 9 semester hours are classified as full-time and 4.5 semester hours as half time.
- Students awarded an educational student loan must complete loan counseling prior to their first loan disbursement. Federal regulations require that first-year, first-time borrowers will have their first loan disbursement delayed 30 days after enrollment. Counseling is available online at www.studentloans.gov.
- Financial Aid is awarded on an annual basis (Fall and Spring). Institutional charges (tuition, fees, room and board) will be deducted from the financial aid award each term. Students should be prepared to pay any difference owed by the fee payment deadline. For students with aid greater than the institutional charges, any remaining funds are released no later than 14 calendar days after their first day of class or the balance occurs, whichever is later.
- Employment in the Federal Work-Study program is not guaranteed. Awards are based on funding and position availability. Students cannot earn more than their annual award. Students who receive an "unsatisfactory" job performance evaluation will be terminated from the program.
- Students receiving financial aid who withdraw or who stop engaging all classes are subject to regulations regarding the return of funds to the aid programs. Federal aid recipients withdrawing before the 60 percent point of the term may owe a repayment of federal funds received. Refer to the Withdrawal Policy of this catalog.
Satisfactory Academic Progress - Financial Aid

To be eligible to receive Financial Aid, which includes funds from federal, state, and institutional programs, students must maintain satisfactory academic progress (SAP). Elizabeth City State University (ECSU) is required by the U.S. Department of Education to establish minimum standards of SAP, which means the student is proceeding in a positive manner toward graduation. SAP is calculated each semester and includes all periods of the student’s enrollment, including periods in which the student does not receive financial aid funds.

SATISFACTORY ACADEMIC PROGRESS

Students attending ECSU must be in good academic standing and making satisfactory progress with a minimum grade point average (GPA) and completion rate in accordance with the maximum time frame, as stated below.

All students who wish to qualify for financial aid must meet three standards known as SAP. These standards include:

Grade Point Average (Qualitative)

If a student’s GPA falls below the required minimum cumulative GPA, his or her eligibility to receive financial aid will be jeopardized. A student will be put on financial aid warning for the semester following the term the student fails to earn the required minimum cumulative GPA. The student has the next semester of attendance to earn the required minimum cumulative GPA. The student may receive financial aid while on financial aid warning. At the end of the warning period, if the required minimum cumulative GPA is met, the student is taken off of financial aid warning. If the required minimum cumulative GPA is not achieved, then the student will be put on financial aid suspension during the next semester of attendance. The student will not receive financial aid assistance while on financial aid suspension. The total cumulative earned hours consist of hours earned at ECSU and accepted transfer credits. Transfer credits are not included in the computation of the cumulative GPA for financial aid unless the credit was earned while attending other schools as a Transient Student, a student taking classes at another institution as an ECSU student.

Completion Rate (Quantitative)

Students must complete a minimum of 67 percent of coursework attempted each semester.

Earned Hours are comprised of the following grades: A, B, C, D, P

Unearned Hours are comprised of the following grades: F, I, IF, IP, W, WA, WD

Maximum Time Frame

All students must complete their program of study within a maximum time frame of one and-one-half (150 percent) times the length of the program in which they are enrolled. This means that once a student has attempted one-and-one-half times the minimum number of credit hours necessary for completing program requirements, the student will be ineligible to receive financial aid. Attempted hours include all attempted hours at ECSU and all accepted transfer credit. Double majors are expected to complete their program of student within 186 credit hours. If the student qualifies for graduation in a particular major but makes a personal decision to double major, the student is no longer entitled to receive Federal Title IV Aid. Second degree students are required to complete their second degree within the maximum 150% of the hours required for the second degree (maximum of 246 including hours for the first degree). For graduate students, the maximum time frame is 54 attempted hours. If the time limit has been exceeded, aid eligibility ends. The student will be placed on financial aid suspension status.

Grades

Grades of IP (in-progress), W (withdraw), WA (withdraw administratively), WP (withdraw passing), WF (withdraw failing), and WD (withdraw from the university) are not included in calculating a student’s GPA, but are counted as course work attempted. I (incomplete) and FA (failure due to absenteeism) are counted as an F. All grade changes must be submitted and processed during the first 10 days of classes of the following semester.
Financial Aid Warning

A student will be placed on financial aid warning for one semester when the student does not meet all three SAP standards at the end of a semester, including summer sessions. Students with a status of financial aid warning may receive financial aid and enroll in courses.

A student on financial aid warning must meet all three SAP standards at the end of the next semester of attendance to be in good financial aid standing. Failure to do so will result in financial aid suspension.

Financial Aid Suspension

A student is placed on financial aid suspension when the student does not meet all three SAP standards for two consecutive semesters of attendance, including summer sessions. The second consecutive semester is the Financial Aid Warning period. A student on financial aid suspension may NOT receive financial aid.

A student on financial aid suspension must meet all three SAP standards at the end of the suspension period (one term) to return to good financial aid standing.

Once a student is on financial aid suspension, the student must pay for the next attending semester at his or her own expense (alternative loans may be used). All federal, state, and institutional funds are removed for the semester(s) the student has to pay.

Appeal of Financial Aid Suspension

If a student has experienced special circumstances (limited to personal illness or injury, family member illness or injury, death of an immediate family member, job related issues, victim of a crime, and other) during the most recent evaluation period that s/he did not meet standards of academic progress, an appeal to request reinstatement of financial aid eligibility can be submitted. A completed appeal form and supporting documentation is required before the appeal will be reviewed. Acceptable supporting documentation is outlined on the Financial Aid Appeal Form.

In some situations, an academic plan may be required. If the appeal request is granted, the student will be placed on financial aid probation for a minimum of one semester.

• One Semester Probation – The student is eligible for financial aid, and is expected to improve and meet minimum standards by the next evaluation period to maintain eligibility.

• SAP Academic Plan – A student who cannot meet the minimum standards by the next evaluation period is placed on a SAP academic plan developed with the assistance of an Academic Advisor. The academic plan is designed to allow the student to meet minimum standards within a fixed number of evaluation periods (generally two semesters). Progress is checked each semester and evaluated based on the terms of the plan. If the student fails to meet the requirements of the plan, they will become ineligible for financial aid. If a student meets the minimum SAP standards while on an academic plan their financial aid status is updated to eligible at their next checkpoint.

If the appeal request is not granted, the student will remain ineligible for financial aid until they meet all minimum standards.

Withdrawal Policy (Treatment of Title IV funds when a student withdraws)

Financial aid is awarded to a student under the assumption the student will complete the entire period for which the aid was awarded. If a student withdraws on or before the 60% (as measured in calendar days) of the semester, the student may no longer be eligible for the full disbursement of Title IV aid and other financial aid awarded.

The University has a federally mandated return of funds policy that governs the return of funds when a student withdraws from the University either officially or unofficially. Title IV aid includes the following aid programs: Federal Student Subsidized and Unsubsidized Loans, Federal PLUS Loans, Federal Perkins Loans, Federal Pell Grants, and Federal Supplemental Educational Opportunity
Grants (SEOG).

The Return Calculation will be completed within the appropriate guidelines and timeframes provide by the U.S. Department of Education. Once the calculation is complete, the University will notify the student in writing of any adjustments to their aid for the semester. The University will follow all applicable federally mandated deadlines for determining withdrawal dates, returning fund(s), and post-withdrawal disbursement(s). All funds will be returned within 45-days after the school has determined that the student withdrew.

Students who are seeking to withdraw and who have borrowed loans at the University are required to complete a Direct Student Loan Exit interview.
FALL AND SPRING CHARGES

Tuition and fees are due and payable prior to the beginning of each semester. Failure to pay current semester charges may cause you to be canceled. Account balances that remain unpaid will incur a 5 percent interest charge monthly. Students with account balances after the start of a session will incur a one-time late payment fee after the start of a semester of 10 percent of the balance of the account. Unpaid charges on your account will prevent you from registering for an upcoming term. Continuing students who do not preregister are charged a $100.00 late pre-registration fee. Visit www.ecsu.edu for current tuition fees charges and other charges.

Students living in the University Towers, the Complex, Butler Hall, Bias Hall, and University Suites will be required to pay an additional $144 per semester. Students assigned to single rooms will also be charged an additional $319 per semester.

Certified checks or money orders should be made payable to “Elizabeth City State University”. Please indicate student’s name and banner identification number on the face of the payment to ensure proper credit. Charge cards (Visa and Master Card) are also accepted by the University Cashier. We encourage students to utilize the online bill payment system (Self Service Banner, SSB) to make payment on their student account. SSB is available 24 hours a day, seven days a week.

In the event that a student is unable to pay the full amount due for any semester, assistance should be sought early enough to avoid registration delays. Inability to meet financial obligations does not prevent the charges of interest and late payment fees. Payment plans are available and must be set up prior to registration day. The earlier the payment plan is established, the more favorable the payment terms. Fall payment plans set up prior to June 15 allow payments to be spread over five months, plans set up prior to July 15 allow payments to be spread over four months, plans set up prior to August 15 allow payments to be spread over three months. Spring payment plans set up prior to November 15 allow payments to be spread over five months, plans set up prior to December 15 allow payments to be spread over four months, plans set up prior to January 15 allow payments to be spread over three months. Payment of any outstanding balance remaining from a previous semester is a prerequisite for attending ECSU. All deferred fees must be paid by the end of the applicable semester. Interest and penalty charges may be included on all past due accounts.

Semester grades or transcripts will not be accessible on self service banner (SSB) or sent to students with outstanding balances.

Special Charges and Fees

APPLICATION FEE

Every admissions application must be accompanied by a non-refundable fee of $30. This fee may be paid online or in form of a certified check or money order made payable to "Elizabeth City State University."

DIPLOMA FEE

A processing fee is charged for any diploma reordered after graduation. Shipping and handling charges will be added to this fee. Please call (252) 335-3300 for current costs.

ID CARD FEE

A $20 duplicating fee will be charged for the replacement of a lost or misplaced ID Card. There is a $10 fee for a replacement of a damaged card. ID cards may be obtained at the ID Office located in the Campus Post Office, Ridley University Center. No refunds will be made for cards which are lost and then found after they have been replaced. Each student is required to carry an ID card at all times on campus and to present that ID card to an authorized official upon request.
GRADUATION FEE
A graduation fee of $50 covers the cost of the commencement activities. It must be paid at least 45 days before graduation by any senior planning to graduate. Please see the Campus Store for graduation regalia, customized diplomas, and announcement prices.

SENIOR FEE
The senior fee is determined by the senior class and covers the cost of senior activities during Senior Week. It must be paid at least 45 days before graduation by any seniors planning to attend the activities.

ENROLLMENT AND ORIENTATION FEE
A $170 non-refundable charge covers your intent to enroll and the cost of the orientation program. The non-refundable fee in the form of a certified check or money order must be paid within three weeks after receiving a Certificate of Acceptance from the University. This fee is not applied towards payment on your tuition and fees for those students who attend the University.

PRE-REGISTRATION CHARGES
A $100 non-refundable fee will be assessed for any continuing student who fails to pre-register prior to deadline.

LATE REGISTRATION CHARGES
Any student who completes registration after the last official registration date must pay a $100 late registration charge.

HOUSING APPLICATION FEE ROOM DEPOSIT
Once a year, each boarding student must pay a $125 non-refundable housing application fee in order to secure housing. The $125 will not be applied toward the student's outstanding balance.

POST OFFICE
The Dr. Clifford L. Jones, Sr., Post Office is located in the Ridley Center. All residential students receive a rental mailbox per calendar year with the cost included in tuition. Nonresidential students may rent a campus mailbox for an annual fee of $26.50. Postal services include postage stamps: Money Orders: Express mail; priority, registered and certified mail; and delivery and pick-up of mail to and from offices and residence halls. Contact: Mr. Christopher Jones, Post Office (252) 335-3382.

TUITION SURCHARGE
A fifty percent (50%) tuition surcharge will be imposed on all undergraduate, degree-seeking students taking more than 140 degree hours to complete a baccalaureate degree in a four-year (8 semester) program or more than 110 percent (110%) of the credit hours to complete a baccalaureate degree in any program officially designated by the Board of Governors as a five-year program. Each student is encouraged to consult with his or her faculty advisor to avoid excess hours. All regular semester, degree-creditable courses taken are counted, including transfer credit hours (up to 94 semester hours), repeated courses, failed courses, and those dropped after the last day of "Drop and Add."

INTEREST AND PENALTIES
Pursuant to G.S. 105-241.1 (1), an interest charge at the established rate will be added to any past due account receivable from the date due until paid. A late payment penalty of no more than 10 percent of the account receivable may also be added to all past-due accounts. ECSU may waive a late payment penalty for good cause or reason.

Other Charges
Although fixed charges for tuition and fees are kept to a minimum, the University, with the approval of the Board of Governors, reserves the right to alter these charges at any time with or without prior notice, if costs of materials and services make it necessary. All charges and fees for each semester, including tuition, meals, room, and other fees, are due on or before the day of official registration. If a student is unable to pay the full cost on or before registration day, parents or prospective independent students should contact the Office of Business and Finance – Student Accounts at (252) 335-3471 to receive information regarding tuition payment plans.
CHARGES FOR SPECIAL STUDENTS
Tuition and fee schedules for Special Students are furnished upon request by the Office of Business and Finance – Student Accounts.

CHARGES FOR AUDITING COURSES
Charges for Audit courses are the same as those for taking a course for credit.

CHARGES FOR SUMMER SESSION(S)
Charges for Summer Session(s) are listed in Summer School brochures and furnished by the Office of Summer School.

CHARGES FOR WEEKEND/EVENING PROGRAM
Charges for Weekend/Evening Program students are the same as those for regular students. Brochures and other information are available from the Director of the Weekend/Evening Program.

FINANCIAL REGULATIONS

Book Rental Policies
The ECSU Book Rental Office is located in Lester Hall. The office hours are Monday through Friday, 8:00 am to 5:00 pm, unless otherwise posted. Textbooks are distributed using a book rental system. All rental textbooks shall be returned no later than the next business day after final examinations. Unreturned textbooks will be charged to the student accounts at the replacement cost. A replacement fee will be charged for missing supplemental materials like CDs, missing pages or other damage to the textbooks. A student may not rent books for a new semester until all previously rented book charges are paid. Textbooks may be returned by mail; however, the due dates listed still apply.

Boarding Students
The boarding package includes 19, 15, or 10 meals per week. All freshmen residing in University housing are required to participate in the 19 meal plan during their first semester. Sophomores, juniors, and seniors residing in University housing may choose either the 19 or 15 meal plan. Residents of Viking Village may choose 19, 15, or 10 meals per week, but are required to have a meal plan. Unused meals do not carry over to the next week or semester. The meal plan rates (tax included) are as follows:
- 19 meals per week $1,600.77/sem
- 15 meals per week $1,389.27/sem
- 10 meals per week $1,200.00/sem

The Director of Food Services will accommodate students with dietary restrictions and will provide meals as prescribed. (Note: Appropriate documentation must be provided before special accommodations can be made.)

Damages
A student is financially responsible for damage done to any building, equipment, or other property of the University if he or she is at fault. If it cannot be determined which student is responsible for the damage, the cost of the damage will be distributed equally among the group of students using the facilities at the time of damage.

Accounts for Veterans and War Orphans
For assistance in processing Veterans Administration Applications, a veteran and/or war orphan should confer with the Registrar’s Office as early as possible after his/her official class load has been determined for the semester. A veteran must register for and complete at least 12 semester hours to receive maximum benefits each semester.

Refund Policy
If a student officially withdraws from the University on or before the end of the first week of classes, the amount paid may be refunded. After the first week of classes, the charges for tuition, fees, and room and board will be assessed based on 20 percent per week for the next four weeks of the semester. After the first five weeks of classes, no refunds will be issued. The weekly charge begins with the first day of scheduled classes regardless of the actual day of enrollment.

Financial Aid will be adjusted in accordance with Federal and State regulations.

If a student departs from the University without following the "official withdrawal procedures," he or she may be subject to 100 percent of the semester charges.
Refunds Due to Dropping and Adding of Courses

A student who drops courses so that he or she is no longer a full-time student will have his or her charges reduced accordingly and will receive any refund due, provided the courses are dropped prior to the end of the official drop/add period. No adjustments or refunds will be made for courses dropped after the end of the official drop/add period.

Payment Policy

The University will not release any refund of tuition, fees, or room and board until at least four weeks have elapsed from the date of official withdrawal. Upon request, all refunds will be made by check payable to the agency or person responsible for the student’s bill.

Financial Obligations

All students are expected to meet their financial obligations to the University promptly and without notice from the Office of Business and Finance. It is each student’s responsibility to keep parents or guardians informed of all statements of accounts. Students whose accounts are more than 14 days overdue may have their attendance in classes discontinued or be requested to withdraw from the University.

Students are urged to make their tuition and fee payments by mail at least fifteen (15) days before reporting to the University. Remittances should be sent directly to the Office of Student Accounts, Elizabeth City State University, 1704 Weeksville Road, Elizabeth City, NC 27909. Each remittance should state clearly and specifically the purpose and for whom the money is intended. Certified checks or money orders will be accepted.

The established State Fiscal Policies and Regulations under which Elizabeth City State University operates state that all student accounts are due and payable on registration day, and, if not paid on that day, accounts must be paid in full prior to the close of the semester for which the student is registered. Students returning to the University with an outstanding balance will not be allowed to preregister or obtain a housing assignment. After the close of the semester, an account which remains unpaid is delinquent. No grades, transcripts of credits, or diploma shall be issued by the Office of the Registrar for any student whose account remains unpaid after the close of the semester.

The intent of this policy is primarily to place the responsibility for keeping accounts current on the student rather than on the University. The policy is not considered unduly burdensome considering the many scholarships, grants, loans, and other funds which are available to qualified students.

UNIVERSITY POLICE

For the protection of campus and visiting personnel as well as institutional facilities, Elizabeth City State University has a Police Department charged with enforcing state and local laws, university policies, rules, procedures and regulations, including campus traffic and parking regulations. The university community is expected to comply with all state and local laws, university policies, rules and procedures and regulations. Officers’ authority extends on and off campus, including the power of arrest*. The University Police Office is located in the Thomas-Jenkins.

*The University Police Department jurisdictional power only extends to property owned or leased by the university that may not be on the main campus. University Police also have jurisdictional power on streets that are adjacent to the university.

Office of Emergency Management/Environmental Health & Safety

The mission of the Office of Emergency Management is to provide an integrated, comprehensive emergency management program for Elizabeth City State University. The office is responsible for the preparedness training and coordination of emergency response and recovery efforts for natural, man-made, or technological hazards that could adversely affect campus operations.

The primary mission of the Elizabeth City State University Environmental Health and Safety Office (EHS) is to place administrative emphasis on workplace safety and health requirements for all
persons comprising the University community. As a part of this mission, the ECSU EHS staff provides assistance to departments and individuals in order to establish and maintain a safe and healthy campus environment. Safety and health will be promoted as a matter of forethought rather than afterthought.

**MOTOR VEHICLES AND PARKING**

Any motor vehicle operated on campus by faculty, staff, or students must be registered & display a registration decal.

**PARKING LOT FEES**

DIVISION OF UNIVERSITY ADVANCEMENT

The Division of University Advancement works to build, sustain, and enhance financial support to the University through a wide variety of strategic outreach efforts. Monetary gifts and resources are distributed and leveraged to benefit the academic and cultural growth of students, to better serve Elizabeth City State University's primary constituents, and to enhance the quality of life in northeastern North Carolina. Priorities in the area of university development include increasing endowments and annual scholarship support. The division manages all activities that provide the framework for building strong financial support and lasting relationships with alumni, community members, ECSU Foundation board members, ECSU employees, corporations, churches, parents, and the Board of Visitors.

As the University’s main external relations arm, the Division of University Advancement is headed by a Vice Chancellor and includes the areas of Development, Community Development, and Alumni Relations.

OFFICE OF DEVELOPMENT

The Office of Development has three components: Annual Fund, Corporate and Foundation Development, and Major and Planned Gifts:

Annual Fund

The Annual Fund component builds a donor base that can be cultivated and developed to support all fundraising efforts; develops and motivates donors who will, on an annual basis, provide gifts to support ECSU; creates awareness and acceptance among a defined constituency; develops an understanding volunteer organization; identifies and cultivates major gift prospects for capital campaigns and planned gifts; and validates the mission of ECSU on an ongoing basis.

Corporate and Foundation Development

Development is also responsible for identifying, cultivating, and soliciting commitments to ECSU from corporation and foundations at the local, state, and national level. In particular, this unit is concerned with the writing, submission, and management of proposals that request $250,000 or more to fund academic and scholarship programs and community outreach projects as well as the endowment-building capacity of the University. Corporate & Foundation Development, in cooperation with the Office of Sponsored Programs, assists faculty and staff with the proper networking, the creation of fiscally sound budgets, and the production of strategically written proposals in order to secure external funding from charitable organizations in the private sector. In addition, this office helps to ensure that each proposal adheres to the guidelines, deadline dates, and paperwork requirements provided by each individual corporation or foundation.

Major and Planned Gifts

The Major and Planned Gifts component is responsible for managing the process of identifying, cultivating, and soliciting commitments to ECSU of $10,000 or more and for instituting and managing a comprehensive planned giving program. Unit functions include increasing the number and dollar amount of major gifts received each year; linking major donor prospects to specific programs and departments; assisting in the development and solicitation of major gift prospects for major multi-year, multi-million dollar campaigns; and enhancing the number of planned giving commitments that ECSU has with individuals and alumni each year. A planned giving advisory committee supports the development of planned giving solicitations and strategies as well as planned giving workshops, seminars, and publications.

OFFICE OF ALUMNI RELATIONS

The Office of Alumni Relations works to involve alumni and distinctive alumni groups in the University and its programs with a view toward increasing their financial support, increasing the growth and development of alumni chapters, updating and maintaining a list of ECSU graduates, producing alumni publications, and serving as the liaison...
between the University and the National Alumni Association.

**OFFICE OF COMMUNITY DEVELOPMENT**

The Office of Community Development is supported primarily by grant funds from the U.S. Department of Housing and Urban Development (HUD). The mission of the program is to provide assistance to low-wealth families in Elizabeth City, Pasquotank County, and surrounding communities by addressing the pressing developmental needs of affordable housing, neighborhood revitalization, and economic opportunity. Community Development services are provided through housing assistance projects, information dissemination, on-site technical assistance, and a series of seminars and workshops. The Community Development Program is designed with several goals in mind: (1) to expand home ownership and affordable housing opportunities; (2) to assist persons in obtaining decent, safe, and sanitary housing; (3) to increase awareness and compliance with fair housing laws; (4) to reduce drug abuse in local neighborhoods through education and outreach activities; (5) to expand economic opportunity through research, job training, and support for small/minority business development; (6) to maximize community development and redevelopment efforts by providing a broad range of technical assistance to local governments and neighborhood organizations; and (7) to provide practical learning experiences for students through internships and community service projects.

**ECSU FOUNDATION**

**Mission Statement**

The ECSU Foundation's mission is to serve as the steward of private contributions to Elizabeth City State University in order to provide educational assistance for students, to support faculty, and to secure the operational needs of the University. The Foundation receives, invests, and administers funds received as a result of charitable contributions from the private sector on behalf of the students and programs at ECSU and, as a result, for the greater good of the community.

**Guiding Principles**

- To support and assist others in conjunction with ECSU,
- To provide opportunities to individuals who might not otherwise be able to attend college,
- To invest wisely and conservatively to ensure growth of the endowment,
- To partner with the University to meet its mission in the community,
- To communicate openly, frequently, and honestly with constituents,
- To honor the privacy of our donors and friends,
- To value diversity in all its forms and respect the dignity of the individual,
- And to ensure that the Foundation meets both the letter and the support of the laws that govern its work.

**The Elizabeth City State University Foundation: A Blended Component Unit of ECSU**

Although legally separate, The Elizabeth City State University Foundation, Inc. and Subsidiary, is a component unit of the University and is reported as if it were a part of the University. The Foundation is governed by a 20-member board consisting of 5 ex officio directors and 15 elected directors. The Foundation's purpose is to aid, support, and promote teaching, research, and service in the various educational, scientific, scholarly, professional, artistic, and creative endeavors of the University. Because the elected directors of the Foundation are appointed by the members of the Elizabeth City State University Board of Trustees and the Foundation's sole purpose is to benefit Elizabeth City State University, its financial statements are blended with those of the University.

**ECSU Endowment**

The ECSU Foundation is committed to ensuring the future of the University by building ECSU's endowment to provide for its needs in perpetuity. The investment and annual reinvestment of the ECSU Foundation endowment, which is allowed at a higher rate of return than other reserve funds, lets the University increase its impact on the region as well as its capacity to meet the needs of the students it serves. The Foundation secures and manages funds, on behalf of ECSU, to establish scholarships, support distinguished professorships, and deliver both academic and community outreach programming. In
all of its efforts, the ECSU Foundation is dedicated to the advancement and promotion of Elizabeth City State University.
HEALTH CAREERS ACCESS PROGRAM (ECSU PROGRAM)

The North Carolina Health Careers Access Program (NC-HCAP) is a statewide, inter-institutional organization located on the campus of the University of North Carolina at Chapel Hill. Established in 1971 by Dr. Cecil G. Sheps, NC-HCAP was created to help provide a solution to the severe shortage of underrepresented minority health professionals, specifically in underserved rural and inner-city North Carolina communities. For more than 35 years, NC-HCAP has provided programs and services to enhance the representation of minorities in the health professions, serving thousands of students, administrators, advisors, practitioners, community health agencies, and local Area Health Education Centers (AHECs).

MISSION

The mission of the North Carolina Health Careers Access Program is to increase the number of underrepresented minorities or economically/educationally disadvantaged students who are trained, educated, and employed in the health professions.

VISION

NC-HCAP envisions a society with equitable access to culturally competent health care across all racial and ethnic groups irrespective of geographic location (urban or rural) or socio-economic status – in short, a society where no health disparities exist.

Health Careers Center

The ECSU Health Resource Center is a health resource services outreach center primarily funded by the North Carolina Health and Wellness Trust and operated by the Department of Health Professions of Elizabeth City State University. The primary objective of the center is the prevention of the onset and progression of diabetes and cardiovascular diseases among at-risk and low-income populations in Pasquotank and surrounding counties of Northeastern North Carolina.

DISTANCE EDUCATION, CENTER FOR TEACHING EXCELLENCE, AND VIDEOCONFERENCE CENTER

The Office of Distance Education and Center for Teaching Excellence’s role is to encourage the integration and support of instructional technologies both on campus, online and through videoconferencing. Distance Education extends availability and access to convenient online course offerings utilizing current and emerging instructional technologies.

The Center for Teaching Excellence provides professional development opportunities related to teaching, learning, technology, and pedagogy through workshops, seminars, and webinars.

http://www.ecsu.edu/distanceeducation, www.ecsu.edu/cte

The Videoconference Center provides two-way interactive video services for the ECSU community and to individuals and organizations in the Albemarle region. It provides access to the North Carolina Research and Education Network (NCREN) and the North Carolina Information Highway (NCIH). Through these networks, ECSU can receive and send telecourses and participate in seminars, workshops, and conferences throughout the state.

CONTACT INFORMATION

Distance Education, Center for Teaching Excellent, and Video Conference Center, 1704 Weeksville Road, Elizabeth City, NC 27909, 140 Information Technology Center, Campus Box 924, Phone: Toll-Free (877-432-7662), Fax: (252) 335-3426

CONTINUING EDUCATION

MISSION
The Continuing Education Program (CEP) at Elizabeth City State University is committed to contributing to the mission of the University by providing a variety of continuing education opportunities geared toward the professional and personal development of the citizens of northeastern North Carolina. The CEP is the primary unit of the University responsible for non-credit offerings. The CEP provides lifelong learners with opportunities for learning new skills, advancing their careers, and enriching their personal lives. Continuing Education utilizes ECSU’s educational resources to offer lifelong learning experiences that provide continuing education units to non-traditional audiences.

VISION
The vision of the CEP is to become a leader in offering non-credit opportunities to the citizens of northeastern North Carolina and beyond. Through a focus on excellence in instructors, excellence in courses, and excellence in support services, the CEP will be instrumental in affording lifelong learners opportunities to acquire the skills and knowledge necessary to achieve their personal and professional goals.

GOALS
To provide lifelong learners with convenient opportunities for learning new skills, advancing their careers, and enriching their personal lives;

To form partnerships with businesses, industries, public agencies, organizations, schools, etc. in an effort to offer professional development to employees;

To serve as a recruitment tool for prospective students.

UNIVERSITY PLANETARIUM
The ECSU Planetarium, the only planetarium located in northeastern North Carolina from the state line to Rocky Mount, functions as an academic support unit to strengthen and enhance the University’s community outreach efforts. First opened in January 1990, the Planetarium was charged with the mission of increasing public awareness in the sciences, specifically for students of the University’s 21-county service region of northeastern North Carolina. Since its inception, the Planetarium has functioned as a community outreach program, encouraging elementary and secondary students to (1) develop and enhance their academic skills and (2) cultivate the interest and awareness needed to ultimately pursue post-secondary education in the sciences.

The planetarium is housed in a 9.2 meter (30 feet) diameter, hemispherical dome with a seating capacity of 60. The instrument itself is a Spitz Model 512 star projector. The theater also includes computer automation, which integrates the operation of video projection, high-definition still image projection, special effects, and laser projection. The Planetarium offers programming for a wide range of age and education levels, from Pre-K through undergraduate, and the general public. All civic groups, churches, families, and clubs are welcomed to attend ECSU Planetarium programs, and special attention is given to programming for area school students of all ages. Programming offered to school groups addresses K-12 science competencies and is geared toward supplementation of classroom activities. Faculty and staff of ECSU are regularly encouraged to utilize the Planetarium for course instruction and augmentation.

Following the University calendar and Inclement Weather Policy, ECSU Planetarium operates Monday through Friday, 8:00 a.m. to 5:00 p.m., year-round. Some limited evening and weekend hours are provided annually for special events for 4H, Boy Scouts, and feature presentations themed with annual celebrations such as Halloween, Thanksgiving, Christmas, Martin Luther King, Jr. Day, Valentine's Day, African American History Month, and Women's History Month. All shows at the ECSU Planetarium are free of charge; however, shows are conducted by reservation only. Groups of 20 or more may schedule their own show. Individuals or groups with less than 20 are encouraged to join other groups with prior reservations. For more information, visitors may call (252) 335-3SKY or visit the Planetarium's website at: http://www.ecsuplanetarium.org.
ACADEMIC SUPPORT SERVICES

ACADEMIC ADVISING PROGRAM

The Academic Advising Program is operated by the Department of General Studies. It was established in 2007 in an effort to decrease the number of academic deficiencies and to help students graduate on time. An Academic Advisor has been identified in each department to advise students during the first two academic years. Students who are undeclared majors are assigned to advisors designated for undeclared majors. When undeclared students exit General Studies, they are assigned to an academic advisor in the discipline of their choice. Incoming freshmen who have chosen a major are assigned to an advisor in their major department. The Academic Advising Program publishes a newsletter to notify students regarding advisement services. Every semester, emails are sent to students informing them of advising and registration dates, advising locations, and contact persons.

Academic advising begins during New Student Orientation. The advisors are responsible for assisting students in completing the General Education Core Curriculum. Information about the Academic Advising Program is disseminated to students and faculty through presentations at Orientation for new freshmen and transfer students, during faculty meetings, through emails, and in the Academic Advising Newsletter, as well as in the Freshmen Seminar classes. Contact: Vicky Tillett, Office of Transfer Advising/Resources, (252) 335-3474.

ACADEMIC SUPPORT CENTER

The Center includes three laboratories that enhance the basic discipline skills of reading, writing, and mathematics, which are vital for academic achievement. Students who benefit from the Center's support services are identified by their placement examination scores, and they are subsequently assigned to one or more of three developmental courses. In addition, the Academic Support Center operates a computer laboratory which offers computer-based tutorials for mathematics and course-related materials designed for learners wanting more in-depth study in discipline area. Contact: Reshema Combs, Department of General Studies, (252) 335-3463.

INTERNATIONAL PROGRAMS

The Office of International Programs (OIP) is designed to build a campus-wide global perspective through an academic exchange program that fosters service, support, and advocacy: Students may study abroad, conduct research, or participate in faculty-led trips in service learning. ECSU is committed to building and managing partnerships with universities around the world and expanding the presence of international students and faculty on the campus. The OIP has joined the University of North Carolina (UNC) Exchange Program, which offers a network of colleges and universities in nine countries (Australia, Brazil, China, Denmark, Finland, Germany, Mexico, Sweden, and Uruguay) cooperating to provide affordable access to international and multicultural education for a diverse student population. The UNCEP-Exchange Program (www.uncep.org) "links North Carolina to the World through academic student exchange opportunities." The mission of the OIP is to provide all students (undergraduate and graduate) a pathway for international experiences and exposure. Study abroad is affordable. Financial aid, including scholarships, may be used to pay for exchange programs. For further information, contact Dr. Mary-Lynn Chambers in the Office of International Programs at (252) 335-3405 or visit the website: http://www.ecsu.edu/academics/programs/international.index.cfm.

Study Abroad Program

Elizabeth City State University is a member of the UNC Exchange Program (UNC-EP), the official system-wide student exchange program of the sixteen campuses of the University of North Carolina. As a result, ECSU students may spend a semester or full
academic year studying in Australia, Brazil, China, Finland, Germany, Mexico, or Uruguay.

ECSU offers other study-abroad opportunities as part of the Mid-Atlantic Consortium Center for Academic Excellence (MAC-CAE). The goal of MAC-CAE is to educate and train a new cadre of students from diverse backgrounds to pursue careers with the nation’s key intelligence agencies, including the Office of the Director of National Intelligence, the Defense Intelligence Agency, the Department of Homeland Security, the Department of State, the Central Intelligence Agency, Army Intelligence, Air Force Intelligence, Navy Intelligence, the Federal Bureau of Investigation and the National Security Agency. ECSU students who are selected spend eight weeks living and learning in India. They learn to read and write in Hindi, the sixth mostly widely used language in the world.

Study abroad is affordable. Financial aid, including scholarships, may be used to pay for exchange programs. For further information, contact the Office of International Programs at (252) 335-3405 or visit 137 Johnson Hall or the website http://www.ecsu.edu/academics/programs/international.index.cfm.
The Division of Student Success provides a continuum of program initiatives and services to promote a successful college transition, student development and self-efficacy, academic and personal success, engagement, timely graduation, and lifelong learning from the first year to graduation.

The Division of Student Success works collaboratively with university and community stakeholders to implement program initiatives, services, and activities in support of increasing the freshman student retention rate; increasing learning opportunities and academic support for freshmen and upperclassmen students; implementing strategies to improve persistence and progression; enhancing the university wide engagement in the student success culture; and preparing students for service learning, experiential learning, internships, and careers.

The Division of Student Success is located in the Student Success Center and includes the Department of University Studies, the Tutorial and Academic Success Center, the Office of Retention, TRIO and Special Programs, Faculty Engagement, and the Internship and Engagement Office. The division provides services, which support retention, persistence, progression, and the continuum of student success from the first-year experience to graduation.

**THE DEPARTMENT OF UNIVERSITY STUDIES**

The Department of University Studies offers the Viking First Year Experience Program for incoming first time, first year students, the Tutoring and Academic Success Center, and the General Education Program. The Department of University Studies assist students with their transition to academia through academic accountability, support, and opportunities.

**THE TUTORIAL AND ACADEMIC SUCCESS CENTER**

The Tutorial and Academic Success Center (TASC) provides year round academic support services, which include one on one and group tutoring, online tutoring, supplemental instruction, Math Boot Camp, Reading and Writing Skills Boot Camp, and the Student Success Seminar series. The tutors include students, staff, and faculty dedicated to building the academic skills and success of ECSU students.

**THE OFFICE OF RETENTION**

The Office of Retention provides intervention and academic recovery services for targeted and at-risk students (MAR Pilot, Partway Home, readmitted students, and students on warning, probation, and suspension). The Office of Retention conducts prevention activities, targeted interventions, coordinates academic recovery, and tracks and reports the academic progress of students.

**THE TRIO AND SPECIAL PROGRAMS OFFICE**

The TRIO and Special Programs Office is federally funded to serve eligible first generation and/or low-income students in Upward Bound and Student Support Services. The Upward Bound Program is a pre-college initiative designed to prepare high school students for college success through an intensive academic year and summer component. The Student Support Services Program provides intensive intervention and support services for eligible incoming freshman students. SSS tracks the participants’ progress from their first year to graduation.
INTERNSHIP AND ENGAGEMENT OFFICE

*Internship and Engagement* provides preparation and access to students for placement in experiential learning and internship opportunities from the first year to graduation. The office collaborates with Career Services, faculty, industry, and the community to determine placements locally and abroad.
COMMUNITY SUPPORT SERVICES

ARCTIC AND ANTARCTIC RESEARCH EXPERIENCE FOR UNDERGRADUATES

The AaA-REU program objective is to promote the professional development of minority undergraduate students through their participation in ocean, marine, and polar science research. Each undergraduate student is assigned to a specific research team, where they work closely with the faculty. In addition, seminars, lunch meetings, and social functions are organized to facilitate undergraduate interaction. The project is conducted for eight weeks during the summer, with on-line mentoring and follow-up during the academic year. The program also includes a Research Experience for Teachers (RET) component, which involves pre-service STEM education majors. Funding Agency: National Science Foundation (NSF).

CENTER OF EXCELLENCE IN REMOTE SENSING EDUCATION AND RESEARCH (CERSER)

The goal of The Center of Excellence in Remote Sensing Education and Research (CERSER) is to develop and implement innovative and relevant education and research collaborations focused on ice sheet, coastal, ocean, and marine research. CERSER maintains a suite of research, education, and STEM outreach programs which support student research and training. CERSER research activities were documented in the paper titled "Temporal Reduction and Loss of an Ice Shelf in Pine Island Bay, Antarctica: 1972 – 2003" in the June 2013 issue of the IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing. As a result of this study, the bay, which was progressively exposed over the 30-year period during which the occupying ice shelf slowly retreated, was named by the US-Advisory Committee on Antarctic Names Board of Geographic Names for Elizabeth City State University and was entered into the Geographic Names Information System (GNIS), the nation's official geographic names repository. CERSER education and training activities provides millions of dollars in scholarships and student support. Funding Agencies: NSF, Department of Defense, and NASA.

DRUG INFORMATION CENTER

The Community Drug Information Center administered in conjunction with the School of Pharmacy at the University of North Carolina in Chapel Hill offers the specialized training required to become a Pharmacist at Elizabeth City State University. The purpose of this program is to encourage pharmacy graduates of ECSU to remain in the region to combat northeastern North Carolina’s critical pharmacy workforce shortage. Funding agency: N.C. GlaxoSmithKline Foundation.

ENGAGING MINORITY UNIVERSITY STEM EDUCATION PROFESSORS IN THE SCIENCE OF CLIMATE CHANGE

Elizabeth City State University has joined with the University of New Hampshire under the NASA Innovations in Climate Education (NICE) to empower faculty of education programs at Minority Serving Institutions to better engage their pre-service students in teaching and learning about global climate change through the use of NASA Earth observation sets. The project provides the faculty with approaches to understanding climate change and its impacts on terrestrial and ocean ecosystems. The faculty conducts fieldwork that emphasizes place-based pedagogy. This project is designed to impact teaching first on college campuses within science education classes. Second, as pre-service teachers transition into in-service teachers, the impact will extend to elementary and secondary schools. Funding Agency: NASA.
GLACIER EXPLORATION AND POLAR SCIENCE EDUCATION PROGRAM

The Glacier Exploration and Polar Science Education Program provides students with genuine research experiences, augmented by mentoring and sustained engagement with the polar community. The Glacier Exploration and Polar Science Education Program accesses the facilities available at the Icefield Research Program in Alaska, the CERSER facility at ECSU, and the Brathay Exploration Group in Norway. The program operates in partnership with The Pennsylvania State University. Funding Agency: NSF.

HIV/STD PREVENTION PROGRAM

The primary goal of this project is to empower college/university students with special emphasis on African-Americans and Native Americans to change behaviors that place them at risk for HIV and STD infections. Peer Health Educators have been trained to promote HIV prevention through health education/risk reduction messages amongst their peers. Campus Coordinators have been identified to oversee prevention activities such as health fairs, HIV/AIDS counseling and testing events, STD screenings, public service announcements, social marketing campaigns, and student leadership development workshops. Funding Agency: N.C. Department of Health and Human Services.

INCREASING THE PHARMACY WORKFORCE IN NORTHEASTERN NC

This project provides resource funding for the Pharmacy Program and the Pharmacy College Admission Test (PCAT) tutorial seminars for interested students. The Project also provides scholarships for students in the Department of Math, Science, and Technology, and in the Pharmacy Program. Funding Agency: Wachovia Foundation.

NASA MUREP AEROSPACE ACADEMY OF NORTHEASTERN NORTH CAROLINA

Is a collaborative effort between Elizabeth City State University (ECSU) and the National Aeronautical and Space Administration’s (NASA’s). The program will adopt a well-established NASA STEM curriculum with problem-based learning at its core, aligned with Next Generation Science Standards, with the commitment to increase STEM exposure for students in grades K–12. This week—long structured STEM enrichment program engages High School students in hands-on activities that improve their critical thinking and analytical skills within science, technology, engineering and mathematics. Participants will develop and strengthen the skills and knowledge needed for success in STEM studies and STEM Careers. Hands-on activities in our Aerospace Education Lab (AEL) will be complemented by guest speakers and field trips. All Aerospace Academy activities will lead to a final project, culminating with an awards program.

NASA TOTAL ANTARCTIC ICE SHEET DISCHARGE PROGRAM

Through this program, students at Elizabeth City State University will be taught to use-state-of-the-art remote sensory methods and data analysis techniques. These techniques will analyze data sets from multiple sources (including Ecesat, Landsat, and Insar) to assist in pioneering efforts to determine the total discharge of ice from the grounded Antarctic Ice Sheet. Funding Agency: NASA.

POLAR GRID INFRASTRUCTURE PROGRAM

The Polar Grid Infrastructure Program includes support for training activities associated with new partnerships across academia, government agencies, private sectors, and polar scientists who are targeted as users of the Polar Grid Research. One of the major goals of this Program is to foster the integration of Polar Science research and education through the use of the virtual classroom environment and the smaller ECSU Grid. The project will extend the virtual
classroom capabilities and installation of a GRID network for training purposes. Another goal of this program is to make a wide range of resources available in the form of on-site training, on-line tutorials and courses, and other resources for education, outreach, and training. **Funding Agency:** National Science Foundation.

**SCIENCE GATEWAY INSTITUTE**

The idea for the SGW-I grew out of the results of an NSF-funded study examining the characteristics of successful, sustainable science gateways. A Science Gateway is a community-developed set of tools, applications, and data collections that are integrated through a portal or a suite of applications. Gateways provide access to a variety of capabilities including workflow, visualization, resource discovery, and job execution services. This Institute is envisioned to offer several services and resources to support the gateway development community across the entire life cycle of a gateway. **Funding Agency:** NSF.
**STUDENT SUPPORT SERVICES**

**IT CLIENT SERVICES**

IT Client Services serves the academic computing needs of students. Students are provided wireless connectivity, access to computer labs across campus, and limited technical support (i.e. anti-virus software, wireless, etc.). The Information Technology Center (ITC) has one computer lab that is used for training classes that are supported by IT. In addition to the labs in ITC, there are currently 21 other computer labs located in departments across the campus. Most of these facilities provide discipline-specific resources that allow students to utilize applications relative to their major. Visit the IT website for more information about the available services and support. Contact the IT Service Desk: (252) 335-3532.

**BANNER ACCOUNT SERVICES**

Banner is an administrative software application developed specifically for higher education institutions. The Banner system is highly integrated and supports multiple functions through a common database. This common database is shared by both employees and students who use Banner via Self-Service Banner (SSB) and/or Internet Native Banner (INB). Banner makes it easy to maintain records on someone who applies to the University, becomes a student, graduates, and becomes an alumnus.

Self Service Banner (SSB) is an online system that allows students to view and modify course schedules, register for classes, review grade history, and financial aid information. Students need a SSB PIN in order to log into Self Service Banner to access their information from any computer, on or off campus that has Internet access.

Visit the Banner Account website for more information. Contact the IT Service Desk: (252) 335-3532.

**DISTANCE EDUCATION**

**MISSION**

The Office of Distance Education, Center for Teaching Excellence, and Videoconferencing encourages the integration and support of instructional technologies both on campus, online and through videoconferencing. Distance Education extends availability and access to convenient online course offerings utilizing current and emerging instructional technologies.

**GOALS**

1. To provide academic technology support services to administrators, faculty, staff, and students to support teaching and learning on campus, online and through videoconferencing.
2. To provide administrators, faculty, and staff with professional development opportunities and resources essential for teaching and learning on campus, online and through videoconferencing.
3. To maintain existing academic technologies and implement new technologies necessary for teaching and learning on campus, online and through videoconferencing.

**GETTING STARTED WITH ONLINE LEARNING**

Students interested in taking online courses should determine if they have the qualities to be a successful online student. Before searching for an online course, test your knowledge and skills for learning online. Take the Readiness Skills Survey and review the Qualities of an Online Learner on the Distance Education website http://www.ecsu.edu/distanceeducation. Select DE for Students, Readiness Survey. Once you determine if you are ready for online learning, select Getting Started.

**BLACKBOARD**

Blackboard is Elizabeth City State University’s learning management system that allows students and
faculty to access course materials, conduct course activities, communicate, and collaborate online. Students using Blackboard can access their courses anytime, anywhere via the Internet and on mobile devices. Blackboard accounts are automatically created each semester for all students who officially register. Visit the Distance Education website for links to Blackboard help resources.

**24/7 BLACKBOARD HELPDESK SUPPORT**
- Blackboard Website: http://ecsu/blackboard.com
- 24/7 Blackboard Online Support Center

You may chat live with a support team member, submit a ticket with your issue or concern, or call directly, toll-free: **1-866-321-7157**.
- If you have not been able to resolve your issue or concern by visiting the Blackboard Help for Students or 24/7 Blackboard Online Support Center, email ECSU Blackboard Help at de@ecsu.edu or call toll-free: (877) 432-7662. This service is available Monday - Friday, 8:00am - 5:00PM.

**CONTACT INFORMATION**
Distance Education and Center for Teaching Excellence, Videoconference Center, Elizabeth City State University 1704 Weeksville Road, Elizabeth City, NC 27909, 140 Information Technology Center, Campus Box 924, Toll-Free: (877) 432-7662, Fax: (252) 335-3426

Kimberly N. Stevenson Ed. D., Director, Phone: (252) 335-3699, knstevens@ecsu.edu

Loretta B. Powers MSIT, Instructional Technology Specialist, Phone: (252) 335-3112, lbpowers@ecsu.edu

**EMAIL/DOMAIN ACCOUNT SERVICES**
Each student has access to an email/domain account. The domain account provides access to local resources such as logging in to a campus computer, access to the Internet, and remote access to the library databases. The two accounts have the same username; however, they are unrelated. The passwords have to be synced manually by the student (changing one password does not automatically change the other). Visit the Email/Domain Account website for more information. Contact the IT Service Desk: (252) 335-3532.

**RETENTION**
The purpose of the Office of Retention is to retain students by providing integrated academic support services and comprehensive resources that foster academic success. Promoting the growth and development of our students and collaborating with faculty and staff are central to all of our efforts. Clearly, these alliances generate appropriate student-centered guidance and support.

---

**COUNSELING AND TESTING CENTER**
The Counseling and Testing Center (CTC) offers free and confidential counseling services. Counselors are available for appointments or walk-ins weekdays. The CTC offers workshops, groups, individual, and couples counseling and campus outreach programming. Additionally, the center offers Special Needs Services, Testing (SAT, GRE, PRAXIS, MAT, LSAT), and New Student Orientation. Contact: Counseling and Testing, (252) 335-3273.

**SPECIAL NEEDS SERVICES**
In accordance with Section 504 of the Rehabilitation Act of 1973, and American with Disabilities Act of 1990 (ADA), Elizabeth City State University offers services to students with special needs or disabilities. Any student seeking accommodations must notify the Special Needs Services coordinator in the Counseling and Testing Center. Students must submit required forms and provide current documentation of their disability. Contact Counseling and Testing: (252) 335-3273.
While the Office of Retention will use a host of strategies and tactics to increase retention rates, the following are the structural foundation of program implementation:

1. encouraging student engagement,
2. fostering learning opportunities,
3. bolstering academic support,
4. endorsing student goals, and
5. Implementing proactive retention strategies.

Students will be reminded that the work required in order to graduate is strenuous, and can sometimes be overwhelming. However, the services offered through the Office of Retention are formulated in a premise that students are at the core of our institution. For that reason, we are here to be of exceptional service to our students. ECSU is also dedicated to helping students overcome obstacles that may challenge student success (academic, social, financial, or personal).

Contact: Victor Neal (252) 335-3527 or retention@esu.edu.

LIBRARY SERVICES

The G.R. Little Library is the interactive information resource center for the campus and community, serving as a research portal for students and faculty in support of their academic endeavors. The library is also open to the general public, who may obtain a library card and are encouraged to join the Friends of the Library.

With its extensive collections, services, and connections to external resources, the library ensures that all students and faculty have access to the information resources they need to fulfill the mission of the University. The library’s online public access catalog provides patrons with a searchable database of the library’s holdings. The library’s collections are classified according to the Library of Congress Classification System with a few minor exceptions.

The library offers access to a print collection of more than 230,000 monographs and reference works; a journal collection of more than 49,000 titles online and in print; and a collection of more than 120 online research databases. In addition, the library offers a multimedia collection that includes documentary and popular films, sound recordings, e-books, e-audio books, and audio recordings. The library also provides access to WorldCat, a union catalog of the holdings of more than 10,000 academic and public libraries worldwide, whose resources are made available to ECSU patrons through its Interlibrary Loan service.

The library is service-oriented and patron-friendly. Librarians and support staff are available to assist patrons with a variety of library services and resources, including the University Archives. The library provides informational tours, lectures, classroom instruction, and information literacy tutorials. Additionally, conference rooms, a collaborative learning center, individual study carrels, a dedicated research computer lab, and other computers are available for use by the campus community.

Located on the second floor of the library is the Library Instruction Lab and the Claude Green Computer Lab, both are equipped for faculty-and librarian-led instruction sessions. The labs hold 20 Dell PC workstations each and are used to support the library’s information literacy program. When not in use for instruction sessions, these labs are available as quiet study labs for students.

The Music Library is a branch location and is located in the Fine Arts Building (room 234). The library provides a carefully curated collection of resources for music students, including scores and music reference materials. The Music Library is open to all students and provides 4 computer workstations, and printing.

The Curriculum Resource Center, located on the second floor of the Gilchrist Building (room 210), is the newest addition to Library Services. It houses state adopted textbooks, children’s literature, reference books and other items vital to Education Majors and Faculty. The CRC also provides 4 Mac computer workstations for patron use.
Students are encouraged to participate in the library through work study opportunities that are available throughout the school year.

For the most up-to-date library hours please see the library website at www.ecsu.edu/library. Contact: Dr. Juanita Midgette-Spence, Director of Library Services: (252) 335-3586.

PIN NUMBER INFORMATION
Elizabeth City State University students utilize two specific numbers for identification and security purposes. The first is the ID number which is a 9-digit number beginning with "97" that is generated by the Banner System when students are admitted to the University. The second number is their PIN number which is defaulted for the birth date: 00/00/0000. Students are required to change this number once they enter the Self Service Banner for the first time. The University does not have access to the PIN number once the student has changed it. Contact the Office of the Registrar: (252) 335-3300.

RESIDENCE LIFE
The Department of Housing and Residence Life provides a living and learning environment for students. Three residential buildings and one off-campus facility provide housing for over 50 percent of the student body. Students living on campus may participate in hall meetings and attend programs designed to engage residents academically and socially. Past programs have included CPR Training, Uno Tournaments and personal safety workshops. Students may apply to serve as desk assistants and resident assistants in the residence halls. Contact Tammekia Grant, Housing and Residence Life: (252) 335-3761.

ECSU CAMPUS STORE
The ECSU Campus Store is open from 8am-5pm Monday through Friday and is open for extended hours during fall and spring registrations, homecoming, and other special campus events. School supplies, electronics, and Viking pride merchandise are also available for purchase. Through the Follett IncludED program, students may rent all required textbooks each semester. Book Rental charges are added automatically for all Full Time Undergraduate students during the Fall and Spring semesters; Part Time students can request this service through Student Accounts. Visit the ECSU Campus Store website at www.ECSUShop.com anytime for graduation regalia, supplies, and clothing. Contact the Campus Store Manager: (252) 335-8707, (252) 335-3402 or (252) 335-8710.

UPWARD BOUND PROGRAM
Elizabeth City State University's Upward Bound is a Federal TRIO college-based program of rigorous academic instruction, individual tutoring, and counseling for high school students who meet criteria established by the U.S. Department of Education. The selection of students is based on the recommendation of high school teachers and counselors. An individualized educational program is designed for each student. The Upward Bound Program also provides enrichment activities and exposure to cultural events. Contact Quay Dozier, Upward Bound Program: (252) 335-3369.

STUDENT SUPPORT SERVICES PROGRAM
Elizabeth City State University's (ECSU) Student Support Services (SSS) Program is a Federal TRIO Program that provide opportunities for academic development and completion of requirements for post-secondary education. The purpose of the SSS program is to provide undergraduate students with the academic support needed to increase persistence, improve academic standing, graduation rates and post baccalaureate enrollment. The program also provides services to improve the financial and economic literacy of participants.
The mission of the Student Support Services Program at ECSU is to foster a climate supportive of success for a select population (175 participants) of students who are considered eligible based on federal income & first generation guidelines. **Contact Quay Dozier, Student Support Services Program: (252) 335-3369.**

**VETERAN AFFAIRS**

**VETERANS BENEFITS**

Active duty service members, veterans, and their qualified dependents may be eligible for Veterans Affairs (VA) educational benefits authorized under specific chapters of Title 38 of the U.S. Code. The Military Affairs Office provides specialized customer services and information to assist students in establishing eligibility for and receipt of VA educational benefits. This office cannot determine eligibility, but can assist in the submission of applications and supporting documents. Only the Department of Veterans Affairs can determine student eligibility for benefits. The primary function of this office is to certify and report enrollment information to the VA to facilitate the receipt of benefits by eligible students.

**OVERVIEW OF VETERANS AFFAIRS (VA) EDUCATIONAL BENEFITS**

There are various Veterans Affairs (VA) educational programs available, all of which have their own unique qualifying criteria and rates of payment. Depending on the benefits, the student may be eligible to receive a monthly living stipend and have their tuition and fees paid by the VA; payment of tuition and fees are the responsibility of the student if his/her benefit does not take care of the cost of attendance. With the recent implementation of the Colmery Act (Forever GI Bill - Chapter 33 only) Section 107 contains a provision that will change how BAH is determined. A student’s BAH will be based on the zip code of where he or she “attends the majority of classes beginning 8/1/18.”

Eligible students may apply for advance payment of benefits in the following Chapters: 30, 35 and 1606. The benefit amount is determined by the student’s training time. The VA established levels of training time as: full, 3/4, half, and less than half. Benefits for students training while on active duty and those training less than half-time are limited to the amount of tuition and fees paid. Since the number of credits determine the payment amount, it is absolutely essential that students immediately report all changes in enrollment (drops/adds) to the college’s Office of Military Affairs.

**ESTABLISH ELIGIBILITY AND RECEIVE BENEFITS**

The Office of Military Affairs provides services necessary to establish eligibility for the VA education program. To establish eligibility with the college, students are expected to provide a copy of their VA issued Certificate of Eligibility. A high school transcript is required for all undergraduate students seeking veteran benefits. Once a student’s eligibility has been established, students must submit a Certification Request for VA Education Benefits form in order to receive them. Students may gain access to their VA forms at www.benefits.va.gov/gibill and the Elizabeth City State University form at www.ecsu.edu or in the military affairs office. Continuing students, those currently receiving benefits at Elizabeth City State University, may mail or email their signed requests after enrolling in subsequent semesters. Students who mail must follow-up via phone or email (Veteran@ecsu.edu) to ensure that the office has received their request.

**VETERANS ACCESS, CHOICE, AND ACCOUNTABILITY ACT OF 2014**

The following individuals shall be charged a rate of tuition not to exceed the in-state rate for tuition and fees purposes:

A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post- 9/11 G.I. Bill), of title 38, United States Code, who lives in North Carolina while attending a school located in North Carolina (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.

- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in North Carolina while attending a school located in North Carolina (regardless of his/her formal State of residence) and enrolls in the school within three
years of the transferor's discharge or release from a period of active duty service of 90 days or more.

- **Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b) (9))** who lives in North Carolina while attending a school located in North Carolina (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member’s death in the line of duty following a period of active duty service of 90 days or more.

- **Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school.** The person so described must have enrolled in the school prior to the expiration of the three year period following discharge, release, or death described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

**VA EDUCATION PROGRAMS**

**The Post 9/11 GI Bill, Chapter 33**

The Post 9/11 GI Bill provides financial support for education and housing to individuals with at least 90 days of aggregate service on or after September 11, 2001, or individuals discharged with a service-connected disability after 30 days. You must have received an honorable discharge to be eligible for the Post 9/11 GI Bill.

The Post 9/11 GI Bill became effective for training on or after August 1, 2009. The amount of support that individuals may qualify for depends on where he/she lives and what type of degree is being pursued. For a summary of Post 9/11 GI Bill benefits, see the benefit comparison chart, http://vets.gov/gi-bill-comparison-tool

Approved training under the Post 9/11 GI Bill includes graduate and undergraduate degrees, and vocational/technical training. All training programs must be offered by an institution of higher learning (IHL) and approved for GI Bill benefits. Additionally, tutorial assistance, licensing and certification test reimbursement are approved under the Post 9/11 GI Bill. Pamphlets and fact sheets about the Post 9/11 GI Bill can be found at http://benefits.va.gov/gibill/education_programs.asp

**The Montgomery GI Bill-Active Duty (MGIB-AD), Chapter 30**

The MGIB program provides up to 36 months of education benefits. This benefit may be used for degree and certificate programs, flight training, apprenticeship/on-the-job training, and correspondence courses. Generally, benefits are payable for 10 years following a student’s release from active duty. Vietnam-era veterans with remaining entitlement under (Chapter 34, title38, U.S. Code) pamphlet can be found at http://benefits.va.gov/gibill/docs/pamphlets/ch30_pamphlet.pdf

**Vocational Rehabilitation and Employment, (VR&E)**

- **Comprehensive evaluation to determine abilities, skills, and interests for employment**
- **Vocational counseling and rehabilitation planning for employment services**
- **Employment services such as job-training, job-seeking skills, resume development, and other work readiness assistance**
- **Assistance finding and keeping a job, including the use of special employer incentives and job accommodations**
- **On the Job Training (OJT), apprenticeships, and non-paid work experiences**
- **Post-secondary training at a college, vocational, technical or business school**
- **Supportive rehabilitation services including case management, counseling, and medical referrals**
- **Independent living services for Veterans unable to work due to the severity of their disabilities**

Information can be found at http://www.benefits.va.gov/voc rehab/eligibility_and_entitlement.asp

**Veterans Education Assistance Program (VEAP), Chapter 32**

VEAP is available for students who first entered active duty between January 1, 1977 and June 30, 1985 and elected to make contributions from military pay to participate in this education benefit program. Contributions are matched on a $2 for $1 basis by the government. This benefit may be used for degree and certificate programs, flight training,
apprenticeship/on-the-job training and correspondence courses, pamphlet can be found at http://www.benefits.va.gov/gibill/docs/pamphlets/ch32_pamphlet.pdf

Survivors and Dependents Assistance Program,

There are two main GI Bill programs offering education assistance to survivors and dependents of Veterans:

- The Marine Gunnery Sergeant John David Fry Scholarship (Fry Scholarship) is available for children and spouses of Service members who died in the line of duty after September 10, 2001.
- The Survivors' and Dependents' Educational Assistance (DEA) Program offers education and training opportunities to eligible dependents of Veterans who are permanently and totally disabled due to a service-related condition or of Veterans who died while on active duty or as a result of a service-related condition.

Information can be found at http://www.benefits.va.gov/gibill/survivor_dependent_assistance.asp

The Montgomery GI Bill-Selected Reserve (MGIB-SR), Chapter 1606

The MGIB-SR program may be available to students if they are a member of the Selected Reserve. The Selected Reserve includes the Army Reserve, Navy Reserve, Air Force Reserve, Marine Corps Reserve, Coast Guard Reserve, Army National Guard and the Air National Guard. This benefit may be used for degree and certificate programs, flight training, apprenticeship/on-the-job training and correspondence courses. Pamphlets can be found at http://www.benefits.va.gov/gibill/docs/pamphlets/ch1606_pamphlet.pdf

Accelerated Payment for MGIB-AD

An accelerated payment is a lump sum payment of 60% of tuition and fees for certain high-cost, high-tech programs. To qualify, students must be enrolled in a high-tech program and must certify that they intend to seek employment in a high-tech industry as defined by the VA. Accelerated payment is paid instead of Montgomery GI Bill benefits that the student would otherwise receive. Information can be found at http://www.benefits.va.gov/gibill/accelerated_payments.asp

Licensing and Certification

Students can receive reimbursement for licensing and certification tests they take on or after March 1, 2001. These tests must be specifically approved for the G.I. Bill. The VA can pay only for the cost of the tests and no other fees connected with obtaining a license or certification. Information can be found at http://www.benefits.va.gov/gibill/licensing_certification.asp

Tuition Assistance “Top-Up”

Tuition Assistance “Top-Up” benefits are equal to the difference between the total cost of a college course and the amount of tuition assistance that is paid by the military. Tuition Assistance (TA) and Top-Up are not administered through this office; students must request benefits for these programs through their unit’s education services offices. When received from their unit’s educational services office, students submit TA authorization forms directly to the Elizabeth City State University student account’s office for payment of tuition only. Fees are the student’s responsibility. Information can be found at http://www.benefits.va.gov/GIBILL/docs/factsheets/topup.pdf

National Testing Program

Advancing your education often requires you to take costly national tests. Students can be reimbursed all required (mandatory) fees charged for national admission tests and national tests for college credit. Information can be found at http://www.benefits.va.gov/gibill/national_testing.asp

Standards of Progress

The Department of Veterans Affairs requires that students receiving educational benefits maintain satisfactory progress. This office is required to submit notification of unsatisfactory progress to the VA when a student is placed on academic probation, suspension or dismissal.

Undeclared Major

Students pursuing a bachelor's degree may not have to declare a major before their junior year at some schools. If a freshman or sophomore has not declared a major, report the student's program as "Bachelor
(undeclared). The student cannot be certified beyond his or her sophomore year unless a major is declared. Only "General Education" courses can be certified prior to the declaration of a major.

**Non-matriculated Students**

VA defines matriculated as having been formally admitted to a college or university as a degree-seeking student. VA educational benefits cannot be paid to non-matriculated college or university students unless they are pending admission to your school. In that case, they can be certified for two quarters or semesters. The student can be certified beyond this two-term limit only if the student is admitted to your school as a degree-seeking student, irrespective of the number of credits taken.

- Certify a non-matriculated student as "Bachelor (non-matriculated)" or "Post-baccalaureate (non-matriculated)." The only courses that can be certified are those required for admission and those required if admitted.

**ADDITIONAL BENEFITS AVAILABLE TO ELIGIBLE STUDENTS**

**Flight Training**

VA offers flight training benefits to those who want to advance their pilot qualifications. You must have a private pilot’s license and valid medical certification before you start training. Payments are issued after the training is completed and the school submits your enrollment information to VA.

http://www.benefits.va.gov/gibill/flight_training.asp

**VA Work-Study Program**

This program is available to any student receiving VA educational benefits who is attending school three-quarter (3/4) time or more. An individual working under this program may work at the school’s Military Affairs Office, VA Regional Office, Financial Information VA Medical Facilities, or at an approved state employment office. Work-study students are paid at either the state or federal minimum wage, whichever is greater. The student must contact the school, medical facility, or employment office at which he/she desires employment to determine if positions are available prior to applying.

Please note: Effective June 30, 2013, some work-study activities authorized by Congress expired. VA can no longer pay for certain work-study activities. Those are:

- Outreach services to Service members and Veterans furnished under the supervision of a state approving agency employee
- Hospital and domiciliary care and medical treatment to Veterans in a State home when VA pays an allowance to the state for such care
- Any activity relating to the administration of a national cemetery or a state Veterans' cemetery

All other work-study activities are unaffected.

Information can be found at:
http://www.benefits.va.gov/gibill/workstudy.asp

**Tutorial Assistance Program**

Assistance may be available to those who are eligible under Chapters 30, 32, 33, 35, and 1606 to aid student’s expenses when tutoring becomes necessary. The allowance is a supplement to the monthly educational assistance check and is paid without entitlement charge for those under Chapter 35. Entitlement for those under other chapters will be charged if the tutorial assistance exceeds $600.

Information can be found at
http://benefits.va.gov/gibill/tutorial_assistance.asp
University Honors Program

MISSION

The mission of the Honors Program is to provide an enhanced and supportive learning environment for academically gifted undergraduate students. The mission will be accomplished through the active involvement of faculty recognized for their excellence in teaching small Honors seminars, and through opportunities for research. The Honors Program is a unit with its own budget and a Director who is administratively responsible to the Vice Chancellor/Provost through the Assistant Vice Chancellor for Academic Affairs. The Director works in close cooperation with a University Honors Council and to establish and review policies and procedures for the Honors Program.

The Honors Program is designed to challenge students with high academic potential at an accelerated rate and to provide them with exposure to a wide variety of in-depth academic, social, cultural, and international experiences. The Honors Program is committed to fostering achievement at superior levels so that by graduation students will:

1. demonstrate skills in research, writing, and oral presentation;
2. design, develop, and present documented works which demonstrate critical thinking skills;
3. apply knowledge gained in the classroom and in community service activities;
4. display exceptional proficiency in the command of both written and oral communication; and
5. exhibit awareness of literary, cultural, social, and community service behaviors and be able to assess the values of such as behaviors through reflection and demonstration.

STRATEGIES

In addition to the high quality of instruction that students gain in their regular course work, Honors sections of many core courses have been developed in the General Education area. In an Honors section of a course, the course work is not only more advanced, but more in-depth.

The heart of the Honors Program is the colloquium concept, which is designed to improve students’ communication skills, both oral and written. Using this concept, the University is able to meet the needs of its academically talented students.

A program of cultural and social activities is provided for Honors students. These activities may include field trips, plays, concerts, tours, and workshops. Honors students are expected to represent the University at Honors conferences nationally and regionally through debate, quiz bowl, poster and other competitions. Honors activities are intended to increase student interest and improve the retention rate among Honors students.

To ensure that adequate recognition is given to these students, the Honors Program will (1) award a certificate of participation as students successfully complete each year in the Program, (2) institute a structured series of forums under the aegis of the Honors Program, (3) initiate an Honors Newsletter/Arts Magazine, (4) identify Honors students at graduation by a specific visual symbol, and (5) record "Honors Program Graduate” on the diploma and on the transcripts of students who successfully complete the Honors requirements.

The Honors Program sponsors a peer tutoring program in which upper-division Honors students assist lower-division students in the core courses in the General Education area and in the major disciplines.

The Honors Program sponsors a Junior Mentor program that allows juniors to serve as ombudsmen to freshman Honors students.

The Honors Program supports debate exercises to give students opportunities to think critically and to solve problems.

OBJECTIVES

The Honors Program’s major objectives are:
1. to develop a unified program of rational and creative thinking, writing, verbal, and reading skills through the colloquial concept in an effort to improve students’ skills;
2. to promote Honors seminars designed to facilitate dialogue between Honors students and faculty without the pressure of grades;
3. to participate in career workshops for Honors students in a variety of fields;
4. to arrange internships in cooperation with the Cooperative Education Program, International Program, and academic departments;
5. to enhance the overall quality of the University’s academic programs and the academic climate of the Institution; and
6. to promote international study and travel experiences.

ADMISSION REQUIREMENTS

Admission for first semester freshmen into the Honors Program is determined as follows:
1. Students who are National Merit Scholarship finalists will automatically be admitted to the Program;
2. Students with a 3.50 grade-point average (un-weighted) for their four years of high school will be considered for admission to the Program, if they have satisfactory SAT or ACT scores and if they have followed the academic track in high school. Furthermore, students will become eligible for admission to the Program only after satisfying additional criteria. These criteria may include the successful completion of an interview with the Director and/or members of the University Honors Council, teacher recommendations, a writing sample, and university placement tests.

Admission for other students into the Honors Program is determined as follows:
1. Second semester freshmen or first semester sophomores are considered for admission to the Honors Program if they meet the admissions criteria for Honors in addition to having demonstrated outstanding performance in individual university-level courses. With approval from the Director of the Honors Program the students must also:
   a. have a cumulative grade point average of 3.25;
   b. present well-written essays of interest, intent, and commitment to participate in the Program.
2. Transfer students are welcome to apply for the Honors Program. They must present an official transcript demonstrating high academic achievement and it will be evaluated by the director of the Honors Program.
3. ECSU students who are classified as juniors may join the Honors Program, provided they enroll in Honors Seminars for the two years prior to graduation and are able to meet minimal requirements for Honors.

RETENTION REQUIREMENTS

To remain in the Honors Program, students must maintain overall 3.25 grade point averages during the freshman year. Students are expected to attend regular meetings of colloquia, or as called by the Director. Failure to attend these meetings or adhere to any of the requirements documented by the University Honors Council may result in dismissal from the Program.

HONORS PROGRAM PROBATION AND REINSTATEMENT

After the freshman year, students will be placed on probation if their overall grade point average drops below 3.25. If students’ grades improve to the acceptable level by the end of the next semester, they are reinstated. Student requests will be considered by the Director and/or the Honors Council. Students who are on probation more than twice will not be eligible for reinstatement. Students who make Ds while maintaining the appropriate average must repeat the courses, but they will not be put on probation.

GRADUATION REQUIREMENTS

To graduate with the Honors Designation, a student shall have completed 24 credit hours of Honors courses by HON designation or by contract. The student must complete and defend an Honors Thesis. Upon completion of degree requirements, the overall grade point average must be 3.25. Honors Program graduates must make no less than a B in all Honors courses and cannot have a grade below a C in any course.

Honors Colloquia and the Senior Thesis

The heart of the Honors Program is the colloquium concept, which is designed to improve analytical,
comprehensive, oral, and written communication skills.

Even though the Honors Colloquia are rather flexible, the basic format will:
• incorporate field trips, forums, and seminars;
• include writing and group discussion as a regular part of class activities;
• demonstrate an integration of classroom knowledge with everyday events;
• include readings from the list of Great Books; and
• include the planning and execution of a major scholarly project which culminates in a forum or seminar for the general university public.

The colloquia will be divided according to classes as follows:

**Freshman Class—Freshman Honors Colloquia**
HON 194/195 Freshman Honors Colloquia 1 per course

* HON 194: Students may take two semesters to complete the Senior Colloquium project (e.g., Senior Honors Thesis) with an IP (In Progress) grade for the first semester

**Sophomore Class—Sophomore Honors Colloquia**

An interdisciplinary approach is used in presenting themes and ideas which are related to and integrated with everyday events, world concerns, service learning, debate, etc.
HON 294/295 Sophomore Class—Sophomore Honors Colloquia 1 per course

**Junior Class—Junior Honors Colloquia**

A thematic approach involving the "Great Ideas" (Justice, Love, Death, etc.) as a frame of reference.
HON 394/395 Junior Class—Junior Honors Colloquia 1 per course

**Senior Class—Senior Honors Colloquia**

A demonstration of the student’s research by involvement in a project in his or her major discipline (Thesis, literary or artistic production, etc.) and an oral defense.
HON 494 Senior Honors Colloquium 3

Design for students to complete the senior thesis or literary/artistic production, etc. Prerequisite: HON 494 and consent of Director of Honors Program.
HON 495 Senior Honors Colloquium 1

**General Studies**

Two courses in Honors English and one course in Honors Mathematics, if applicable, preferably in the freshman year.

### Honors Courses: 9-15 Sem. Hrs.

**In lieu of Freshman Seminar**

**Sophomore Honors Colloquium**
HON 294/295 Sophomore Class—Sophomore Honors Colloquia 1 per course

**Junior Honors Colloquium**
HON 394/395 Junior Class—Junior Honors Colloquia 1 per course

**Senior Honors Colloquium**
HON 494 Senior Honors Colloquium 3

Students may take two semesters to complete the Senior Colloquium project with an IP (In Progress) grade for the first semester.

**This course includes a Senior Honors Thesis/Research Project**

which must be approved by an advisor in the major Department with consent of the Honors Program Director and/or the Honors Council.
HON 495 Senior Honors Colloquium 1

**This course is designed only for students to complete and defend the Senior Honors Thesis/Research Project begun in HON 494.**

Major Discipline 6–12 Sem. Hrs. 6-12

Students may take 6–12 semester hours in their major discipline by contract or Honors Option.
• An overall grade point average of 3.25 for Honors courses.
• A grade point average of at least a B earned in Senior Colloquia.
• A cumulative grade point average of 3.25 in all University courses.

**HON 201/HON 202 SOPHOMORE HONORS SEMINAR (3; 3) (F/S)**

The Honors Seminar is a facilitated course that can be taught by multiple faculty members. The course will have an interdisciplinary theme. The Honors Seminar
is designed for all sophomore-level or above Honors Program students.

Faculty members propose the theme of the course and outline the format of the class. In addition, faculty members organize the course, invite guest lecturers, lead primary discussions, give assignments, and evaluate students. The course must include intensive reading, writing, and research.

**HON 301/HON 302 JUNIOR HONORS SEMINAR (3; 3) (F/S)**

The Honors Seminar is a facilitated course that can be taught by multiple faculty members. The course will have an interdisciplinary theme. The Honors Seminar may be taken by all sophomore-level or above students and transfer students. Prerequisite: Permission of Instructor or of Honors Program Director.

Faculty members propose the theme of the course and outline the format of the class. In addition, faculty members organize the course, invite guest lecturers, lead primary discussions, give assignments, and evaluate students. The course must include intensive reading, writing, and research. As a requirement of the course, an oral presentation of the research work of this course must be presented at an on-campus research forum.

**HON 399/HON 499 HONORS INDEPENDENT STUDY (3; 3) (F/S)**

Study of special topic(s) in consultation with, and completed under the supervision of a member of the Honors faculty, or other faculty upon approval of the Director of the Honors Program and Honors Council. Prerequisite: Junior or senior standing in the Honors Program.

**Honors Credit by Contract**

Honors credit by contract will enable students to receive honors credit in regularly scheduled courses in their majors.

H-option courses will likely include one or more of the following criteria:

- reading in addition to that normally required for the course, attested to either by oral presentation or written work;
- guided research involving either data from primary sources, a laboratory investigation, or field research resulting in a creative presentation or an individual report with annotated bibliography and other features normally incorporated into an advanced-level-report; and/or
- class or peer presentations which are prepared, designed, and delivered to a standard that will qualify for Honors credit.

Regardless of the individual structure of H-option contracts, they are all likely to share one or more of the following characteristics:

1. provision for additional consultation between student and instructor;
2. inclusion of data sources or a laboratory investigation beyond that routinely required in a course;
3. evaluation methods which are specific and rigorous; and
4. choice of subject matter, project, or laboratory problem within the sphere of interest of the student and instructor.

Students pursuing H-option credit are responsible for all regularly scheduled work in a course in addition to any special H-option requirements.

**UNIVERSITY HONORS PROGRAM GOVERNANCE**

The Program is headed by the Honors Program Director, who works in conjunction with the University Honors Council. The ECSU Honors Program is a member of The National Collegiate Honors Council, The Southern Regional Honors Council, and The National Association of African American Honors Programs.

**THE SUMMER SCHOOL PROGRAM MISSION**

The Summer School Program, in support of the mission of Elizabeth State University (ECSU), is committed to educating and preparing individuals for Baccalaureate Degree programs in the arts and sciences, selected professional and pre-professional areas, and Master’s Degree Programs in Elementary Education, Biology, School Administration, and Mathematics. ECSU offers a challenging and supportive environment that prepares its students for knowledgeable, responsible participation and leadership in an ever-changing, technologically-advanced global society. The University promotes
excellence in teaching as its primary responsibility for meeting the needs of the students and citizens of the state. Through its teaching, research, and community outreach, the University seeks to identify and address the needs of northeastern North Carolina with particular attention to supporting its environmentally sensitive economic development.

**GOAL**

The goal of the Summer School Program is to offer a wide range of undergraduate and graduate courses needed by the greatest number of ECSU students in fulfilling their general education and degree requirements. In addition to regular day-time courses, offerings include a variety of distance learning and evening courses.

The 10-week main and two 5-week summer sessions at ECSU have a three-fold purpose. First, they offer an opportunity for college students to take special courses not normally available during the academic year to broaden their academic approach. Second, they serve previously enrolled ECSU students who desire to hasten their acquisition of college degrees or to gain additional credits toward completion of their class standings. Third, they provide incoming freshmen an opportunity to adapt themselves to the academic demands of college in an environment that is relatively free of the usual pressures of extra-curricular activities. The ten-week wrap-around session gives students the option of a more lengthy session for the mastery of more difficult courses.

A complete listing of course names, numbers, and call numbers, used for Web registration, is included in the Summer School marketing materials and on the ECSU Website. Course descriptions (p. 206) are in the University Catalog.

**SUMMER COURSE LOAD**

The maximum course load for students is six (6) semester hours per summer session. The maximum number of hours that can be taken during the summer is twelve (12).

**PROGRAM EXPECTATIONS**

All new students who are admitted to Summer School must meet the same general entrance requirements as the students admitted to the regular academic year program. Transfer and unclassified students who plan to attend ECSU for the first time (who are not continuing academic year students) must apply for admission to the University in time to fulfill the requirements for acceptance at least one week prior to the date of registration. Visiting or transient students must present a letter of permission from the institution where they intend to receive their degree, approving their enrollment in Summer School at ECSU.

Summer instruction is both face-to face and online. Online and face-to face course offerings and instructions on how to register can be found on the ECSU Website.

The schedule of classes, instructional formats, program designs, and faculty and staff office hours have been conveniently established with our students’ best interests in mind. Academic support services are also offered during the summer through our advisors and counselors along with career development and academic counseling. The Web-based course management system Blackboard is an essential tool used to facilitate the instructional process. A small student-faculty ratio makes possible an intimate classroom environment. The short length of the summer session provides an opportunity for students to take courses at approximately one-half the cost per semester hour as during the academic year. Thus, considerable savings are possible to the student who completes his or her degree requirements in three years by going to two or three summer sessions.

ECSU professors and adjunct faculty provide the same quality of instruction as expected during the regular academic year. Regular ECSU professors and impressive adjunct faculty provide the instruction. The course content and academic standards in all courses are the same as in regular semesters. However, there are some basic differences that give the Summer School a distinct character of its own.

ECSU’s campus is full of activities during the summer months with Fall incoming freshmen participating in student orientation, advising, financial aid, and the registration process. A number of workshops, seminars, symposia, and institutes supported by local, state, and federal agencies are held on campus during the summer. These activities facilitate the successful integration of students into the academic and social components of the campus environment. During the summer, the facilities of the University are also utilized by a variety of programs,
including NC-MSEN, Upward Bound, VA- NC LSAMP Program, V.I.K.I.N.G.S. Academy Scholars Program, and others, bringing students of all ages with diverse interests to ECSU.

PROGRAM ADMINISTRATION

The Summer Program Director is administratively responsible to the Provost and Vice Chancellor for Academic Affairs through the Assistant Vice Chancellor for Academic Affairs. The Director works in close cooperation with the various constituent parts of the University to implement the Summer Program in conjunction with the various support services of the University. The Summer School Advisory Committee provides input to the Director for the purpose of program governance. The Summer School Program is affiliated with the regional and national groups of the North American Association of Summer Sessions (NAASS).

For more information regarding the Summer School Program at Elizabeth City State University, call (252) 335-3294 or email us at summer@ecsu.edu.

OFFICE OF GRADUATE EDUCATION

Graduate Education is committed to the mission of Elizabeth City State University. Quality graduate degree programs are designed to meet the needs of the citizens of northeastern North Carolina, the state, the nation, and the global community. Dedicated faculty and staff prepare students in a challenging, supportive, and highly technical environment to compete and excel in a technologically advanced society for the 21st century global economy.

The graduate degree program offerings include: The Master of Education in Elementary Education; The Master of School Administration; The Master of Science in Biology, which includes two concentrations: Biology Education and Applied Biology; and The Master of Science in Mathematics, which includes four concentrations: Mathematics Education, Applied Mathematics, Community College Teaching and Remote Sensing. For your convenience, you may access our graduate catalog, applications, and enrollment forms for all graduate programs on our website at www.ecsu.edu/academics/graduateeducation/index.cfm
ORGANIZATION

The academic units of the University consist of 12 Departments under the administrative leadership and supervision of the Provost and Vice Chancellor for Academic Affairs, department chairs, and program directors. The departments offer various curricula leading to the degree of Bachelor of Science in Education, Bachelor of Science, Bachelor of Arts, and Bachelor of Science in Social Work. The academic departments are as follows:

Walter R. Davis Department of Business and Economics
Department of General Studies
Dr. Helen M. Caldwell Department of Education, Psychology and Health
Department of Language, Literature and Communication
Department of Mathematics and Computer Science
Department of Military Science
Dr. Herman G. Cooke Department of Natural Science, Pharmacy and Health Professions
Department of Social and Behavioral Sciences
Department of Technology
Department of Visual and Performing Arts

DEGREES OFFERED

The successful completion of academic units and general institutional requirements qualifies a student to receive one of the baccalaureate degrees offered by Elizabeth City State University. All baccalaureate degree and discipline area programs are defined in terms of major, related area courses, concentrations/specializations, academic concentration, and/or minors. Listed below are the operational definitions for these:

MAJOR — A major consists of a group of prescribed and elective courses providing breadth and depth in an academic discipline, in two or more closely-related disciplines, or in an interdisciplinary field of study. All majors at ECSU are defined in terms of a specific number of semester hours which may range from 30 to 60 semester hours.

RELATED AREAS — The requirement of a major in one discipline may include supporting courses selected from other disciplines (related areas).

CONCENTRATION/SPECIALIZATION — A concentration is a student’s option within a major that consists of a group of prescribed courses designed to provide preparation in a specialty within the major discipline or tangential to it. Concentrations are required in some majors. Each concentration must be defined in terms of a specific number of semester hours, and this number is a part of the total number of hours required for the major. Concentrations must have a minimum of 12 semester hours. The number of credits in a concentration may not exceed the number of credits in the major.

MINOR — A minor consists of a group of prescribed and elective courses in an academic discipline, two or more related disciplines, and interdisciplinary fields of study, or a specially designed individual program. It differs from a major principally in requiring fewer courses and providing less depth. A student may not major and minor in the same field. All minors at ECSU are defined in terms of a specific number of semester hours which may range from 18 to 24 semester hours. The exception is Secondary Education, ranging from 24 to 31 semester hours.

FREE ELECTIVE - A free elective is a noncompulsory course that is not part of a student's major, related area, or concentration requirements. All academic programs must have a minimum of 9 semester hours of free electives.

STUDENT RECORDS PRIVACY POLICY

The University’s policy for the administration of student educational records is in accordance with the provisions of The Family Educational Rights and Privacy Act of 1974 (P.L. 93-380) as amended. Personally identifiable information contained in students’ educational records will not be disclosed to persons outside the University without the prior written consent of the student. Under this policy the student also has a right of access to his or her education records maintained by the University or any department within the University. Each member of the faculty should be thoroughly familiar with this policy and comply with its provisions.

RELEASE OF DIRECTORY INFORMATION

For the convenience of students, parents, other members of the university community, and the general public, the University will make available, upon request, directory information about its students. In compliance with the Family Educational Rights and Privacy Act (P.L. 93-380), ECSU will continue to release the following types of information: the student’s name, address, telephone listing, campus email address, date of birth, major field of study, dates of attendance, degree earned, and awards received. Students who do not wish to have directory information released without prior consent must make their request to the Office of the Registrar in writing within seven days after the first registration day of the current term of enrollment.

CHANGE OF NAME AND ADDRESS

It is the obligation of every student to notify the Office of the University Registrar of any name change by providing a copy of their most recent Driver’s License Marriage License or Social Security Card. Address changes can be made on line via Self Service Banner.

TRANSCRIPTS OF RECORDS

Elizabeth City State University uses National Student Clearinghouse to accept transcript orders via Online Transcript Ordering. All work attempted (undergraduate and graduate) is included on your transcript.

ONLINE TRANSCRIPT ORDERING

The Office of Registrar is pleased to provide current students and alumni with a more efficient, accurate and speedy service for ordering and receiving transcripts.

Among the benefits that you will receive from Online Transcript Ordering are:

- Transcripts can be ordered via the web 24/7 through the National Student Clearinghouse.
- Secure transactions.
- Convenient Payment Options. (Discover, MasterCard, or Visa).
- Receive order status via E-mail and/or text message.
- Online order tracking.
- Ability to order multiple transcripts for multiple recipients in one order.

The standard processing time for a transcript request is three business days. Transcripts older than Fall 1994, data mismatches and/or request received during peak periods such as the end of a semester may require additional time for processing. An email notification will be sent when the transcript has been processed for delivery. Transcript orders will not be processed when the University Registrar’s Office is closed.

There is a change in the cost of the transcript; the fee structure is listed below. It is important to note that
the most cost effective way to receive your transcript is through the online option.

<table>

<td>$67.25</td>
</tr>
</tbody>
</table>

Elizabeth City State University will prevent transcripts from being released until all obligations to the university are paid in full. All orders placed on hold due to indebtedness will be canceled after 30 days. Current students can view their holds in their Self Service Banner Accounts. Former students may contact the University Bursar at 252-335-3471 or by email at bursar@ecsu.edu.

** Effective May 31, 2018 transcripts will longer be available for pick-up from the Office of the Registrar. **

**$100 will be assessed to the student’s account for failing to pre-register.**

Students who register early and fail to confirm courses and pay fees by the dates designated for official registration will have their schedule of courses automatically withdrawn by the University Registrar’s Office. Students who find it necessary to register after the designated dates must pay a late registration fee and select another schedule of courses for that semester.

A student is not officially registered until he or she has met all financial obligations to the University.

A student cannot attend classes if he or she is not properly registered for that course and section. Failure to follow proper registration procedures will result in loss of credit. Students whose names are not on the instructor’s class roll for each class must contact the University Registrar’s Office.

**INDEBTEDNESS**

All indebtedness to the University must be satisfactorily settled before a diploma or transcript will be issued.

**PROGRESS TOWARD GRADUATION IN FOUR YEARS**

To graduate in four years, the student must successfully complete all graduation requirements and an average annual course load of 31 semester hours. This course load requires the student to take approximately 15-16 hours per semester or earn hours through summer enrollment.

**READMISSION: REINSTATEMENT OF FORMER STUDENTS**

Students wishing to return to the University after voluntary or involuntary absence must have a grade point average of 2.0 when last enrolled at the University and apply for readmission by completing the following process:

1. Visit http://www.ecsu.edu/admissions/index.html to complete an online application;
2. Activate your Viking Portal; have official transcript(s) sent to the Office of Admissions for every college attended after ECSU;
3. See an Academic Advisor to review course curriculum requirements;
4. Once admitted see an academic advisor for course registration.

Students with a break in their enrollment studies of less than six (6) years are governed by the catalog of initial enrollment to the University. Students with a break in their enrollment of more than six (6) years are governed by the catalog year of readmittance to the University.

Students seeking readmission should apply for financial aid at least 30 days prior to the start of the semester of enrollment. Students who do not apply for aid as stipulated will be required to pay the full cost of attendance at enrollment. Students with an outstanding account will not be allowed to register for classes until their balance is paid in full.

REGISTRATION

All students must officially register at the beginning of each semester and/or summer term; registration by proxy is not permitted. Each student is assigned a faculty advisor to assist in planning a program of study. Complete registration instructions are contained on the Registrar’s Office Web page.

Students are registered for and entitled to attend classes only when they have completed prescribed procedures, including payment of fees. Students not registered by the designated date must pay a $25 late registration fee.

Students planning to return to the University after a break in enrollment, earning a degree or attending another university are required to re-apply on line via the Admissions Webpage to obtain readmission status.

Official registration days for each semester and each term of Summer School are indicated on the University Calendar.

CANCELLATION OF COURSE REGISTRATION POLICY

The University Registrar (upon the recommendation of the instructor) may cancel a student’s registration in any course within a department if the registered student fails to attend the class during the first two weeks of a semester and fails to notify the instructor of his or her desire to remain enrolled in the course.

The Provost and Vice Chancellor for Academic Affairs will notify the relevant department chair of late-arriving students who cannot attend the first class meeting because of illness or other reasons.

CHANGE OF COURSE SCHEDULES

Students are responsible for the schedule of courses for which they have officially registered; therefore, the program of study should be carefully planned with the guidance of the academic advisor so that changes in registration will not become necessary at a later date. A student may drop and/or add courses online or change course sections with the approval of the advisor until the close of the official add/drop period.

ADDING AND DROPPING COURSES

ECSU emphasizes the importance of students making realistic course load decisions, staying focused, and completing courses. But there may be situations when a student must withdraw from a course. Students may withdraw from any course or courses without penalty by accessing Self Service Banner on or before the last day to withdraw from an individual course, as published in the Academic Calendar. This policy specifies limitations on course withdrawals.

MAXIMUM COURSE WITHDRAWAL (SEMESTER HOURS)

Students can drop classes without penalty during the schedule change (drop/add) period at the start of the semester. Schedule change deadlines are published in the academic calendar. After the drop/add deadline, students can withdraw from no more than 16 semester hours during their undergraduate career in which a grade of "W" will be posted to a student's transcript. After a student has exceeded
this limit, the student must receive a final grade of A, B, C, D, or F. A grade of Incomplete ("I") will not be allowed as a substitute for a course withdrawal beyond the course withdrawal limit. Any course that a student withdraws from is counted toward the 16 semester hour limit.

TRANSFER STUDENTS

Regardless of the number of colleges a student may have attended, the number of classes they may have taken, or the number of years they enroll as undergraduates, the policy limits them to 16 semester hours of course withdrawals. This includes any course a transfer student has dropped at another institution of higher education. The following chart shall be used:

<table>
<thead>
<tr>
<th>Transfer Hours</th>
<th>Max Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-23</td>

</tr>
</tbody>
</table>

AUDITING COURSES

A regular full-time student may audit two courses in a given semester with written agreement from each instructor, the faculty advisor, and approval of the department Chair. Students must register officially for the classes they desire to audit. Preparation and participation in the classroom discussion and laboratory exercises will be at the discretion of the instructor. Students auditing courses are not required to take examinations or tests; however, they may do so if they desire. Auditing students receive no credit; a change may be made from audit to credit or vice versa before the 10th day of classes for that semester. The auditing form is available by accessing the University Registrar’s Office Webpage under Forms and Documents.

ACADEMIC ELIGIBILITY STANDARDS

ACADEMIC STANDING (EFFECTIVE FALL 2014)

A student’s academic standing during any term is determined by the cumulative Grade Point Average (GPA) earned on the total quality hours. To be in good standing all incoming freshmen must maintain a cumulative 2.0 GPA. Individuals with less than a cumulative 2.0 GPA are placed on either probation or suspension.

The cumulative GPA compared to the semester hours attempted and earned is used to determine the academic standing of a student. Evaluations are made to determine the academic standing of students at the end of the Fall and Spring semester. To determine the academic eligibility of transfer students, total credit hours accepted from other institutions are added to the credit hours attempted and credit hours earned at ECSU. Students are expected to maintain awareness of their academic standing by obtaining periodic assistance from their assigned academic advisors and/or the University Registrar’s Office. The minimum academic standing requirements are as follows:

<table>
<thead>
<tr>
<th>Cumulative Earned Hours</th>
<th>Minimum Cumulative GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 -29</td>
<td>2.0</td>
</tr>
<tr>
<td>30 – 59</td>

<td>2.0</td>
</tr>
<tr>
<td>90 – 190</td>
<td>2.0</td>
</tr>
<tr>
<td>2nd Degree &amp; Certificate</td>
<td>2.0</td>
</tr>
</tbody>
</table>

ACADEMIC SANCTIONS

Undergraduate students’ academic standing is based on the cumulative grade point average (CGPA) and Successful Completion Rate (earned hours divided by attempted hours). In order to be in Good Academic Standing students must

1. Have a cumulative GPA of at least 2.0; and
2. Earn a minimum of 67% of the cumulative credit hours they have attempted.

All prior coursework, attempted and earned, is reviewed in the determination of Academic Standing. The Office of the Registrar will measure a student’s academic performance at the end of each academic term.

Students who fail to meet the cumulative GPA requirement of 2.0 and/or 67% cumulative
completion rate will be placed on academic sanction. Academic sanctions include academic warning, academic probation and academic suspension.

**Academic Warning**
A student will be placed on academic warning for one semester when the student's cumulative GPA falls below 2.0 or their cumulative completion rate (earned hours divided by attempted hours) is less than 67% at the end of a semester, including summer sessions. Students with a status of academic warning may enroll in courses and must complete an Academic Intervention Plan.

A student on academic warning must achieve a cumulative GPA of at least 2.0 and a cumulative completion rate of at least 67% at the end of the next semester of attendance to be in good academic standing. Failure to achieve a cumulative GPA of at least 2.0 and a cumulative completion rate of at least 67% will result in academic probation. Students on Academic Warning are required to comply with the terms of their Academic Intervention Plan.

**Academic Probation**
A student is placed on academic probation when the student's cumulative GPA falls below 2.0 and/or their cumulative completion rate (earned hours divided by attempted hours) is less than 67% for two consecutive semesters of attendance, including summer sessions. A student on academic probation may not enroll in more than 15 credits per semester and no more than one course in any single summer session except under extenuating circumstances and with the permission of Academic Affairs.

Students on Academic Probation are required to enroll and successfully complete the requirements of UNIV 100 and comply with the terms of their Academic Intervention Plan.

A student on academic probation must achieve a cumulative GPA of at least 2.0 and a cumulative completion rate of at least 67% while on probation will result in academic suspension.

**Academic Suspension**
A student who does not achieve a cumulative GPA falls below 2.0 and a cumulative completion rate of at least 67% at the end of their probation term shall be placed on academic suspension. Students on academic suspension may not enroll in courses. Students who are placed on academic suspension must sit out of ECSU for two consecutive semesters, not including the summer session. After the required two semester absence, suspended students may apply to the university to be readmitted on academic probation.

**Academic Suspension Appeals**
Students have the right to appeal academic suspensions and request readmission because of extenuating circumstances. The mitigating circumstances must be appropriately documented for the semester(s) in which the deficiency occurred. Appeals must include:
1. A detailed explanation of the extenuating circumstances that occurred during the specific semester in which the student was placed on Academic Suspension.
2. All necessary documentation to support the existence of the circumstances described (examples would include letter from doctor, clergy, professional, etc…) and evidence that the circumstances have been resolved.
3. Incomplete appeals will not be reviewed. If additional information is required, an email will be sent to the student’s ECSU email account. After 30-days of being incomplete, the appeal will be denied.
4. Once all required documentation is submitted, students will be notified via email of the outcome of their appeal.

All appeals must be submitted by published university deadlines.

Students placed on academic suspension, but readmitted through the appeal process will be placed on Academic Probation and be limited to a course load of not more than 15 semester hours during the first semester of readmission and follow all other requirements outlined in Academic Probation. Students returning from suspension must maintain a 2.3 semester GPA and must successfully complete at
least 70% of their attempted hours each semester until they have a cumulative GPA of 2.0 or better and earned a minimum of 67% of the cumulative credit hours they have attempted.

Students returning from academic suspension who fail to maintain a 2.3 semester GPA and successfully complete at least 70% of their attempted semester hours will be subject to suspension. Students who have been suspended a second time for academic reasons may not apply for readmission within a minimum of two consecutive semesters from the date of suspension. Students who have been suspended a third time for academic reasons shall be permanently suspended unless special permission is granted for readmission by the Provost and Vice Chancellor for Academic Affairs or they are admitted under the Special Readmit Policy.

CHANGE OF MAJOR/DECLARATION OF MAJOR

A student who decides to change or declare a major must complete the Declaration of Change of Major Form via Self Service Banner and follow the procedures on the form. The new major field should appear on the next electronic transcript viewed by the student and advisor after the completed form has been electronically submitted to the University Registrar’s Office.

TUITION SURCHARGE

All undergraduates seeking a baccalaureate degree at Elizabeth City State University will be subjected to a 50 percent tuition surcharge if they take more than 140 credit hours to complete a four-year degree program or more than 110 percent of the required credit hours to complete an officially designated five-year program.

EXTENUATING CIRCUMSTANCES OR MILITARY SERVICE

The University recognizes that there may be extenuating circumstances beyond a student’s control which impact his or her ability to meet the GPA requirements of Satisfactory Academic Progress (SAP) set force in Section F of this policy. Therefore, the University will permit a student to withdraw from a course or courses with written approval from the Provost and Vice Chancellor for Academic Affairs only for extenuating circumstances that occurred during the semester or summer session immediately preceding the student’s request. Upon approval, the student shall be administratively withdrawn from the course or courses and receive a grade or grades of "WA" in accordance with this policy.

1. Definition of Extenuating Circumstances: An "extenuating circumstance" is defined by the University as a situation which is beyond the student’s control and which could not have been prevented by the student. Such circumstances include the following:
   a. A car accident or other incident which causes injury to the student resulting in hospitalization and/or health challenges which prohibit the student from being able to meet academic requirements;
   b. A serious, life-threatening, or life-altering illness to the student or an immediate family member for whom the student must assume legal responsibility due to the condition;
   c. An official, documented military deployment;
   d. A natural disaster which negatively impacts the student’s well-being due to total destruction of home or other essential familiar provisions.

The University reserves the right to consider other situations in addition to those enumerated herein in determining whether or not the alleged extenuating circumstance(s) directly impacted the student’s ability to maintain the required GPA.

2. Official Supporting Documentation

A student must have official written documentation which explicitly substantiates and corroborates the assertion of the extenuating circumstances. An extenuating circumstance shall be an exceptional, one-time occurrence and not one that is characterized by a repeated pattern of behavior which has compromised the student’s academic standing over time.
WITHDRAWAL FROM THE UNIVERSITY FOR UNDERGRADUATE STUDENTS

All students who are officially registered for classes and who wish to withdraw from the University must complete the withdrawal procedure at least two weeks prior to final exam week. Students must visit the Office of the Registrar to begin the process. The Registrar will explain the process, the consequences and the possible options relative to withdrawing from the University. Students will be directed to the OSFAS in order to address financial obligations. Students who have a pending judicial charge are not allowed to withdraw from the University before the outcome of charges is completed on campus. In accordance with this policy, the University Registrar will record grades of "WD" based upon the Withdrawal Report. Students who do not officially withdraw from the University will receive a grade of "F." Students who are administratively withdrawn from a course or the University for disciplinary reasons and/or under special circumstances with written approval from the Vice Chancellor for Student Affairs will receive a grade of "WA."

ACADEMIC ADVISING

Each student is assigned a faculty advisor. This advisor meets with the student during Orientation, Pre-Registration, and when the student needs advice to help him or her select courses and to assist in planning his or her individual program of study. Once the student selects a major, he or she works with an advisor from the appropriate department. However, the student is ultimately responsible for meeting the curricular requirements.

ACADEMIC HONORS

An Honor Roll is prepared at the end of each semester showing the names of those students who by diligence, industry, and scholarship earned a semester grade point average of 3.0 or above. The Honor Roll, which is also made up of students who are on the Chancellor’s List and the Vice Chancellor’s List, is a special recognition of academic achievement.

THE CHANCELLOR’S LIST: This list is composed of the names of students who carried 12 semester hours or more and earned a semester average of 3.75 or above, with no grade lower than "B."

THE VICE CHANCELLOR’S LIST: This list consists of the names of students who carried 12 semester hours or more and earned a semester average of 3.5 to 3.74 with no grade lower than "C."

THE HONOR ROLL: This list consists of the names of students who carried 12 semester hours or more and earned a semester grade point average of 3.0 to 3.49. In determining other academic honors and awards, a student’s cumulative grade point average is used. The GPA is computed by dividing the total number of quality points earned by the total number of GPA hours attempted, exclusive of authorized withdrawals and repeated courses.

CHANGE OF GRADE

Each instructor is expected to give permanent final passing or failing grades. Once a final grade has been reported to the Registrar’s Office, it may be changed only upon the authorization of the Provost and Vice Chancellor for Academic Affairs. A grade change is made by submitting a Change of Grade Form to the department chair. Along with filing the Change of Grade Form, the instructor also files a statement of explanation for changing the grade, signs it, and submits it to the department chair, who then reviews it. The Change of Grade Form is then forwarded to either the Provost and Vice Chancellor for Academic Affairs for approval or to the Academic Standards and Credits Committee for further review and evaluation. In some instances, the Academic Standards and Credits Committee may request the instructor to submit an additional explanation or to appear in person to justify the change of grade. This committee will then make a recommendation to the Provost and Vice Chancellor for Academic Affairs for approval or disapproval of the request for the Change of Grade.

Any request for grade changes must be done within one calendar year from the date on which the initial grade was submitted to the Registrar’s Office. A change of grade, other than an "I" or "IP" grade will not be approved during the last two semesters of the student's enrollment before graduation. Exceptions to this policy will be made ONLY with the approval of
the Academic Standards and Credits Committee. This policy also applies to "Repetition of Course Work."

CLASS ATTENDANCE POLICY

Class Attendance
Regular class attendance is a key determinant of student success. It also is an important factor in a student's commitment to the transfer of knowledge. For that reason, each student should recognize the benefits of regular class attendance, and embrace such as a personal charge. It is a student's responsibility to complete all coursework, including tests, and written assignments of all class meetings. University faculty members are encouraged to monitor the progress and activity of their students.

Student's Responsibility
• To understand and adhere to an instructor's expectations for course participation and satisfactory course completion. Students must also monitor their progress throughout the term.

The Instructor's Responsibility
• To establish and communicate how students' progress and activity will be monitored
• Publish course expectations in course syllabi at the beginning of each term

CLASSIFICATION OF STUDENTS

Students are classified as Freshmen, Sophomores, Juniors, or Seniors. Accumulated semester hours determine these classifications:

Freshman: From 0 Semester Hours to 29 Semester Hours
Sophomore: From 30 Semester Hours to 59 Semester Hours
Junior: From 60 Semester Hours to 89 Semester Hours
Senior: From 90 and above

COMMENCEMENT EXERCISES

Elizabeth City State University has two Commencements: one ending the Spring Semester and the other ending the Fall Semester. Students completing their requirements during or by the end of the last term of Summer or Fall Semester will participate in the Fall Commencement ceremony. Those finishing at the end of the Spring Semester will participate in the Spring Commencement ceremony. Finally, the student "Bearer of the Mace" will function during the Fall and Spring ceremonies. (To meet the requirements for "Bearer of the Mace," the candidate must complete all degree requirements at Elizabeth City State University and have earned the highest cumulative grade point average in the graduating class for the prospective Commencement Exercise.)

COMMENCEMENT HONOR MARSHALS

Students representing each classification exclusive of seniors, who are enrolled as full-time at the end of the Spring and Fall Semesters and matriculating for a degree at Elizabeth City State University, are selected as Commencement Honor Marshals. These students must have the highest grade point average in their respective classifications. For the purpose of determining the classification for transfer students, the total number of credit hours earned at ECSU is added to the total credit hours earned at other institutions.

COURSE LOAD

Elizabeth City State University students normally take four or five courses per semester. Because the majority of courses carry three semester hours of credit, this works out to 15 or 16 hours per semester. Students may not take more than 18 hours per semester except with the approval of the Provost and Vice Chancellor for Academic Affairs.

In special cases, students with a cumulative grade point average of 3.25 or above may be authorized, with the approval of the Provost and Vice Chancellor for Academic Affairs, to carry up to a maximum of 21 semester hours. Students returning after suspension will have a limited class load of not more than 15 credits per semester and no more than one course in any single summer session except under extenuating circumstances and with the permission of Academic Affairs. semester hours during the first semester of readmission and must maintain a 2.3
semester grade point average until they have satisfied the minimum scholastic average requirement.

A student must be enrolled for 12 hours to qualify for full-time certification to any campus organization.

CREDIT AND PLACEMENT REGULATIONS

Transfer Credit, Transient Credit, College Level Examination Program, General and/or Subject Examination Credit, Correspondence Credit, and Extension Credit are coordinated through the Office of Admissions and the Office of the Registrar.

Elizabeth City State University will accept up to 48 semester hours from the aforementioned programs excluding transfer credit from other accredited institutions.

The number of credits which can be accepted in transfer from a two-year institution is limited to 65 semester hours. All transferable work completed in residence at an accredited four-year institution of higher education is not limited to 65 semester hours provided the student has earned a grade of "C" or better in each course.

A minimum of 30 semester hours at the upper level applied toward a bachelor’s degree must be earned through regular enrollment in courses at ECSU. These 30 semester hours must include a minimum of 15 semester hours of credit in junior/senior-level courses in the major field.

DOUBLE MAJOR

A student may complete a major in two separate disciplines by fulfilling course requirements for each major. Students desiring to carry a double major will be advised in both majors by the advisors in the respective departments.

EXTENSION CREDIT

Credit earned through extension classes is considered off-campus credit and may be used to satisfy degree requirements when approved in advance by the chair of the student’s major department and by the Provost and Vice Chancellor for Academic Affairs. A student must file a request and obtain the approval of the department chair and the Provost and Vice Chancellor for Academic Affairs, prior to taking the off-campus course, and must earn not less than a "C" grade in the course to be granted credit for it. No more than 24 semester hours of extension credit may be used toward fulfilling degree requirements.

FINAL EXAMINATIONS

Final examinations are required in all courses and are held at the close of each semester. There will be no departure from the printed schedule of examinations. Changes for individual emergencies will be made only with the approval of the instructor and the department chair. A student who is absent from an examination without an excuse will be given the grade of "F" for the examination. An Incomplete will be given in the case of a student being absent from the final examination who presented a satisfactory excuse to the instructor, approved by the department chair.

GRADE REPORTS

Students are requested to view mid-semester grades electronically and have continuous dialogue with faculty members so that they are continuously cognizant of their performance in class.

Grade reports are available electronically at the end of each semester and each summer school session. Semester final grades are recorded electronically by each instructor, not later than 48 hours after each examination in a course is given. Each instructor is expected to be available on a full-time basis in his or her office for consultation with students and to assist the department chair during final examination week.

In the event of an emergency in which an instructor is unable to administer final examinations or to compute and record final grades, the chair of the department concerned is authorized to make arrangements for the final examination(s) and the computation and posting of final grades.

Students and advisors may view grades electronically for all semesters.

GRADING SYSTEM

A Designates work of exceptionally high quality. The "A" grade represents the
highest level of academic attainment; it is given only for work of the highest quality.

B Designates work which is above average and of good quality. The "B" grade represents a high level of academic attainment; it is given for work which is above average but lacks the high quality of "A" work.

C Designates work which is satisfactory and of average quality. The "C" grade represents an adequate level of academic attainment; it is given for work which is acceptable but lacks the superior quality of "B" work.

D Designates work of less than satisfactory quality. The "D" grade represents a minimal level of academic attainment; it is given for work which is less than average in quality but is at least of sufficient quality to meet minimum standards in most courses and thus carries credit. However, in GE 100 Grammar and Composition, GE 106 College Reading, GE 109 College Math, GE 102 English Composition and Grammar, GE 103 English Composition and Vocabulary or GE 102H/GE 103H, and courses within the Professional Education sequences, grades of "D" work do not meet the minimum standards and must be repeated.

F Designates work of such unsatisfactory quality that no credit is awarded.

I Indicates that the student may have maintained a passing average, but for reasons beyond his or her control, some specific performance such as an examination, a report, a notebook, or experiment has not been completed. An instructor awards a student an "I" grade ONLY for a justifiable reason. An "I" grade carries no quality points.

IF Indicates an incomplete grade that was changed to a failing grade by the Registrar’s Office after the designated time had expired for the change. An "IF" grade carries no quality points.

IP Indicates that the student has not completed the Senior Honors Thesis/Project or certain Flight courses or not passed the PRAXIS to exit EDUC 400. Students may take two semesters to complete the Senior Colloquium Thesis/Project with an "IP" (In Progress) grade for the first semester. This same rule applies to the Flight courses that require additional participation beyond the end date for regular semesters. Students may take three semesters to complete EDUC 400.

P Passing (No credit courses.)

WA A "WA" grade will be assigned to a student who has been administratively withdrawn from a course or the university for disciplinary reasons and/or under special circumstances wherein administrative approval is required.

W Withdrawal. The grade of "W" is given to indicate withdrawal from a course by the designated deadline.

WD Withdrawal from the university.

Plus or minus signs are not recognized in computing and recording official passing grades at Elizabeth City State University.

GRADUATION HONORS

Graduation Honors Policy

Degrees with distinction are awarded to graduating seniors in the following categories:

Cum Laude for GPA 3.25 through 3.59

Magna Cum Laude for GPA 3.60 through 3.79 (No grade below "C")

Summa Cum Laude for GPA 3.80 through 4.0 (No grade below "C")

To be eligible for degrees with distinction, a student must have earned at least 60 semester hours in residence at Elizabeth City State University. The student must also have the required overall average in all course work attempted and at least a 3.0 average in all transfer courses.

Any decision about Graduation Honors not stated above is to be addressed by the Academic Standards and Credits Committee.
GRADUATION REQUIREMENTS

Elizabeth City State University awards the bachelor’s degree to students who have satisfactorily fulfilled the following graduation requirements:

• completion of all General Education courses as prescribed by the University for all students;
• have an overall grade point average of 2.0, and a major grade point average of 2.0 or higher, depending on the academic department;
• completion of all courses and other requirements prescribed by the major department (For specific department or program requirements, see individual sections as described in this catalog.);
• a record of having taken and completed the required examinations or approved equivalents for exiting the program of study;
• demonstration of personal and professional qualities which are expected of an educated person, as verified or affirmed by the appropriate university officials;
• approval and recommendation by the department and general faculty as a worthy candidate for graduation;
• filing of an Application for Graduation for the Fall by September 15, Spring by November 15, in the Office of the Registrar;
• meeting all financial obligations to the University through the Office of Business and Finance; and
• meeting the residence requirements of the University.

Presence of candidates for degrees is required at graduating exercises, except when permission for graduating in absentia has been granted by the Provost and Vice Chancellor for Academic Affairs. A written request for permission to graduate in absentia must be made at least 10 days prior to Commencement Day.

It is the sole responsibility of each candidate for graduation to meet with the academic advisor of the major department and have his or her academic record evaluated to determine whether all institutional and departmental requirements for graduation have been met.

All Teacher Education majors must take the required parts of the PRAXIS SERIES and have the scores on file in the Registrar’s Office at least 10 days prior to Commencement Day.

INDEPENDENT/INDIVIDUAL STUDY

Independent study must have final approval from the Provost and Vice Chancellor for Academic Affairs before course work begins.

The student who wishes to pursue a course by individualized study must secure permission from the department chair, the Provost and Vice Chancellor for Academic Affairs, and the instructor of the department in which the course is offered.

MILITARY SCHOOL CREDIT

Credit for courses taken in military schools or military experience is based on recommended credit for military courses in the Guide to the Evaluation of Educational Experience in the Armed Services compiled by the American Council on Education. The individual seeking credit for military service and experience must submit official evidence of having completed the training, experience, or education while in service for each course in which he or she is requesting a course substitution in a curriculum at Elizabeth City State University. No more than 24 semester hours may be used toward fulfilling degree requirements. A grade of "C" or higher must have been earned in each course to be accepted at ECSU.

PROCEDURES FOR EVALUATION OF TRANSFER CREDITS

A preliminary evaluation of transfer credits is completed at the time a transfer student is accepted. After all official records are received directly from each institution previously attended; the final evaluation of the record(s) is made to determine how many credits are transferable. Final acceptance of transferred credits toward graduation requirements at Elizabeth City State University will be determined by the academic department in which the student majors. No course will be accepted for transfer credit in which a grade of less than "C" was earned.

All courses accepted for transfer credit which are required by the major must have been earned within six years prior to transfer and/or knowledge must be measured through examination.
QUALITY POINT SYSTEM

A grade (quality) point system based on all hours attempted at Elizabeth City State University is used to calculate students’ Academic Achievement. Grade symbols currently in use for all undergraduate courses are: A-Excellent, B-Good (above average), C-Average, D-Poor (passing but not satisfactory in some departments), F-Failing (course must be repeated to earn credit), I-Incomplete, IP-In Progress, IF-Incomplete Failing.

Quality points are computed by multiplying the number of semester hour credits by four for courses in which a grade of A is earned; by three for a grade of B; by two for a grade of C; and by one for a grade of D. Earned quality hours and quality points are computed for grades of IA, IB, IC, and ID. No quality points are given for grades of "I," "F," "IF," "IP," "W," "WA," and "WD," and they are not counted in the hours attempted and not computed in the cumulative GPA except for the grade of "I," "F," and "IF." Elizabeth City State University does not recognize plus or minus.

The grade point average is obtained by dividing the total number of quality points earned by the total number of G.P.A hours.

**EXAMPLE:**

**REPEATING OF COURSES POLICY**

Students who receive a grade of "C" or better in a course may not repeat that course for credit towards completion of the requirements for the degree they are pursuing unless special permission is granted by the department chair and Provost & Vice Chancellor for Academic Affairs.

Students who receive a grade of "D" or "F" in a course taken at Elizabeth City State University may repeat the course if either of the following applies:

1. The course is specifically required by the student’s academic major and/or the Honors Program and a grade of "C" is also required or is a prerequisite for another course in the major.
2. Repeated registration in a course may be allowed if the course description carries the statement, "may be repeated" or "repeated to a maximum of credits."

Should six or more years have elapsed since a student’s initial enrollment in any course, and current knowledge of the course content is needed, the department may require the student to repeat the course.
A student may repeat a given course only twice. The student may repeat a maximum of 16 semester hours during his or her matriculation toward a degree.

All grades received will be recorded on the student’s permanent record, but only the higher grade will be used in computing the grade point average.

A course repeated may be taken at ECSU or, with prior approval, at another four-year institution.

Appeals or request for waiver of any of the terms associated with this policy may be made to the university’s Academic Standards and Credits Committee.

RESIDENCE REQUIREMENTS

A minimum of 30 semester hours of credit at the upper level applied toward a bachelor’s degree must be earned through regular enrollment in Elizabeth City State University courses, including a minimum of 15 semester hours of credit in junior/senior-level courses in the major field.

A student who does not graduate with the class with which he or she enters may meet ECSU requirements for graduation as stated in the university catalog in effect for the year entered, if graduation occurs within six years. Otherwise, the student will be expected to meet the requirements as stated in the ECSU catalog in effect at the time of reentry if he or she returns as a full-time degree student. If he or she returns as a part-time student, the student will be expected to meet the requirements as stated in the ECSU catalog in the year in which work is begun on the final 15 hours. Matriculating students who begin their enrollment during the summer session will be governed by the ECSU catalog for the forthcoming Fall semester.

SECOND BACHELOR’S DEGREE

Students already possessing a bachelor’s degree from ECSU or from another institution who are accepted to work toward another undergraduate degree at ECSU must meet the University’s regular graduation requirements in the discipline area, beyond the General Studies requirements for that major. A minimum of 30 semester hours must be earned in accordance with the residence requirement by regular enrollment at ECSU. A grade point average of 2.0 must be obtained, and the student must meet the requirements in the major as specified by the department chair.

SEMESTER CREDIT HOURS

All course offerings are evaluated in terms of the unit of semester credit hour. A semester credit hour normally represents the completion of a course involving 150 minutes of lecture, recitation, reports, or a combination of directed learning activities each week for a semester. Thus, courses meeting for three class hours per week, or two times per week at one hour and 20 minutes, normally yield three semester hours of credit. Normally, two hours per week of laboratory work in freshman and sophomore courses allow a student to earn one semester hour of credit. Junior- and senior-level courses allow a student to earn one semester hour of credit for three to four hours of laboratory work.

STUDENT CONDUCT

Students enrolled at Elizabeth City State University are expected to maintain high standards of honor, scholastically and morally. Self-discipline should be the primary goal of each student. Registration at the University implies the student’s acceptance of the published rules and regulations as stated in the Student Handbook and other university publications.

The integrity and behavior of students will reflect upon themselves, their families, and ECSU. Students are also expected to respect the rights and privileges of others, and to abide by the laws of the city, state, and nation, and by all of the rules and regulations of Elizabeth City State University.

Students should avoid all forms of SCHOLASTIC DISHONESTY, such as the following:

1. PLAGIARISM. Copied work, word for word or in substance, from the writings of others and presented as one’s written work for credit. It is always assumed that the written work offered for credit is the student’s own unless proper credit is given the original author.

2. COLLUSION. Working with another person in the preparation of notes, themes, reports, or other written work offered for credit unless collaboration is specially approved in advance by the instructor.

3. CHEATING ON AN EXAMINATION OR QUIZ. Giving or receiving, offering or soliciting
4. IMPERSONATION. Allowing another person to attend classes, take examinations, or do graded assignments for an enrolled student under his or her name is strictly forbidden. Incidents of academic dishonesty, which are reported to and affirmed by the Academic Standards and Credits Committee, will result in punitive measures ranging from issuing a grade of failure to expulsion from the University. The action taken will be in accordance with the severity of the act as adjudicated by the parties which are responsible for administering this policy, namely the Academic Standards and Credits Committee and the Provost and Vice Chancellor for Academic Affairs.

STATUTE OF LIMITATION ON COURSES

Courses taken in excess of 10 years where a Bachelor’s degree was not earned or awarded, may not be used toward graduation and must be repeated unless approval is granted by the Provost and Vice Chancellor for Academic Affairs.

STUDENT APPEAL OF COURSE GRADE

A student, after conferring with the instructor involved and the department chair, may present in writing to the Chair of the Academic Standards and Credits Committee an appeal regarding the course grade given within one year from the date the original grade was received. The Chair of the Academic Standards and Credits Committee refers all appeals of course grades to that Committee and the chair of the department in which the course was offered. No change of grade is made except as a result of the recommendation rendered by the Academic Standards and Credits Committee to the Provost and Vice Chancellor for Academic Affairs who then authorizes the change.

TEXTBOOKS

Textbooks or their equivalents are required in all courses. An instructor may reserve the right to require every student enrolled in his or her course to possess textbooks, equipment, supplies, and uniforms necessary for the work of the course.

TRANSIENT CREDIT

Course work undertaken by Elizabeth City State University students at other accredited institutions may be transferred to the University subject to the following regulations:

- ECSU is not obligated to accept any credit from another institution unless the student has obtained initial approval from the department chair. A Permit for Transient Study form should be completed and submitted to the Provost and Vice Chancellor for Academic Affairs for approval.
- No student with a cumulative grade point average below 2.0 on a 4.0 scale will be allowed to take courses at another institution; such credits are unacceptable at ECSU.
- No grade below "C" will be accepted; quality points will be honored on the 4.0 point grading system.
- The student must request that an official transcript to be mailed to the Registrar’s Office upon completion of the course.

Students who have attained senior status may not attend a junior college, community college, or a technical college or institute and receive credit toward graduation at ECSU. Exceptions to this rule must be authorized by the Provost and Vice Chancellor for Academic Affairs.

WAIVERS AND SUBSTITUTIONS

Waivers and substitution of courses, program requirements, and academic regulations are permissible with the proper approval. Only under unavoidable and exceptional circumstances will the advisor permit
DIVISION OF STUDENT AFFAIRS

The Division of Student Affairs provides many opportunities for students to develop personally and socially through active engagement in experiences such as community service, career exploration, health and fitness, and campus life. The Division strives to create and promote an environment in which students can develop into mature, well-rounded citizens who are self-disciplined and aware of the lifelong process of learning. The Division includes the Office of the Dean of Students, Career Development Center, Community Standards/Student Conduct, Counseling and Testing, Special Needs Services, Housing and Residence Life, Student Engagement and Student Health Services.

Student Affairs assists with student’s adjustment to both the academic and the non-academic environments of the campus.

Student Affairs programs are designed to promote student initiative, responsibility, integrity, and opportunities for leadership.

For more information, contact: Division of Student Affairs, C.W. Griffin Hall, Suite 500, Elizabeth City, NC 27909, Telephone: 252-335-3276, Fax: 252-335-3502.

OFFICE OF THE DEAN OF STUDENTS

Community Standards

The Office of Community Standards administers the student conduct process, upholds the Student Code of Conduct, and educates the university community on a set of standards using a developmental approach to promote a culture of integrity through the values of accountability, fairness, and honesty.

The filing of an application for admission shall be construed as both evidence and pledge that the applicant accepts the standards and regulations of Elizabeth City State University and agrees to abide by them. Each student, by the act of registering for classes, obligates themselves to obey all rules and regulations of the University as stated in the Student Code of Conduct, the University Catalog, and other university publications. More information on ECSU community standards, including the student code of conduct, illegal drug use policy, and sexual harassment can be found online at www.ecsu.edu in the university policy manual.

New Student Orientation

The Office of the Dean of Students coordinates the New Student Orientation program (NSO) for new freshmen and transfer students. NSO introduces students to university programs and services, provides an opportunity for new students to interact with staff, faculty, and administrators, and students receive academic advisement and guidance with registering for classes. NSO is offered during the months of June, July, August, and January and is required for all new students prior to enrollment.

Student Orientation Leaders

VANS (Vikings Assisting New Students) is a group of student orientation leaders who work with new freshmen and transfer students during the New Student Orientation program. Members serve as peer educators, tour guides, and discussion leaders. Students interested in VANS must have a 2.5 GPA and complete an application process by the November deadline.

For more information, contact: Office of the Dean of Students, C.W. Griffin Hall, Suite 500, Elizabeth City, NC 27909, Telephone: 252-335-3271, Fax: 252-335-3502.

Student Engagement

Student Engagement facilitates student participation in various organizations, events and development...
opportunities such as service groups, clubs, health and wellness programs and cultural activities. The office provides experiences that supplement academic instruction and support students to develop personally, socially and intellectually through a broad spectrum of services, programs, and events.

For more information, contact: Student Engagement, Ridley Student Complex, Suite 211, Elizabeth City, NC 27909, Telephone: 252-335-3143.

CAREER DEVELOPMENT CENTER

The Career Development Center aids students at various stages of their career with decision-making, exploration, and the job search process. A variety of programs and services assist students in defining their career objectives and finding out about the current job market while learning how to conduct a job search for employment.

In addition to the career decision and exploration services, the Career Development Center provides extensive assistance with workshops on interviewing, résumé writing, and business etiquette, and online internship and employment search resources.

The Career Development Center disseminates information concerning available internships and jobs, and it handles all arrangements when employers visit the campus to interview students. On-campus recruiting is scheduled through the center during the Fall and Spring semesters. Students can also make valuable employment contacts at the Annual Career and Graduate School Fair, and the Annual Teacher Education Fair. Alumni may also receive career assistance on employment vacancy listings through Career Development.

Services Provided Include:

Career Counseling
On Campus Recruiting
Career, Education and Graduate School Fair
Graduate and Professional School Information
Workshops: (Resume Writing, Interview Techniques, etc.), Dress for Success
Job Search Preparation
Networking Opportunities

Career Resources

A wealth of career information is available in the Career Development Center. Printed information on employment trends, future outlooks, company literature, and school system applications are available for all students and alumni to review. Students also have access to hard copy career-related publications. Online Portals are also offered through the Center.

Internship Programs

Internships can offer innovative ways to achieve career success for students working with the latest technology in their field of study. Students gain valuable work experience in a wide variety of fields. The Career Development Center helps students prepare and find paid and unpaid internship opportunities.

For more information contact: Career Development Center, C.W. Griffin Hall, Suite 123, Elizabeth City, NC 27909, Telephone: 252-335-3355.

COUNSELING AND TESTING CENTER

Counseling Services

The Counseling and Testing Center (CTC) provides individual, career, couples, and group counseling as well as psycho-educational groups for personal and social development. A series of self-development workshops is offered during the Fall and Spring semesters. Topics include, but are not limited to, the following:

Romantic and Social Relationships
Depression and Anxiety
Anger Management
Stress and Time Management
Grief Counseling

Referrals are made to community agencies when needed. Counseling Services are free and confidential. Contact information: Counseling and Testing Center, Griffin Hall, Suite 200, Elizabeth City, NC 27909. Telephone: 252-335-3273/3834/3642, Fax: 252-335-3728.
Testing Services
The Counseling and Testing Center coordinates and administers national, local, and specialty tests to students, staff, and non-affiliated off-campus individuals and groups. The University is a national test site for Educational Testing Services in Princeton, New Jersey. The following tests are offered: CLEP, MAT, LSAT, SAT, ACT and Proctored Exams as requested.

THE OFFICE OF DISABILITY SERVICES
In accordance with Section 504 of the Rehabilitation Act of 1973, the American with Disabilities Act of 1990 ("ADA"), The ADA Amendment Acts (ADAAA) and state law, Elizabeth City State University (ECSU) is required to provide reasonable modifications in academic, co-curricular and other ECSU campus activities to individuals who qualify under the ADA. Disability Services will provide the following to students who have on file a documented disability/disabilities: disability-related counseling, consultation for accommodations during enrollment at ECSU, reasonable accommodations, and accommodation(s) notifications to instructors. Consultation services regarding accommodations are provided to prospective students and, upon request, to all ECSU students. For more information, contact: Counseling and Testing, C.W. Griffin Hall, Suite 200, Elizabeth City, NC 27909, Telephone: 252-335-3273/3642/3834 and Fax: 252-335-3278.

THE PACE CENTER
PACE stands for protection, awareness, cultural and education. It is supported by a collaborative team of on- and off-campus partners. The Center is committed to decreasing violence on campus through outreach and advocacy and is open to individuals of all genders in the ECSU community. The PACE Center works to promote awareness of cultural factors that support violence and to combat these factors in efforts to change cultural norms on campus related to sexual assault, relationship violence, domestic violence, and stalking.

Goals of the PACE Center include:
Development of preventive and survivor-focused programming to aid victims of sexual assault and sexual violence
Promote an inclusive learning environment
Continued education of campus community members on the importance of consent
Implementation of prevention and education materials for all incoming and current students
Provision of bystander intervention training to campus and student leaders
Fostering of dialog among campus departments and between students, faculty, and staff
Communication of the unacceptable consequences of sexual violence on the individual and the community to students, staff, and faculty
Development of university policy and protocol related to sexual misconduct and sexual assault

Note on confidentiality: The PACE Center is subject to Clery Act and Title IX regulations.

HOUSING & RESIDENCE LIFE
Housing & Residence Life
Elizabeth City State University offers residential living to students who are admitted and enrolled at the University. The residential living areas are comprised of four suite-style residence halls.

Each residence hall is staffed by a team of Residential Life Community Directors, Resident Assistants, Desk Assistants, and Residence Security Officers. Students are encouraged to be active members of the residence hall community by planning and attending hall programs, creating and adhering to community standards and being open to new experiences.

Residence halls are officially closed during the Thanksgiving, Winter and Spring Breaks, or other times as needed to comply with emergency situations.
A comprehensive list of the Housing and Residence Life policies and practices can be found in the Housing Agreement and Resident Student Handbook.

Food Services

Dining services are provided in two (2) campus locations: Bedell Hall Cafeteria for food court dining as well as traditional cafeteria dining, and the Viking Grill, located in the Walter N. & Henrietta B. Ridley Student Complex.

All students residing in residence halls must purchase a meal plan. Off-campus students are encouraged to purchase a commuter meal plan. The University reserves the right to deny food service to any student who is delinquent in paying their student account or who violates the established regulations with regard to personal conduct in the cafeteria.

Student Health Services

Student Health Services provides accessible, quality health care services and educational programs to promote the health and well-being of the student population. The services include diagnosis, treatment and follow-up on general medical and urgent health care needs, allergy injections, immunizations, depo injections, HIV testing and counseling, laboratory services, and limited pharmaceuticals. Students may incur charges for certain services rendered at Student Health Services.

All new and transfer students taking more than four credit hours on campus and admitted to the University are required to submit a completed Medical History Form. In addition, all new and transfer students must provide an immunization record to the University as required by the North Carolina Immunization Law (General Statutes 130A-152). Readmitted students who re-enroll after an absence of six months or more must also provide Student Health Services with updated immunization records.

Immunizations along with the Medical History form must be returned to Student Health Services NO LATER THAN:

- **JULY 15** FALL ENROLLMENT
- **DECEMBER 4** SPRING ENROLLMENT
- **MAY 1** SUMMER ENROLLMENT

**Hours of Operation**

Student Health Services is open Monday through Friday from 8:00 a.m. to 5:00 p.m. Physician hours are 9:00 a.m. to 4:00 p.m., Monday through Thursday and 9:00 a.m to 12 pm on Friday. Physician hours for the summer will be announced. Should a student suffer an injury or become seriously ill on campus when Student Health Services is closed, he or she should notify the Residence Life Community Director or Campus Police. Students are also encouraged to utilize the Nurse Hotline service provided by the student health insurance plan. Please call 911 to activate the local emergency management system for emergencies.

**Student Health Insurance**

All students enrolled in 6 credit hours or more are required to have health insurance. Students have an opportunity to waive the health insurance fee during the Fall and Spring semesters by completing the waiver process online at www.bcbsnc.com/student. All students enrolled in 6 credit hours or more who do not waive the health insurance fee, will be automatically covered under a health insurance policy provided by the University. The primary purpose of this coverage is to offset the costs of health care. Brochures outlining the coverage and limitations may be viewed online at www.bcbsnc.com/ecsu/edu. There will be a two-week appeal period immediately following the waiver period for any student who did not successfully complete the hard waiver student health insurance verification process prior to the campus deadline for submitting a waiver request. This applies to students who never filed a waiver request as well as students who filed a waiver request and had it declined. The campus-based appeal process is the same for all students across all UNC campuses.

Fees and charges for medical services, diagnostic procedures, and laboratory services not covered by the student health insurance are the responsibility of the student. Student Health Services will file claims if the student has health insurance provided by the University. All other insurance claims are not filed by Student Health Services for students.
Peer Health Educators

Peer Health Educators is a group of students trained to deliver prevention messages and encourage healthy lifestyles to their peers. Members assist Student Health Services with conducting educational programming and performing outreach activities. Interested students must have a 2.0 GPA or higher and submit an application. Applications can be picked up from Student Health Services, Suite 300 Griffin Hall.

Walter N. and Henrietta B. Ridley Student Complex

The Complex consists of "The Grill", The Bowling Center, and the Walter N. & Henrietta B. Ridley Student Center. The center is approximately 50,000 square feet. This facility was opened to students in May, 2005, and serves as the nucleus for many university activities. The center houses the following offices and services:

Office of Student Engagement
Student Government Association (SGA)
Greek Life
PACE Center
Student Activities Council (SAC)
Theater Room
Multi-purpose Activity Space
ECSU Campus Bookstore
Study Nook
Bowling Center
Bedell Cafeteria
Campus Post Office
The Blue Room – Formal Dining Room

Bowling Center

The Bowling Center offers the following activities and services for students: bowling, billiards, ping pong, sport equipment rentals, bicycle rentals, video games, board games and cards.

The Bowling Center is available for private events for students, employees and community members by reserving the space through the Office of Student Engagement.

Campus Recreation

Campus Recreation provides an opportunity for students to participate in a variety of recreational activities. The program includes intramural sports, aquatics programs, and open free-play. The Campus Recreation program is open to all individuals who are officially enrolled in the University or employed by the University.

The intramural program includes non-competitive as well as competitive activities such as bowling, basketball, volleyball, softball, weight-lifting, flag football, racquet ball, golf, co-ed softball, powder puff football, and other sports. The aquatic program includes open free swim, and the fitness program includes aerobics classes.

Student Clubs and Organizations

A variety of social, academic, and service organizations exist on campus to aid in the holistic development of ECSU students. Membership is open to all students who maintain a minimum cumulative GPA of 2.0 and who are officially enrolled in the University. Participation in clubs and organizations provides a wonderful opportunity for leadership training and social education. There are approximately 40 registered organizations.

Graduate Student Council (GSC)

The Graduate Student Council (GSC) is dedicated to:

Serve as the official representative body for students enrolled in graduate programs at Elizabeth City State University.
Provide a forum for discussion of issues, both internal and external, of concern to graduate students.
Represent graduate student interests before the ECSU faculty and administration.
Organize, promote, and conduct activities beneficial to graduate student life.
Disseminate information of interest to students pursuing graduate education at ECSU.
Provide support and assistance to graduate student organizations.
Own and manage property and accounts which will assist in securing the above objectives.
Select graduate students for appointment to university committees.
Provide a common association among graduate students in all departments of the University represented with graduate programs.

Honor and Recognition Societies

Elizabeth City State University has eight honor and recognition societies. To qualify for membership, a student must have a high academic average as well as good character. The eight societies are: Alpha Chi (N.C. Iota Chapter), Alpha Kappa Mu (Alpha Kappa Chapter), Alpha Phi Gamma (Delta Rho Chapter), Beta Beta Beta (Eta Chi Chapter), Kappa Delta Pi (Kappa Delta Chapter), the Sigma Tau Delta (English), Lambda Pi Eta (Communications Studies) and Psi Chi (Psychology).

Greek Life

The National Pan Hellenic Council and Intra-Fraternity Council serve as the umbrella organizations for all Fraternities, Sororities and Social Fellowship Groups on campus. Each has its own membership policies and goals. A member of the organization should be contacted for specific details pertaining to his or her organization.

Student Leadership Development Academy

The Student Leadership Development Academy (SLDA) is designed for students who are interested in holding a leadership position on campus. Through a year-long series of seminars and workshops, participants will assess their leadership style, practice leadership skills, meet and interact with campus and community leaders, plan strategies for campus and community involvement, and set goals for their personal leadership development.

Music Organizations

Elizabeth City State University has several music organizations and ensembles including the University Marching Band, Concert Bands, Jazz Band and the University Choir. Contact the Music Department for details on how to join a music organization or ensemble.

Publications

Students are involved in writing and editing many university publications. The Compass, the student newspaper, is published on a regular basis. The Viking, the student-produced yearbook, serves as the college annual. The ECSU Student Handbook is the primary source of information regarding campus life and other university regulations. Student Rights and Responsibilities, Policies and Procedures is a document that addresses the fundamental rights and responsibilities of students, which is included in the student handbook.

Intercollegiate Athletics

The Intercollegiate Athletic Program is an integral part of Elizabeth City State University. Committed to academic excellence, the program takes pride in having one of the highest graduation rates of athletes attending the NCAA Division II colleges and universities in North Carolina.

Varsity sports provide an opportunity for athletically gifted students to compete on an intercollegiate basis. Mastery of skills, good health, a love of sports, and a spirit of friendship and camaraderie form the basis for our competitive sports program.

The University features a main gymnasium (R.L. Vaughan Center) with seating for 4,500 spectators plus many other features. Men’s varsity teams include football, cross-country, basketball, golf, and cheer-leading. Volleyball, bowling, cross country, basketball, softball, tennis, golf, and cheer-leading have teams for women at the varsity level. Teams are nicknamed the "Vikings" and the "Lady Vikings."

The University has athletic affiliations with the Central Intercollegiate Athletic Association (CIAA) and the National Collegiate Athletic Association (NCAA).
The Division of Information Technology (IT) provides integrated technology services and support for the Elizabeth City State University campus in three distinct functional areas: Administrative Computing, Client Services, and Network Services. IT is committed to providing a reliable, cost effective, and quality service to the University community in support of ECSU's mission.

Administrative Computing provides application server administration support, data reporting and analysis, and database administration. Client Services is responsible for providing hardware/software support for university-owned applications and hardware, computer lab support, and IT rooms/equipment reservation requests. Network Services is responsible for the operation and maintenance of the existing voice, data, and video communications, wired and wireless network support, email/domain account support, server administration and maintenance, and managing the University's data center resources.

Other IT services and support include security and audit compliance, technology training support, and website services. Visit the IT website for more information about the available services and support.

END-USER SUPPORT SERVICES

Information Technology provides access to technology resources for students to support their general academic efforts. Current students are provided a Banner ID and an email/domain account to access Self Service Banner (SSB), email, network domain, and other university online resources. Accounts are automatically created each semester for all students who officially register. Freshmen and transfer student accounts are distributed at New Student Orientation. Students have wireless connectivity available across campus. There is limited technology support provided for student-owned hardware and software (i.e. wireless connectivity, etc.).

The Information Technology Center (ITC), a two story, L-shaped building, houses office spaces for the Division of Information Technology, Administrative Computing, Client Services, Network Services, Distance Education, and Video Conferencing. The facility has one computer lab that is used for training classes that are supported by IT and a video conference room. In addition to the labs in ITC, there are currently other computer labs located in departments across the campus.

Visit the IT website for more information about the available services and support.
The Department of University Studies is within the Division of Student Success and offers the Viking First Year Experience Program, the Tutoring and Academic Success Center, and the General Education Program. The Department of University Studies assist students with their transition to academia through academic accountability, support, and opportunities.

The Viking First Year Experience Program

As an integral part of the Department of University Studies, The Viking First Year Experience program assists all students in their transition to the university. The First Year Experience is an intentional and dynamic program designed to promote student success, persistence, progression, and foster a sense of community.

While the Viking First Year Experience begins at the New Student Orientation, first year students participate in the following Viking First Year Experience components during your freshman year at Elizabeth City State University: First Year Advising, Freshman Seminar, Freshman Convocation and Pinning Ceremony, and Service Learning.

VIKING FIRST YEAR ACADEMIC ADVISING

The Academic Advising Program is a major component of University Studies. The purpose of the program is to enable students to achieve excellence in their educational and personal goals. Students entering the University as new freshmen are advised by a University Studies academic advisor, regardless of their major. Freshmen are transitioned to a faculty advisor in the academic department of their field of study during their second semester freshman year. University Studies advisors are responsible for assisting students in completing their general education requirements.

Specific responsibilities of the Academic Advising Program include the following: (1) providing individual guidance to students in the preparation of their course schedules and emphasizing the appropriate course selection in the sequence required by University Studies; (2) providing guidance in the selection of courses where there are available options; (3) maintaining accurate advising files and records of each freshman student in E4U; (4) following up on students in the testing program; and (5) assisting in the implementation of the Department’s programs designed for the retention of students. All new advisors are required to attend an academic advising workshop prior to their first semester of advising students.
FRESHMAN SEMINAR
The Viking First-Year Experience includes Freshman Seminars I and II, which are required courses for first time first year freshmen students. In both sections of Freshman Seminar, the course design and curriculum exposes students to the rich history and culture of the University and provide students with college essentials such as time management skills, test-taking strategies, academic rules and regulations, and a variety of other skills and activities designed to enhance the transition from high school to college. Freshman Seminar includes opportunities for students to participate in university events, Student Success seminars and workshops, peer mentoring, and Capstone and e-Portfolio projects.

FRESHMAN YEAR CONVOCATION AND PINNING CEREMONY
The Freshman Convocation and Pinning Ceremony is a university tradition for first time, first year students. The ceremony serves as a charge to freshman students to pursue academic excellence and timely degree completion.

SERVICE LEARNING
All freshman students have the opportunity to participate in service learning to reinforce the value of serving the community and gain a deeper understanding of themselves. Through service, learning students enhance employability skills and prepare for other experiential learning opportunities. Students engage in an evaluative process for skills development.

THE TUTORIAL AND ACADEMIC SUCCESS PROGRAM
The Tutorial and Academic Success Program is a peer-tutorial program primarily designed as an academic support service. The program employs successful students as peer tutors based on their academic expertise and their understanding of the University Studies experience. The program works with individual students and with groups of students. The program works in conjunction with major departments.

The primary goal of the Tutorial and Academic Success Program is to meet students’ academic needs. It provides academic support and a strong community base for ECSU students. The program is committed to promoting independent, active learning among the students it assists. Peer tutoring should have a direct and positive effect on improving the academic performance of students enrolled in GE courses, as well as promoting a strong community among students, peer tutors, and faculty.

GENERAL EDUCATION PROGRAM
The General Education Program is comprised of a group of coordinated and interrelated courses, which contain a body of knowledge designated as liberal arts. The University maintains that all students, regardless of academic major, must include in their individual curriculum specific general education courses designed to provide fundamental knowledge and skills and a broad cultural education.

The General Education Program is a component of the Department of University Studies within the Division of Student Success. The Department of University Studies assigns students to academic advisors and coordinates the scheduling of courses for all freshman and sophomore students who have not declared a major.

GOALS
The goals of the Department of University Studies are to assist all students in their transition to the University; to provide effective advisement to students; to offer strong programs of academic support in reading, writing, mathematics, and the natural sciences; and to work with other academic departments to ensure that students develop the fundamental skills and knowledge necessary for success in all academic majors.

The General Education Core Curriculum provides the academic foundation for all of the undergraduate degree programs at Elizabeth City State University. The core curriculum enables students to develop the general knowledge and the skills that are essential to success in their respective major programs and careers after graduation. In addition to providing the skills and knowledge that are essential to academic success, the General Education Core Curriculum is designed to promote positive human values and encourage an appreciation for learning in all students.
Since most major degree programs specify courses to be taken as part of the General Education Core Curriculum, students must review the curriculum of their intended majors and consult with assigned advisors in selected core classes. All students are expected to complete the General Education requirements during the freshman and sophomore years. After completing the required GE courses, students take electives and courses in their major fields.

**THE GENERAL EDUCATION ADVISORY BOARD**

The General Education Advisory Board (GEAB) functions as an advisory committee to the chair of the Department of University Studies. The primary purpose of the GEAB is to assist the chair in planning, implementing, communicating, and assessing general education programs and the curriculum. Proposed curriculum changes are advanced to the University Curriculum Committee.

The Board’s membership includes faculty representatives from the degree granting programs and a representative from the following areas: Honors Program, Library, Institutional Effectiveness, Registrar’s Office, and the Office of Retention.

**FRESHMAN COURSE PLACEMENT**

University Studies advisors evaluate first-time freshmen based on their SAT/ACT test scores. Freshmen are automatically placed into ENGL 102 (unless dual enrollment, Early College credits have been determined).

Students are placed in the college level mathematics courses based on the math score on the SAT/ACT.

Humanities and Fine Arts (8 hours)

A. Choose two courses from the list below:

(1 course must be ENGL 201/H or ENGL 202/H)

- ENGL 201 World Literature I 3
- ENGL 202 World Literature II 3
- ENGL 203H World Literature Honors Seminar I 3
- ENGL 204H World Literature Honors Seminar II 3
- CHIN 101 Introduction to Chinese I 3
- CHIN 102 Introduction to Chinese II 3
- COM 200 Interpersonal Communication 3
- COM 201 Intercultural Communication 3
- SPAN 101 Elementary Spanish 3
- SPAN 102 Elementary Spanish 3
- FREN 101 Elementary French 3
- FREN 102 Elementary French 3
- LATN 101 Introductory Latin 3
- LATN 102 Introductory Latin II 3
- HIND 101 Intro to Hindi I 3
- HIND 102 Intro to Hindi II 3
- SPCH 314 Public Speaking 3
- PHIL 250 Introduction to Philosophy 3
- PHIL 251 Social and Political Philosophy 3
- PHIL 252 Critical Thinking and Logic 3

B. Choose one course from the list below:

- ART 130 Art Appreciation 2
- MUS 135 Introduction to Music Literature 2
- MUS 135H Introduction to Music Literature Honors 2
- MUS 212 The African American in Music 2
- THEA 221 Appreciation of Drama 2

Social and Behavioral Sciences (9 hours)

A. Choose one course from the list below:

- HIST 140 History of World Civilization, Prehistoric to 1500 3
- HIST 140H History of World Civilization, Prehistoric to 1500, Honors 3
- HIST 141 History of World Civilization, 1500 to the Present 3
- HIST 141H History of World Civilization, 1500 to the Present, Honors 3

B. Choose two courses from the list below:

Choose 2 courses from the courses below (students may not choose 2 courses with HIST prefixes.

- GEOG 142 Introduction to Geography 3
- HIST 250 African American History to 1877 3
- HIST 251 African American History since 1877 3
- HIST 255 American History to 1877 3
- HIST 256 American History Since 1877 3
- GEOG 201 World Geography 3
- GEOG 204 Geography of the US and Canada 3
- POLS 200 Introduction to Political Science 3
- POLS 298 American National Government 3
- POLS 299 State and Local Government 3
- SOC 201 Introduction to Sociology 3
- SOC 202 Social Problems 3
- ECON 201 Principles of Economics I 3
- ECON 202 Principles of Economics II 3
- PSY 212 General Psychology 3
- GLBS 200 Introduction to Global Studies 3
- BFIN 210 Personal Financial Management 3

GLBS 200: This course is waived for transfer students with 12 or more transfer hours.

(Follow departmental recommendations.)

Natural Sciences and Mathematics (7-8 hours)

A. Choose one course from the list below:

- MATH 114 Math for Liberal Arts 3
- MATH 115 College Algebra 3
- MATH 118 Precalculus 3
- MATH 153 Applied Calculus 3
- MATH 165 Calculus of Single Variable I 4
- MATH 121 Number Systems and Algebra 3
- MATH 122 Geometry and Data Analysis 3

B. Choose one course and corresponding lab from the list below:

(BIOL 101 and GEOL 141 courses include the lab)

- PHYS 152 Principles of Physical Science 3
- PHYS 152H Principles of Physical Science Honors 3
- BIOL 152L Principles of Biological Science Lab 1
- BIOL 100 Principles of Biological Science Lab 1
- BIOL 101 General Biology for Majors I 4
- GEOL 158 Principles of Geological Science 3
- GEOL 158L Principles of Geological Science Lab 1
- CHEM 101 General Chemistry I 3
- CHEM 101L General Chemistry I Lab 1
- CHEM 102 General Chemistry II 3
- CHEM 102L General Chemistry II Lab 1
- ENSC 101 General Environmental Science 3
- ENSC 101L General Environmental Science Laboratory 1
- GEOL 140 Introduction to Earth Science 4
- PHYS 181 General Physics I 3
- PHYS 181L General Physics I Lab 1
- PHYS 182 General Physics II 3
- PHYS 182L General Physics II Lab 1
- PHYS 191 University Physics I 3
- PHYS 192 University Physics II 3

Health and Physical Education (3 hours)

A. Health Concepts

- HLTH 185 Health Concepts 2

B. Choose one course from the list below:

- PE 160 Basketball 1
- PE 161 Dance (Elementary Modern) 1
- PE 163 Golf 1
- PE 164 Jogging 1
- PE 168 Volleyball 1
- PE 169 Weight-Training 1
- PE 172 Badminton 1
- PE 173 Swimming I 1
- PE 174 Swimming II 1
- PE 175 Intermediate Swimming 1
- PE 180 Bowling 1
- PE 183 Beginning Tennis 1
- PE 184 Dance (Folk and Square) 1
- PE 186 Exercise and Health-Related Fitness 1
DEPARTMENT OF MILITARY SCIENCE

The U.S. Army Reserve Officers’ Training Corps (ROTC) Program offers college students the opportunity to earn a commission as an officer in the U.S. Army, the Army National Guard, or the U.S. Army Reserve while pursuing a college degree.

OBJECTIVES

The objectives of the ROTC Program are to:

• attract, motivate, and prepare selected students to serve as commissioned officers in the Regular Army, Army National Guard, and the U.S. Army Reserve;

• provide ROTC cadets with the basic concepts and principles of military art and science; and

• develop:
  a. leadership, decision-making, problem-solving, and communication skills;
  b. a strong sense of the Army values (loyalty, duty, respect, selfless service, honor, integrity, and personal courage); and
  c. strong Commissioned Officers who are confident as well as competent.

PROGRAM DESCRIPTION

The ROTC program is based on a four-year curriculum integrated with the normal baccalaureate degree program. Flexibility is provided through a number of options and alternatives.

THE FOUR-YEAR PROGRAM

The Four-Year ROTC Program is divided into two parts: Basic Course and Advanced Course.

All freshmen and sophomores are encouraged to enroll in the Basic Course. The Basic Course is usually taken during the first two years of college. It covers such subjects as the Army organization, military customs and traditions, leadership development, basic military skills, and physical training. In addition, a variety of outside social and professional enrichment activities are available. All necessary ROTC textbooks, uniforms, and other essential materials for the Basic Course are furnished at no cost. After completion of the Basic Course, students who have demonstrated the potential to become Army officers and who have met the physical and scholastic standards are eligible to enroll in the Advanced Course.

The Advanced Course is usually taken during the final two years of college. It includes instruction in organization and management, tactics, ethics and professionalism, and further leadership development. All necessary textbooks and uniforms in the Advanced Course are also furnished to students.

ROTC cadets who have met all requirements are eligible to contract. Contracting means that a cadet has decided to support his or her country for a period of eight years. If selected for Active Duty, the term could be for all eight years or it could be a combination of Active Duty and Reserve time. For example, a commissioned cadet could serve three to four years on Active Duty and then elect to leave Active Duty and finish the remainder of the contract in the Reserves or National Guard. If not selected for Active Duty, then all eight years would be served in either the US Army Reserves or the State National Guard. The cadet is also required to perform an additional four years in the Inactive Ready Reserve, maintaining the cadet’s information with no drill requirement.

Also available to students is the Simultaneous Membership Program (SMP). Cadets who qualify for SMP will be assigned to a National Guard/Reserve unit to train under a lieutenant or captain in the headquarters element. The SMP cadet will receive E-5 (Sergeant) monthly Drill Pay (approximately $230) and, once contracted, an additional monthly $450 during the junior year, and $500 during the senior year as a stipend from Army ROTC.

During the summer between their junior and senior years of college, Advanced Course cadets attend a
paid five-week training session called Cadet Summer Training (CST). CST gives cadets the chance to demonstrate what they have learned in the classroom, and it introduces them to Army life "in the field."

THE TWO-YEAR CURRICULUM

A Two-Year Program is provided for those students who cannot complete the normal four-year program before graduation. The Two-Year Program is designed for graduate school students and students at 4-year colleges who did not take ROTC during their first two years of school.

To enter the Two-Year Program, students must first attend a paid summer training session called Cadet Initial Entry Training (CIET) to provide essential training to be successful in the Advanced Course. The training is normally held during the summer between their sophomore and junior or junior and senior years of college. This program is followed by enrollment in the Advanced Course to complete the ROTC Program.

Students may opt to enroll in the Advanced Course during their junior year and attend CIET during the summer between their junior and senior years.

COMPRESSION AND ALTERNATE

The Basic Course may be compressed into a single year by simultaneous enrollment in Freshman and Sophomore ROTC classes. This option is available to sophomore students who did not enroll in ROTC during their freshman year. Students must receive prior approval from the Military Science Department Chair to exercise this option.

ARMY ROTC SCHOLARSHIPS FINANCIAL ASSISTANCE

Scholarship opportunities exist for a Two- or Three-year ROTC Scholarship or Guaranteed Reserve Forces Duty Scholarship (GFRD). Three-year scholarships are open to freshmen and first semester sophomores. The Two-year ROTC & GFRD and Three-year ROTC Scholarships are awarded on a competitive basis. In some instances based upon the student’s performance a scholarship can increased, i.e., a three year becomes a four year. For more information on the scholarship process, please call the ECSU ROTC Scholarship and Enrollment Officer at (252) 335-3917.

Each scholarship pays for either room and board or college tuition and required educational fees, and it provides a specified amount for textbooks, supplies, and equipment. Each scholarship recipient or contracted cadet will receive the following subsistence allowance: FR: $350, SO: $400, JR: $450, and SR: $500 per month (cadets are actually paid every two weeks). Cadets who are in the advanced courses (juniors and seniors), who are not regular army scholarship cadets, can compete for Simultaneous Membership Program (SMP) slots in their unit and earn up to $1,000 per month.

Students who have prior military service (have completed Basic Training) and are in the reserves can earn a commission in two years if they meet the requirements.

Military Science, Minor

Program Design: Military Science

(Open To All Majors)

Required Classes:

A minor in Military Science and Leadership will consist of the following semester hours:

Residence Requirements:

19 Semester hours must be earned in residence. This minor will be available to all students that meet course requirements.

Written Communication:

WALTER DAVIS DEPARTMENT OF BUSINESS AND ECONOMICS

The Department of Business and Economics develops students into business professionals, engages in relevant research, and serves its stakeholders, particularly those in Northeast North Carolina.

We prepare students for success in life and in their chosen careers. The Department provides a full
spectrum of post-secondary business education courses with high academic and professional standards. Our graduates are prepared for careers in a technologically oriented and competitive global environment.

For students seeking degrees outside the Department of Business & Economics, business courses that count toward graduation must comprise less than 25% (30 semester hours) of the coursework required for the undergraduate degree received.

ADMISSION PROCESS

Purpose
The purpose of the admission process is to ensure that only students who are prepared to be business administration or accounting majors are admitted to those majors. Admission to Elizabeth City State University, while obviously required, does not constitute admission to the Department of Business & Economics.

General Process
Students enrolled at Elizabeth City State University or transferring from other institutions may be considered for admission to the Department of Business & Economics. Students will complete an "intent to major" form in business as the first step and will be assigned a business department faculty advisor. To be eligible for admission to the Department, however, students must satisfy the following admission requirements:

• completion of a minimum of 45 semester hours at ECSU or at a regionally accredited college or university;
• cumulative GPA of 2.0 or better on a 4.0 scale. (Transfer credits of students from other institutions must have a grade of "C" or better); and
• completion of the following courses or equivalent courses with a minimum grade "C" in each:
  • GE 115 College Algebra
  • ACCT 210 Financial Accounting
  • BUAD 190 Management Information Systems I
  • BUAD 115 Introduction to Business
  • ECON 201 Principles of Economics I (Macroeconomics)

Upon completion of the above courses, students must submit an application for official admission to the Department. Students not accepted may retake courses to meet eligibility requirements and reapply.

Once admitted to the Department, the student’s progress will be monitored and subject to the Department’s retention process.

CURRICULUM

The Department of Business & Economics offers the following degree
• Bachelor of Science in Accounting
• Bachelor of Science in Business Administration. (Requires a concentration in one of the following three concentrations: Economics and Finance, Management and Entrepreneurship, or Marketing and Data Analysis).

The Department also offers a minor in Business Administration and a minor in Entrepreneurship for students who are pursuing majors in other departments. Individuals may also pursue a certificate in Entrepreneurship.

In addition to residential offerings at the Elizabeth City campus, the Department participates in the University’s Distance Learning Program.

MISSION STATEMENT

The Department of Business and Economics develops students into business professionals engages in relevant research, and serves its stakeholders, particularly those in Northeastern North Carolina.

RETENTION PROCESS

Purpose
The purpose of the retention process is to ensure timely completion of the business administration and accounting degree programs through early intervention in meeting academic eligibility and graduation requirements. This process applies only to those students who are admitted to the Department and is separate from the University’s "academic eligibility standards" in the ECSU catalog. Students admitted to the Department are those who meet the requirements established in the Department’s Admission Process.

General Process
In order to graduate with a degree in Accounting or Business Administration, students are allowed no more than two "Ds" in courses offered in the Department of Business & Economics. Furthermore, they must maintain a cumulative GPA of at least 2.0 on a 4.0 scale. In addition, the grade for all courses serving as a prerequisite for another course must be "C" or better:

• **WARNING:** The semester in which a business student’s cumulative GPA in the major courses falls below the minimum requirement of 2.0 will result in the issuance of a "Warning" letter from the Department. Students under warning must retake courses in which they earned a grade below "C", and the student will be allowed to enroll in no more than 12 semester hours of both business and non-business courses.

• **PROBATION:** A student who fails to meet the minimum cumulative GPA in the major courses the semester after the warning will be placed on probation. Students placed on probation will be required to meet with their academic advisor for counseling. The advisor will direct the students to tutorial and developmental student services to help them improve their academic performance. Students on probation will be required to sign in with tutors for at least two hours each week in order to document time-on-task.

While on probation, students will not be allowed to take additional business courses but will be limited to retaking business courses in which they earned a grade below "C". However, they may take general education and non-business elective courses to attempt to improve their overall GPA.

*NOTE: Repeating courses is subject to the limitations specified in the University’s catalog "Repeating of Courses Policy." A student may "repeat a given course only twice." In addition, a student "may repeat a maximum of 15 semester hours during the matriculation toward a degree."

**Accounting**

The Accounting program offers students the opportunity to pursue degrees in Accounting. The use of technology as a teaching and learning tool is highly emphasized and is incorporated in most courses. Critical thinking and ethical values are also emphasized. Students are encouraged to participate in student organizations to help build teamwork and leadership skills. They are also encouraged to engage in an internship to gain work experience and an understanding of how the business world operates.

The primary objectives of the program are for graduates to be able to:
- Prepare and analyze financial statements;
- Demonstrate entry-level technical competence in financial accounting, cost/managerial accounting and auditing;
- Apply principles of the US Tax System to real life cases;
- Describe the principles related to the design, integrity and effectiveness of accounting information systems; and
- Apply critical thinking skills to business decisions.

The B.S. Degree in Accounting provides basic preparation for careers in public accounting; corporate finance and accounting; and government and not-for-profit accounting. Students interested in meeting the 150-hour requirement for CPA certification should contact their advisor before the end of the freshman year to devise a strategy. The Accounting degree is an excellent degree for many career goals and is in demand because of the analytical skills that it develops. Accounting is one of the fastest growing professions, and graduates with good GPAs have numerous career choices and opportunities in business and government. It is also excellent preparation for continued study for graduate degrees such as the Master of Business Administration (MBA), Master of Accountancy (MA), and Juris Doctor (law).

Business Administration

The Business Administration program offers students the Bachelor of Science in Business Administration degree (BSBA). In addition to the general education courses, Business Administration majors take their own business core subjects which help them gain general business knowledge. All Business Administration majors must select an area of concentration: Management and Entrepreneurship, Marketing and Data Analysis, or Economics and Finance. The department also offers a Minor in Business Administration and a minor in Entrepreneurship to students who are pursuing majors in other schools.

The BSBA degree provides basic professional preparation for careers in business, government, and non-profit organizations, with specific focus on administration. The curriculum is designed to help students
• develop the ability to evaluate and make business decisions against changing competitive, economic, legal, political, social/cultural, and technological environments;
• familiarize themselves with the dynamics of the internal organization and operations of business firms;
• develop skills in identifying problems, issues, and strengths, weaknesses, opportunities, and threats confronting business firms;
• acquire tools, methods, and techniques for analyzing and solving business problems and opportunities; and
• gain the ability to develop and implement strategies.

The major objectives of the program are to help students succeed at each of the following:
• Applying critical thinking skills to business decisions
• Recognizing ethical dilemmas in business and professional environments and demonstrating social responsibility
• Applying and using fundamental principles from the core knowledge base of Business Administration specific to the areas of accounting, economics, finance, information systems, international business, legal and social environment, management, marketing and qualitative business analysis
• Communicating effectively in both written and oral form

DEGREE PROGRAM

The Department of Business and Economics offers a Bachelor of Science in Business Administration. Students earn this degree in one of the following concentrations. Additional concentrations may be selected by a student in consultation with his or her advisor.

Concentration in Management and Entrepreneurship

The concentration in Management and Entrepreneurship prepares students for all facets of running a business, whether it be their own startup, an inherited family business, or a company created and owned by others. Students experience key elements of managing human resources, preparing business plans and determining how to attain and deploy resources for maximal effect. This concentration helps students use their creativity to recognize opportunity, evaluate and develop products or services to create value and wealth in the process.

Concentration in Marketing and Data Analysis

Marketing and Data Analysis are naturally related in the current age of technology. Successful companies are not only customer-driven, but are customer-obsessed. Successes come about by developing sound marketing strategies and functions that provide superior value to customers. Companies seek to use technology to tap into markets that are yet untapped as well as target their products to the specific needs and interests of current customers. They do so using data collected from point of purchase transactions, from customer surveys and interactions both face to face and on the web, and from demographic sources. Successful companies collect, store and use this data to find ways to add value for customers. This concentration connects MIS and Marketing through the link of E-Commerce, teaching students about business intelligence and analytics, consumer behavior, sales management and managing the marketing process.
Concentration in Economics and Finance
The Bachelor of Science in Business Administration with a concentration in Economics and Finance provides basic preparation for careers in banking, government, corporate finance, private entities, and investment banking. Inclusive in the program objectives is the preparation for graduate study in Business Administration, Economics, Finance, and related academic areas. Students with this concentration are on their way to being prepared for the Chartered Financial Analyst exam.

Minor in Business Administration
The Department also offers a minor in Business Administration to students pursuing other degrees at ECSU.

Minor in Entrepreneurship
For those pursuing degrees in programs other than Business Administration and Accounting, the Department also offers a minor in Entrepreneurship to help prepare students to open their own businesses.

Certificate in Entrepreneurship
The Department offers a Certificate in Entrepreneurship that is available for individuals seeking a degree at the university as well as for community members. The Certificate in Entrepreneurship is intended to prepare those without a Business Administration or Accounting degree to open and sustain an entrepreneurial venture.

DR. HELEN MARSHALL
Caldwell Department of Education, Psychology and Health

Established in 1891 for the "specific purpose of teaching and training teachers of the colored race" Elizabeth City State University's Dr. Helen Marshall Caldwell Department of Education, Psychology and Health continues a rich heritage of producing teachers to serve northeastern North Carolina. The Dr. Helen Marshall Caldwell Department of Education, Psychology and Health maintains its reputation for excellence and addresses the ever-changing needs of its many constituencies. Candidates enter our program as consumers of knowledge, but they leave prepared to begin careers as professionals and/or to pursue graduate education, and to meet the demands of the 21st Century. The Dr. Helen Marshall Caldwell Department of Education, Psychology and Health remains committed through its undergraduate, graduate, and distance-learning programs to continue the heritage of serving northeastern North Carolina, maintain the highest standards in accordance with its accrediting bodies, and become a beacon of the Northeast that improves outcomes in P-12 Education.

Education Programs

Faculty and staff who teach in the education are committed to the mission of preparing competent practitioners who facilitate learning. The conceptual framework, 21st Century Professional Educator, is woven throughout coursework, research, and experiences so that candidates meet standards for high quality teaching and leadership in the 21st Century. The Department offers innovative specialty areas that are designed to prepare candidates who are global competitors, advocates for diversity, effective communicators and collaborators, critical thinkers and innovators, and educational technology users and healthy and responsible citizens who are capable of meeting the diverse needs of all learners. Candidates participate in a professional core with their specialty area preparation where they benefit from classroom instruction, field experiences, and student teaching that reflects current thinking and research.

The Education program offers programs leading to licensure and a Bachelor of Science in Education in the following areas:
- Birth through Kindergarten (B-K)
- Elementary Education (K-6)
- Special Education (K-12)

Candidates majoring in Elementary Education are required to select an academic concentration from the list below:

Approved Academic Concentration Options:

- Art
- English
- General Science
- Mathematics
- Music
- Psychology
- Social Sciences
- Spanish

Special Education Overview

The Dr. Helen Marshall Caldwell Department of Education and Psychology offers a program leading to the Bachelor of Science with a major in Special Education: General Curriculum K-12, and initial North Carolina Licensure in Special Education: General Curriculum. This rigorous program of study is designed to provide the opportunities and experiences the candidates need to be effective teachers of students with disabilities, in diverse settings. Special emphasis is placed on the needs of culturally and linguistically diverse learners. Candidates are assisted to make the transition from theory to practice through the integration of carefully selected field experiences and classroom activities and assignments.

Program Goals
The goals of the Special Education Program are to:
1. provide an instructional program that incorporates technologies and reflects research-validated practices in special education and teacher preparation in general, in order to enhance the learning and the delivery of services to students with disabilities and their families;
2. ensure that all candidates become effective facilitators, critical thinkers, advocates of diversity, reflective practitioners, proficient technology users and competent evaluators; and
3. comply with guidelines, standards, competencies, policies, etc., established by the Council for the Accreditation of Educator Preparation (CAEP) and the North Carolina Department of Public Instruction (NCDPI)

Birth through Kindergarten (BK): Teacher Education Concentration, B.S.Ed.

Curriculum
A. General Education Requirements (35 credit hours)
B. Major Requirements (34 credit hours)

Core Courses - 31 credit hours
BKED 201  Introduction to Birth-Kindergarten  1
BKED 202  Child Growth and Development I  3
BKED 203  Child Growth and Development II  3
BKED 305  Early Childhood Literacy Development  3
BKED 325  Infant and Toddler Curriculum and Development  3
BKED 330  Educational Assessment of Infants, Toddlers & Preschools  3
BKED 335  Communication and Collaboration in Schools and Communities  3
BKED 420  Preschool Curriculum  3
EDUC 203  Introduction to Computer Instructional Technology  3
EDUC 210  Professional Studies I: Introduction to Education  3
EDUC 310  Professional Studies II: Special Education & Diverse Learners  3

Core Electives - 3 credit hours
BKED 460  Issues and Trends in Early Childhood Education OR  3
BKED 475  Autism Spectrum & Related Behavior Disorders  3

C. Related Area Requirements (15 credit hours)
HLTH 367  First Aid, CPR and Safety  3
HLTH 369  Principles of Nutrition  3
BFIN 210  Personal Financial Management OR  3

PROGRAM GOALS AND OBJECTIVES
• Candidates will acquire knowledge of the cognitive, physical, cultural, social, and emotional needs of young children and their families.
• Candidates will demonstrate a comprehensive understanding of the development and implementation of instructional programs for young children.
• Candidates will demonstrate the ability to collaborate with students, families, and school and community personnel in designing and implementing programs for young children.
• Candidates will demonstrate professionalism in their interactions with faculty and school personnel and, as a part of their preparation program, engage in professional activities.

OVERVIEW
The Birth through Kindergarten program prepares graduates to work with children and families in a variety of settings. Candidates in this program observe and work with infants, toddlers, preschool, and kindergarten children in public and private settings. Graduates of the Birth through Kindergarten program are prepared for employment in Head Start programs, private child care programs, public schools, and other child-centered agencies or businesses. The program offers teaching (Teacher Education) and non-teaching (Child, Family, and Community) concentrations. Successful completion of the Teacher Education concentration will qualify students to apply to the State of North Carolina for an initial teacher license in Birth through Kindergarten education.
ECON 201  Principles of Economics I  3
EDUC 250  Introduction to Reading  3
SPED 370  Introduction to Positive Behavior  3

D. Concentration Requirements (27 credit hours)

Concentration Core Courses - 24 credit hours
EDUC 221  Sophomore Seminar  3
EDUC 360  Teaching and Assessment  3
BKED 454  Inclusive Preschool Environments  3
BKED 470  Kindergarten Curriculum and Standards  3
BKED 490  Student Teaching  12
EDUC 478  Seminar in Contemporary Educational Issues  P/F

Concentration Electives - 3 credit hours
Select one of the courses below.
ELEM 300  Reading & Language Arts  3
ELEM 390/SPED 390  Social Studies Methods in the Inclusive Classroom  3
ELEM 395  Science Methods in the Inclusive Classroom  3

E. Free Electives (9 credit hours)

Elementary Education K-6

OVERVIEW

The Elementary Education Program offers professional education courses for students desiring to major in Elementary Education. This program prepares them to teach Kindergarten through sixth grade. The program bridges theory, course work, and practice through courses and carefully selected field experiences. A minimum of 124 semester hours is required to complete the program, and majors are required to select and complete an academic concentration. After successfully completing the program, completing an electronic portfolio, and meeting the required Pearson Testing scores, candidates will be eligible to apply for a North Carolina Elementary Education (K-6) teaching license.

PROGRAM GOALS

The goals of the Elementary Education Program are:
• to prepare elementary teacher candidates to develop and implement meaningful instructional plans that meet the needs of diverse 21st Century learners;
• to assist candidates to develop the in-depth content knowledge needed to become effective teachers;
• to prepare candidates to utilize student data to inform instructional decision-making.

OBJECTIVES

The Program in Elementary Education is designed to ensure that:
• elementary grades teacher candidates have the knowledge and understanding of language and how language is used to develop effective communication in listening, speaking, viewing, reading, thinking, and writing;
• elementary grades teacher candidates have the knowledge and understanding of mathematical conventions and processes; skills relative to number sense, numeration, numerical operations, and algebraic thinking; spatial sense, measurement, and geometry; patterns, relationships, and functions; and data analysis, probability, and statistics;
• elementary grades teacher candidates have the knowledge and understanding of scientific inquiry, process skills, and concepts and applications relative to the life, physical, and earth sciences in order to be informed and productive citizens;
• elementary grades teacher candidates have the necessary knowledge for producing knowledgeable, global citizens who are critical thinkers in a democratic society;
- elementary grades teacher candidates have the knowledge and understanding of mental, emotional, physical, and social health to empower students to make healthy lifestyle choices;
- elementary grades teacher candidates integrate the arts throughout the curriculum.

### Curriculum Guide for Elementary Education K-6

#### Science Concentration

### Second Semester
- **EDUC 225**: Exploration in Mathematics 3
- **MATH 118**: Precalculus 3
- **GE**: Natural Science/Lab 4
- **Free Elective**: 3
  
  **Subtotal: 16**

### First Semester
- **ENGL 102**: Composition I 3
- **UNIV 110**: Freshman Seminar 1
- **HIST 140**: History of World Civilization, Prehistoric to 1500 3
- **PHYS 152**: Principles of Physical Science 3
- **PHYS 152L**: Principles of Physical Science Lab 1
- **GEOL 158**: Principles of Geological Science 3
- **GEOL 158L**: Principles of Geological Science Lab 1
- **MATH 121**: Number Systems and Algebra 3
- **GE**: Fine Arts/Communication 2
- **GE**: Physical Education 1
  
  **Subtotal: 16**

### Second Semester
- **ENGL 103**: Composition II 3
- **MATH 122**: Geometry and Data Analysis 3
- **HIST 141**: History of World Civilization, 1500 to the Present 3
- **EDUC 210**: Professional Studies I: Introduction to Education 3
- **SPAN 101**: Elementary Spanish 3
- **PE**: Student Select 1
- **PSY 212**: General Psychology 3
- **GEOG 142**: Introduction to Geography 3
  
  **Academic Concentration**: 3
  
  **Subtotal: 17**

### Senior Year
- **EDUC 410**: Professional Studies IV: Instructional Leadership and Methods 3
- **ELEM 390/SPED 390**: Social Studies Methods in the Inclusive Classroom 3
- **ELEM 395**: Science Methods in the Inclusive Classroom 3
- **EDUC 211A**: Introduction to Positive Behavior Support 3
- **STAT 251**: Basic Statistics 3
  
  **Subtotal: 15**

### First Semester
- **ENGL 201**: World Literature I 3
- **BIOL 100**: Principles of Biological Science 3
- **BIOL 100L**: Principles of Biological Science Lab 1
- **EDUC 203**: Instructional Technology 3
- **EDUC 225**: Exploration in Mathematics 3
- **EDUC 211A**: Exploration in Mathematics 3
  
  **Subtotal: 14**

### Second Semester
- **EDUC 433**: Observation and Supervised Teaching in Elementary Education (K-6) 12
- **EDUC 478**: Seminar in Contemporary Educational Issues P/F
  
  **Subtotal: 12**

### Note: Total of at least 18 semester hours required for Academic Concentration.

### Requirements for Praxis Core Preparation:

- *EDUC 170*- Pre-Professional Studies II: Mathematics (2 credit hours)
- *EDUC 220* Sophomore Seminar Praxis Core Reading and Writing (3 credit hours)
Second Semester

Office of Teacher Education

The Teacher Education Program is approved by the state of North Carolina and is accredited by the Council for the Accreditation of Educator Preparation (CAEP) formerly NCATE. Program coursework meets Interstate New Teacher Assessment and Support Consortium (InTASC) Standards, North Carolina Teaching Standards, International Society for Technology in Education (ISTE) Standards, Specialty Standards and the Department’s Conceptual Framework.

**CENTURY PROFESSIONAL EDUCATOR**

The Conceptual Framework 21st Century Professional Educator, describes the vision and purpose of the Dr. Helen Marshall Caldwell Department of Education, Psychology and Health in preparing educators to work in P-12 schools.

Consistent with the institution’s mission, the Department's focus is to prepare educators to be global competitors, advocates for diversity, healthy and responsible citizens, critical thinkers and innovators, embedded technology users and effective communicators and collaborators who are capable of meeting the diverse needs of all learners. Supported by a strong knowledge base, the conceptual framework provides a system for ensuring coherence and a well-articulated professional commitment to student knowledge of content, teaching effectiveness, leadership, and learning. This coherence is reflected in the curriculum, instruction, and clinical experiences to develop the knowledge, skills, and dispositions that are valued in the professional educator. The conceptual framework is designed as the guiding force for program implementation, assessment, evaluation, and effectiveness.

**INSTITUTION GOALS FOR TEACHER EDUCATION AT ECSU**

The Teacher Education Program has a long-range plan which is monitored regularly. Major emphasis is on: (1) providing students with a rich educational experience and an opportunity to be effective teachers in 21st century classrooms, (2) increasing the number and diversity of candidates, (3) providing greater collaboration with public schools, and (4) developing new and/or expanded programs at the undergraduate and graduate levels employing technology as a tool to enhance the educational environment. Additionally, specific long-range plans are presented in the SACS and CAEP reports for the Teacher Education Program.

**ADMISSION INTO THE TEACHER EDUCATION PROGRAM**

Admission into the Teacher Education Program is open to both degree-seeking students and post-baccalaureate, non-degree (Lateral Entry/Licensure-Only) students who meet the requirements established by the University and the individual program in which they are seeking certification.
INITIAL ADMISSION TO THE PROGRAM
According to the criteria established by the Department of Public Instruction and the Department of Education, Psychology and Health, students must complete the following for program eligibility:

- complete an application to the Teacher Education Program;
- meet with the advisor;
- complete a criminal background check with certified background.com and have a satisfactory record;
- completed 15 hours of classroom field experience
- EDUC 210 Professional Studies I: Introduction to Education
- undergraduate GPA of at least 2.80;
- satisfactory interview;
- acceptable writing sample; and
- satisfy the Praxis Core or have acceptable SAT/ACT scores

*Licensure Only candidates are not required to take Praxis Core.

Each student who applies for admission to the Teacher Education Program will be given written notification regarding admission or denial of admission. A student is not considered admitted to the Teacher Education Program until such notification is provided.

PROGRAM RETENTION

- Students must attend all mandatory Education majors meetings
- Meet with advisor(s) semesterly
- Maintain a cumulative grade point average of a 2.80
- Complete all major/minor/concentration requirements

Students are encouraged to meet all program requirements. Failure to meet requirements could compromise Teacher Education admittance status, requiring program reinstatement.

PREREQUISITES FOR STUDENT TEACHING
In order to qualify for student teaching, a student must:

- be admitted into the Teacher Education Program;
- must be in the final semester at the University;
- have a minimum overall cumulative grade point average of 2.80 on a scale of 4.0;
- complete all General Education courses and all required education courses except student teaching;
- submit an application for student teaching one to two semesters prior to the student teaching semester on or before dates announced by the Office of Teacher Education;
- remove all deficiencies, if any, by the established deadline; and
- meet the established criteria for all Electronic Evidences.

REQUIREMENTS FOR EXIT
Each student must satisfy the following requirements to complete the Teacher Education Program:

- Complete all major/minor/concentration courses
- Successfully complete student teaching and submit all student teaching forms
- Complete Exit Interview
- Complete the Taskstream Portfolio with an overall assessment of Acceptable

ELECTRONIC PORTFOLIO REQUIREMENTS
The Teacher Education Program requires that candidates use Taskstream to create and submit the North Carolina Department of Public Instruction required evidences/artifacts (assignments). As prospective teachers, students are required to develop an Electronic Portfolio that demonstrates professional growth and provides opportunities for self-assessment and reflection. Evidences must meet four broad competency areas: content knowledge, pedagogical knowledge, positive impact on student learning, and leadership.
APPLYING FOR A NC TEACHING LICENSE
Students must apply for North Carolina teaching license or renewal using the North Carolina online licensing system. Students must submit the following:

- An official transcript (including degree awarded date)
- Certification of Teacher Capacity Form
- Praxis II or NCTEL (NCTEL-Elementary & Special Education programs only)

CURRICULUM CENTER
The Curriculum Center provides a wide variety of books and instructional materials at levels ranging from Pre-K through secondary. Included are selected textbook series and supplementary materials for children and youth. Materials for lesson plans, unit development, exercises, testing, instructional aids, and teaching strategies are also available. Also included are reference books pertaining to children’s literature, instructional media, posters, art prints, recordings, and manipulatives for hands-on experiences.

COMPUTER LAB
A Computer Lab is available in the education building for student and classroom use. The lab provides an opportunity for faculty to engage students in the use of technology in the classroom.

University-Schools Teacher Education Partnership (U-STEP)
U-STEP is designed to unite the teacher education program and the public school system. In this collaboration, ECSU and the public school systems work together to prepare university students to become skilled teachers. The partnership focuses on the mutual goal of quality teaching to foster learning and research in schools. Through U-STEP students engage in year-long student teaching.

Field experiences in Elizabeth City State University's Teacher Education Program are systematically planned to involve students in increasingly real teaching experiences. Students complete 15 hours of field experience prior to program admission. During the year-long, the field experience required for all methods courses is the basis for the time in the field during the first semester (clinical I) prior to candidates' student teaching (clinical II) experiences. During the first semester, students will complete 25-60 hours. Students will complete 75 days of student teaching.

Psychology
OVERVIEW
The study of psychology provides knowledge regarding the causes of behavior and psychological methods of investigation. A background in psychology promotes within an individual a sense of competence and efficiency through a better understanding of development, learning, cognition, and emotion. Therefore, a fundamental effort in the Psychology Program is to impart to students a thorough knowledge of the practical, scientific, and theoretical/philosophical factors associated with the study of human behavior. The program offers a major, a minor, and an academic concentration (Teacher Education Majors) in Psychology.

MISSION & OBJECTIVES
In concert with the overall mission of Elizabeth City State University, the Psychology program endeavors to develop in undergraduate students a better understanding of the social, biological, and environmental factors that impact the human experience from a global, overall perspective. Students are presented the opportunity to prepare for graduate study in psychology, marketing, law enforcement, social work and education to name a few. The program’s objectives can be translated into specific purposes/goals relevant to obtaining the Bachelor of Science Degree in Psychology at ECSU. These objectives are as follows:

- to enhance student ability to think critically and quantitatively;
- to provide relevant and rigorous academic coursework, the successful completion of which results in a Bachelor of Science degree;
- to provide students with the knowledge, skills, and academic preparation necessary for the pursuit of advanced degrees in graduate and professional schools, thereby facilitating viable employment opportunities; and
• to provide students with a broad understanding of the types of problems in local, national, and international communities which can be addressed via the application of knowledge obtained from the study of psychology.

PSYCHOLOGY DEGREE PROGRAM

The degree of Bachelor of Science with a major in psychology shall be conferred upon students who complete major requirements as indicated in the curriculum plan for those majoring in psychology. It should be noted that both the Major and the Minor (for majors in any discipline) are offered in psychology. Each student pursuing the Psychology major is encouraged to declare a minor (any field other than Psychology) as the first-time seeker of the baccalaureate degree.

For a Major or Minor status in psychology, the student must evidence an overall GPA of 2.25 or better and must have earned grades of "C" or better in the courses identified as "Psychology" (PSY) courses. Earning grades of "C" or better in Psychology (PSY) courses is a requirement for graduation. Failure to maintain the required GPA will result in the student being placed on probationary status as a Major/Minor in Psychology until the necessary GPA is achieved. The appropriate course sequence along with curriculum-guide summaries appear below.

The Department also offers an "Academic Concentration in Psychology (p. 128)" as a complement to the Teacher Education Program.

Psychology, B.S.

Curriculum

A. General Education Core (35 hours)

General education requirements for Major or Minor in Psychology include 35 hours of general education core courses. The students can select courses from various general education sections as per general education core curriculum instructions except the listed courses that are required for Major or Minor in Psychology.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOC 201</td>
<td>Introduction to Sociology</td>
<td>3</td>

<td>3</td>
</tr>
<tr>
<td>PHS 210</td>
<td>Community Health, Safety, and Disease</td>
<td>3</td>
</tr>
</tbody>
</table>
Take labs with BIOL 102 and CHEM 101  
Select two (2) consecutive courses in a foreign language (6 credit hours):

- FREN 101: Elementary French 3
- FREN 102: Elementary French 3
- FREN 201: Intermediate French 3
- FREN 202: Intermediate French 3
- SPAN 101: Elementary Spanish 3
- SPAN 102: Elementary Spanish 3
- SPAN 111: Conversational Spanish 3
- SPAN 112: Conversational Spanish 3
- SPAN 201: Intermediate Spanish 3
- SPAN 202: Intermediate Spanish 3
- SPAN 303: Grammar and Composition 3
- SPAN 304: Grammar and Composition 3
- SPAN 401: Survey of Spanish Literature 3
- SPAN 402: Survey of Spanish Literature 3
- CHIN 101: Introduction to Chinese I 3
- CHIN 102: Introduction to Chinese II 3

The selected language courses cannot satisfy general education requirements.

Select 9 credit hours from the following:
- AVI 260: Aviation Human Factors and Safety 3
- BIOL 210: Genetics 4
- COM 200: Interpersonal Communication 3
- CSC 114: Introduction to Computer Science 3
- ENGL 401: Technical Writing 3
- HLTH 367: First Aid, CPR and Safety 3
- HLTH 369: Principles of Nutrition 3
- HLTH 460: Contemporary Health Education 2
- HLTH 465: Drug Education 3
- JOUR 349: Mass Media 3
- JOUR 351: Journalism I 3
- JOUR 352: Journalism II 3
- MCOM 250: Introduction to Broadcasting 3
- MIS 201: Applied Leadership and Management I 2
- MIS 202: Applied Leadership and Management II 2
- MIS 301: Leadership and Management I 3
- MIS 302: Leadership and Management II 3
- MIS 303: U.S. Military History 3
- PESM 211: Introduction to Sport Psychology 3
- PESM 311: Sport Marketing and Promotion 3
- PESM 312: Legal Issues of Sport/Rec 3
- PESM 313: Governance in Sport 3
- PESM 410: Organization and Management 3
- PESM 411: Facilities Management 3
- PHIL 252: Critical Thinking and Logic 3
- PHSC 355: Healthcare Informatics 2
- PHS 110: Introduction to Public Health 3
- PHS 210: Community Health, Safety, and Disease 3
- PHS 322: Principles of Epidemiology 3
- POLS 305: Political Theory 3
- POLS 307: American Political Ideas 3
- POLS 310: American Presidency 3
- POLS 402: Politics and Problems of Contemporary Africa 3
- POLS 403: American Foreign Policy 3
- POLS 404: Comparative Politics 3
- POLS 483: International Relations 3
- POLS 484: International Organization 3
- PSY 320: Psychology of Social Behavior 3
- PSY 330: Psychology of Personality 3
- PSY 340: Psychology of Cultural Diversity 3
- PSY 370: Physiological Psychology 3
- PSY 380: Psychology of Group Behavior and Inter-group Conflict 3
- PSY 390: Psychology of Addictions 3
- PSY 400: Sensation and Perception 3
- PSY 407: Community Psychology 3
- PSY 410: Industrial/Organizational Psychology 3
- PSY 420: Counseling Principles and Practices 3
- PSY 480: Practicum in Psychology 3
- SOC 305: Sociology of the African-American 3
- SOC 385: Social Theory 3
- SOC 412: Social Stratification 3
- SOC 480: Seminar in Human Terrain Systems in South Asia 3
- SOWK 395: Women and Religion 3
- SPCH 314: Public Speaking 3
- SPCH 316: Argumentation and Debate 3

Selected courses should not satisfy general education, Psychology core elective, or related area requirements.

D. Minor/Free Electives (24-25 hours)
Subtotal: 120

**NOTE:** Psychology 212 (General Psychology) occurs as a prerequisite to all other courses in psychology.

**Psychology, Minor**

Total semester hours required for Minor in Psychology are 21 that include 15 hours of required core courses and 6 hours that can be selected from any two groups of psychology electives. General Psychology that satisfies general education requirement is a prerequisite for all other Psychology courses.

**Minor in Psychology:**

**Twenty-one Semester Hours**

**Core Courses (15 hours)**

The following psychology core courses are required for Minor in Psychology:

- PSY 221 Professional Perspectives in Psychology
- PSY 301 Statistics and Research Design
- PSY 351 Experimental Psychology
- PSY 360 Abnormal Psychology
- PSY 450 Learning and Cognition

**Core Electives (6 hours)**

Select two courses (6 credit hours) from any two groups of the core psychology electives.

**Subtotal: 21**

**Academic Concentration in Psychology Curriculum**

**Seventeen semester hours required:**

PSY212: General Psychology that satisfies general education requirement occurs as a prerequisite to all other courses in psychology for Academic Concentration in Psychology. In addition to General Psychology, seventeen semester hours in Psychology courses are required with a 'C' or better grade. As the courses have a sequence to be followed, students must seek advisement from Psychology faculty advisor to enroll in courses.

- PSY 250 Developmental Psychology I
- PSY 301 Statistics and Research Design
- PSY 311 Psychological Tests and Measurement
- PSY 351 Experimental Psychology
- PSY 450 Learning and Cognition

**Subtotal: 17**

**Kinesiology and Health**

**OVERVIEW**

To provide an environment in which students can pursue excellence through a program of professional coursework, practical experiences, and professional interactions that will provide a foundation for careers in the field of Kinesiology. The Kinesiology degree is one of the newest programs developed by ECSU. The
Kinesiology degree asks students to choose one of three concentrations to specialize in: Physical Education and Health, Fitness and Wellness, and Exercise Science. All students majoring in a degree in Kinesiology will take the same 23 credit hours of core courses, 8 credit hours of core electives, and then will take courses specific to the concentration of study. The Kinesiology degree is taught using online and face-to-face coursework and is suggested to take 8 full-time semesters to graduate.

MISSION
The mission of the Kinesiology program is to provide educational opportunities for students seeking a B.S. degree in Kinesiology by disseminating knowledge about Kinesiology, Physical Education pedagogy, pedagogical content knowledge, physical activity programming, nutrition, public health, exercise, human movement, curriculum design, and instructional strategies that will prepare graduates to be globally competitive to transform Northeastern NC and the World.

Kinesiology and Health offers professional preparation programs for majors and health and physical activity programming for non-majors to fulfill general education course requirements. The Kinesiology and Health program area offers the following programs and concentrations:

PROGRAMS:
1. Kinesiology
   Concentrations:
   a. Exercise Science
   b. Fitness and Wellness
   c. Physical Education and Health (Teaching)

2. Sport Management
   Concentrations:
   a. Management and Administration
   b. Marketing and Promotion
   c. Sport Communication

KINESIOLOGY

Kinesiology- Concentration: Exercise Science
The Exercise Science program of study prepares students for careers in preventative and rehabilitative exercise and wellness programs in settings such as hospitals, government agencies, and fitness and corporate wellness centers. A solid foundation in the natural sciences is the cornerstone of the coursework. Upon completion of the coursework students should have the foundational content knowledge needed to pass a number of nationally recognized personal trainer, group exercise instructor, and strength and conditioning certification exams, such as the American Council on Exercise (ACE), the National Strength and Conditioning Association (NSCA), and the American College of Sports Medicine (ACSM). Students choosing this concentration will meet the requirements for most graduate education programs in such allied health areas as physical therapy, occupational therapy, sports medicine, and exercise science.

Kinesiology- Concentration: Fitness and Wellness
The Fitness and Wellness concentration prepares students for employment in the growing health and wellness industry. The coursework in Fitness and Wellness provides content knowledge needed to pass a number of nationally recognized exams, so students can earn certifications in: aquatic exercise instruction, personal training, lifestyle, weight management, and health coaching, group exercise instruction, First Aid/CPR/AED, and certified aquatic facility technician.

Kinesiology- Concentration: Physical Education and Health
The Physical Education and Health concentration is designed to provide the content knowledge needed to teach Physical Education and Health Education at the K-12 grade levels, in the state of North Carolina. Upon completion of this program students will be eligible to earn North Carolina teaching licensure.

Kinesiology- Physical Education and Health Licensure Only
The Physical Education and Health Licensure Only track is available to individuals who currently hold an undergraduate degree, in any field, from an
accredited institution. This program of study is available to provide experience with Physical Education and Health Education content to individuals in order to earn endorsement for teaching Physical Education and Health Education through the state North Carolina.

SPORT MANAGEMENT

The Sport Management program allows students to pursue a broad core program with three areas of concentration: Sport Marketing and Promotions, Sport Management and Administration, and Sport Communication. The curriculum offers interdisciplinary courses in the Department of Education, Psychology, and Health, the Walter R. Davis School of Business and Economics, and the Department of Language, Literature, and Communication. Students must complete an internship prior to graduation.

KINESIOLOGY AND HEALTH CLUB

The Health and Physical Education Majors’ Club exists to provide all students majoring in a program of study in the Kinesiology and Health with an organization to foster the open exchange of ideas. The club provides access to community service opportunities on campus, in Elizabeth City, in North Carolina, and nationally. Members engage in a variety of new experiences that will help them discover new information about their fields, which will prepare them to become productive members of their field and society after graduation.

The Health and Physical Education Majors’ Club brings world renowned professionals to ECSU for guest lectures, offers nationally recognized training programs, and promotes professional development and networking by helping fund students to attend and present at national, state, and local conferences. Students must obtain a minimum grade of "C" in all Major Core Requirements.

Kinesiology - Concentration in Fitness and Wellness, B.S.

Curriculum

A. General Education Requirements (35 hours)

The following General Education course is required for the major.

PE 173  Swimming I  1

B. Major Requirements (31 hours)

1. Core Courses (23 hours)

KIN 239  Introduction to Kinesiology  2
KIN 300  Exercise Physiology  3
KIN 370  Kinesiology  3
KIN 416  Advanced Kinesiology and Biomechanics  3
HLTH 367  First Aid, CPR and Safety  3
HLTH 369  Principles of Nutrition  3
PHS 110  Introduction to Public Health  3
PHS 210  Community Health, Safety, and Disease  3

2. Core Electives (8 hours)

Select 8 hours from the courses below.

KIN 242  Teaching Team Sports  2
KIN 307  Teaching Lifetime Leisure Pursuits  2
KIN 368  Prevention and Care of Athletic Injuries  2
KIN 401  Motor Learning and Motor Behavior  3
KIN 403  Research in Physical Education  3
KIN 470  Adapted Physical Education  3
PESM 312  Legal Issues of Sport/Rec  3
PESM 411  Facilities Management  3
PHS 310  Environmental Health and Sanitation  3
PHS 410  Terrorism, Disasters, and Epidemics  3

C. Related Area Requirements (24 hours)

KIN 210  Applied Anatomy and Physiology  3
KIN 210L  Applied Anatomy and Physiology Lab  1
KIN 243  Individual Sports  2
KIN 375  Management of Physical Education and Athletic Programs  3
PESM 211  Introduction to Sport Psychology  3
PESM 313  Governance in Sport  3
PESM 410  Organization and Management  3

Select 6 hours in Public Health Experience

Select 6 hours from the Public Health Experience Courses listed below.

PHS 420  Local Public Health Agency Field Experience  3
PHS 421  State PHS Agency Field Experience  3

PHS 422  Federal PHS Agency Field Experience  3
PHS 423  Non-Profit Organization Field Experience  3
PHS 424  Private Corporation PHS Field Experience  3
PHS 425  International PHS Field Experience  3

D. Concentration Requirements (18 hours)

KIN 379  Lifestyle, Weight Management, and Health Coaching  3
KIN 383  Aquatic & Fitness Instruction  3
KIN 388  Lifesaving  3
KIN 390  Water Safety  3
KIN 407  Group Exercise Instruction  3
KIN 478  Swimming Pool Operation and Maintenance  3

E. Free Electives (12 hours)

**DEPARTMENT OF LANGUAGE, LITERATURE, AND COMMUNICATION**

The Department of Language, Literature, and Communication provides all students with integrated experiences and instruction in the English language, literature, creative writing, communication studies, mass communication, and foreign languages. It seeks to achieve six major objectives:

1. to develop in all students' proficiency in the use of the English language and in analytical thinking, writing, and problem-solving skills;
2. to assist all students in understanding and appreciating their literary heritage and that of other peoples;
3. to prepare students for careers in mass communication/communication studies; and
4. to provide majors with a rich background in communication skills and to encourage their admission into professional programs such as law, public relations, government service, and education.

In addition to the department’s objectives for all its majors, the department welcomes students in other majors who wish to achieve the following:
- an understanding of the role of communication in daily life with a focus on the importance of cultural diversity in communication;
- a proficiency in the use of professional skills, techniques, methodologies, and supportive techniques in specific disciplines;
- the acquisition of professional values and ethics;
- a regimen of self-growth and professional development; and
- the mastery of their creative writing skills.

The Department of Language, Literature, and Communication offers Bachelor of Arts degrees in English and Communication Studies. The concentrations and minors in the English degree program are tangential areas of study which provide students with instruction, experience, and training for the purpose of self-development, enrichment, possible career alternatives, and graduate school.

Degree focus can include a concentration in mass communication, news media, or the option of a minor.

The Department of Language, Literature, and Communication offers the following courses in the University Honors Program:

**Freshman Year**

**First Semester**

<table>

Communication Studies, Minor

Curriculum
Required Courses
JOUR 349    Mass Media           3
JOUR 351    Journalism I        3
MCOM 250    Introduction to Broadcasting 3
MCOM 347    Mass Communication Theory and Research 3
MCOM 353    Radio Production     3
MCOM 355    Television Production 3
MCOM 450    Media Law and Ethics 3
Subtotal: 21

English, Minor

Curriculum
Required Courses
ENGL 301    British Literature I 3
ENGL 302    British Literature II 3
ENGL 305    American Literature I 3
ENGL 458    Black Writers in American Literature I 3
ENGL 306    American Literature II 3
ENGL 459    Black Writers in American Literature II 3

Followed by 9 hours of any of the following courses:
ENGL 303    Literary Criticism 3
ENGL 316    Introduction to Rhetoric and Composition 3
ENGL 317    Advanced Composition 3
ENGL 327    History of the English Language 3
ENGL 425    Shakespeare 3
Six semester hours selected from 300 and 400 level courses in additional English, creative writing, mass communications, or news media courses.
Subtotal: 21

**DEPARTMENT MATHEMATICS AND COMPUTER SCIENCE**

The Department of Mathematics and Computer Science offers undergraduate programs leading to Bachelor of Science degrees in both Mathematics and Computer Science. The department also offers minors in Mathematics, as well as Computer Science. A graduate program leading to a Master of Science degree has been added, with concentrations in Applied Mathematics, Mathematics Education, Community College Teaching, and Remote Sensing. The strong curriculum provides students with a high level of preparation for professional employment, as well as for graduate study, with an emphasis on integrating theory and applications.

Students majoring in the Mathematical Sciences have numerous career opportunities open to them. An undergraduate degree in Mathematics or Computer Science establishes an excellent background for graduate studies in many areas such as Mathematics, Actuarial Science, Computer Science, Statistics, Engineering, Operations Research, and Economics, etc. Those who are planning to receive a license to teach high school and/or middle school Mathematics must have a minor in Secondary and/or Middle Grades Education.

The department faculty members have diverse research interests. It is recommended that prospective students contact the department as early as possible to discuss an appropriate program of study and plan the sequencing of course requirements. Students majoring in or with a minor in Mathematics or Computer Science are required to have a "C" or better grade in all major requirement courses to meet the departmental standards and approval to be recommended for graduation. The Department of Mathematics and Computer Science offer degrees in the following:

- **Computer Science**
  - Computer Science with a Concentration in Information Systems (p. 144)
  - Computer Science with a Scientific Concentration (p. 143)

- **Mathematics**
  - Mathematics (p. 146)
  - Mathematics with a Concentration in Secondary Education (p. 146)

**Computer Science - Concentration in Data Science, B.S.**

Curriculum

- CSC 410 Net-Centric Computing 3
2. Core Electives (6 hours)

Select 6 credits from the courses below.

- CSC 240: Introduction to Cybersecurity 3
- CSC 300: Introduction to Mobile Robotics 3
- CSC 305: Introduction to Bioinformatics 3
- CSC 315: Programming Languages Concepts 3
- CSC 318: Algorithms 3
- CSC 322: UNIX Administration & System Programming 3
- CSC 409: Artificial Intelligence 3
- CSC 412: Software Engineering 3
- CSC 413: System Analysis and Design 3
- CSC 414: Python Programming & Visualization 3
- CSC 415: Computer Graphics 3
- CSC 420: Operating Systems 3
- CSC 421: Topics In Computer Science 3
- CSC 430: Undergraduate Research in Computer Science 3
- CSC 435: Advanced Web Design 3
- CSC 451: Numerical and Symbolic Computing 3
- CSC 452: Internship 3-6
- MATH 360: Applied Cryptography & Data Security 3
- MATH 410: Linear Optimization 3

C. Related Area Requirements (10 hours)

- MATH 165: Calculus of Single Variable I 4
- MATH 262: Discrete Methods 3
- MATH 351: Linear Algebra 3

D. Concentration Requirements (18 hours)

1. Concentration Core (15 hours)

- BUAD 115: Introduction to Business 3
- BMIS 380: Management Information Systems II 3
- MNGT 221: Principles of Management 3
- BUAD 190: Management Information Systems 3
- ACCT 210: Financial Accounting 3

2. Concentration Electives (3 hours)

Select 3 credits from the courses below:

- BMIS 386: Business Systems Analysis and Design 3
- BMIS 485: Business Intelligence and Analytics 3
- BMIS 489: Project Management 3

E. Free Electives (17 hours)

Subtotal: 120

Curriculum Guide for Major in Computer Science with an Information Systems Concentration

Freshman Year

First Semester

- UNIV 110: Freshman Seminar 1
- ENGL 102: Composition I 3
- Humanities and Fine Arts C 2
- Natural Sciences and Mathematics - A 3
- Social & Behavior Sciences A 3

Second Semester

- UNIV 120: Freshman Seminar II 1
- ENGL 103: Composition II 3
- MATH 165: Calculus of Single Variable I 4
- CSC 115: Programming I 3
- Social & Behavior Sciences B (1) 3
- CSC 160: Computer Science Majors Orientation Seminar 1

Subtotal: 15

Sophomore Year

First Semester

- CSC 215: Humanities and Fine Arts A 3
- CSC 230: Programming II 3
- CSC 260: Object-Oriented Programming 3
- HLTH 185: Health Concepts 2
- Natural Sciences and Mathematics - B 4

Subtotal: 15

Second Semester

- MATH 262: Discrete Methods 3
- CSC 260: Sophomore Seminar in Computer Science 1
- Social & Behavior Sciences B (2) 3
- Physical Education Activity 1
- BUAD 115: Introduction to Business 3
- SPCH 314: Public Speaking 3

Subtotal: 15

Junior Year

First Semester

- CSC 218: Data Structures 3
- MATH 351: Linear Algebra 3
- Free Elective 3
- Free Elective 3
- ACCT 210: Financial Accounting 3

- CSC 401: Data Mining & Machine Learning 3
- CSC 412: Senior Seminar in Computer Science 2
- Major Requirements Core Elective 2 3
- Concentration Elective 1 1
Mathematics, B.S.

Curriculum

A. General Education courses (35 hours)

B. Major Requirements (52 hours)

1. Core Courses (40 hours)

- MATH 165 Calculus of Single Variable I 4
- MATH 265 Calculus of Single Variable II 4
- MATH 267 Calculus of Several Variables III 4
- MATH 275 Foundations of Mathematics 3
- MATH 350 Number Theory 3
- MATH 351 Linear Algebra 3
- MATH 354 Abstract Algebra I 3
- MATH 358 Differential Equations 3
- MATH 365 Exit Seminar for Juniors 2
- MATH 455 Elements of Real Analysis 3
- MATH 466 Exit Seminar in Mathematics 2
- MATH 467 Senior Capstone 3
- STAT 351 Probability and Statistics I 3

2. Core Electives (12 hours)

Select 12 credits from the courses listed below:

- MATH 352 College Geometry 3
- MATH 345 History of Mathematics 3
- MATH 360 Applied Cryptography & Data Security 3
- MATH 366 Complex Variables 3
- MATH 410 Linear Optimization 3
- MATH 452 Internship 3
- MATH 454 Abstract Algebra II 3
- MATH 456 Contemporary Issues in Math Education 3
- MATH 459 Special Studies/Seminars in Mathematics 1-3
- MATH 462 Mathematical Modeling 3
- STAT 352 Probability and Statistics II 3
- CSC 305 Introduction to Bioinformatics 3
- CSC 451 Numerical and Symbolic Computing 3

C. Related Area Requirements (12 hours)

1. Related Core (6 hours)

- CSC 114 Introduction to Computer Science 3
- CSC 115 Programming I 3

2. Related Elective 1 (3 hours)

Select 3 credits from the courses below:

- CSC 215 Programming II 3
- CSC 230 Object-Oriented Programming 3
- CSC 414 Python Programming & Visualization 3

D. Free Electives (21 hours)

Subtotal: 120

Total Credit Hours: 240

3. Related Elective 2 (3 hours)

DR. HERMAN G. COOKE
DEPARTMENT OF NATURAL SCIENCES, PHARMACY AND HEALTH PROFESSIONS

The Dr. Herman G. Cooke Department of Natural Sciences, Pharmacy & Health Professions provides a solid educational foundation in both theoretical and investigative science with an emphasis on critical thinking and problem solving skills. The department prepares students for productive careers in natural sciences and entry into graduate or professional schools. The department offers three majors leading to the Bachelor of Science Degree: Bachelor of Science in Biology, Bachelor of Science in Chemistry, and Bachelor of Science in Pharmaceutical Science. The department offers one major leading to the Master of Science Degree with a concentration in Biological Sciences or Biology Education.

Students have the option of selecting a minor in Comprehensive Science which prepares them to receive a Class "A" public instruction license. Students also have the option of selecting a concentration from the following:

- Biochemistry
- Biophysics
- General Biology
- Medical Physics
- Pre-health Professionals
- Pre-medicine/Pre-dentistry
- Molecular Biology/Biotechnology

PROGRAM GOALS

Assist students in understanding basic unifying scientific principles through the provision of relevant facts, concepts, and theories;

Provide learning experiences to stimulate critical thinking and problem solving skills;

Enhance the overall educational experience of students with an interdisciplinary curriculum designed to enhance student performance on professional examinations;

Prepare students to be competitive for entry into the workforce or graduate and professional programs;

Collaborate with public school teachers, graduates, and professional institutions to broaden scientific career opportunities;

Attract, recruit, retain and produce more competitive students by enhancing program offerings and requirements to meet the global needs of the science major; and

Provide an atmosphere that will promote participation of faculty and students in professional development and community outreach activities.

Academic Concentration: Biology

Pharmaceutical Sciences, B.S.

The Bachelor of Science in Pharmaceutical Sciences (BSPS) is a four-year baccalaureate program. Pharmaceutical Sciences combine a broad range of scientific disciplines that are critical to development, design, and discovery of new drugs and therapies. The degree is designed for students who wish to pursue careers in pharmaceutical industry, biotechnology industry, biomedical industry, pharmaceutical sales, pharmacy and health care administrations. (Please note: This four-year program does not qualify graduates to take licensure examinations to become registered pharmacists.)

MAJOR: B.S. DEGREE IN PHARMACEUTICAL SCIENCE

Curriculum

A. General Education Requirements (36 hours)

The following General Education courses are required for the major.

- MATH 165 Calculus of Single Variable I 4
- PSY 212 General Psychology 3
- SOC 201 Introduction to Sociology 3
- SPAN 101 Elementary Spanish 3

B. Major Requirements (39 hours)

Minimum grade of a "C" is required in all major courses.

1. Core Courses (34 hours)

- BIOL 101 General Biology for Majors I 4
- BIOL 102 General Biology for Majors II 4
- PHSC 201 Foundations of Pharmaceutical Sciences 3
- PHSC 300 Principles of Pharmacology I 3
- PHSC 320 Pharmaceutical Analysis/L 3
- PHSC 380 Drug Discovery, Design & Development 4
- PHSC 403 Pharmaceutical Biochemistry I 3
- PHSC 404 Pharmaceutical Biochemistry II 3
- PHSC 422 Methods in Biotechnology/L 4
2. Core Electives (5 hours)

Any PHSC 400 level 3 credit hour course and and PHSC 2 credit hour course

PHSC 400 Elective - 3 3
PHSC Elective - 2 2

C. Related Area Requirements (35 hours)

Minimum grade of a "C" is required for all related area course requirements.

Students must obtain a minimum grade of C in all major core requirements and related area course requirements.

DEPARTMENT OF SOCIAL AND BEHAVIORAL SCIENCES

Mission Statement of the Department of Social and Behavioral Sciences is to prepare students for careers and professions in Criminal Justice, History, Political
Science Sociology, and Social Work by providing training in theory, research, critical thinking, and combining local and global perspectives. The Department produces students with knowledge and skills critical for success in the emerging global information society of the 21st Century.

Goals of the Department of Social and Behavioral Sciences
• to prepare students for graduate and professional schools;
• to provide students the opportunities to develop skills in critical thinking, critical reading, writing, and analysis;
• to provide students with learning experience through course work, internships, educational activities, discipline related technology, and community service.

Distance Education Programs
Elizabeth City State University (ECSU) provides options for students with associate degrees from North Carolina Community Colleges to earn the BS degree in Criminal Justice or the BSW in Social Work through distance education programming. ECSU offer these programs via video conferencing, online, and hybrid formats with future plans of incorporating on-site, face-to-face classes at partnering community colleges.

Statement on Plagiarism and Academic Dishonesty within the Department of Social and Behavioral Sciences
All of the Academic Programs in the Department of Social and Behavioral Sciences require formal writing projects. Students are required to produce and submit their original work in all classes. Each of the Programs has developed a procedure to address plagiarism that compliments the University Policy on plagiarism.

DEFINITION: Plagiarism, or academic dishonesty, is the act of taking credit for work done by another. It includes the following actions:
• "cutting and pasting" material found on the Internet, that is, taking chunks of content off of a Web page with citation;
• using material prepared by others, such as papers and assignments, and handing them in as if they were the student's own;
• taking direct quotations from any source - not just printed - without putting the words cited between quotation marks (" ") and providing citations; and rephrasing materials from another source and then failing to mention the source in a footnote/endnote and/or a "works cited" page.

Sources and included books, any content on a website, articles from magazines or journals, television or radio programming, oral interviews, lectures, written projects or any material illustrated on poster boards. In other words, if you use any content created by another, you must acknowledge the sources. Academic dishonesty also includes cheating on examinations, quizzes, or any in-class assignment. Cheating is defined by the instructor.

Criminal Justice Degree Program
MISSION
The mission of the Criminal Justice program is to offer a quality academic program conducive to the learning experiences of students. Central to achieving this mission is an interdisciplinary program of study that prepares graduates for careers in criminal justice or to continue their education through advanced academic degrees. The mission will be accomplished in a stimulating academic environment that values diversity and fosters respect among students, faculty, and staff. The Criminal Justice Program’s mission will complement the overall mission of the Department of Social and Behavioral Sciences and Elizabeth City State University.

Goals of the Criminal Justice Program
• to provide opportunities to enhance students’ verbal, written, and technological skills to function effectively as future criminal justice professionals;
• to provide students with the knowledge and skills that will enable them to critically investigate issues regarding crime and justice; and
• to develop competent individuals capable of independent and effective decision-making in criminal justice organizations.

Only credit from institutions that are accredited by their regional higher education accrediting body is accepted for transfer into an undergraduate criminal
justice program. No academic credit is awarded or accepted for transfer credit to the criminal justice major by the criminal justice program for life experience or for military, police academy, or other professional training. The Criminal Justice program requires students to repeat a core criminal justice course if at least six years have elapsed since initial enrollment in a course. ECSU awards degrees only to those students who have earned at least 50 percent of the credit hours in the Criminal Justice program through instruction offered by ECSU.

Interdisciplinary Pre-Law Program

Students planning to enter law school should be aware of the recommendations of the Association of American Law Schools which describes the basic skills and insights it believes are fundamental to the later attainment of legal competence: (a) comprehensive ability and expression in words, (b) critical understanding of human institutions and values with which the law deals, and (c) creative power in thinking. Although no single course of instruction is prescribed by the American Bar Association, pre-law students (in consultation with the pre-law advisors) are urged to follow the designed pre-law curriculum. This program will facilitate the student’s ability to think clearly, concisely, independently, and persuasively.

C. Free Electives (25 hours)

D. Concentration I Requirements (30 hours)

Select one of the following concentrations below:

1. Must complete 30 credits within any single concentration.
2. Must complete at least 15 credits in a single discipline.
3. Must take courses from a minimum of 2 disciplines.
4. At least 21 credits must be at the 300 or 400 level.

1. Social Sciences & Humanities Concentration (30 hours)

History
Political Science
Sociology
Social Work
Psychology
Criminal Justice
Global Studies
Public Administration
Economics
Geography
Emergency Management
Art
Art History
English
Music
Foreign Language
Philosophy
Drama/Theater Arts
Communications
Mass Communications
Speech
Journalism

2. Community Services (30 hours)

BKED
SPED
Elementary Education
Education
Social Work
Criminal Justice
Sociology
Psychology

Emergency Management

Public Health
Health
Physical Education/Kinesiology
Pharmaceutical Science

3. Self-Designed Concentration (30 hours)

Up to 18 credit hours can be used from the following disciplines:

ACCT
BFIN
BMIS
BUAD
MRKT
MNGT

Or Choose from one of the concentrations below

D2. Concentration II Requirements (30 hours)

1. Must complete 30 credits within any single concentration
2. At least 21 credits must be at the 300 or 400 level.

6. African Studies Concentration (30 hours)

HIST 250  African American History to 1877   3
HIST 251  African American History since 1877   3
HIST 473  Africa and the Making of the Modern World   3
HIST 475  History of the Islamic World   3

HIST 371  Apartheid and Freedom in South Africa   3
HIST 372  The Black Atlantic   3
HIST 373  History of Human and Civil Rights   3
HIST 331  Prophets, Priests, and Radicals in the Atlantic World   3
HIST 494  African-American History Special Topics   3
HIST 498  African History Special Topics   3
SOC 305  Sociology of the African-American   3
ARTH 315  African American Art   3
ENGL 458  Black Writers in American Literature I   3
ENGL 459  Black Writers in American Literature II   3

7. Politics and Government Concentration (30 hours)

POLS 200  Introduction to Political Science   3
POLS 298  American National Government   3
POLS 299  State and Local Government   3
POLS 311  Political Science Methods   3
POLS 499  Seminar/Research in Political Science   3
POLS 307  American Political Ideas   3
MCOM 450  Media Law and Ethics   3
POLS 305  Political Theory   3
POLS 403  American Foreign Policy   3
History

MISSION OF THE HISTORY DEGREE PROGRAM

The History program is designed to provide students with a broad liberal arts education by creating an environment for students to develop academic skills in understanding American culture and history as well as those of other societies across the globe. The History program is committed to preparing thoughtful citizens and productive members of a global society by embracing both broad and "deep" content knowledge, pedagogical innovation, and the use of technology. The program is organized to prepare students for advanced study in history and law as well as careers in education, public history, government, research and other professions that require History's flexible skills set.

GOALS OF THE HISTORY PROGRAM:
1. provide general studies courses for the General Education curriculum;
2. provide core courses leading to the B.A. Degree in History; prepare students for career opportunities and graduate studies in the fields of history, political science, public administration, public history, global studies, geography, law, and teaching in public and private schools through a minor in Secondary Education (Social Studies).

History - Concentration in Digital & Public History, B.A.

### Social Work

Accredited by the Council on Social Work Education (CSWE) June 2007

**MISSION OF THE SOCIAL WORK PROGRAM**

The mission of the Social Work Program is to prepare students to be competent, effective, and professional generalist social work practitioners at the entry level with individuals, families, groups, organizations, and communities. Special attention is given to the needs of rural and developing communities and guided by a person-in-environment construct in a global perspective.

Through mastery of specific competencies and behaviors, students are uniquely prepared to effectively and ethically serve diverse populations in these communities and other contexts. Students are also prepared to engage in practices that demonstrate their commitment to the eradication of persistent poverty, unemployment, discrimination, oppression, and other forms of social injustice, as well as the commitment to continuous professional growth and lifelong learning.
GOALS OF THE BSW PROGRAM

1. To prepare students to practice ethically and competently as generalist practitioners with individuals, families, groups, organizations, and communities.

2. To prepare students to engage with diverse populations to advance human rights and promote social, economic, and environmental justice in rural, developing, and global communities.

3. To prepare students for graduate study and lifelong learning.

PRE-PROFESSIONAL SOCIAL WORK COURSES

The Six Pre-Professional Courses are: SOWK 205, SOWK 210, SOWK 220, SOWK 247, SOWK 250, and SOWK 260. These courses are designed to introduce students to the social work profession, the National Association of Social Workers (NASW) Code of Ethics, the rural context, fields of practice, interviewing and intervention skills, dimensions of human diversity, social, economic, and environment justice, the social welfare system and services, and human behavior in the social environment.

These pre-professional courses total 18 semester hours.

PROFESSIONAL SOCIAL WORK COURSES

Students must be admitted to the Social Work program prior to enrollment in the professional social work courses. These courses provide professional foundation content in the areas of values and ethics, diversity, populations-at-risks and social and economic justice, human behavior in the social environment, generalist practice, social welfare policies, and services, research and evaluation, and field education. The seven professional social work courses are: SOWK 367, SOWK 370, SOWK 372, SOWK 390, SOWK 443, SOWK 444, and SOWK 445. These professional courses total 27 semester hours. The following five professional courses must be completed prior to enrollment in Field Education: SOWK 367, SOWK 370, SOWK 372, SOWK 390 and SOWK 443. In addition, 35 semester hours of Liberal Arts and General Education courses should be completed prior to applying for enrollment in SOWK 444 - Field Education and Seminar I.

Students must maintain a 2.50 GPA or higher to continue matriculating in the Professional courses.

FIELD EDUCATION AND SEMINAR

Students must complete the application process prior to entering the Field Experience and Seminar courses.

Field Education and Seminar, Program Option I – Main Campus, occurs during the Fall and Spring semesters of the senior year. The social work field experience includes an internship for students at selected human service agencies two days per week (Tuesday and Thursday), and a weekly seminar class on an alternate day. Students are required to complete an internship that consists of 440 hours (220 hours per semester) in selected public, nonprofit, and for profit human service agencies in North Carolina. Students employed in human service agencies will not be allowed to use their employment or work experiences as a substitute for their field education placements. Students must earn a grade of "C" or higher in all pre-professional and professional social courses and have a cumulative GPA of 2.50 or higher to be eligible to enroll in SOWK 444 (Social Work Field Education and Seminar I). SOWK 444: Social Work Field Education and Seminar I is offered in the Fall and SOWK 445: Social Work Field Education and Seminar II is offered in the spring. Applications for field education placements must be submitted during the spring semester of the junior year.

Failure to submit an application will result in students not being considered for field education. Students who do not satisfactorily complete Field Education and Seminar forfeit hours earned and must reapply. Incomplete (I) grades are not given for SOWK 444 and 445. Students who are readmitted to Field Education and Seminar are assigned to new agencies. All students must earn a grade of "C" or higher in all required social work courses in order to graduate with the BSW Degree.

ADMISSION TO THE SOCIAL WORK PROGRAM

All students who plan to earn the BSW degree must officially select Social Work as their major, complete
the Declaration of Major Form, and meet the following Admission Requirements:

- Apply for admission before the end of the sophomore year;
- Return the completed application along with all supporting documents by February 15th;
- Transfer students return the completed application along with all supporting documents by February 15th;
- Completion of ENGL 102, and 103, BIOL 100 or BIO 207, SOC 201, PSY 212, and SOWK 205. A "C" grade or higher is required in ENGL 102 and 103, and SOWK 205;
- A cumulative GPA of 2.50
- Two (2) Letters of Recommendation (faculty member, clergy, counselor or other professionals in the human services field);
- Agree to abide by the National Association of Social Workers (NASW) Code of Ethics and University policies;
- Approved Personal Statement

The students are only admitted to the Program during the Fall semester of each academic year. Pre-Professional and Professional Social Work courses must be taken in sequential order. The Social Work Program does not grant course credit for employment/work experience.

TRANSFER STUDENT POLICY

Transfer students (including those who have already achieved junior status) and other students who change their major to Social Work must also go through the application process and be officially admitted into the Social Work Program. There is not a guarantee that courses transferred from other degree programs or institutions of higher learning will substitute for required social work courses. Social Work Practice courses from other institutions cannot be transferred.

---

### Social Work, B.S.W.

#### Curriculum

**A. General Education Requirements (35 hours)**

The following General Education courses are required for the major.

**Gerontology, Minor**

Gerontological Social Work is a specialized field of Social Work Practice that is concerned with the development, needs, and treatment of older adults. Since people are living longer, there is an increased need and demand for individuals with the knowledge and skills to work effectively with the aging population.

Non-Social Work majors have the option to pursue a Minor in Gerontology. The Minor in Gerontology consists of 18 credit hours. It provides an opportunity for students to learn about the aging process and the problems, issues, needs, and strengths of older people and the people who care for them. Students also learn about social programs, special legislation, and other policies that impact older people. The following courses are required for the Minor in Gerontology:
—SOWK 205 - Introduction to Social Work
—SOWK 280 - Introduction to Gerontology
—SOWK 372 - Human Behavior and the Social Environment II
—SOWK 400 - The Aged in Society
—SOWK 450 - Life and Living
—SOWK 469 - Independent Research for Special Populations

Interdisciplinary Pre-Law, Minor

Interdisciplinary Pre-Law

Students planning to enter law school should be aware of the recommendations of the Association of the American Law Schools, which describe the basic skills and insights it believes are fundamental to legal competence: (a) comprehensive ability and expression in words, (b) critical understanding of human institutions and values with which the law deals, and (c) creative power in thinking. Although no single course of instruction is prescribed by the American Bar Association, pre-law students (in consultation with pre-law advisors) are urged to follow the designed pre-law curriculum. This program will facilitate the student’s ability to think clearly, concisely, independently, and persuasively.

Minors Across Curricula

For a student to minor in a discipline, he or she must complete 21 hours. However, the minors are listed outside of each discipline. The new curricula should make it clear that students can minor in disciplines other than the one they are majoring in.

Interdisciplinary Minor in Religious Studies

The minor in Religious Studies is an interdisciplinary program offered by the Departments of Visual and Performing Arts, Social and Behavioral Sciences, and Language, Literature and Communication. It is designed to:

- complement the student’s major, including business, counseling, education, foreign service, or social work;
- provide the prerequisites to continue to seminary study if the student chooses or to qualify for graduate school;
- provide students the opportunity to broaden their educational experience;
- enhance cultural awareness and help them to think critically and analytically;
- broaden their understanding of American culture and community and its place in the world.

The overall course of study is designed to provide students the opportunity to concentrate in Religious Studies and to examine and investigate the impact of religious beliefs, texts, symbols, and myths on the Church in America while putting the church in a global context.

- Any major can choose to minor in Religious Studies.
- 21 semester hours are required.

12 hours of core courses are taken by all students. The remaining 9 hours are taken in one of four areas of concentration.

- Church Music
- Bible as Literature
- Religion and Social Work

Sociology Degree Program

MISSION OF THE SOCIOLOGY PROGRAM:

The Mission of the Sociology Program at ECSU is to prepare students to be competitive in a global marketplace by teaching the critical thinking skills, theoretical perspectives, and research methods needed to analyze their social world. After completion of this program, students will be prepared to pursue graduate study in the field and to apply their skills to careers in sociology, business, education, nonprofit management, law, social services, and the media.

GOALS OF THE SOCIOLOGY PROGRAM:

1. Prepare students for graduate studies in the discipline of sociology and other related fields;
2. Provide majors a learning experience through academic coursework, educational activities, research, and community service.

SOCIOMETRY PROGRAM POLICIES:

1. Students must earn a "C" or higher in major core courses;
2. Students must complete all Liberal Arts and General Education courses;
3. Students will not receive course credit for employment or work experiences.

### DEPARTMENT OF TECHNOLOGY

The Department of Technology is an academic unit within Academic Affairs offering baccalaureate degree programs in Engineering Technology, and Aviation Science. The mission of the Department of Technology is to provide students with educational and research opportunities in an extensive array of rewarding professional careers in engineering, technology, aviation, and technical management by offering a rigorous curriculum to advance scholarship and promote excellence in emerging technologies. The Department of Technology offer degrees in the following:

#### Engineering Technology

- Engineering Technology with concentration in Computer Networking Engineering Technology (p. 174)
- Engineering Technology with a concentration in Electrical and Computer Engineering Technology (p. 177)
Engineering Technology With a Concentration in Mechanical Engineering Technology (p. 176)

Aviation Science with a Concentration in Air Traffic Control (p. 180)

The B. S. in Aviation Science with a concentration in ATC will prepare students with knowledge to apply for developmental positions with the Federal Aviation Administration and obtain necessary training to become a certified professional controller.

Aviation Science with a Concentration in Avionics (p. 181)

The B. S. in Aviation Science with a concentration in Avionics will prepare students with knowledge to analyze, repair, and maintain the sophisticated communications, navigations, and cockpit instrument systems on today's technically advanced aircraft.

Aviation Science with a Concentration in Aviation Management (p. 182)

The B. S. in Aviation Science with a concentration in Aviation Management will prepare students for a variety of entry-level positions in the aviation industry, including airport management, airline management, general aviation management, and airline and general aviation operations.

Aviation Science with a Concentration in Flight Education (p. 184)

The B. S. in Aviation Science with a concentration in Flight Education will prepare students to become certified as commercial pilots, preparing them to serve as airline, corporate, or military pilots and/or professional aircrew.

Aviation Science with a Concentration in Unmanned Aircraft Systems (p. 183)

The B. S. in Aviation Science with a concentration in UAS will prepare students to enter into the workforce as professionals in the emerging field of unmanned aircraft systems where they can apply their knowledge and skills to many areas of societal need, i.e. agriculture, border security, public safety, infrastructure inspection, and many more.

ENGINEERING TECHNOLOGY PROGRAM

The mission of Engineering Technology is to empower students to become innovative problem solvers and function effectively in today’s global, rapidly changing, diverse work environment by offering a dynamic curriculum that provides an academic foundation for lifelong learning in the engineering technology field.

Program educational objectives

The B.S. in Engineering Technology program will produce graduates who will:

1. Actively remain aware of the professional and ethical standards in the field of engineering technology through pursuing or completing an advance degree, professional development course, and/or engineering certifications.

2. Effectively use communication skills and tools to productively work in a team environment with others of diverse cultural and interdisciplinary backgrounds.

3. Apply fundamental principles of engineering technology to solve complex problems and/or design systems that contribute to the efficiency or effectiveness of their professional organization.

4. Utilize technology and leadership skills to make sound decisions to implement, manage and integrate systems or processes that comply with professional standards.

AVIATION SCIENCE PROGRAM

The Aviation Science Program is the only four-year collegiate aviation education program in the State of North Carolina. The mission of the Aviation Science Program is to provide quality aviation education to a diverse student body by offering specializations in areas relevant to the highly competitive aerospace/aviation industry. Students who select Aviation Science as a major will complete the technical, managerial, and aviation courses that are necessary to fulfill the critical aviation personnel needs of local and state governments, the national government, business, and the aviation and aerospace industries. Graduates of the program will receive the Bachelor of Science degree in Aviation Science with a concentration in Aviation Management, Avionics, Air Traffic Control, Flight Education, or Unmanned
Aircraft Systems. Majors must earn a grade of "C" or better in each required Aviation Science course.

**OPPORTUNITIES FOR GRADUATES**

**Engineering Technology**

The Engineering Technology program prepares its graduates with a blend of technical knowledge, theoretical skills, and the hands-on experience necessary to enter professional careers in design, installation, operation, computer, electronics, information technology, mechanical, computer aided manufacturing, control, robotics and automated systems. Engineering Technologists use the principles and theories of engineering, science, and mathematics to solve technical problems in engineering and engineering technology related fields. The successful completion of this program will not only provide better job opportunities, but also prepare students who plan on pursuing graduate studies in the related fields.

The graduates of this program are qualified to obtain professional careers in high-tech industries, government, and business or pursue their graduate degree in the related fields. Graduates can obtain positions such as: Computer Engineer, Network Administrator, Computer System Analyst, Computer and Information System Manager, Network Engineer, Mechanical Engineer, Automated Process Engineer, Production Engineer and Plant Supervisor.

**Aviation Science**

In just over hundred years since the inception of aviation, the world has become dependent on air transportation as a primary system for passenger conveyance and cargo movement. Air transportation has risen to this position because through the years, the men and women who have worked in the air transportation industry have applied the new techniques, technologies, and dedication to keep it ahead of its competition. All areas of aviation and aerospace are expanding. There continues to be a need for motivated individuals to fill the challenging aviation and aerospace positions with government and private industry. The aviation and space science areas of study offered by the Aviation Science Program are designed to educate and train students who want careers in these exciting and rewarding industries.

The Aviation Science Program prepares students for a variety of positions in both the aviation and aerospace industries. Some of these career areas include Airport Management, Air Traffic Control, Aviation Electronics Technology, Airline and Corporate Flight, Unmanned Aerial Systems as operators and program managers, Space Technology, Avionics, Radar Technology, Flight Instruction, Aviation Policy, and Aviation Entrepreneurship. These are a few of the many career areas for which Aviation Science students are preparing themselves.

**ACCREDITATIONS**

Engineering Technology is accredited by the Engineering Technology Accreditation Commission of Accreditation Board for Engineering and Technology – (ABET-ETAC), http://ww.abet.org

**TRANSFER STUDENTS**

Transfer students from other accredited universities, community colleges, and the technical institutes may be admitted to the Department with advanced standing. Specific course requirements for these students will be made on an individual basis after their previously earned credits have been assessed.

**Engineering Technology with concentration in Computer Networking Engineering Technology, B.S.**

**Curriculum**

Aviation Science, Minor

The Aviation Science minor is designed for students in other academic disciplines who would like to study the aviation and aerospace industries so that they may apply the knowledge of their degree program along with their minor program to a career area within the field of aviation or aerospace. The Aviation Science minor provides the non-Aviation Science student major with an overview of the aviation industry so that they are informed and knowledgeable about the aviation industry to compete for aviation-and aerospace-related job opportunities before selecting this minor, it is highly recommended that the student be advised by the Director of the Aviation Science Program. A student who elects to minor in Aviation Science must complete a minimum of 18 A and B credits. Specifically, a student must complete 12 Section A (required Courses) as well as a minimum of 6 hrs. from Section B (Elective Courses). Students who wish to earn a minor in Aviation science must adhere to all prerequisites and earn a grade of “C” or higher in all AVI and FLT courses.

Aviation Science Program

(*Note: Students enrolled in flight courses will be assessed an additional flight lab fee (p. 186).)

The Aviation Science Program is the only four-year collegiate aviation education program in the State of North Carolina. The mission of the Aviation Science Program is to provide quality aviation education to a diverse student body by offering specializations in areas relevant to the highly competitive aerospace/aviation industry. Students who select Aviation Science as a major will complete the technical, managerial, and aviation courses that are necessary to fulfill the critical aviation personnel needs of local and state governments, the national government, business, and the aviation and aerospace industries. Graduates of the program will receive the Bachelor of Science degree in Aviation Science with a concentration in Aviation Management, Avionics, Air Traffic Control, Flight Education or Unmanned Aircraft Systems. Majors must earn a grade of "C" or better in each required Aviation Science course.)
Aviation Science - Concentration in Air Traffic Control, B.S.

Estimated Flight Lab Costs

*Estimated Flight Lab Costs* (Flight Lab fees are evaluated periodically and are subject to change.)

Flight training completion rates vary based on student comprehension level, frequency of lessons, and the motivation and dedication of the individual student. Students learn at different rates. This is especially true in the challenging field of aviation. The Federal Aviation Administration (FAA) has a set of completion standards for each flight certificate offered by Elizabeth City State University (ECSU). These standards must be met in order for the student to be eligible to take the FAA practical test also known as a check ride.

The average costs for the various flight labs are as follows:

FLT 116L – Private * $ 6,500.00
FLT 225L – Cross-Country * $ 6,000.00
FLT 326L – Instrument * $ 5,000.00
FLT 336L – Commercial * $ 7,500.00
FLT 345L – Multi-Engine $ 2,500.00
FLT 425L – CFI $ 4,000.00
FLT 435L – CFII $ 1,500.00
FLT 445L – MEI $ 2000.00 or $ 3000.00

(*) Denotes required courses for the Flight Education Concentration.

Flight Lab are assessed at a flat rate and are evaluated periodically. Refund of any fees are subjected to university policy.

Prices are subject to change due to various factors including fluctuating fuel costs.

Prices do not include costs of FAA check ride examiner fee, knowledge test fee, and flight materials (headset, navigational charts, flight kits etc.) These costs are paid directly to individuals or companies that are independent of ECSU.

In order to keep flight training costs as low as possible, ECSU does not charge students for flight and ground instruction. Students receive flight training at cost, paying only for operating and maintenance cost of the aircraft.

Aircraft use at $200/hr (PIC time build)

TOTAL (no time build) Syllabus Costs: $ 2000.00
TOTAL (with time build) Syllabus Costs: $ 3000.00

If student requires 15 hours Pilot-in-command (PIC) time building in the PA44 that costs will be added to the syllabus costs.

TOTAL AMOUNT REQUIRED IN FLIGHT LAB ACCOUNT: $2000.00 no time build or $3000.00 time build

Fees are assessed as flat rate and are based on fuel and maintenance cost and are subject to change at any time.

DEPARTMENT OF VISUAL AND PERFORMING ARTS

The Department of Visual and Performing Arts provides both a solid educational background and a supportive environment for those students who seek professional careers in music or graphic design. It does this while providing courses that ensure all university students have a well-balanced education -- one that includes both the arts and the sciences. The Department offers a Bachelor of Science degree in Graphic Design and a Bachelor of Arts degree in Music.

Graphic Design, B. S.

MISSION STATEMENT

The Graphic Design program seeks to provide a solid education to prepare students for opportunities in professional careers and/or graduate school. The department provides a baccalaureate-level sequence of study that leads to a Bachelor of Science in Graphic Design. Mirroring the mission of the university, the Graphic Design program also supports ECSU’s liberal arts program by providing a challenging and supportive environment for learning.

GOALS

1. The primary goal of the Graphic Design
program is to provide students with the knowledge and skills necessary to pursue career opportunities or graduate study in graphic design.

2. In support of the University’s liberal arts program, the department seeks to provide engaging courses in art for students majoring in other fields of study.

3. In concert with the mission of the university to prepare our graduates for leadership roles in the community that will facilitate economic growth, we further seek to engage the community around us through active partnering in civic and entrepreneurial projects over the span of the four-year experience at ECSU.

4. As an extension of the outreach of ECSU, the program also endeavors to provide enriching experiences in the visual arts for Elizabeth City State University students, faculty, and citizens of the Albemarle region at large.

OBJECTIVES

The objectives are as follows:

1. to provide graphic design students with a comprehensive education that establishes a solid foundation in graphic design, art history, and art theory, as well as opportunities to exhibit their work and otherwise engage the community at large.

2. to serve students who seek an overview of graphic design and art history as part of their general education.

3. to support the University’s community outreach initiatives by hosting a variety of art exhibitions, guest lecturers, and workshops.

4. to provide students with an atmosphere that supports the creative process by providing adequate facilities and equipment, theoretical and practical experience, individualized instruction, and thorough advisement.

ADMISSION REQUIREMENTS

All students seeking to major in graphic design must first gain admission to Elizabeth City State University by applying through the Office of Admissions.

ACADEMIC EXPECTATIONS

Students are required to compile a portfolio and participate in the annual portfolio review to determine if adequate progress is being made. All students are expected to proceed through the required sequence of courses and are required to achieve a grade of "C" or better in courses in all ART and ARTH courses.

ANNUAL PORTFOLIO REVIEW

Students seeking a B.S. in Graphic Design are required to submit a portfolio for review during the Spring semester of their freshman, sophomore and junior year in the program.

SENIOR SHOW/PORTFOLIO

Students seeking a B.S. in Graphic Design are required to mount a senior show and assemble a portfolio showcasing work that represents the student’s unique style and demonstrates overall artistic skills and abilities.

STUDENT INTERNSHIPS

The Graphic Design program has an active internship program that provides students with opportunities to work with local businesses and arts organizations.

### Film and Animation Minor

#### Degree Requirements

**Requirements List**

It is recommended that students who wish to take this minor consult with the art faculty to determine if they
Music

The Music program is fully accredited by the National Association of Schools of Music (NASM). In accordance with the mission of Elizabeth City State University (ECSU), the music program strives not only to create an aesthetic and practical environment that is conducive to learning, but also one committed to the delivery of a quality education to its diverse student body.

MISSION STATEMENT

The Music program provides students with opportunities that lead to a Bachelor of Arts degree in Music with concentrations in: Music Education Licensure, Composition, Performance, Music Business, Sound Recording. For students interested in music within a liberal arts context, the B.A. Music is an option. The Music program works to equip each student with the essential tools to become proficient in their area of concentration and to participate in a number of activities for cultural enrichment within Northeastern North Carolina.

GOALS

The goals of the program support the mission and goals of the institution:
1. To prepare students for professional careers in music and for graduate study.
2. To support the University's community outreach initiatives by providing performance opportunities and other enriched musical experiences, on-and-off campus.
3. To support the University’s Liberal Arts curriculum by offering music courses to enhance musicianship.
4. To increase each student's comprehensive knowledge and abilities by building a stronger foundation in music theory, aural skills, music history, applied and ensemble skills, music technology and awareness of diverse cultures.

OBJECTIVES

Students will be able to:
• Perform proficiently on a selected instrument of study and perform with an ensemble group(s).
• Obtain and apply comprehensive knowledge of music theory and essential aural skills in completing various classroom assignments.
• Obtain and apply comprehensive knowledge of music history representing various eras and styles in completing various classroom assignments.
• Complete a capstone project implementing a synthesis of music knowledge combined with critical thinking and creative skills.
• Utilize music technology to enhance learning.

MUSIC DEGREE PROGRAM WITH CONCENTRATIONS

B.A. in Music with a concentration in Composition, Performance:

The program provides an education for students who have an interest in either music, performance or composition. This program provides students with experiences that are essential for graduate study and/or professional careers in the arts as performers, private instructors, and/or other arts-related vocations.

B.A. in Music (Music Education Licensure):

The program offers licensure preparation in music for grades K-12. It provides a foundation for students who seek to become teachers or pursue graduate study.

B.A. in Music with a concentration in Music Business or Sound Recording Technology:

The program provides a broad liberal arts education for students interested in diverse fields within the music industry.

ADMISSION REQUIREMENTS

All students seeking to major or minor in music must first gain admission to ECSU by applying through the Office of Admissions. Following admission to the University, prospective music majors must complete and pass an audition and take the Music Theory Placement Exam (MTPE). The audition is used as a diagnostic tool by the Music Department faculty to determine the skill level of prospective students. Students who are not at the collegiate performance
level may be accepted provisionally. Students are given two semesters to successfully complete an audition at the college level. Students with deficiencies in theory are placed in a rudimentary theory course. Upon passing the MTPE, students advance to the first college-level theory course. Students who do not progress to Performance Level 1 will not be accepted into the program. Music students admitted provisionally to the Department have one year to be classified at Performance Level 1. Students who do not progress to Performance Level 1 will not be accepted into the program. Music students admitted into the Teacher Education Program must maintain the required G.P.A. designated by this program.

AUDITIONS

All prospective students must audition before being accepted into a program of study. Auditions occur before a panel of faculty. Each student must perform works from the standard repertoire for their voice/instrument and demonstrate a level of proficiency in music reading. Students who successfully pass their auditions are enrolled in applied lessons. Individual instruction is available in piano, voice, woodwinds, brass, percussion, and strings. Audition procedures are the same for those students who wish to minor in music.

NON-MUSIC MAJORS

Non-music majors are permitted to register for applied music if the applied instructor has availability. Priority for enrollment is given to Music majors. Students are required to purchase music and other accessories as needed for their instruction.

All students regardless of degree program may take classes authorized by the program.

ENSEMBLES

Ensembles contribute to the education of students, cultivate an overall understanding of music, and promote teamwork among students. They provide an understanding of environmental and cultural diversity through performances as they strengthen our community.

Students majoring in music, regardless of concentration, are required to participate in a large ensemble for six semesters. Ensemble directors will address sight-reading and good performance practices. All ensemble classes are available to non-music majors; however, students must audition for acceptance into an ensemble. One semester of Marching Band satisfies the one General Education Physical Activity requirement.

• Performing on their main instrument of study, wind instrumentalists and percussionists may choose between Marching Band, Wind Ensemble, Collegians Jazz Ensemble and Symphony Orchestra.

• Voice students must participate in one of the program's large choral groups. Voice students may participate in a small ensemble in which they gain experience with various singing styles and techniques.

• Piano students must enroll in an ensemble in which they perform mostly on the piano. Most piano majors select choir as their main ensemble. However ensembles may include Orchestra, Jazz Ensemble, etc. Piano majors may enroll in additional semesters of Piano Accompanying to satisfy this requirement.

• String students must enroll in an ensemble in which they gain experience performing on a string instrument. The symphony orchestra is the required ensemble. For an elective or small ensemble, string majors can include Jazz Ensemble, String chamber, etc.

• Guitar majors may enroll in the Collegians Jazz Ensemble to complete the large ensemble requirement.

In addition to large ensemble requirements, music majors in the licensure program must also register for a small ensemble course.

Ensemble and applied music courses may be repeated for credit. Large ensembles include the University Choir, Marching Band, Collegians Jazz Ensemble, Symphonic Wind Ensemble, and Symphony Orchestra. Small ensembles include the Collegians Jazz Ensemble, Choral Ensemble, University Basketball Band, Brass Ensemble, Woodwind Ensemble, String Chamber Ensemble, and Percussion Ensemble. Pianists may choose to register for additional credits (beyond the minimum requirements) in Piano Accompanying.
PERFORMANCE LEVELS
All music students are required to advance through the established performance levels to show progress on an instrument of study. Students not meeting the required performance level by the end of the sophomore year will not be allowed to continue in the music program. The Music Student Handbook contains the suggested performance repertoire for each instrument and performance level.

PERFORMANCE REQUIREMENTS
Students with a concentration in Performance are required to perform a Junior Recital (Junior status = 60 credit hours) of 25-30 minutes of music, and a Senior Recital (Senior status = 90 credit hours) of approximately 45-50 minutes of music. Students majoring in Music with Education Licensure are required to perform only on a Senior Recital. The music program will stipulate specific requirements for the Senior Recital in meeting State Education Standards. All music majors taking applied lessons must perform a solo work once each semester for a student recital assessment. Students must also perform at the end of the semester for the jury assessment. The applied teacher will determine if additional performances are required during a given semester.

PIANO PROFICIENCY
This is a diagnostic tool to determine aptitude in performance and sight-reading at the keyboard. Music majors will enroll in two class piano courses: MUS 110-MUS 111 and take the piano proficiency exam at the end of MUS 111. Music students who do not pass piano proficiency must enroll in MUS 112 and MUS 113. Students may retake the test to complete piano proficiency. Applied piano, pending availability, may substitute for class piano.

SENIOR PROJECTS
Students concentrating in Music Business and Sound Recording are required to complete a Senior Project. The project is assessed by a committee of faculty members. Students concentrating in Composition are required to complete a capstone project that may entail a senior recital one hour in length of original works or a composition representing significant contribution to a performance of a large or chamber ensemble. Students in the music (general) degree program may elect to either complete a recital or senior project.

RECITAL ATTENDANCE
All Music students must pass six semesters of recital attendance with a grade of "P". The Department Chair will determine recital attendance credit for transfer students on a case by case basis.

TEACHER EDUCATION
Music Education licensure students must be formally admitted into the Teacher Education Program, following requirements listed on the Teacher Education website (http://tep.ecsu.edu/) and in the ECSU Catalog. Students will work with the music education instructor/coordinator and with teacher education personnel to ensure eligibility and successful continuance in the program.

STUDENT INTERNSHIPS
Students who choose to apply for a music internship must work with their instructor in preparing and finalizing the necessary paperwork. Students seeking to participate in a long distance internship must gain written approval by the instructor and Department Chair.

STUDENT TEACHING
Music Education Licensure students must work with the University Music Supervisor and the Teacher Education Program for completion of duties and assignments.

SCHOLARSHIPS
For information regarding scholarships, please contact the Department Chair and the appropriate ensemble director (bands, choir, jazz, and orchestra).

All prospective music graduates will be required to take the major field test in music.

All music students, in either the major or minor program, must earn a grade of "C" or better in all music classes.

**SPECIFIC INFORMATION**

The Department Chair and/or music education coordinator will review prospective licensure-only students' transcripts. In addition, students will be required to complete a department assessment before being admitted into the Music Licensure-Only program. Based on the assessment, students will be advised to take specific courses as specified by program content need.

Twenty-four credit hours are required in the music content area. However, additional courses may be required pending the assessment of skills and content knowledge needed for teaching music. The Senior Recital is a requirement established by the music education licensure program. With the written approval of the applied teacher, applied lessons may be reduced with the completion of the Senior Recital.

Thirty education credit hours will be required for the professional education sequence of courses.

The Chair and/or music education coordinator may revise the music education licensure curriculum if deemed necessary by accreditation requirements and/or the Department of Education, Psychology and Health.

# Course Descriptions

## Course Abbreviations

Elizabeth City State University has established a set of standardized abbreviations for its departments and courses. These abbreviations should be used in making out class schedule forms and at all times when referring to specific course offerings.

### System of Course Numbers

Each course is defined by a Course Abbreviation and a number. The number of each course has three digits. The first digit indicates the classification level. The second and the third digit distinguish the course from other courses in the classification. The parentheses following the course name represent the number of credits being given for the course and the term(s) when it is offered. Courses marked with an asterisk (*) are required courses.

**Example:**

**GE** (General Education) 106 (First Level Classification): **College Reading** (Title of Course) (2) (Credits) (F; S; SS) (Course offered Fall, Spring, Summer).

### Abbreviations & Corresponding Departments

The following chart represents the courses offered in relation to their Departments:

### TERMS

- **F** — FALL SEMESTER
- **S** — SPRING SEMESTER
- **SS** — SUMMER SESSION

### OTHER ABBREVIATIONS USED BY DEPARTMENTS AND IN COURSE DESCRIPTIONS ARE:

- **30-40** — Section Numbers for Extended Day / Weekend Program
- **51-52** — North Carolina Model Teacher Education Consortium
- **CE** — Continuing Education
- **DL** — Distance Learning
- **H** — Honors
- **M** — Military Science
- **S** — Language Arts Section for Special Programs
- **QRS** — Restricted Enrollment
- **PDP** — Departmental Permission Required
- **S/C** — Language Arts Sections for Special Program/Conference
- **CRDT** — Credit
- **HR** — Hour
- **SEC** — Section
- **BLDG** — Building
- **LAB** — Laboratory
- **LEC** — Lecture
- **SEM** — Semester
- **NFR** — New Freshman
- **FR** — Freshman
- **SO** — Sophomore
- **JR** — Junior
- **SR** — Senior
- **SDG** — Second Degree Graduate
- **SPU** — Special Undergraduate
- **SPG** — Admitted Graduate
CER — Certification  
LIC — Licensure Only  
TS — Transient Student  
GR — Graduate  
NG — Non-matriculating Graduate

Prerequisite Courses — Courses beyond the freshman year usually have "prerequisites." This means that certain courses must be taken before the student can register for the advanced course. The prerequisite may also require "consent of the department chair." The student must secure the permission from the above person(s) before he or she registers for the advanced course. "Consent of the department chair" is usually required for courses in which there is limited laboratory space and/or equipment, or in which specific skills and aptitudes are required.

Co-requisite Courses — This means that certain courses must be taken at the same time.

Each student is advised to obtain a copy of the Handbook from his or her major department. The handbook will provide information about the courses students must take and the entrance and exit requirements for them.

ACCT - ACCOUNTING COURSE DESCRIPTIONS

ACCT 101 - Accounting for Non-business Majors (3)
Introduces non-business majors to the role of business in society and the principles and theories of accounting, including the preparation and use of financial statements; other topics covered: accounting for cash and receivables, fixed assets, payrolls, financial statement analysis, elements of cost, decision-making, and cost-volume-profit analysis.
Prerequisite: None. Offered: F.

ACCT 210 - Financial Accounting (3)
This introductory course for the accounting degree program presents the basic framework of accounting to all students majoring in accountancy. It exposes accounting students to underlying accounting concepts and constraints, and it helps them prepare financial records, financial statements, and analyses of major financial statements. Must be taken by all accounting majors.
Prerequisite: BUAD 115, BUAD 190 or equivalent. Offered: F, S, SS.

ACCT 220 - Managerial Accounting (3)
Introduces accounting information that aids managers in planning, controlling, decision-making, and performance evaluation. Some topics are cost classification and behavior, product costing, cost-volume-profit analysis, relevant cost, cost and benefit analysis, and budgeting.
Prerequisite: ACCT 210 with a C or higher. Offered: F, S, SS.

ACCT 321 - Intermediate Accounting I (3)
The foundation course for financial reporting. It discusses the conceptual framework, the regulatory environment, ethical issues, international issues, and behavioral aspects of accounting. Analysis of the content and presentation of financial statements is also included.
Prerequisite: ACCT 210 with a C or higher. Offered: F, S.

ACCT 322 - Intermediate Accounting II (3)
This course continues the coverage of the content and presentation of financial statements that are issued by corporations. Topics covered are relatively more complex and more detailed.
Prerequisite: ACCT 321 with a C or higher. Offered: F, S.

ACCT 323 - Intermediate Accounting III (3)
The final course in the intermediate accounting series. It covers more complex topics such as accounting for leases, accounting for taxes, and derivatives.
Prerequisite: ACCT 322 with a C or higher. Offered: S.

ACCT 335 - Federal Income Taxation (3)
Introduction to federal taxes on income. Topics include preparation of income tax returns for individuals, statutory concepts of income, capital gains and losses, basis of property, sales and exchanges, and taxation of retirement annuities.
Prerequisite: ACCT 210 with a C or higher. Offered: F.

ACCT 398 - Special Topics In Accounting (3)
Topics of special interest to business students may be offered, or topics requested by a group of students for a specific course not otherwise available. The students conduct a study of these topics as business electives.

Prerequisite: Junior standing, permission of the instructor, and written consent of the department chair.

ACCT 421 - Cost Accounting (3)
This course covers fundamental topics under cost measurement, cost management, planning, and performance measurement. Some topics are product costing, activity-based costing and management, cost-volume-profit analysis, standard costing, budgeting and variance analysis, relevant costs and benefits analysis, and value-chain analysis.

Prerequisite: ACCT 321 with a C or higher. Offered: F.

ACCT 425 - Financial Auditing (3)
This course focuses on the process of auditing financial statements. It also discusses the accounting concepts, profession, its regulatory and legal liability environments, plus the need for the audit function, professional standards, and conduct. This is a Capstone course for the Accounting degree and requires a term paper.

Prerequisite: ACCT 322 with a C or higher. Offered: S.

ACCT 431 - Advanced Financial Accounting (3)
Covers various specialized areas of accounting, including consolidated financial statements, partnerships, and limited liability companies.

Prerequisite: ACCT 322 with a C or higher. Offered: S.

ACCT 435 - Entities Taxation (3)
Building on the principles of individual income taxation, this course addresses the federal approach to taxing for-profit entities, including partnerships, corporations, and trusts. Topics include "flow-through" taxation, the separate legal entities doctrine, and "either/or" taxation. The course concludes with an introduction to the unified federal estate and gift tax.

Prerequisite: ACCT 335 with a C or higher. Offered: S.

ACCT 440 - Accounting Information Systems (3)
Study of Accounting Information Systems with an emphasis on information, communication, and networking technology within the context of transaction cycles and internal control structure. Examination of the role of AIS in e-commerce and enterprise software.

Prerequisite: ACCT 321 and BMIS 380, each with a C or higher. Offered: F.

ACCT 451 - Government and Not-For-Profit Accounting (3)
Comprehensive study of fund accounting theory and concepts used in the financial accounting, budgeting, control, and reporting for governmental and nonprofit organizations. This course includes the standards and regulations applicable to local government units, universities, hospitals, and other nonprofit entities.

Prerequisite: ACCT 321 with a C or higher. Offered: even F.

ACCT 460 - Forensic Accounting (3)
Application of accounting methods and financial techniques to assist in solving economic-based crimes. Includes discussion of criminal statutes relating to financial crimes, fraud investigation and prevention, techniques used in solving financial crimes, interviewing, rules of evidence, sources of information, forensic accounting procedures, and current issues in financial investigations.

Prerequisite: ACCT 321 with a C or higher. Offered: odd F.

ART - ART COURSE DESCRIPTIONS

ART 100 - Art Foundations (3)
This course provides all majors in art disciplines a foundation in art history, aesthetics, two dimensional design, and color theory. Students will apply these principles and concepts toward solving projects that address specific design problems. Five contact hours.

Prerequisite: No Prerequisite. Offered: F.
ART 101 - Introduction to Media Arts (3)
An introductory course that builds upon an understanding of fundamental visual & audio concepts for communicating information. Introduction to computer literacy using industry standard software and hardware. Five contact hours.
Prerequisite: ART 100. Offered: S.

ART 102 - Drawing I (3)
An introductory course that teaches basic drawing skills and techniques emphasizing direct observation of organic and geometric still life subjects. The primary goals are to learn and visually define in a compositional space, correct proportion, form, space, and depth. Five contact hours.
Prerequisite: No Prerequisite. Offered: F; S.

ART 103 - Drawing II (3)
An intermediate course that further develops the skill and techniques of Drawing I. This course introduces the application of design elements and principles through direct observation of still life, architectural elements, and the human form. Students are introduced to a range of drawing materials, techniques, color application, and wet media. Five contact hours.
Prerequisite: ART 102. Offered: F; S.

ART 111 - Three-Dimensional Design (3)
This course investigates the principle of 3-D design theory by the manipulation of pure elements in space through a series of design problems.
Prerequisite: ART 100. Offered: F.

ART 130 - Art Appreciation (2)
Analysis of selected examples of major art works. Gives students an understanding of the purposes and historical roles of the visual arts in Western and Non-Western cultures.
Offered: F, S, SS.

ART 201 - Visual Information Architecture (3)
An intermediate course that applies fundamental visual concepts to professional applications. Students develop an understanding of the communication model and approaches to visual problem-solving skills. Course includes production techniques in computer graphics. Five contact hours.
Prerequisite: ART 101. Offered: F.

ART 202 - Branding and Packaging Design (3)
This course places an emphasis on visual problem solving as it relates to Branding and Package Design, including logo design, brand building, print layout, three dimensional construction and surface.
Prerequisite: ART 201. Offered: S.

ART 210 - Typography I (3)
This is an introductory course, which develops a fundamental understanding of typographic organization through the exploration of assigned studies and professional applications. Five contact hours. Prerequisite: ART 101 Graphic Design Majors Only
Prerequisite: Graphic Design Majors Only. Offered: F.

ART 220 - Painting I (3)
A basic studio instruction in the craft, techniques and philosophy of painting. Emphasis is placed on learning composition, color, brush manipulation, use of media and stretching canvases.
Prerequisite: ART 100 or permission of instructor. Offered: F.

ART 221 - Painting II (3)
An intermediate level studio course that encourages critical self-assessment through analytical critiques, discussions, and writing assignments. Emphasis is on the development of a personal style and the study of historical masterworks. Five contact hours.
Prerequisite: ART 220. Offered: S.

ART 230 - Sculpture I (3)
This course is an introduction to the fundamentals of physical and digital sculpture and modeling. Five contact hours. Prerequisite: ART 100
Prerequisite: ART 100. Offered: F.

ART 231 - Sculpture II (3)
This course will expand on skills and knowledge gained in ART 230. Studio experiences in a broader range of media, techniques, and concepts will be emphasized. This course addresses processes for working in the construction and fabrication methods. Five contact hours.
Prerequisite: ART 101 or written consent of the instructor. Offered: S.
ART 260 - Printmaking I (3)
An introduction to the processes, materials, and equipment of traditional printmaking, with equal emphasis on concept and technique. Students are introduced to a variety of print media and methods, such as monotype, relief, and intaglio printing processes. Five contact hours.
Prerequisite: ART 100, ART 103. Offered: F.

ART 301 - Interactive Design (3)
Internet design course. Students develop design briefs for project planning, usability, and visual communication. Assignments include the design of interfaces, navigation, simple motion graphics, and websites. Open to Graphic Design majors only. Five contact hours.
Prerequisite: ART 202. Offered: F.

ART 302 - Visual Systems (3)
Advanced design problems with increased complexity and scope. Assignments will employ the use of visual systems and strengthen the sophistication of imagery and form used in the design solution. Open to Graphic Design majors only. Five contact hours. Prerequisite: ART 301.
Prerequisite: ART 301. Offered: S.

ART 310 - Typography II (3)
An intermediate to advanced course that develops a systematic approach to typographic organization through the exploration of assigned studies and professional applications. Students use the typographic organization of diagrams, charts, and graphs to translate data into images with understandable visual meaning.
Prerequisite: ART 210. Offered: F.

ART 333 - Imaging I (3)
A transition between structured classroom assignments and self-directed study at the Advanced Studio Level. The first half of the term will be spent working in various media at the instructor's discretion. After defending their projects at mid-term, students will spend the remainder of the course developing self-directed projects. Five contact hours.
Prerequisite: ART 100, ART 101, ART 103.

ART 340 - Photography I (3)
Introduction to traditional black and white photography with emphasis on darkroom techniques.
Prerequisite: ART 101. Offered: F; S; SS.

ART 341 - Photography II (3)
An intermediate course in Photography with an emphasis on digital media. The use of photography as a multi-media tool to communicate visual meaning. Five contact hours.
Prerequisite: ART 340. Offered: F; S; SS.

ART 381 - 3D Computer Animation II (3)
This course covers advanced problems in 3D animation. The topics covered include modeling, rigging, texturing, lighting, keyframe animation, visual effects and sound.
Prerequisite: ART 380. Offered: F.

ART 345 - Film Theory and Production (3)
An introductory course which investigates the history and techniques of film-making as an art form. Students design, produce, and edit their original videos as a component of this course.
Prerequisite: No Prerequisite. Offered: S.

ART 350 - Ceramics I (3)
An introduction to clay and clay bodies. Students become familiar with the nature of clay, its limitations and possibilities. Emphasis is on a variety of hand building techniques. Contemporary models will be referenced. Five contact hours.
Prerequisite: ART 101 or written consent of the instructor. Offered: F.

ART 351 - Ceramics II (3)
An introduction to the creation of pottery through the process of wheel-throwing. Hand-built and wheel-thrown combo techniques will be investigated. Experimentation in surface treatment and decoration will be explored. Five contact hours.
Prerequisite: ART 350. Offered: F.

ART 376 - Glass I (3)
An introduction to the use of glass as an art medium. Students will explore basic glass manipulation techniques. Five contact hours.
Prerequisite: ART 100 and ART 111 or written consent of the instructor. Offered: F.
ART 380 - 3D Animation (3)
This course is an introduction to 3D animation. The topics covered include modeling, rigging, texturing, lighting and keyframe animation. Five contact hours.
Prerequisite: pre-/co-requisite(s): ART 100, ART 101, ART 102 or the written consent of the instructor. Offered: S.

ART 381 - 3D Computer Animation II (3)
This course covers advanced problems in 3D animation. The topics covered include modeling, rigging, texturing, lighting, keyframe animation, visual effects and sound.
Prerequisite: ART 380. Offered: F.

ART 400 - Advanced Studio I (3)
This course consists of an individualized, in-depth study of the students' medium of interest. Students prepare a proposal outlining the direction of their study. Five contact hours.
Prerequisite: Written consent from academic advisor. Offered: F; S.

ART 446 - Short Film Production (3)
Continuing the exploration of theory and technique developed in ART 345 Film Theory and Production, students will design, produce, and edit a short film.
Prerequisite: ART 345 Film Theory and Production. Offered: F.

ART 498 - Graphic Design Applied Theory (3)
An advanced course that examines the theoretical understanding of visual communication and its application to the practice of graphic design. Open to Graphic Design majors only. Five contact hours.
Prerequisite: ART 301. Offered: F.

ART 499 - Graphic Design Seminar (3)
This course examines current topics in graphic design with conceptual and theoretical approaches for analyzing visual communication. Emphasis is on critical reading, research, and writing in a seminar atmosphere. Open to Graphic Design majors only. Five contact hours.
Prerequisite: ART 301. Offered: S.

ART 401 - Advanced Studio II (3)
A continuation of the exploration of a chosen medium of interest. Preparation of work for presentation/critique will be a component of this course. Five contact hours.
Prerequisite: ART 400. Offered: F; S.

ART 402 - Advanced Studio III (3)
A continuation of the exploration of a chosen medium of interest incorporating advanced techniques. Preparation of work for presentation/critique is an integral component of this course. Five contact hours.
Prerequisite: ART 401. Offered: F; S.

ART 403 - Advanced Studio IV (3)
The development of a heightened understanding of artistic visual solutions and techniques of a chosen media. A professional attitude and work ethic is emphasized. Exhibition of work is required. Five contact hours.
Prerequisite: ART 402. Offered: F; S.

ART 406 - Internship in Art (A, G, M & T) (3)
This course provides students with the opportunity to gain practical experience and perspective in the professional world of art. Internships may be served at art councils, museums, galleries, or with design firms, advertising agencies, or professional artists, etc. which are able to provide students with a well-rounded pre-professional work experience. Supervision will be by a professional in the field and a faculty supervisor from ECSU. Five contact hours.
Prerequisite: Junior status. Offered: F; S; SS.

ART 409 - Senior Portfolio/Show (3)
This course assists students with preparation and documentation of their artwork. Methods of assembling physical and digital portfolios will be explored. Writing and designing a resume will be emphasized. Students must mount a senior show. Five contact hours.
Offered: S.

ART 446 - Short Film Production (3)
Continuing the exploration of theory and technique developed in ART 345: Film Theory and Production, students will design, produce and edit a feature length film.
Prerequisite: ART 345. Offered: F.
**ART 485 - Arts Management (3)**

This course covers the business aspects, theories, and legal issues of arts management related to the operation of the arts councils and governmental and nonprofit art agencies, as well as galleries and other for-profit entities. Five contact hours.

Prerequisite: No Prerequisite. Offered: F.

**ART 490 - Fibers (3)**

A course in basic weaving techniques, tapestry and loom weaving, and survey of fiber techniques.

Prerequisite: ART 100 or written consent of the instructor. Offered: F; S.

**ARTH - ART HISTORY COURSE DESCRIPTIONS**

**ARTH 201 - Art and Religion (3)**

This course examines the relationship of these two expressions of the human experience from prehistory to the present. Religion as an impetus to the activity of image making and the creative process will be explored through the examination of art, artifacts, and architecture.

Prerequisite: No Prerequisite. Offered: F; S.

**ARTH 209 - Survey of Art I (3)**

A survey of the history of art from the prehistoric era to the end of the Gothic period (c. 1300).

Prerequisite: No prerequisite. Offered: F.

**ARTH 210 - Survey of Art II (3)**

The second of a two-part survey of art from the early Renaissance to the art movements in modern and contemporary art history.

Prerequisite: No prerequisite. Offered: S.

**ARTH 217 - History of Graphic Arts (3)**

A broad survey of the history of graphic design, developing a fundamental understanding of the subject through presentation and discussion.

Prerequisite: Open to Art Majors only. Offered: S.

**ARTH 315 - African American Art (3)**

A study and analysis of the influence and contributions of African American artists and artists from the African diaspora on the world of art.

Prerequisite: No prerequisite. Offered: F; S.

**ARTH 317 - Nineteenth-Century Art (3)**

Covers the major art movements and artists of the 19th century, including Neoclassicism, Romanticism, Realism, Impressionism, Post-Impressionism, Fauve, and Les Nabis. Multicultural emphasis on worldwide art.

Prerequisite: No prerequisite. Offered: F; S.

**ARTH 318 - Twentieth-Century Art (3)**

Covers the major art movements and artists/architects of the 20th century including Cubism, Expressionism, de Stijl, Bauhaus, Surrealism, Regionalism, Abstract Expressionism, Pop, Op, Minimal, Conceptual, Post-Modern, Deconstructionism, and Outsider Art with a multicultural emphasis.

Prerequisite: No prerequisite. Offered: F; S.

**ARTH 416 - Theory of Contemporary Art and Design (3)**

Broad introduction to theories of contemporary art and design. Includes: aesthetics, design theory, publications, galleries and museums, and career opportunities in art, etc.

Prerequisite: No prerequisite. Offered: F; S.

**ATC - AVIATION SCIENCE COURSE DESCRIPTIONS**

**ATC 200 - Control Tower Operations (3)**

Enables students to gain an understanding of the knowledge required to work as a team member in an Air Traffic Control Tower (ATCT). Specifically, this course will cover content in the following areas: control tower equipment and operating positions, airfield marking, VFR traffic patterns, sequencing and separation standards, positional authority and associated responsibilities, standard phraseology, stripmarking, aircraft taxi instructions, control of vehicle movement, aircraft emergency assistance, search and rescue coordination, meteorological aviation reports (METAR), and tower weather observations.

Prerequisite: AVI 100.

**ATC 200L - Control Tower Operations Lab (3)**

Affords students an opportunity to use the knowledge acquired in ATC 200 with a realistic state of the art simulator. Emphasis is placed on the use of standard procedures as they apply to a VFR tower
environment. Student evaluation is performance based through their application of established control procedures which includes: clear and concise communications, standard phraseology, clearances, runway separation, stripmarking and teamwork.

Prerequisite: ATC 200.

ATC 250 - Terminal Radar Operations Lab (3)

Enables students to gain an understanding of the knowledge required to work in a Terminal Radar Approach Control (TRACON). Specifically, this course will cover content in the following areas: TRACON equipment and operating positions, radar identification, radar separation standards, vectoring, instrument traffic patterns, approach clearances, standard phraseology, aircraft emergencies, stripmarking, communications, and teamwork.

Prerequisite: ATC 101.

ATC 250L - Terminal Radar Operations Lab (3)

Provides students the opportunity to apply knowledge acquired in ATC 250 using a realistic state of the art simulator. Student evaluation is performance based and includes standard phraseology, emphasis on radar identification, vectoring techniques, effective coordination, and stripmarking as well as the control and separation of aircraft in a terminal radar environment.

Prerequisite: ATC 250.

ATC 300L - Advanced Control Terminal Operations Lab (3)

Expands on the skills acquired and demonstrated during ATC 205 and incorporates the following into the control tower team functions: IFR flights, intrafacility and interagency coordination, aircraft recognition and characteristics, runway incursions, wake turbulence, Special VFR and emergency situations. Simulated scenarios in the tower lab will become progressively more challenging and student evaluation will be performance based.

Prerequisite: ATC 205.

ATC 350L - Advanced Terminal Radar & Non Radar Operations Lab (3)

Expands on the basic radar skills acquired and demonstrated in ATC 255 and incorporates the following into the terminal radar environment: aircraft emergencies, high-tempo traffic, intrafacility and interagency coordination. Simulated scenarios in the tower lab will become progressively more challenging and student evaluation will be performance based.

Prerequisite: ATC 255.

AVI - AVIATION SCIENCE COURSE DESCRIPTIONS

AVI 100 - Introduction to Aviation (3)

Provides an overview of aviation, and introduces the student to the many opportunities and challenges of the aviation industry. The student will explore the history of flight from early concepts and experimentations to the beginnings of flight, early industry growth, modern jet-powered flight, and space exploration. Significant aviation events, and aviation pioneers and legends will be covered.

AVI 122 - Orientation Seminar for Aviation Science (1)

This course is designed as an introduction for new aviation science students. Students will gain an understanding of normal career progression within the industry. Specific degree requirements as well as understanding the academic advisory role in their responsibilities as students.

Prerequisite: None.

AVI 220 - Air Transportation (3)

A survey of the U.S. air transportation system including: detailed aspects of the industry's importance to the U.S. economy; the industry's components and their relationships, historical developments and growth, the impact of regulations and legislation, business and commercial operations, airline and general aviation economics, the social impact of aviation, and characteristics of the Federal Aviation Administration and the National Transportation Safety Board.

Prerequisite: AVI 100.

AVI 230 - Aviation Management (3)

An introduction to management practices in the aviation industry. The management of large and small airports fixed base operators and aviation organizations are covered with a focus on current aviation management practices.

Prerequisite: AVI 100.
AVI 232 - Safety Management Systems (SMS) (3)
This course provides an introduction to Safety Management Systems (SMS) to systematically design, implement, and manage safety programs in aviation using the Safety Management System. These concepts of Safety Management Systems are delivered with emphasis on the following concepts; SMS introduction, components of an SMS, analyzing aviation hazard and risk assessments, developing and managing SMS programs, and evaluating an SMS.
Prerequisite: AVI 100.

AVI 250 - Basic Aerodynamics (3)
Designed as a basic study of aerodynamics, including aircraft performance, stability, control, weight and balance, and special flight conditions and configurations. Basic theories of flight, including airfoil design, drag, lift, thrust, weight and velocity as well as calculations of stall speed, drag, and basic performance criteria are covered.
Prerequisite: AVI 100.

AVI 260 - Aviation Human Factors and Safety (3)
Basic study of human and machine interface in an aviation environment. Students will study individual and group performances, equipment design, and emerging technologies. The psychology of safety, ego vs. safety, accident prevention concepts and methods. Course includes case studies of incidents, accidents, and details crew performance.
Prerequisite: AVI 100.

AVI 270 - Air Traffic Control in the National Airspace System (3)
A study of the nation's plan to enhance, modernize and expand the National Airspace System. Electronic navigation, communications capabilities, control concepts, and high-tech personnel requirements will be explored. Problems and resolutions concerning implementation of a new airspace system; airspace allocations; safety considerations; economic impact; and social and political implications will be studied.
Prerequisite: AVI 100, AVI 220, AVI 230.

AVI 275 - Aircraft Systems I
This course introduces the student to the basic operation of aircraft systems used in light general aviation aircraft. Students will study and be able to describe the operation of reciprocating aircraft engines, flight control, fuel, electrical, landing gear, propeller operation, flight instrument operation. Emphasis will be placed on system description and theory of operation.
Prerequisite: AVI 100.

AVI 314 - Aviation Meteorology (3)
The study of weather and meteorological phenomena as they impact aircraft operations, air traffic control, and flight safety are studied. Topics covered include the atmosphere and atmospheric pressure, altimetry, wind, humidity, cloud formation and precipitation, stable and unstable atmospheric conditions, air masses and fronts; turbulence; icing, thunderstorms and related flight hazards, and wind shear.
Prerequisite: AVI 100.

AVI 315 - Aviation Legislation and Ethics (3)
An introduction to the laws and regulations as they pertain to aviation. Topics include the origin and philosophy of law; the important legislation that has shaped the aviation industry over the years; aircraft ownership; Federal Aviation Regulations; manufacturing responsibilities; and accident and insurance liabilities.
Prerequisite: AVI 100.

AVI 340 - Corporate Flight Operations (3)
The student will be involved in detailed studies of the workings, operations, and management of the corporate flight department, and how it interfaces with the rest of the corporation. The student will learn the duties and responsibilities of the corporate pilot and the flight department manager, including a review of safety practices and the importance of standardization.
Prerequisite: AVI 100, AVI 220.

AVI 345 - Airline Operations and Management (3)
Students are introduced to airline operations and their management. Focus is centered on industry practice, route network design, fleet planning, scheduling, and revenue management. Applicable Federal Aviation Regulations governing air carrier operations also emphasized.
Prerequisite: AVI 100 or AVI 220.

AVI 350 - Advanced Aerodynamics (3)
Advanced study of the theories of flight and flight factors, including airfoil shape, drag, velocity, lift and thrust, stability, and control. The student will learn
advanced principles of performance, including capabilities and limitations, performance and design criteria, load factors, weight and balance charts, comparative analysis of aircraft, and aircraft certification. Also, the course will cover aerodynamic performance of aircraft powered by reciprocating, turboprop, and jet turbine engines, as well as rotorcraft theory.

Prerequisite: AVI 100, AVI 220, AVI 250.

AVI 370 - Aviation Research Methods and Statistics (3)

This course is designed to equip aviation science students with the theoretical techniques and skills to apply qualitative and quantitative aviation research problems. The course introduces the need for numerical and non-numerical data analysis and allows an in depth analysis of complex issues and relationships. Sampling and data gathering are incorporated into research methodologies; students will learn the statistical significance testing between samples and within samples. The use of numerical analysis on qualitative data is covered to result in significant solutions and recommendations. Additionally, students will learn to report research methods and results in accordance with the American Psychological Association format.

Prerequisite: Junior level student or instructors written consent.

AVI 375 - Aircraft Systems II (3)

This course introduces the student to basic operation of aircraft systems used in transport aircraft. Students will study and be able to describe the operation of gas turbine engines, hydraulic and pneumatic power, pressurization, electrical, environmental control and ice protection systems. Emphasis is placed on theory of operation. This course will prepare pilots for future study of advanced systems used by the military, corporate aviation, and airlines.

Prerequisite: AVI 250, AVI 275.

AVI 411 - Transition to the Aviation/Aerospace Industry (3)

A junior- and senior-level course designed to help the student to focus on a particular career path in the aviation or aerospace industry. Directed discussions, individual and group assignments, and guest speakers may be incorporated to provide increased knowledge about career opportunities in the field of aviation. Course topics include defining "the professional," the "professional in aviation," resume writing, interviewing skills, setting goals, public speaking and presentation skills, and networking.

Prerequisite: AVI 100, AVI 220, Aviation major with junior standing or written consent from the Program Director/or the instructor.

AVI 415 - Aviation Project Management (3)

Course provides an in-depth look at aviation project management from concept to completion while connecting project management within an aviation context that is prudent to business decision making. Aviation projects commonly fail to deliver on time and often exceed budget, this course will highlight methods to avoid these failures.

Prerequisite: AVI 100, AVI 220. Offered: F; S.

AVI 420 - Crew Resource Management (3)

Fundamentals of CRM and the decision-making processes that challenge crewmembers in the complexities of modern day aircraft and airspace. The student will research and analyze CRM-related aircraft accidents as reported by the NTSB and other sources. CRM issues will be demonstrated and studied, and a flight training device may be used when applicable.

Prerequisite: AVI 100, AVI 220, AVI 232.

AVI 430 - Airport Planning and Management (3)

This course presents an overview of how airports are designed and planned and covers both the development and management of airports. Development issues such as airport site characteristics, layout of runways, design of passenger buildings, and analysis of environmental impacts. Management topics cover congestion and queues, peak-hour traffic, air traffic control, and demand management.

Prerequisite: AVI 100 and AVI 220.

AVI 460 - Aviation Internship (3)

An academic internship is an opportunity for the student to apply classroom knowledge to the real world of work. An academic internship is required by all aviation science students. It is an opportunity for the student to broaden their horizons and to gain real work experience. The internship is a work experience that leads to academic credit. Evaluations are based in part on written reports from the employee.
Prerequisite: Written consent by the Program Director.

**AVI 465 - Aviation Capstone (Senior Project) (3)**

Integrates, extends, and applies knowledge learned in earlier aviation courses and readings. The course is designed for senior-level students with emphasis on projects and special aviation topics supported by faculty in cooperation with a governmental or aerospace industry partner. This course will culminate with a senior project and presentation.

Prerequisite: Senior status or written consent of Program Director.

**AVI 470 - Independent Study in Aviation (3)**

On a one-to-one basis and under direct guidance of the instructor, the student will be given the opportunity to complete independent and directed studies on selected topics in general, corporate, commercial, and military aviation, as well as topics in the aerospace industry.

Prerequisite: Consent of instructor and written consent from the Program Director.

**AVI 475 - Topics in Aviation/Aerospace (3)**

Selected topics and issues in the field of aviation or aerospace are explored so that the student is aware of past, current, and potential issues. Presents significant issues in aviation and aerospace and is designed so that the student will have a fuller understanding and appreciation of both industries. The student will learn how to analyze an issue to determine its reasons for existing and will be able to project the issue into the future to anticipate how it might affect other issues and concerns.

Prerequisite: Consent of instructor and written consent from the Program Director.

**AVNC - AVIONICS COURSE DESCRIPTIONS**

**AVNC 100 - Basic Avionics (3)**

Provides basic knowledge of the subject of avionics. Topics include: radio frequency spectrum displays and technologies, fundamentals of instrumentation systems, air data systems and sensors, radio systems, fundamentals of radio propagation, and radio navigational aids. Also, the course includes ADF, VOR, DME, NDB, ILS, MLS, HSI, marker beacon, and transponder operation and functioning. The Theory of GPS, flight control systems, and the basics of radar systems will also be covered.

Prerequisite: None.

**AVNC 240 - Flight Communication Systems (3)**

Study of the basic principles of communication systems used in modern aircraft, including avionics transmission and reception systems, HF, VHF, UHF, and satellite systems. Further the course will explore basic RF systems, RF transmitters, signal generation, signal detection and amplification, carrier modulation AM, FM, SSB, antenna theory, antenna systems, and related test equipment. In addition, information on maintenance levels, FAA and FCC requirements, aircraft drawing and various manufacturers' support manuals will be used.

Prerequisite: AVNC 100.

**AVNC 360 - Advanced Avionics Systems (3)**

Topics include avionics digital and microwave systems, microwave theory, and radar with application to airborne systems. Also included are on-board navigation and display systems including computer-based components, GPS, digital avionics buses, flight management systems, and avionic system integration in current aircraft. Avionics package design, heads-up displays, and surveillance systems, including weather radar, radar altimeter, transponder, TCAS, and GPWS are also included.

Prerequisite: AVNC 240.

**AVNC 380 - Aircraft or Flight Control Systems (3)**

Topics include discussion on the early history of aircraft dynamics and control, mathematical models of linear system elements, feedback system analysis, vehicle equations of motion, longitudinal and lateral dynamics, and elementary longitudinal and lateral feedback control. The course includes such topics as the system design process, inputs and system performance assessment, the root locus analysis of a generic acceleration autopilot, multi-loop flight control systems, methods for modeling the human pilot, and the integration of the human pilot into an aircraft flight control system.

Prerequisite: AVNC 240.
BFIN - ECONOMICS & FINANCE
COURSE DESCRIPTIONS

BFIN 210 - Personal Financial Management (3)
Overview of personal financial management and creation of wealth. Develops personal financial management skills in budgeting, income, expenditures, and planning for financial security and retirement. Explains savings and investments alternatives, financing, and credit sources, the role of insurance in protecting income and assets, and federal income tax issues. Partially fulfills GE requirement in Social & Behavioral Sciences
Prerequisite: None. Offered: F, S, SS.

BFIN 311 - Principles of Finance (3)
An introduction to the study of finance with an emphasis on managerial or corporate finance. Also introduces financial institutions and investment fundamentals.
Prerequisite: ACCT 210, ECON 201 and ECON 202, each with a C or higher. Offered: F, S, SS.

BFIN 315 - Entrepreneurial Finance (3)
The financial management of entrepreneurial ventures and the problems associated with incubating and growing new ventures using the theories, knowledge, and financial tools needed to start, build, and harvest a successful venture.
Prerequisite: BUAD 322 with a C or higher. Offered: S.

BFIN 320 - Financial Management (3)
Provides an advanced coverage of major topics in managerial or corporate finance. Topics include corporate and project valuation, financing decisions, and working capital management.
Prerequisite: BFIN 311 with a C or higher. Offered: F.

BFIN 350 - Investments (3)
Principles of security investments, analysis of specific studies, portfolio construction, and management.
Prerequisite: BFIN 311 with a C or higher. Offered: F.

BFIN 398 - Special Topics in Finance (3)
Topics of special interest to business students may be offered, or in response to a request by a group of students for a specific course not otherwise available. The students conduct a study of these topics as business electives.
Prerequisite: Business Administration major, junior standing, and department chair's written consent. Offered: F, S, SS.

BFIN 415 - Financial Management Policy and Strategy (3)
This course is designed to study the value creation process that generates superior economic performance for the firm over the long run in a corporation. The course will analyze value creation both conceptually and in terms of the challenges it poses for the top-management of a corporation. The analytical framework will employ precepts from finance, economics, and competitive strategy. Topics will be covered through a series of case studies and reading assignments.
Prerequisite: BFIN 320 with a C or higher. Offered: S.

BFIN 420 - Portfolio Construction and Management (3)
A comprehensive coverage of investment topics including bond analysis, option valuation, commodities, futures and option contracts, and portfolio analysis, evaluation and management. Use of derivatives as a financial risk management tool is emphasized.
Prerequisite: BFIN 350 with a C or higher. Offered: S.

BFIN 425 - Commercial Bank Management (3)
Focuses on operation, management, and analysis of commercial banks and other financial institutions.
Prerequisite: BFIN 311 with a C or higher. Offered: F.

BFIN 450 - Financial Risk Management (3)
This course will survey the types of derivative securities used in financial risk management. Students will learn the contractual specification, the pay-off structure, the mechanics of trading, methods of valuation etc.
Prerequisite: BFIN 320 and BFIN 350. Offered: S.
BFIN 455 - International Financial Management (3)
A study of the global financial markets and the operations of multinational firms. Topics include foreign exchange markets, international financial markets, international banking, and currency derivative markets.
Prerequisite: BFIN 311. Offered: S.

BIOL - BIOLOGY COURSE DESCRIPTIONS

BIOL 100 - Principles of Biological Science (3)
Introduction to the basic principles of modern biology with emphasis on aspects of human biology as applied to daily living. Lecture, three hours.
Prerequisite: No Prerequisites. Offered: F; S; SS.

BIOL 100L - Principles of Biological Science Lab (1)
Basic laboratory experiences in biology that reinforce concepts introduced in the lecture. Laboratory, two hours.
Offered: F; S; SS.

BIOL 101 - General Biology for Majors I (4)
An introductory course of a two-semester sequence in conjunction with BIOL 102 and required of all Biology majors as a prerequisite to all core courses. Covers fundamental concepts in biology with emphasis on cell structure, organization and metabolism, classical and molecular genetics, sexual and asexual reproduction, photosynthesis and respiration mechanisms, and relating these topics to the concepts of inheritance and biodiversity. Lecture: three hours; laboratory: two hours; may include tutorial: one-two hours.
Prerequisite: Must be Biology Major or have Department Chair's written consent. Offered: F.

BIOL 102 - General Biology for Majors II (4)
An introductory second course of a two-semester sequence in conjunction with BIOL 101 and required of all Biology majors as a prerequisite to all core courses. Covers fundamental concepts in biology with emphasis on evolution, ecology, taxonomy and biodiversity, with overview of microbiology, botany, zoology, and comparisons of the anatomy and physiology of diverse animals and the human body.
Lecture: three hours; laboratory: two hours; may include tutorial: one-two hours.
Prerequisite: BIOL 101. Offered: S.

BIOL 201 - Comparative Vertebrate Anatomy (4)
A comparative study of structural features and development of organ systems of various classes of vertebrates with emphasis on their evolutionary sequence. Lecture: three hours; laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102. Offered: F.

BIOL 204 - Instrumentation in Biology (1)
Acquaints students with equipment and procedures utilized in biological research. Laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102. Offered: S.

BIOL 208 - Human Nutrition (3)
Covers basic knowledge of food and its relationship to human nutrition. Special emphasis on the role of carbohydrates, proteins, fat, energy, vitamins, and minerals. Lecture: three hours.
Prerequisite: BIOL 101, BIOL 102 or BIOL 215, BIOL 216 and CHEM 101, CHEM 101L, or CHEM 115, CHEM 116. Offered: F; S.

BIOL 210 - Genetics (4)
Covers basic genetic principles through integration of classical and molecular genetics, including the physical nature of genetic material, transmission of genetic information, patterns of inheritance, gene mapping via linkage and association studies, gene regulation including epigenetics, and recombinant DNA technology. Lectures: three hours; laboratory: three hours.
Prerequisite: BIOL 101, BIOL 102. Offered: F; S.

BIOL 215 - Anatomy & Physiology (4)
First course of a two-semester sequence in conjunction with BIOL 216. Students are exposed to a basic foundation in normal physiology and functional anatomy of human organ systems. Topics covered are: cell physiology, histology, integument, and skeletal, muscular, nervous, and sensory systems. Emphasis on the interaction of structure and function and the homeostasis mechanisms in the human body. Lecture: three hours; laboratory: two hours.
Prerequisite: Must have Department and instructor's written consent. Offered: F.
BIOL 216 - Anatomy & Physiology II (4)
Second course of a two-semester sequence in conjunction with BIOL 215. In-depth discussions of the concepts introduced in BIOL 215, particularly in regard to human systems and homeostasis mechanisms of the human body. Lecture: three hours; laboratory: two hours.
Prerequisite: Must have Department and instructor's written consent. Offered: S.

BIOL 220 - General Zoology (4)
(formerly BIOL 301) A course in basic animal biology that emphasizes and examines in a phylogenetic framework the origin, structure and function, reproduction and development, and comparative anatomy of representative animal phyla. Required laboratory component consisting of specimen dissection and identification. Lecture: three hours; laboratory two hours.
Prerequisite: BIOL 101, BIOL 102 and CHEM 101/CHEM 101L. Offered: F; S.

BIOL 221 - General Botany (4)
(formerly BIOL 302) Covers basic biological phenomena of plant life including anatomy, physiology, growth, development, distribution, classification and economic relevance. Laboratory exercises include plant morphology and metabolism. Lecture: three hours; laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102, and CHEM 101/CHEM 101L. Offered: F; S.

BIOL 250 - Biological Orientation (1)
Prepares Biology majors for entry into the Department. Emphasizes laboratory report writing, oral presentations, practical examination techniques, sketching, instrumentation, terminology, note-taking skills, and career development activities. Lecture: one hour.
Prerequisite: Must be Biology major. Offered: F; S.

BIOL 255 - Fundamentals of Clinical Microbiology (4)
The study of bacteriology, parasitology, mycology, and virology. Students study methods and perform techniques used in isolating and identifying microorganisms and demonstrate basic good laboratory procedures. Other topics studied include susceptibility testing, food and human disease, epidemiology and quality control. Lecture: three hours; laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102. Offered: F; S.

BIOL 300 - General Ecology (4)
Introduces major ecological concepts. Discusses physical, chemical and biological factors affecting the spatial distribution and abundance of organisms; and population, community and ecosystem structure, function and dynamics. Lecture: three hours; laboratory/field activity: two hours.
Prerequisite: BIOL 220, BIOL 221 and CHEM 101/CHEM 101L. Offered: F.

BIOL 302 - General Botany (4)
Covers basic biological phenomena of plant life, including anatomy, physiology, growth, development, distribution, classification, and economic relevance. Lecture: Three hours; laboratory: two hours.
Prerequisite: BIOL 220, BIOL 221, BIOL 102. Offered: F; S.

BIOL 303 - Parasitology (3)
Provides up-to-date information on the basic biology, pathology, and epidemiology of important human parasites. Topics covered include parasite characteristics, host/parasite interactions, life cycles, distribution, pathogenicity, diagnosis, treatment, and control of parasite groups from protozoa to arthropods. The course also explores evolutionary aspects of host-parasite interactions. Lecture: This course is currently offered as Distance Learning.
Prerequisite: BIOL 101, BIOL 102. Offered: F; S.

BIOL 304 - Organic Evolution (3)
(formerly BIOL 211) Covers topics such as mutation, adaptation, selection, cooperation, competition, speciation and phylogeny. Other areas of discussion include factors that influence population genetics, evolutionary ecology, and macroevolution changes above the species level. Lecture: 3 hours.
Prerequisite: BIOL 101, BIOL 102. Offered: F;S.

BIOL 305 - Histology (3)
Microscopic structure of plant and animal tissues. Emphasizes distinguishing characteristics of various tissues. Lecture, two hours; laboratory, two hours.
Prerequisite: BIOL 101, BIOL 102; CHEM 101, CHEM 101L, CHEM 102, and CHEM 102L.
Offered: S.

BIOL 306 - Human Anatomy (4)
(formerly BIOL 207) Comprehensive coverage of form and structure of the human body. Lecture: three hours; laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102, and BIOL 220.
Offered: S.

BIOL 307 - Human Physiology (4)
Comprehensive coverage of the functional aspects of the organs and organ systems of the human body including disease, repair mechanisms and medical advances. Lecture: three hours; laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102, and BIOL 220.
Offered: F; S.

BIOL 308 - Introduction to Molecular Forensic Science (3)
An introductory course that covers DNA replication, transcription, and translation, and how these concepts are applied to forensic science. Investigations into DNA, RNA, and protein-based fingerprinting using human, animal, plant, and microbe models. Lecture: two hours; Laboratory: two hours.
Prerequisite: BIOL 101 or GE 155 and one other Biology course instructor's written consent. Offered: F; S.

BIOL 341 - Microbiology (4)
Biology of microorganisms with special emphasis on bacteria, their detection, isolation, and culturing techniques. Also covered are general principles of infection and immunity with emphasis on select human diseases. Lecture: three hours; laboratory: two hours.
Prerequisite: BIOL 101, BIOL 102, CHEM 101, CHEM 101L, CHEM 102, CHEM 102L. Offered: F; S.

BIOL 342 - Topics in Applied Microbiology (3)
Experimental exploration of advanced topics in applied microbiology, such as fermentations, clinically and environmentally relevant biofilms, quorum sensing, biodegradation, and biotechnology. Emphasis given to current issues in applied microbiology. Lecture: two hours; Laboratory: two hours.
Prerequisite: BIOL 341, CHEM 401, CHEM 401L. Offered: F; S.

BIOL 345 - Plant Systematics (3)
Special emphasis on diagnostic features and criteria used in classifying plants. Investigations involve representatives of local, regional, and national flora. Lecture: two hours; Laboratory: two hours.
Prerequisite: BIOL 302. Offered: S.

BIOL 350 - Introduction to Experimental Methods (3)
Acquaints students with the concepts and procedures utilized in modern biological research. Designed to enhance the student's ability to understand and utilize various research techniques. Combined lecture and laboratory: four hours.
Prerequisite: BIOL 101, BIOL 102, CHEM 101, CHEM 102, and at least one other 200 level or higher Biology course with instructor's written consent. Offered: F; S.

BIOL 352 - Molecular Biology/Lab (4)
Introduces the molecular structure and enzymatic mechanisms that underlie the utilization of genetic information by prokaryotic and eukaryotic organisms, including control of RNA and protein synthesis. Special emphasis on fundamental, theoretical, and applied effects of recombinant DNA, RNA, and protein technology; and molecular techniques such as fingerprinting, sequencing and blots. Lecture: three hours, Laboratory: 2 hours and additional lab time scheduled as necessary.
Prerequisite: BIOL 210, BIOL 221, and CHEM 301. Offered: F; S.

BIOL 355 - Career Entry Seminar (2)
Designed to enhance the preparedness of science majors to deal with pre-professional entry examinations. Special emphasis on MCAT, DAT, GRE (Specialty Area), and preparation of resumé and application cover letters. Lecture: two hours.
Prerequisite: Must be junior or senior classification Biology major or have Department Chair's written consent. Offered: F; S.

BIOL 380 - Cell Biology (3)
Covers details of the fine structure of cells, their physical/chemical composition, organization and metabolism. Lecture: three hours.
Prerequisite: BIOL 101, BIOL 102, CHEM 302, CHEM 302L. Offered: F; S.

**BIOL 394 - Biodiversity (3)**

An account of the cause and state of global biological diversity and the impact of environmental change on past diversity. Topics include molecular and organismal level biodiversity and speciation, conservation, and effect of human activities on biodiversity. Special emphasis on biomedical research, genetic engineering of foods, and human infectious diseases. Lecture: three hours.

Prerequisite: BIOL 210, BIOL 341. Offered: F; S.

**BIOL 395 - Introduction to Neuroscience (3)**

Focus on the neuron and its biological interactions in the nervous system. Topics will include the anatomy, development, chemistry, and physiology of the human nervous system and brain. Lecture: three hours.

Prerequisite: BIOL 307, CHEM 302. Offered: F.

**BIOL 401 - Plant Physiology (3)**

Focus on aspects of plant cells, including their general physiology; metabolic transformation; functions of leaves, roots, stems, flowers, and fruit; photosynthesis; respiration; and growth hormones activities. Lecture: two hours; laboratory: two hours.

Prerequisite: BIOL 302, CHEM 101, CHEM 101L. Offered: S.

**BIOL 405 - Animal Biotechnology (4)**

Places emphasis on technologies that specifically use animal models to expose students to scientific discovery and applied laboratory techniques in biotechnology. Topics include ethics, pharmaceuticals, medicines and vaccines, diagnostics, transgenic animals, and animal cloning. Lecture: two hours; Laboratory: three hours and additional lab time scheduled as necessary.

Prerequisite: BIOL 101, BIOL 102, BIOL 350. Offered: F.

**BIOL 406 - Plant Biotechnology (4)**

This course acquaints students with the concepts and procedures involved in plant tissue culture, transgenic plant production, patents and copyrights associated with plant sciences; and the ethical questions surrounding the use of this technology. Lecture: two hours; Laboratory: three hours; and additional lab time scheduled as necessary.

Prerequisite: BIOL 101, BIOL 102, BIOL 350. Offered: S.

**BIOL 442 - Developmental Biology (3)**

Early developmental processes of anatomical and physiological significance with particular emphasis on developmental stages of the frog, chick, and mammalian embryos. Combined lecture and laboratory: four hours.

Prerequisite: BIOL 101, BIOL 102, BIOL 201, BIOL 307. Offered: S.

**BIOL 443 - Principles of Immunology (3)**

A survey of the basic concepts and principles of acquired resistance of higher animals and humans to infection by microorganisms. Lecture: three hours.

Prerequisite: BIOL 341, CHEM 101, CHEM 101L, CHEM 102, CHEM 102L, CHEM 301, CHEM 301L. Offered: S.

**BIOL 450 - Advanced Techniques in Biotechnology (4)**

This course focuses on the theoretical concepts and emphasizes "hands-on" experience with advanced techniques including, but not limited to, polymerase chain reaction, cDNA cloning and expression screening, and aspects of plant molecular biology, and biotechnology. Lecture: two hours; laboratory: four hours.

Prerequisite: BIOL 352, Must be junior or senior classification Biology major or have instructor's written consent. Offered: F.

**BIOL 460 - Advanced Experimental Methods (4)**

Increases the student's knowledge and practice of experimental techniques in a specific area of the biological sciences. Final written reports of experimental results is required. Lecture: two hours; laboratory: four hours; and additional lab time scheduled as necessary.

Prerequisite: BIOL 350, Must be junior or senior classification Biology major or have instructor's written consent. Offered: S.

**BIOL 485 - Medical Terminology (1)**

Designed for the pre-medical and pre-dental program to give students an opportunity to systematically build a medical vocabulary. Emphasis on Greek and
Latin prefixes, suffixes, word roots, and combining forms. Lecture: one hour.

Prerequisite: BIOL 101, BIOL 102. Offered: F; S.

**BIOL 486 - Scientific Communication and Capstone (3)**

This Capstone course evaluates the student's ability to understand and communicate complex scientific concepts in written and verbal formats. Emphasizes critiquing scientific articles, scientific writing, use of the library, writing professional documents; and conducting scientific presentations. Standardized knowledge and critical thinking exams may be conducted outside the meeting period. Lecture: three hours.

Prerequisite: Senior classification Biology major or Marine Environmental Sciences major or Instructor's written consent. Offered: F.

**BIOL 487 - Statistical Applications in the Sciences (3)**

Designed to enhance the student's ability to apply statistical techniques in the analysis of routine biological data. Emphasis on numerical methods, basic statistics, testing, significance, regression, correlation, experimental design, and variance, etc. Lecture: three hours.

Prerequisite: BIOL 101, BIOL 102. Offered: F; S.

**BIOL 488 - Computer Applications in the Sciences (1)**

Consideration of computer-related issues and applications in the sciences. Emphasis given to special topics that require the use of the computer in problem-solving. Lecture: one hour.

Prerequisite: Must be junior or senior classification Biology major or have the Department Chair's written consent. Offered: F; S.

**BIOL 489 - Special Problems in Biology (1-3)**

Provides students the opportunity to address current topics in biological science via resource development, field studies, and library usage. Emphasis on student independent research and presentation. Lecture: one hour.

Prerequisite: Must be junior or senior classification Biology major or have the Department Chair's written consent. Offered: F; S.

**BIOL 490 - Ethics in Biotechnology (1)**

This seminar course provides students the opportunity to address the impact of biotechnology on human society and the environment via readings, written critiques, discussions, and debates. Lecture: one hour.

Prerequisite: Must be junior or senior classification Biology major or have Department Chair's written consent. Offered: F; S.

**BIOL 491 - Bioethics in Healthcare (3)**

The course provides an overview of most of the major areas of biomedical ethics. Participants will gain familiarity with terminology, resources, and major frameworks of ethical analysis in biomedical ethics. Issues that will be analyzed include physician-assisted suicide, pediatric ethical dilemmas, resource allocation, and problems posed by managed care and research ethics. Extensive use of case studies will develop the participants' ethical problem solving skills. Lecture: three hours.

Prerequisite: Must be junior or senior classification Biology major or have the Department Chair's written consent. Offered: F; S.

**BIOL 492 - Methods in Life Sciences Instruction (3)**

Principles of instructional strategies and laboratory techniques associated with teaching life sciences at the level of Intermediate Education (4-6).

Prerequisite: BIOL 101, BIOL 102, CHEM 101, CHEM 101L, CHEM 102, CHEM 102L. Offered: F; S.

**BIOL 493 - Field Experience in Biological Science (3)**

Designed to give Biology majors on-the-job training experiences in such areas as medicine, pharmaceutical science, biotechnology, veterinarian medicine, health, environment, and research. The student is responsible for arranging the internship, shadow, or other field experience prior to enrolling in this course. May be repeated once for credit for a unique field experience with Department consent. Meeting hours are approved by instructor and field mentor and are typically 5-10 hours per week.

Prerequisite: Sophomore, junior or senior level classification Biology major. Offered: F; S.

**BIOL 495 - Biology Seminar (1)**

This course evaluates the ability of the student to research and present data in a scientific oral presentation. Content focuses on recent advances and problems in biology with strong emphasis on participation and discussion. Lecture: one hour.
Prerequisite: Senior classification Biology major or Marine Environmental Science major or the Department Chair's written consent. Offered: F; S.

**BIOL 496 - Science and Human Values (1 or 2)**

Covers the impact of science on our society and the implications of emerging ideas on the shaping of future societies. Emphasis on student independent research and presentation. Lecture: two hours.

Prerequisite: Must be junior or senior classification Biology major or have the Department Chair's written consent. Offered: F; S.

**BIOL 499 - Biological Research (3)**

Investigational work on a select topic in biology under the guidance of faculty members in the department. Laboratory: two - four hours and additional lab time scheduled as necessary.

Prerequisite: BIOL 220, BIOL 221, and CHEM 301. Must have junior or senior classification. Requires department chair and instructor written consent. Offered: F; S.

**BKED - BIRTH - KINDERGARTEN COURSE DESCRIPTIONS**

**BKED 201 - Introduction to Birth-Kindergarten (1)**

An overview of the field of early care and education. Emphasizes the elements of high-quality programs, governing standards and regulations, and historical perspectives. The course focuses on career options in the field of birth through kindergarten education.

**BKED 202 - Child Growth and Development I (3)**

This course provides an overview of physical, cognitive/language, and social and emotional development in children from birth through two. Students will explore prevailing philosophies and theories of child development.

Offered: F.

**BKED 203 - Child Growth and Development II (3)**

This course provides an overview of physical, cognitive/language, and social and emotional development in children ages three to five. Students will explore prevailing philosophies and theories of child development.

Offered: S.

**BKED 305 - Early Childhood Literacy Development (3)**

Emphasizes the process of developmental literacy skills in children ages birth to kindergarten. The course is an in-depth experience providing students with the opportunity to recognize and describe the developmental stages in literacy acquisition. Participants identify factors that influence early literacy development (readiness, family, medical) and design a literacy program. Students examine different literary genres and themes appropriate to young children with an emphasis on resources for children of culturally and linguistically diverse backgrounds. Guidelines for the implementation of appropriate literature-based activities will be addressed throughout the course. Students present a professional development session (including session portfolio) for a selected audience.

Offered: F.

**BKED 325 - Infant and Toddler Curriculum and Development (3)**

Emphasizes curriculum development and assessment from birth to kindergarten. This course introduces students to important frameworks for planning, implementing, and evaluating curriculum as it affects development and the various subject-matter disciplines. Significant details are placed on the methods and strategies that inform the development of meaningful and relevant curriculum. Students engage in in-depth studies of developmentally appropriate curriculum modes. The course also examines the influence of family and culture on curriculum and provides models of how to incorporate these and other variables into a well-rounded curriculum.

Offered: F.

**BKED 330 - Educational Assessment of Infants, Toddlers & Preschools (3)**

Addresses the acquisition of knowledge and skills related to the development, as well as the interpretation, of assessments used in Early Childhood Classrooms (infant, toddlers and preschool). Observing, documenting, and assessing young children (birth-five years) using formal and informal assessment tools across all areas of development is also addressed. Twenty-five hours of field experience is required.
Prerequisite: Admission to Teacher Education; an approved application form the Office of Student Services (all materials must be complete and on file.). Offered: S.

**BKED 335 - Communication and Collaboration in Schools and Communities (3)**

Promotes the ability to communicate effectively in diverse school and community settings. Students explore the relationship between culture and communication and understand the importance of collaboration in schools and communities to support optimal learning in children.

Prerequisite: Admission to Teacher Education; an approved application from the Office of Student Services (all materials must be complete and on file.).

**BKED 340 - Early Childhood Intervention (3)**

An overview of screening and assessment, interdisciplinary family service planning, and intervention strategies for children ages birth-three. Students become familiar with the processes of screening and assessment, development of Individualized Family Service Plans, and implementation of intervention strategies.

**BKED 345 - Exploration of Early Childhood Settings (3)**

Explores the settings in which services are provided to children ages birth-five. Settings include public school programs, private childcare, federal programs, and community agencies. Students are required to observe in various settings for a minimum of 10 hours.

**BKED 420 - Preschool Curriculum (3)**

Emphasizes the planning of an integrated curriculum for child from birth to kindergarten to include preschool classrooms with emphasis on science, social studies, creative activities and technology. Focuses on planning integrated curriculum for working with parents and parent education. The course also explores theoretical principles of the play-based curriculum, which includes typical and atypical infant and child learning, design and adaptation of environments to promote development and learning, positive guidance, and effective teacher roles. Students learn how observation and analysis of children's play provide the foundation for curriculum development, meeting the needs of children with diverse backgrounds and abilities.

Prerequisite: Admission to Teacher Education; an approved application from the Office of Student Services (all materials must be complete and on file.). Offered: F; S.

**BKED 454 - Inclusive Preschool Environments (3)**

Uses task analysis and systematic instruction in individualization. Adapting, modifying, and evaluating curricula and methods, planning physical space appropriate to children's cognitive, physical, and socio-emotional development. Developing an understanding of the role of environments on children's learning and behavior including schedules, materials, room arrangement, and center-based learning. Incorporating diversity through the environment. This course also examines children in the context of the families in which they live to assist parents in determining appropriate educational plans from the preschool environment to transition to kindergarten.

Prerequisite: Admission to Teacher Education; an approved application from the Office of Student Services (all materials must be complete and on file.). Offered: F; SS.

**BKED 455 - Administration of Early Childhood Programs (3)**

Focuses on the administration of early childhood programs as well as the educational requirements of the administrator and staff. Students will observe in an early childhood program for 10 hours and interview an early childhood administrator.

**BKED 460 - Issues and Trends in Early Childhood Education (3)**

Study of how knowledge in early childhood education is created, organized, and linked to other disciplines through a critical review of current literature and research.

Prerequisite: Admission to Teacher Education; an approved application from the Office of Student Services (All materials must be complete and on file.). Offered: S.

**BKED 465 - Community Agencies and Resources (3)**

Explores the purpose and function of agencies serving young children within the local community. Visits to local agencies will be made and a list of resources available to the early childhood community will be compiled.
BKED 470 - Kindergarten Curriculum and Standards (3)
Introduces students to the kindergarten curriculum and standards for students in the public school setting. Twenty hours of field experiences are required.

BKED 475 - Autism Spectrum & Related Behavior Disorders (3)
This course explores the characteristics of autism and identifies strategies for working with children with autism.

BKED 490 - Student Teaching (12)
This supervised field experience requires at least 14 weeks of student teaching. Student teachers are placed with individual mentor teachers or with teams of supervising teachers in approved, public classrooms or clinical settings. Student teachers are monitored and supported by Elizabeth City State University Supervisors. Placement priority is given to settings that serve culturally, linguistically, and socio-economically diverse student populations. Professional Development Sessions are scheduled by the Office of Student Services prior to placement to address professional issues related to the clinical semester and to provide support and assistance with the completion of the required portfolio.
Prerequisite: Admission to Teacher Education; an approved application from the Office of Student Services (all material must be complete and on file.); Taskstream must be completed. Offered: F, S.

BKED 491 - Internship in Early Childhood (6)
Students will intern in an early childhood center. Knowledge gained through coursework will be applied to the early childhood setting.

BKED 492 - Internship in Community Agency (6)
Students will intern in a community agency that serves children ages birth-five. Knowledge gained through coursework will be applied to the community setting.

BMIS - MANAGEMENT
INFORMATION SYSTEMS COURSE DESCRIPTIONS

BMIS 380 - Management Information Systems II (3)
Covers the theory and practice of Management Information Systems in today's digital, business organization. Applies case studies and teamwork in a variety of business problem situations. Emphasizes practical case studies involving real corporate MIS problem scenarios, teamwork, and application of business software to develop practical business solutions. MIS II is the second preparatory course toward the Microsoft Office Specialist Certification (MOSC) examination.
Prerequisite: BUAD 190, with a C or higher. Offered: F, S.

BMIS 386 - Business Systems Analysis and Design (3)
Studies tools and techniques required for analysis, design, and implementation of business systems. It systematically describes entire life cycle of creating information systems, including requirements analysis, interface design, and management issues. It covers traditional System Development Life Cycle (SDLC) together with emerging development methods such as Agile and Object Oriented.
Prerequisite: BMIS 380 with a C or higher. Offered: S.

BMIS 398 - Special Topics in Management Information Systems (3)
Topics of special interest to business students may be offered, or if there is a request by a group of students for a specific course not otherwise available. The students conduct study of these topics as business electives.
Prerequisite: Business Administration major, junior or senior standing, and permission of the department chair. Offered: F, S, SS.

BMIS 425 - IT and Cyber Security Management (3)
This course aims to provide students with the foundational knowledge in the areas of Information Systems Management (ISM) and Cyber Security Management (CSM). In the ISM component, students will examine the role of Information Systems in creating value and exploiting opportunities in an organization. In the CSM component, students will examine practices in cyber-security to better understand security systems for safeguarding data and information, and making organizations less vulnerable to attack.
Prerequisite: None. Offered: F.
BMIS 475 - Database Design and Management (3)

Studies relational database architecture, design and implementation in the context of various organizations. Includes issues of data normalization, queries, programmable queries, and use of relational database technologies for building business-oriented applications. Students will also get hands-on experience with leading SQL and RDBMS tools currently popular in business and government settings.

Prerequisite: BMIS 380 with a C or higher. Offered: F starting F16.

BMIS 485 - Business Intelligence and Analytics (3)

Studies ways in which enterprises can use data to make better decisions in different business functions. It provides introduction to different aspects of Business Intelligence and Analytics, including processes, methodologies, infrastructure, and current practices used to transform business data (including unstructured "Big data") into useful information to support business decision-making.

Prerequisite: BMIS 380 and ECON 260, each with a C or higher. Offered: F16, then S.

BMIS 489 - Project Management (3)

Lays foundation for understanding of project management concepts and principles. Prepares students to address challenges of managing business projects effectively through industry standard tools and technology. Covers key components including project integration, scope, time, cost, risk, and human resource management, and communications. Also prepares for Project Management Institute (PMI) certification.

Prerequisite: BUAD 190 or equivalent. Offered: F, starting F16.

BUAD - BUSINESS ADMINISTRATION COURSE DESCRIPTIONS

BUAD 190 - Management Information Systems (3)

Emphasizes personal productivity concepts using functions and features in business computer software including Operating Systems, Internet, WEB and E-commerce; Word-processing, Spreadsheets, Database Management Systems and Presentation Graphics. Students learn to apply information technologies to problem situations and to use small information systems for individuals and groups.

Offered: F, S.

BUAD 115 - Introduction to Business (3)

Surveys the various business disciplines and provides exposure to current issues such as globalization, entrepreneurial management, diversity, and ethics. Emphasizes the importance of the business sector on the dynamic market-driven economy. Serves as an introductory course to the field of business and as prerequisite for all other business courses.

Prerequisite: None. Offered: F, S, SS.

BUAD 200 - Business Communication (3)

Emphasizes and enhances the importance of communication skills in the business world. Covers the foundations of communication for business -- writing, speaking, listening and reading as well as nonverbal communication and impression management. Builds communication skills with technologies and practical business applications addressing inter-cultural communication skills for the global business community.

Prerequisite: BUAD 115 and GE 103. Offered: F, S, SS.

BUAD 240 - Ethics (3)

Covers the theories of ethics and the practice of ethical leadership in dynamic business environment.

Prerequisite: MNGT 221, MRKT 231. Offered: F, S, SS.

BUAD 241 - Business Law (3)

Study of law and its application to business and business transactions. A survey course designed to familiarize today's business student with the legal process, specific laws, and the legal reality facing business people in the increasingly diverse and complex workplace.

Prerequisite: BUAD 115. Offered: F, S, SS.

BUAD 260 - Career Development Seminar (1)

Covers resume writing, job preparation, interviewing techniques, graduate and professional school preparation, test-taking skills, and related career development issues. Guests from the world of business practice will be invited as presenters.
Prerequisite: BUAD 115. Offered: F.

BUAD 322 - Entrepreneurship (3)
Covers how to start a new enterprise and the requirements for its successful operation. Topics include the legal forms of organizations, financing, risks, and operations in small business. Emphasis is on the development, presentation, and use of the business plan.

Prerequisite: BUAD 115, ECON 202, and ACCT 101 or ACCT 210, with a C or higher. Offered: F, S.

BUAD 330 - Risk Analysis, Fraud Detection and Internal Controls ( )
This course deals with risk analysis, fraud detection, and internal control frameworks in the context of cyber security and project management in business organizations. Possible topics include risk governance, risk management, risk assessment, fraud symptoms, fraud detection, investigation of thefts and concealment, conversion methods and inquiry method, preventing fraud, control environment, risk assessment of internal controls, control activities, information and communication about controls and monitoring activities.

Offered: F/S.

BUAD 341 - Management Concepts for Project Managers
Besides knowing the key knowledge areas that are associated to project management, it is expected that project managers demonstrate high management and leadership skills. Project managers should be able to motivate and inspire team members, align team members to the correct areas on a project, build relationships, negotiate well and resolve conflicts. This course is designed to provide foundational concepts in management, and scenario based interactive sessions that will help students become better project managers and team players on a project.

Prerequisite: None. Offered: F; S.

BUAD 342 - Technical Writing for Project Managers
The work of project managers entails a large amount of communication as it relates to writing to inform or reading to understand. In this course students are taught the skills set that will allow them to communicate project information using appropriate technical writing constructs. Students will also be taught the strategies to present project reports and proposals that are precise, thorough and convey professionalism.

Offered: F/S.

BUAD 343 - Experiential Learning in Project Management
In this course students will be provided with the opportunity to experience and report on real projects. Students will be asked to research real projects within the community and complete a formal project proposal to be evaluated for possible publication submission. The completion of BUAD 341 and 342 (prerequisites to this course) and this course will provide the students with the skills, knowledge, and capabilities necessary for managing project teams, writing project-based reports, and experiencing project environments.

Prerequisite: Can either be concurrent or previous. Offered: F/S.

BUAD 360 - Quantitative Methods for Business and Economics (3)
Exploration of mathematical techniques used in economics and business management with emphasis on applied problems and the relationship between technique and theory.

Prerequisite: ECON 260 with a C or higher. Offered: F, S, SS.

BUAD 365 - Business Research and Report Writing (3)
Comprehensive techniques of business reporting, which include surveying markets, summarizing findings, and writing analytical and informative reports.

Prerequisite: ECON 260 with a C or higher. Offered: F, S, SS.

BUAD 423 - E-Commerce
The advent of Internet and the World Wide Web has had a profound effect on all aspects of the way a firm conducts its business. This new way of conducting business has changed the way a firm generates and delivers value, and the way it finds customers and creates markets. With this in mind, this course is intended to help students develop a broad understanding of the driving forces behind the expanding field of e-commerce: technology change, business development, and social issues. The emphasis of the course will be managerial focused rather than technically focused. The course will specifically explore areas in e-commerce as it relates
to: Business Models and Concepts; Infrastructure; the Presence and impacts of Web Sites, Mobile Sites, and Apps; Security and Payment Systems; Marketing and Advertising Concepts; and, Ethical, Social, and Political Issues.

Offered: F.

BUAD 425 - Franchising (3)

A survey of franchises, royalties and fees, legal implications of franchising, selection among franchise opportunities, franchise application process, franchise training, and operations.

Prerequisite: None. Offered: even F.

BUAD 426 - Supply Chain Management (3)

This course explores the functions of supply chain management. Topics discussed in this course include distribution network, sourcing, forecasting and integrated planning, supply chain coordination and information technology, global supply chain, outsourcing, logistics and transportation, inventory and warehousing, and supply chain performance measurement.

Prerequisite: MNGT 221 with a C or higher. Offered: S.

BUAD 455 - Strategic Management (3)

A capstone course that examines the managerial tasks of developing and implementing both domestic and international organizational strategies. This is a case method course. Cases are used from the text and from current business situations. Students learn to apply the tools of analysis and critical thinking to the strategic challenges managers face.

Prerequisite: Senior standing, BFIN 311, MNGT 221, and MRKT 231, each with a C or higher; should be taken during student's final semester. Offered: F, S, SS.

BUAD 456 - International Business (3)

A study and investigation of environmental, policy-making, and cultural aspects of international business with focuses on business and managerial implications of each issue on the actual practice of international business. Many issues in international business are complex; they necessitate exploration of pros and cons of economic theories, government policies, business strategies, organizational structures, and social settings.

Prerequisite: Senior standing, BFIN 311, MNGT 221, MRKT 231, each with a C or higher; should be taken during the student's final semester. Offered: F, S, SS.

BUAD 490 - Internship I (3)

Develops student awareness of the business environment, the real world of work as it relates to their majors, providing visibility and hands-on experience in various business settings, stimulating entrepreneurship, and exploring various business and career opportunities. May require weekly class attendance. Requires working 150 hours to earn 3 semester hours credit.

Prerequisite: MNGT 221, MRKT 231, BUAD 190, ACCT 210 with a C or higher; Junior/Senior standing, minimum GPA of 2.0. Offered: F, S, SS.

BUAD 492 - Internship II (6)

Emphasis is on developing student awareness of the business environment, the real world of work as it relates to their majors, providing visibility and hands-on-experience in various business settings, stimulating entrepreneurship, and exploring various business and career opportunities. Students may be required to attend weekly classes and must work 150 hours to earn 3 semester hours credit. Prerequisites: Junior or Senior standing, minimum 2.0 GPA.

Prerequisite: BUAD 490 with a C or better; junior/senior Standing, minimum GPA of 2.0. Offered: F, S, SS.

BUAD 495 - Independent Studies (3)

Students to explore topics of current interest or specialized research topics under the guidance of a faculty advisor. Course topics are intended to be flexible and creative, varying form each semester.

Prerequisite: Junior or Senior standing; permission of instructor; permission of department chair. Offered: F, S, SS.

CHEM - CHEMISTRY COURSE DESCRIPTIONS

CHEM 101 - General Chemistry I (3)

The first part of the general chemistry course in the two-semester sequence. Topics such as matter and measurement; atoms, molecules and ions; stoichiometry - calculations with chemical formulas and equations; types of chemical reactions, aqueous
reactions and solution stoichiometry; thermochemistry; and electronic structure of atoms; will be discussed.

Corequisite: CHEM 101L. Offered: F; S; SS.

CHEM 101L - General Chemistry I Lab (1)
Provides the student with an introduction to general chemical principles and reinforces concepts of the General Chemistry 101 lecture. Laboratory experiments will provide the student with opportunities to collect and analyze data and identify unknowns. One hour per week.

Corequisite: CHEM 101. Offered: FS; SS.

CHEM 102 - General Chemistry II (3)
The second part of the general chemistry course in the two-semester sequence. Topics such as periodic properties of the elements; basic concepts of chemical bonding; molecular geometry and bonding theories; gases; intermolecular forces; liquids, solids, and modern materials will be discussed.

Prerequisite: CHEM 101/CHEM 101L. Corequisite: CHEM 102L. Offered: F; SS.

CHEM 102L - General Chemistry II Lab (1)
Fundamental chemistry laboratory skills are emphasized for continued study of chemistry and related sciences and reinforce concepts of the General Chemistry 102 lecture. After successful completion of this course, the student will have an understanding of basic chemical concepts. One hour per week.

Prerequisite: CHEM 101L. Offered: F; SS.

CHEM 115 - Basic General, Organic, Biochem I (4)
A course in general chemistry with special emphasis on organic chemistry and biochemistry. A terminal course that does not meet requirements as a prerequisite for any higher level chemistry course. General, organic, and biochemistry and chemical applications in health professions. Introduces lab techniques in general, organic, and biochemistry.

Offered: F; S.

CHEM 116 - Basic General, Organic, Biochem II (4)
Continuation of CHEM 115.

Offered: F; S.

CHEM 200 - Additional Topics in General Chemistry (3)
Provides the biological, and /or the physical science major the opportunity to fill in any gaps that may exist in terms of the chemical topics needed to successfully pursue advanced knowledge in his or her chosen field of study. Needed topics not normally covered during enrollment in CHEM 101, and CHEM 102 will be undertaken. Topics such as acid-base equilibria, intermolecular forces, liquids, solids; modern materials; properties of solutions; chemical kinetics; chemical equilibrium will be discussed. Lecture: Three hours per week.

Prerequisite: CHEM 102. Offered: F; S.

CHEM 201/201L - Analytic Chemistry I (4)
This course is intended to provide a sound, physical understanding of analytical chemistry by chemistry majors, as well as non-majors. This course is an introduction to the theory and practice of quantitative chemical analysis a major component of analytical chemistry involving the measurement of how much of a chemical substance is present in a sample submitted for analysis. (2 hours of lecture and 2 hours of laboratory)

Offered: F; S.

CHEM 202 - Quantitative Analysis (2)
Introduction to fundamentals of analytical chemistry including: statistical methods for processing of analytical data, volumetric and gravimetric titrations, acid-base equilibria, spectrophotometric methods of analysis, chromatographic separation, and analysis. Thorough coverage of topics on activity and chemical equilibrium, solubility products, and redox reactions will also be provided. Lecture: two hours per week.

Prerequisite: CHEM 101L. Corequisite: CHEM 202L. Offered: F; S.

CHEM 202L - Quantitative Analysis (2)
Covers laboratory experiments and spreadsheet based data processing exercises to reinforce the techniques of quantitative chemical analysis. This course must be taken with CHEM 202. Laboratory: one hour per week.

Corequisite: CHEM 202. Offered: F; S.

CHEM 205 - Inorganic Chemistry/Lab (4)
An introduction to modern concepts of inorganic chemistry including electronic structures, molecular
structures and periodic classification of the elements. Additional topics will be selected from the following areas: bonding theories, quantum theory, solid state theory, transition metal complexes, methods of structural determination, bioinorganic chemistry and instrumental techniques currently used in inorganic chemistry. The experiments chosen are to illustrate inorganic synthetic techniques, method of purification, and methods of characterization.

Offered: F; S.

**CHEM 301 - Organic Chemistry I (3)**
Serves as an introductory course to organic chemistry for students majoring in chemistry and other fields in which organic molecules and reactions have fundamental importance. The course covers nomenclature, preparation, physical, and chemical properties and synthesis of organic compounds, particularly aliphatic and alicyclic hydrocarbons such as alkanes, alkenes, alkynes as well as alcohols and alkyl halides. Lecture: three hours per week.
Prerequisite: CHEM 102/CHEM 102L. Corequisite: CHEM 301L. Offered: F; S; SS.

**CHEM 301L - Organic Chemistry I Lab (1)**
Focuses on experimental techniques of modern organic chemistry with emphasis on separation, simple preparation, reactions and identification of organic compounds such as alkanes, alkenes, and alkyl halides. Three hours of laboratory per week.
Prerequisite: CHEM 102/CHEM 102L. Corequisite: CHEM 301. Offered: F; S; SS.

**CHEM 302 - Organic Chemistry II (3)**
Builds on basic concepts introduced in Organic Chemistry I and expands on it to encompass a systematic and in-depth study of the nomenclature, properties, preparation, and reactions of various classes of organic compounds. These include aromatic hydrocarbons, alcohols, ether, sulfides, epoxides, aldehydes, ketones, carboxylic acids and their derivatives. Spectroscopic techniques such as NMR, FT-IR, and MS etc., used in the determination of the structure of organic compounds will also be discussed. Lecture: three hours per week.
Prerequisite: CHEM 301/CHEM 301L. Corequisite: CHEM 302L. Offered: F; S; SS.

**CHEM 302L - Organic Chemistry II Lab (1)**
Emphasizes the instruction of experimental methods of modern organic chemistry such as preparation, synthesis, identification, and reactions of organic compounds such as alcohols, ketones, carboxylic acids aromatic compounds, and their derivatives. Laboratory: three hours per week.
Prerequisite: CHEM 301/CHEM 301L. Corequisite: CHEM 302. Offered: F; S; SS.

**CHEM 350 - Chemistry Seminar (1)**
Assessment of a student's oral and written communication skills in the discussion and presentation of multifaceted chemical concepts and current topics of interest. Course content will focus on recent advancements in chemistry.

**CHEM 395 - Introduction to Neurochemistry (3)**
Investigates the biological and chemical processes involved in central nervous system functioning and communication. It is a study of the nervous system from its structure, chemical, molecular and cellular biology, and function through to the consequences of its action, which is behavior. Emphasis will include the chemical aspects of synthesis, metabolism, and release of neurotransmitters and how drugs (legal or illegal) affect behavior. The neurodegeneration in such behavioral and neurological disease states as Alzheimer's disease, Parkinson's disease, multiple sclerosis and diabetic neuropathy will be discussed. Current research topics in this area will also be presented. Lecture: three hours per week.
Prerequisite: CHEM 302 or BIOL 307. Offered: F.

**CHEM 401 - Biochemistry (3)**
Covers the chemistry of essential biological molecules focusing on protein chemistry, while covering lipids and carbohydrates. It presents a systematic and methodical application of general and organic chemistry principles. Examines the structure of proteins and folding, their function, their binding to other molecules. Enzymes, mechanisms, kinetics, and allosterity; bioenergetics; vitamins and coenzymes; introduction to intermediary metabolism are discussed in detail. Metabolic pathways are examined from thermodynamic and regulatory perspectives. This course provides the connection between the inert world of chemistry and the living world of biology.
Prerequisite: CHEM 301/CHEM 301L. Corequisite: CHEM 401L. Offered: F; S.

**CHEM 401L - Biochemistry Lab (1)**
Focuses on the fundamental techniques of protein biochemistry. The course will cover assay methods; separation of macromolecules by electrophoresis and chromatography; isolation, purification, analysis of enzymes, and methods for probing protein-ligand interactions
Offered: F; S.

**CHEM 402 - Biochemistry II (3)**
Provides a broad overview of the key concepts in biochemistry. Topics to be covered include lipids and amino acids metabolism and metabolic diseases processes. The nucleic acid structure and function, DNA replication, transcription, translation, signal transduction, and regulation of gene expression in prokaryotes and eukaryotes will be covered widely. The course also covered topics include cell cycle regulation and cancer biology. Lecture: three hours per week.
Prerequisite: CHEM 401/CHEM 401L. Offered: F; S.

**CHEM 402L - Biochemistry II Lab (1)**
Focuses on the fundamental techniques of biochemistry. The course will cover assay methods; separation of macromolecules by electrophoresis and chromatography; isolation, purification, and analysis of enzymes; recombinant DNA procedures; and polymerase chain reaction (PCR).
Offered: F; S.

**CHEM 403 - Physical Chemistry I (3)**
Provides students with an overview of the basic laws and theories of physical chemistry. Reviews the mathematics, and physics needed for physical chemistry, the three states of matter, perfect and real gases, the gas laws, the four laws of chemical thermodynamics and their applications, and equilibrium thermodynamics.
Prerequisite: CHEM 200; MATH 165; PHYS 181L or PHYS 192. Corequisite: CHEM 403L. Offered: F; S.

**CHEM 403L - Physical Chemistry I Lab (1)**
Experiments pertinent to the gas laws, Beer's law, and thermal conductivity of industrial materials. Laboratory: three hours per week.

Corequisite: CHEM 403. Offered: F; S.

**CHEM 404 - Physical Chemistry II (3)**
Gives students an overview of the basic laws and theories of Physical Chemistry: Chemical Kinetics, Electrochemistry, Quantum Chemistry, and Statistical Thermodynamics. Lecture: three hours per week.
Prerequisite: CHEM 403L. Corequisite: CHEM 404L. Offered: S.

**CHEM 404L - Physical Chemistry II Lab (1)**
Laboratory experiments are designed to reinforce the concepts covered in CHEM 404. Laboratory: one hour per week.
Corequisite: CHEM 404. Offered: S.

**CHEM 405 - Instrumental Methods of Chemical Analysis (2)**
Introduction to fundamental principles of modern instrumental analysis including: instrumentation and analytical applications of atomic and molecular spectroscopy, mass spectrometry, analytical separations, and electrochemistry instruments. Discussion of instrument design and capabilities as well as real-world problem solving with an emphasis on environmental applications. Hands-on laboratory work using modern instrumentation and independent projects involving environmental sampling and problem solving. Lecture: two hours per week.
Prerequisite: CHEM 202L. Corequisite: CHEM 405L. Offered: S.

**CHEM 405L - Instrumental Methods of Chemical Analysis Laboratory (2)**
Covers laboratory experiments and spreadsheet based data processing exercises to reinforce the techniques of instrumental methods of chemical analysis. This course must be taken with CHEM 405. Laboratory: three hours per week.
Corequisite: CHEM 405. Offered: S.

**CHEM 407 - Applied Biochemistry (4)**
Reviews the chemistry of macromolecules in living systems with emphasis on biotechnological and biomedical methods. The first part of the course will focus on the relationship between the chemistry, structure, and function of proteins, nucleic acids, carbohydrates, lipids, and membranes. Critical methods used in modern biochemistry to analyze macromolecules in biotechnological, biomedical and research interests will be covered. The final topics
will be concerned with informational biochemistry, DNA replication, DNA recombinant technology and cloning methods, transcription factors analysis, sequencing techniques (DNA and protein), microarrays, and SiRNA. Extensive use of the Internet's resources (Pubmed etc.) and on-line journals will be also expected. This approach will assist the student to make the connection between abstract ideas and concrete applications.

Offered: F; S.

CHEM 425 - Selected Topics in Organic Chemistry (4)

Serves as a bridge between a yearlong organic chemistry courses and graduate courses in organic chemistry for those students who plan to go to graduate school. It is an in-depth treatment of the fundamentals and topics not covered in the two semester organic chemistry courses. The course focuses on structure and bonding, physical and chemical properties of various families of organic compounds as well as reaction mechanisms and synthesis. 3 hours of lecture per week.

Prerequisite: CHEM 302/CHEM 302L. Offered: F; S.

CHEM 430 - Introduction to Medicinal Chemistry (3)

Introduce undergraduate seniors and juniors to a complete course in medicinal chemistry, from first principles of drug action, to design and development, and to specific drugs. The course covers the structures and functions of important drug targets such as receptors, enzymes and nucleic acids, as well as pharmacodynamics and pharmacokinetic properties of drugs. General principles that apply in the discovery, design, and development of new drugs as well as classes of drugs will be discussed.

Offered: F.

CHEM 435 - Special Topics In Physical Chemistry (3)

Covers one or more of the following areas of Physical Chemistry: quantum chemistry, spectroscopy, statistical thermodynamics, and chemical kinetics. Three hours of lecture per week.

Prerequisite: CHEM 404/CHEM 404L, MATH 267; PHYS 182/PHYS 182L. Offered: F.

CHEM 450 - Chemistry: An Integrated Approach (3)

Test the upper-level student's understanding and mastery of Chemistry as a discipline and subject matter in terms of the five main branches of the subject. It is not intended to be a chalk-and-talk course in the traditional sense. The main goal of the course is to determine how well the aspiring Chemistry major has been prepared in making the transition from being a major to being a professional in the field at the work place, and/or has been prepared for Graduate /Professional Schools at the next level of his/her educational career. Essential topics in General Chemistry, Analytical Chemistry, Biochemistry, Inorganic Chemistry, Organic Chemistry, and Physical Chemistry will be tabled for discussions and testing purposes.

Prerequisite: Prior knowledge of chemistry is required, and so are relevant concepts in mathematics and physics. It is assumed that the student has seen/learned most, if not all, of the material covered in the course at an earlier date. Offered: F; S.

CHEM 499 - Chemical Research (1-3)

Faculty supervision of student research in chemistry. Open to junior and senior students with demonstrated ability to carry out independent work in chemistry. Students may re-enroll for up to three semester hours of credit.

Prerequisite: Consent of Instructor/Department Chairperson. Offered: F; S.

CHIN - FOREIGN LANGUAGES

COURSE DESCRIPTIONS

CHIN 101 - Introduction to Chinese I (3)

Students learn and master basic grammatical structure, in addition to being introduced to increasingly complicated forms of expression. Students will use Chinese at a basic introductory level after this course.

CHIN 102 - Introduction to Chinese II (3)

A continuation of CHIN 101. Students continue to learn and master basic grammatical structures, in addition to being introduced to increasingly complicated forms of expression. Students will use Chinese with greater regularity to communicate in class.

Prerequisite: CHIN 101.
CJ - CRIMINAL JUSTICE COURSE DESCRIPTIONS

CJ 201 - Introduction to Criminal Justice (3)
An introduction to the administration of criminal justice in a democratic society through its primary agencies: police, courts, and corrections. This course emphasizes the theoretical and historical development of law enforcement through the influences of human behavior and the resulting impact on social, economic, and environmental factors.
Prerequisite: No Prerequisite. Offered: F; S.

CJ 203 - Criminal Justice Ethics (3)
Overview of the major philosophical schools of ethics and the application of ethical systems and standards to decision making by professionals working in every part of the criminal justice system.
Prerequisite: No Prerequisite. Offered: F or S.

CJ 204 - Corrections (3)
Examination and development of managerial concepts of correctional institutions and study of rehabilitation programs at state and federal levels.
Prerequisite: No Prerequisite. Offered: F; S.

CJ 206 - Police in American Society (3)
Examines the role of the police in society, including police organization and functions, subculture, and police power and authority. Police problems and issues, and the recruitment, training, and careers of police officers are also discussed.
Prerequisite: No Prerequisite. Offered: F; S.

CJ 208 - Drugs, Alcohol, and Crime (3)
Explores the relationship of crime to alcohol and narcotics use. Characteristics of individuals likely to use illicit drugs will be examined in the conflict between individual freedom and society's desire to control drug use, as well as facts and myths regarding the role alcohol and other drugs play in criminal behavior. Strategies to combat the growing problem will be identified.
Prerequisite: No Prerequisite. Offered: F or S.

CJ 210 - Juvenile Justice System (3)
Procedural and substantive aspects of the juvenile justice system as it relates to intake, hearings, corrections, and rehabilitation programs.

CJ 217 - Violent Crime (3)
Research studies dealing with control of these issues: terrorism, homicide, gangs, serial crimes of violence, interpersonal violence, and sexual assault. Emphasizes crimes involving weapons.
Prerequisite: No Prerequisite. Offered: F or S.

CJ 310 - American Constitution Law (3)
Study of basic principles of the American Constitutional System. Emphasizes judicial interpretation and application of these principles in construing powers of the government and the rights of the people. Historical background and analysis of major federal court decisions.
Prerequisite: CJ 201. Offered: F; S.

CJ 311 - Advanced Criminal Law and Jurisprudence (3)
Presents a basic concept of criminal law and creates an appreciation of the rules under which one lives in our government. Particular emphasis upon the definitions of crime against the person, property, and specific offenses.
Prerequisite: CJ 201. Offered: F; S.

CJ 312 - Criminal Evidence (3)
Familiarization with the rules of evidence as well as reasons for the rules; instruction in collecting, protecting, and presenting evidence so that its admissibility will be assured.
Prerequisite: CJ 201. Offered: F or S.

CJ 313 - Research Methods in Criminal Justice (3)
An introduction to research design as applied to problems in crime and criminal justice. Includes an introduction to the scientific method, basic research designs, and data collection techniques.
Prerequisite: CJ 392. Offered: F; S.

CJ 314 - Criminal Procedure (3)
An in-depth survey of pre-trial and post-trial procedures. Considers applications of constitutional principles.
Prerequisite: CJ 201. Offered: F or S.

CJ 315 - Introduction to Homeland Security (3)
An overview of the history, organization, and the functions of the Department of Homeland Security. Examines and explores the theories, concepts, and
case studies that are a part of homeland security in the United States.

Prerequisite: No Prerequisite. Offered: F; S.

CJ 381 - Crime Myths and Moral Panic (3)
This course introduces students to the societal myths that exist regarding criminal behavior. Specific emphasis will be placed on the critical analysis of how the social institutions of government and mass media enable the construction and growth of these crime myths.

Prerequisite: CJ 201. Offered: F; S.

CJ 391 - Criminological Theory (3)

Prerequisite: CJ 201. Offered: F; S.

CJ 392 - Statistics in Criminal Justice (3)
An introduction to elementary statistical methods as applied to problems in crime and criminal justice. Includes an introduction to problems of data description, data analysis, hypothesis testing and inference, and an introduction to the use of computers.

Prerequisite: CJ 201. Offered: F.

CJ 400 - Juvenile Delinquency (3)
Conceptions and theories of juvenile delinquency, treatment of juvenile offenders, and preventive programs.

Prerequisite: CJ 201. Offered: F; S.

CJ 406 - Introduction to Jurisprudence (3)
Study of the various schools and theories of jurisprudence, historical development of legal systems, legal reasoning, and juristic processes.

Prerequisite: CJ 201. Offered: F or S.

CJ 410 - Prosecution and the Courts (3)
Reviews the functions and practices of the prosecutor with special reference to an analysis of the interrelationships among charging, convicting, and sentencing, and in relation to the functions of police and probation staff. Provides an overview of court goals, functions, and potential for system reform.

Prerequisite: CJ 201. Offered: F or S.

CJ 489 - Senior Seminar in Criminal Justice (3)
Evaluation of criminal justice agencies. Review of actual applied issues and research-based solutions. Deployment of intellectual and academic skills to find solutions to problems.

Prerequisite: CJ 201 and 100 credit hours towards the Criminal Justice degree. Offered: F; S.

CJ 492 - Public Policy in Criminal Justice (3)
A study of the nature, development, and utilization of public policy within agencies of the criminal justice system. Topics include policy formulation, constraints on policy makers, influence of constituencies, and the role of research information. Case studies of issues such as crime control, prison overcrowding, police use of deadly force, the death penalty, and parole guidelines will be undertaken.

Prerequisite: CJ 201. Offered: F or S.

CJ 496 - Comparative Criminal Justice (3)
A general introduction to the world's main legal systems. Comparative study of the administration of justice, procedural problems, and selected substantive legal institutions.

Prerequisite: CJ 201. Offered: F or S.

CJ 498 - Directed Study in Criminal Justice (3)
Independent reading and research in Criminal Justice. Papers and oral reports as appropriate.

Prerequisite: CJ 201. Offered: F or S.

CJ 499 - Criminal Justice Internship (6)
Internship designed to combine theoretical knowledge with practical work by allowing students to participate in Criminal Justice agencies in the community. In addition, students must complete 200 work hours and submit work logs and a research paper or report on some aspect of the agency.

Prerequisite: One hundred hours of course work towards the Criminal Justice degree. Contract must be filed the semester before the internship begins. (A criminal justice major may waive the internship requirement and take two 400 level elective criminal justice courses). Offered: F or S.
COM - COMMUNICATIONS STUDIES
COURSE DESCRIPTIONS

See other Course Listings under Mass Communications. (p. 275)

COM 200 - Interpersonal Communication (3)
Focuses on communication as a means of building and sustaining interpersonal relationships. Concepts of perception, attraction, self-disclosure, listening, verbal and non-verbal messages, conflict management, and gender communication.
Prerequisite: GE 102, GE 201, GE 202. Offered: F.

COM 201 - Intercultural Communication (3)
Analyzes variables across intercultural contexts, including culture and meaning, nonverbal styles, patterns of symbolic transfer, and the influence of values on intercultural dialogue. Diversity issues and identity politics are also explored as a basis for understanding interracial communication and interfaith dialogue.
Offered: S.

CSC - COMPUTER SCIENCE COURSE DESCRIPTIONS

CSC 111 - Introduction to Computer Applications (3)
Introductory course for non-computer science majors about computers and how they work. Gives students hands-on experience with personal computers and productivity software. Applications covered include word processing, electronic spreadsheets, a database management system, and graphic presentation packages.
Offered: F; S; SS.

CSC 114 - Introduction to Computer Science (3)
Provides students with a basic understanding of programming practices and problem-solving skills. Concepts covered include number systems, the history and components of computers, flowcharting, pseudocode methodologies, understanding of programming practices, algorithms, test cases, and software development concepts.
Offered: F; S; SS.

CSC 115 - Programming I (3)
This course provides an introduction to programming and is taught in a high level programming language. The topics covered are data types, expressions, assignment, selection, repetition, introduction to arrays, functions, and recursion. Students are required to do programming projects.
Prerequisite: CSC 114 or ENGT 100. Offered: F; S; SS.

CSC 160 - Computer Science Majors Orientation Seminar (1)
A survey of computer science as a discipline and a profession with a focus on the mastery of useful modules for becoming an efficient and an effective computer scientist in both academia and the workplace.
Offered: F; S.

CSC 215 - Programming II (3)
This is the second course in the programming series and covers I/O file stream objects and methods, classes and objects, operators, inheritance and polymorphism, dynamic objects, the string class and exception handling, standard template library and structures, dynamic and static arrays, reference variables.
Prerequisite: "C" or better in CSC 115. Offered: F; S.

CSC 218 - Data Structures (3)
Introduction to Algorithmic Complexity; Object-Oriented Concepts; Container Class and Templates; Pointers; Linked Lists; Stacks; Queues; Recursion; Trees; Bubble; Insertion; and Merge Sort; Linear and Binary Searching; Graphs.
Prerequisite: "C" or better in CSC 215 or CSC 230. Offered: F; S.

CSC 230 - Object-Oriented Programming (3)
Understand and use object-oriented programming concepts using a high-level programming language. Students learn fundamental data types, basic control structures, classes, objects, methods, arrays, string processing, file I/O, templates, recursion, lists, searching, sorting, inheritance, polymorphism, graphics, GUI, and multithreading.
Prerequisite: "C" or better in CSC 114 or CSC 115. Offered: F, S.
CSC 240 - Introduction to Cybersecurity (3)
This course introduces security core concepts, terminology, technologies, and skills. The students will gain insight into the importance of cybersecurity and the integral role of cybersecurity professionals. Major security topics covered will include attacks, spyware, security architecture, hacking, firewalls, incidents, intrusion, and emerging IT and IS technologies.
Prerequisite: "C" or better in CSC 114. Offered: F.

CSC 260 - Sophomore Seminar in Computer Science (1)
History of Computing; Social Context; Analytical tools; Professional Ethics; Risks; Security Operations, Intellectual Property, and Privacy and Civil Liberties. Designed to give students an introduction to the major and to provide the basic knowledge, overview, and foundation for the curriculum.
Prerequisite: "C" or better in CSC 215 or CSC 230. Offered: S.

CSC 300 - Introduction to Mobile Robotics (3)
Design, construction, and programming of mobile robots. Topics include computational hardware, sensors, motors, power, locomotion, kinematics, perception, and localization.
Prerequisite: "C" or better in CSC 218. Offered: S.

CSC 305 - Introduction to Bioinformatics (3)
This course studies the application of computing techniques to solving problems in the field of bioinformatics and computational molecular biology. You will gain practical experience in the use of bioinformatics tools and algorithms and will utilize APIs for scientific programming and data visualization.
Prerequisite: "C" or better in CSC 114. Offered: F.

CSC 314 - Computer Architecture and Organization (3)
Digital Logic and Data representation; Computer Architecture, Organization, and Abstraction; Interfacing and I/O Strategies; Instructions; Computer Arithmetic; Processor; Memory Architecture; Storage Multiprocessing; Performance; Distributed Architectures.
Prerequisite: "C" or better in CSC 215 or CSC 230. Offered: F; S.

CSC 315 - Programming Languages Concepts (3)
Programming Languages Overview; Different Phases of Language Translation; Parsing; Syntax Analysis; Semantic Analysis; Declarations and Types; Scopes; Concurrency; Code Improvement; Abstraction and Object Oriented Programming; Functional Programming; Logic Programming; Scripting and Markup Languages.
Prerequisite: "C" or better in CSC 218. Offered: F.

CSC 318 - Algorithms (3)
Prerequisite: "C" or better CSC 218. Offered: F.

CSC 322 - UNIX Administration & System Programming
This course covers a detailed introduction to UNIX operating system from the administrator perspective, test manipulation techniques using grep, sed, and awk, shell, and other system programming.
Offered: S.

CSC 325 - Database Systems (3)
Provides an introduction to database systems. Topics include data models, with a focus on relational database models, database design, transaction management, and SQL using a readily available database management system and applicable languages to reinforce concepts.
Prerequisite: "C" or better in CSC 218. Offered: F; S.

CSC 335 - Introduction to Web Design (3)
The course will provide a basic understanding of the methods and techniques of developing a moderately complex web site using client-side and server-side programming languages. Students will produce a project that consists of a medium design effort.
Prerequisite: "C" or better in CSC 325. Offered: F.

CSC 401 - Data Mining & Machine Learning (3)
The course covers the most important data mining techniques and provides background knowledge on how to conduct a data mining project. It also gives a
basic introduction to data analysis. After defining what knowledge discovery and data mining is, data mining tasks such as classification, clustering, and association analysis will be discussed in detail. Basic data analysis techniques, centering on basic visualization techniques and statistics, to get a better understanding of the data mining task at hand will be covered. Moreover, techniques how to preprocess a data set for a data mining task will be introduced. Moreover, in course projects you will obtain hands-on experience in conducting data mining and data analysis projects.

Prerequisite: Consent of Instructor or Junior Classification. Offered: F.

CSC 409 - Artificial Intelligence (3)

An introduction of the basic concepts and problem-solving techniques of artificial intelligence, the study of computers in context with human thought processes. Topics include heuristic programming, knowledge representation, natural language understanding, expert systems, and search strategies. One or more computer languages will be used.

Prerequisite: "C" or better in CSC 315 or MATH 351. Offered: S.

CSC 410 - Net-Centric Computing (3)

Prerequisite: "C" or better in CSC 314. Offered: F.

CSC 412 - Software Engineering (3)

Discusses topics related to software design including various software lifecycle methodologies. Students are expected to complete a software design effort that models the phases of a software lifecycle.

Prerequisite: "C" or better in CSC 325. Offered: F.

CSC 413 - System Analysis and Design (3)

A survey of techniques for performing system analysis and system design tasks. Includes sources of error in developing software, fundamental steps in developing software, duties and responsibilities of the System Analyst, automation of software development, problems in software development, the software life cycle, standard software development models, object-oriented software development, trends in software development, and metrics. Students will produce a term project that consists of a medium/large design effort.

Prerequisite: "C" or better in CSC 325. Offered: S.

CSC 414 - Python Programming & Visualization (3)

This course provides students with in-depth understanding on Python programming and its applications in visualization. Concepts covered include package generation, scope, exception, generator, coding style, documentation, Jupyter, numpy module, panda module, matplotlib module, and other relative modules.

Prerequisite: "C" or better in CSC 114 and MATH 351. Offered: F.

CSC 415 - Computer Graphics (3)

Fundamental Techniques; Graphic Systems; Graphic Communication; Geometric Modeling; Basic Rendering; Advanced Rendering; Advanced Techniques; Computer Animation; Visualization; Virtual Reality; Computer Vision; Computational Geometry; and Game Engine Programming.

Prerequisite: "C" or better in CSC 218 and MATH 351. Offered: Upon Request.

CSC 420 - Operating Systems (3)

Overview of Operating Systems; Operating Systems Principles; Concurrency; Scheduling and Dispatch; Memory Management; Device Management; Security and Protection; File Systems; Real Time and EmbEd.D.ed Systems; Fault Tolerance; System Performance Evaluation; Scripting; Security Models; and Device Management.

Prerequisite: "C" or better in CSC 218. Offered: S.

CSC 421 - Topics In Computer Science (3)

Topics of current interest in Computer Science that would aid in the development of student's growth and development as a Computer Scientist.

Prerequisite: Consent of Instructor or Junior or Senior classification. Offered: Upon Request.

CSC 430 - Undergraduate Research in Computer Science (3)

Directed study in an existing area of computer science resulting in a research project.

Prerequisite: Consent of Instructor or Junior or Senior classification. Offered: Upon Request.
CSC 435 - Advanced Web Design (3)
This course provides students with state of the art web programming techniques and frameworks. Concepts covered include HTML5, CSS3, Javascript, JQuery, Bootstrap, Angular, Symphony, MySQL, mongoDB, and other relative techniques.
Prerequisite: "C" or better in CSC 230 and CSC 335. Offered: F.

CSC 451 - Numerical and Symbolic Computing (3)
Solving mathematical models using various algorithms; implementing algorithms using symbolic software such as Mathematica; error analysis; sources, propagation and measurement; differentiation; nonlinear equations; systems of equations (non-iterative and iterative methods); interpolation and extrapolation; numerical solutions of differential equations, and eigenvalue problems.
Prerequisite: "C" or better in MATH 265 and either CSC 115 or CSC 230. Offered: S.

CSC 452 - Internship (3-6)
Students engage in supervised experience with business, industry, or government. Evaluation to be based on written reports by employer and University supervisor.
Prerequisite: Consent of Instructor. Offered: F; S; SS.

CSC 460 - Senior Seminar in Computer Science (2)
Provides students the opportunity to demonstrate their accumulated knowledge, skills, and growth in the major.
Prerequisite: Consent of Instructor and Senior classification. Offered: F.

ECON 201 - Principles of Economics I (3)
An introduction to macroeconomics, including a study of economic institutions and relationships in society. Resource allocation, the market system, national income accounting and analysis, the banking system, and monetary and fiscal policy are analyzed and discussed. Partially fulfills GE requirement in Social & Behavioral Sciences.
Offered: F, S, SS.

ECON 201H - Principles of Economics I Honors (3)
An introduction to macroeconomics including the economic system as a whole. Covers aggregate economic relationships and institutions; discusses and analyzes resource allocation, the market system, national income measurement, the banking system, monetary and fiscal policy, inflation, recession, economic growth and international exchange markets in the context of a private enterprise system.
Prerequisite: Membership in Honors Program. Offered: F.

ECON 202 - Principles of Economics II (3)
An introduction to microeconomics including a study of the individual firm, supply and demand, market structures, the pricing of resources, and the theory of distribution. Contemporary economic problems such as the farm problems, market structures and the public interest, and international trade are discussed. Partially fulfills GE requirement in Social & Behavioral Sciences.
Prerequisite: None. Offered: F, S, SS.

ECON 260 - Business/Economics Statistics I (3)
Statistical methods, including measures of central tendency, dispersion, sampling, probability, and regression analysis.
Prerequisite: GE 115 with a C or higher. Offered: F, S.

ECON 261 - Business/Economics Statistics II (3)
This course is a continuation of Business & Economics Statistics I course and covers the theory of statistical analysis with practical application in business scenarios. Topics covered will include hypotheses testing, chi square tests, ANOVA, linear regression analysis, time series analysis, and forecasting. The course will also make use of statistical software for analysis.
Prerequisite: ECON 260 or STAT 251 with a C or higher. Offered: F, S.

ECON 318 - Money, Credit, and Banking (3)
Study of subjects from the viewpoint of the businessman, banker, and the public. Examines development and present status of the American money market, credit controls, monetary policy, debt management, and monetary theory.
Prerequisite: ECON 201 and ECON 202, each with a C or higher. Offered: S.

**ECON 325 - Current Economic Problems (3)**
Study of domestic and international economic problems and proposed solutions. Trends such as employment, inflation, poverty, the gold flow, and farm problems are analyzed.
Prerequisite: ECON 201, ECON 202, each with a C or higher. Offered: F.

**ECON 360 - Econometrics (3)**
This course exposes students to the statistical techniques Economists use for estimating, testing, and forecasting economic relationships. The course also involves empirical testing of data using various econometric methodologies. Significant emphasis will be given to the use of statistical software packages.
Offered: F, S.

**ECON 376 - Public Finance (3)**
Public expenditures, federal and state revenue systems, financial administration, budgeting, and public debt management.
Prerequisite: ECON 201 and ECON 202, each with a C or higher. Offered: F.

**ECON 398 - Special Topics in Economics (3)**
Topics of special interest to business students may be offered, or a request by a group of students for a specific course not otherwise available. The students conduct study of these topics as business electives.
Prerequisite: Junior or Senior standing and the department chair's written consent. Offered: F, S, SS.

**ECON 435 - Economic Development (3)**
This course will introduce students to the basic issues of economic growth and development, poverty, and inequality. The course will help students distinguish between highly developed and less developed economies, and what causes this difference. Relevant government policies in the context of economic development will also be discussed.
Offered: F, S.

**ECON 455 - International Economics (3)**
Analysis of the flow of goods and services between countries and the financial aspects of international trade. Includes benefits from trade, restraint of trade, terms of trade, financial trade, and the balance of payments analysis.
Prerequisite: MNGT 221, MRKT 231 and BFIN 311, each with a C or higher. Offered: S.

**ECON 470 - Microeconomic Analysis (3)**
Prerequisite: ECON 201, and ECON 202, each with a C or higher. Offered: S, then F.

**EDUC - EDUCATION COURSE DESCRIPTIONS**

**EDUC 160 - Pre-Professional Studies III: Praxis I Reading (2)**
Assists students as they prepare to enter the Teacher Education program. A special focus is on preparing students for the Reading section of Praxis I. Students will learn and practice reading strategies, as well as test taking strategies, necessary for future success as teachers.
Offered: F; S; SS.

**EDUC 170 - Pre-Professional Studies III: Praxis I Mathematics (2)**
Assists students as they prepare to enter the Teacher Education program. A special focus is on preparing students for the Mathematics section of Praxis I. Students will learn and practice mathematics concepts, strategies, and procedures, as well as test taking strategies, necessary for success as future teachers.
Offered: F; S; SS.

**EDUC 180 - Pre-Professional III: Praxis I Writing (2)**
Assists students as they prepare to enter the Teacher Education program. A special focus is on preparing students for the Writing section of Praxis I. Students
will learn and practice writing strategies, as well as test taking strategies, necessary for success as future teachers.

Offered: F; S.

EDUC 203 - Introduction to Computer Instructional Technology (3)

Provides pre-service teachers with an introduction to the instructional use of technology. Emphasizes current computer competencies as set forth by the North Carolina Department of Public Instruction and standards of the International Society for Technology in Education.

Offered: F; S.

EDUC 210 - Professional Studies I: Introduction to Education (3)

First course in a required four-course sequence which addresses advocating for diversity, effective classroom facilitation, reflective practice, critical thinking, instructional technology, and competent evaluation. 15-hours field experience.

Prerequisite: Required Criminal Background check and 15 hour field experience. Offered: F; S; SS.

EDUC 221 - Sophomore Seminar (3)

Sophomore Seminar is designed to give students interested in teacher education an orientation to the program as well as an opportunity to develop knowledge and skills which prepare them for the Praxis Core Academic Skills for Educators. Instruction focuses on the content areas of the exam, reading, writing and mathematics.

Offered: F.

EDUC 225 - Exploration in Mathematics (3)

This hands-on course develops in-depth conceptual understanding of the underlying principles of elementary mathematics. Students create hands-on mathematical materials appropriate to various developmental levels of learning.

Offered: F; S; SS.

EDUC 250 - Introduction to Reading (3)

This foundational reading course provides students with an overview of the scientifically-validated processes involved in the teaching of reading, including alphabetics, fluency, and comprehension. Upon the completion, students will be able to describe and demonstrate phonological and phonemic awareness, phonic and structural analysis, fluency-building strategies, vocabulary instruction, and text comprehension strategies.

Offered: F; S; SS.

EDUC 310 - Professional Studies II: Special Education & Diverse Learners (3)

The second of a four course sequence, enrolled students describe the legal and ethical requirements of the Individuals with Disabilities Act, identify appropriate multicultural practices and materials, implement differentiation of instruction, and participate in professional collaboration to meet the needs of diverse learners and their families. Video-based field-experience required.

Offered: F; S; SS.

EDUC 350 - Teaching Intermediate & Content Reading (3)

This course will address the requirements of reading across a wide range of texts, including content reading. In addition candidates will be placed in a 30-hour supervised field experience at a designated school. Students will be required to complete specific assignments and tasks that relate to a variety of scientifically-validated instructional strategies for comprehension, vocabulary development, and decoding. Students will investigate ways to motivate and engage 21st century student using multiple intelligences and will utilize technology to support literacy skills and strategies.

Prerequisite: Admission into the Teacher Education Program. Offered: F; S; SS.

EDUC 360 - Teaching and Assessment (3)

In this required course, students develop knowledge of the relationship between teaching and assessment, and they learn how to plan for classroom assessment to improve student learning.

Prerequisite: Admission to the Teacher Education Program.

EDUC 410 - Professional Studies IV: Instructional Leadership and Methods (3)

Candidates will demonstrate skill in a variety of instructional methods and team collaboration. Candidates work collaboratively P-12 partners to interpret school improvement data and implement a project related to the School Improvement Plan that will positively impact student learning. Candidates should take this course during the semester prior to
student teaching. 45-hours field experience and admission to the Teacher Education Program.

Prerequisite: A Criminal Background check, 45 hour field experience/internship, and admission to the Teacher Education Program. Offered: F; S.

EDUC 412 - The Middle School: Methods, Materials and Observation (3)

Integrated methods course designed to meet the developmental needs of youth in various subjects in the curriculum of middle schools. Objectives, principles, practices of instruction, classroom techniques, and procedures; selection and use of instruments for evaluating achievement and measuring growth. Study of traditional and new techniques and innovations, including unit planning, team teaching, non-graded arrangements, and appropriate computer applications. Directed laboratory experiences in public schools. Classroom observation required.

Prerequisite: PSY 309; Admission to the Teacher Education Program. Offered: F.

EDUC 424 - Art Education Materials and Methods (3)

Materials, equipment, curricula, philosophy, and techniques for teaching art and the use of appropriate computer technology at all levels, especially grades K-12. Classroom observation required.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F.

EDUC 426 - Music Methods in the Elementary School (2)

This is a music methods course designed for elementary school level. This course covers music education theories of learning and development, methods, materials, curricula, philosophy, lesson planning, computer literacy, advocacy, and strategies and techniques for teaching music in a diverse environment. Includes the introduction of classroom instruments, recorder, and guitar. Directed laboratory experiences in the public schools are included. Classroom observations required.

Prerequisite: Admission to Teacher Education. Offered: F; S.

EDUC 427 - Music Methods in the Secondary School (2)

This is a music methods course designed for the secondary school level. This course covers music education theories of learning and development, methods, materials, curricula, philosophy, lesson planning, assessment strategies and procedures, financial management, use of technology, classroom management and techniques and strategies for teaching music. Directed laboratory experiences in the public schools are included. Classroom observations required.

Prerequisite: Admission to Teacher Education. Offered: F; S.

EDUC 430 - Secondary Instructional Methods (9-12) (3)

An integrated approach emphasizing competencies related to teaching at the secondary level regardless of content area(s). Includes modules such as computer application, school law, audiovisual aids, voice and diction, and lesson planning; culminates with a major teaching presentation. Classroom observation required.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.

EDUC 430A - Secondary Instructional Methods (9-12) Social Studies/History (3)

An integrated approach emphasizing those competencies related to teaching at the secondary level for the Social Studies content area. The course will include modules such as computer application, school law, audiovisual aids, presentation, and lesson planning; and culminate with a major teaching presentation. Classroom observation required (30 hours minimum).

Prerequisite: Written consent of History Education Coordinator; Admission to Teacher Education. Offered: F.

EDUC 433 - Observation and Supervised Teaching in Elementary Education (K-6) (12)

A complete clinical experience. Students teach children in grades K-6 in actual classroom situations. They are appropriately supervised in approved elementary schools in a public school system. In this challenging and supportive environment, the student further develops in the dynamic practice of making effective instructional decisions. The student begins to apply all appropriate teaching models with expert flexibility and develops into a competent practitioner ready to prepare a widely diverse student population for lifelong learning.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.
EDUC 437 - Observation and Supervised Teaching in the Middle School (6-9) (6)

Complete clinical experience, giving students the opportunity to teach under supervision in actual classroom situations in the middle grades in a public school system.

Prerequisite: Consent of Department Chair; Admission to Teacher Education. Offered: F; S.

EDUC 440 - Methods and Materials of Teaching Physical Education and Health (3)

The purpose of this course is to provide the students with knowledge and skills in the methods and techniques necessary to effectively plan and teach physical education and health programs. This course is behavior analytic in nature and will be based on developing behaviors that will help the students taking this course succeed in the course and in future educational endeavors.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.

EDUC 443 - Observation and Supervised Teaching in Music (12)

Complete practicum experience which gives the student the opportunity to teach, under supervision, in actual classroom situations in a public school system.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.

EDUC 460 - Professional Studies V: Portfolio Development (3)

Candidates utilize critical thinking and reflective practices to ensure their electronic evidences and portfolios are aligned with the SOEP conceptual framework, DPI requirements, and other appropriate standards and accrediting bodies. After completion, candidates submit electronically their Evidences of Professional Competency.

Prerequisite: Admission to Teacher Education; written consent of the program coordinator and/or advisor. Offered: F; S; M.

EDUC 464 - Observation and Supervised Teaching in Mathematics (6)

Complete clinical experiences giving secondary mathematics majors the opportunity to demonstrate, in actual classroom control, expertise in human relations and those professional, personal, and social characteristics exemplified by professional teachers.

Experiences: the role of positive reinforcement and frequent review in learning with understanding and retention and transfer of learning; use of appropriate examples, illustrations, equipment, and materials; teaching a unit relative to computer literacy and computer programming in Basic Language; and remediation and questioning skills.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.

EDUC 466 - Observation and Supervised Teaching in Social Studies (12)

Complete clinical experience giving students opportunity to teach in actual classroom situations, under supervision, in a public school system.

Prerequisite: Consent of the Department Chair and History Education Coordinator; Completion of all other academic requirements for graduation/licensure; Admission to Teacher Education Program. Offered: F; S.

EDUC 467 - Observation and Supervised Teaching in Language Arts/English (6)

Complete clinical experience giving secondary education majors the opportunity to teach Language Arts/English in actual classroom situations, under supervision, in a public school system.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.

EDUC 469 - Observation and Supervised Teaching in Art (6)

Complete clinical experience which gives the student the opportunity to teach, under supervision, in actual classroom situations in a public school system.

Prerequisite: Department Chair's written consent; Admission to Teacher Education. Offered: F; S.

EDUC 473 - Observation and Supervised Teaching in Special Education/General Curriculum (K-12) (12)

Experience in teaching under the supervision and guidance of personnel certified in Mental Retardation. Observation of teaching methods and procedures, emphasizing individualized planning. The student teacher has an opportunity to take full teaching responsibility with daily evaluation and conferences.

Prerequisite: Consent of the Department Chair; Admission to Teacher Education. Offered: F; S.
EDUC 474 - Observation and Supervised Teaching in Health and Physical Education (6)

Complete clinical experience giving students the opportunity to teach in actual classroom situations, under supervision, in a public school system.

Prerequisite: Consent of the Department Chair; Admission to Teacher Education. Offered: F; S.

EDUC 476 - Observation and Supervised Teaching in Biology (6)

Complete clinical experience giving students the opportunity to teach in actual classroom situations, under supervision, in a public school system.

Prerequisite: Consent of Department Chair; Admission to Teacher Education. Offered: F; S.

EDUC 478 - Seminar in Contemporary Educational Issues (P/F)

Provides student teachers with an update on current issues, trends, and research in teaching strategies and learning styles. As a part of the orientation, this seminar assists in refining reflective decision-making in the transition from student to professional educator. In addition, this course focuses on identified areas needing reinforcement prior to student teaching, such as planning, classroom management, multicultural education, and computer-assisted instruction.

Prerequisite: Senior status; Admission to Teacher Education. Offered: F; S.

EDUC 479 - Multicultural Education (3)

Designed for the "non-traditional" student with documented evidence of successful classroom experience seeking area and level certification.

Prerequisite: Consent of Chair; Admission to Teacher Education.

EDUC 490 - Internship: Teacher Preparation (3)

Designed for the "non-traditional" student with documented evidence of successful classroom experience seeking area and level certification.

Prerequisite: Consent of Chair; Admission to Teacher Education. Offered: F; S; SS.

EDUC 492 - Independent Study (2)

Individual study or research under direction of a faculty member. Study plan must be approved by the department chair and dean.

Prerequisite: Consent of instructor.

EDUC 493 - Independent Study (3)

Individual study or research under direction of a faculty member. Study plan must be approved by the department chair and dean.

Prerequisite: Consent of instructor.

EDUC 499 - Problems in Education (1-3)

Develops awareness of and reflection on current problems, issues, and trends in education, especially American education. Students conduct an in-depth study of a selected topic and report the results of the study in writing and orally.

Prerequisite: EDUC 201; Admission to Teacher Education. Offered: F; S; SS.

ELEM - ELEMENTARY EDUCATION

COURSE DESCRIPTIONS

ELEM 300 - Reading & Language Arts (3)

Candidates learn to assess and teach beginning reading using research-validated strategies. Emphasizes phonemic awareness, Phonic and structural analysis, vocabulary development, fluency, and comprehension. 30-hours of field experience and admission to The Teacher Education Program.

Prerequisite: Admission to the Teacher Education Program and EDUC 250. Offered: F, S, SS.

ELEM 390 - Social Studies Methods in the Inclusive Classroom (3)

Addresses the following concepts in Social Studies: 1) culture and cultural diversity; 2) time, continuity, and change; 3) civic ideals and practices; 4) economic, scientific, and technological development; and 4) individuals, groups, and institutions. Students plan instruction that assumes a global perspective on content and calls for distinct and developmentally appropriate pedagogies for 21st century learning. Technology use will be required.

Crosslisted as: SPED 390. Offered: S; M.
ELEM 395 - Science Methods in the Inclusive Classroom (3)
Addresses major concepts in the life, physical, and earth sciences: designing and demonstrating hands-on lesson plans and appropriate strategies to assist diverse learners. Candidates will demonstrate knowledge of inquiry-based science and effective use of science process skills. Technology use will be required.
Offered: S; M.

ELEM 430 - Mathematics Methods in the Inclusive Classroom (3)
Mathematical assessment and instruction of diverse students, including numbers and operations, algebra, geometry, measurement, data analysis, and probability. Instructional approaches will include inquiry and direct instruction and will emphasize systematic presentation that moves from concrete to abstract and utilizes multi-sensory activities.
Offered: F; M.

ELEM 431 - Mathematics Methods in the Inclusive Classroom Field Experience (3)
A 30-our supervised field experience. Students complete specific assignments and tasks and will keep a reflection journal throughout the course.
Prerequisite: 1) a criminal background check, 2) satisfactory dispositions evaluations, and 3) admission to the teacher education program. Offered: F: S.

EM - EMERGENCY MANAGEMENT

EM 200 - Introduction to Emergency Management (3)
This course introduces students to the field of Emergency Management with special attention to the principles and practices of emergency management at the local, state, and national levels

EM 224 - Emergency Service Law and Ethics (3)
Prepares the student to specialize in the direct response, operations, and management of critical incidents.

EM 298 - Social Dimensions of Disasters (3)
Focuses on the psychological, sociological, and physiological human responses and behaviors to natural and human made disasters.

EM 300 - Emergency and Disaster Preparedness (3)
Provides insight into preparedness for emergency and catastrophic situations. It builds upon concepts learned in EM-200- Introduction to Emergency Management

EM Weapons of Mass Destruction - 315 (3)
Examines the potential threat of chemical, biological, radiological, and nuclear weapons.

EM 382 - Emergency Planning (3)
This course offers students an overview and analysis of methods, procedures, and strategies of emergency planning.

EM 410 - Response and Recovery (3)
Provides students with the understanding of response and recovery efforts during natural and man-made disasters.

EM 480 - Hazard Analysis and Risk Assessment (3)
A comprehensive study of the essential components needed in developing an effective emergency management system based on hazard analysis and risk assessment.

EM 486 - Seminar in Emergency Management (3)
Integrates material from the core curriculum into an analysis of Emergency Management case studies and a comprehensive essay exam.

EM 490 - History of Global Terrorism (3)
Explores the phenomenon of terrorism from antiquity to the present and the emergence of “modern” terrorism since the French Revolution.

EM 495 - Environmental History, Policy, and Politics (3)
Historical overview of the interactions between people and their environments.

ENGL - ENGLISH COURSE DESCRIPTIONS

ENGL 102 - Composition I (3)
Emphasizes and develops basic and intermediate writing skills, mechanics, grammar, revision in the writing process, and connects writing and critical thinking. Topics may include narration, analysis, argument, and presentations. Students write a minimum of fifteen pages. One essay requires research and documentation. Utilization of the writing lab and assessments are included.
Offered: F; S; SS.

**ENGL 102H - English Composition and Grammar Honors (3)**

Emphasizes advanced academic writing assignments which may include analysis, argumentation, and interpreting literature. Special emphasis on research methods, documentation, and the interrelationships among writing, reading, and critical thinking. A minimum of fifteen pages of written work is required. Utilization of the writing lab and assessments are included.

Offered: F; S; SS.

**ENGL 103 - Composition II (3)**

Emphasizes advanced academic writing assignments which may include analysis, argumentation, and interpreting literature. Special emphasis on research methods, documentation, and the interrelationships among writing, reading, and critical thinking. A minimum of fifteen pages of written work is required. Utilization of the writing lab and assessments are included.

**ENGL 104H - English Composition and Grammar Honors I (3)**

Instruction in oral and written composition, correlated with a study of selected literary models. Special emphasis on experiences, assignments, and enrichment activities designed, by virtue of quality, depth, and scope, to challenge the academically talented student; anticipates a high level of proficiency and achievement in all areas of the language arts.

Prerequisite: Admission to the University Honors Program or by written consent from the Honors Program Director. Offered: F.

**ENGL 105H - English Composition and Vocabulary Honors II (3)**

A continuation of GE 104 in terms of correlation with literary models. Highlighting of a formal introduction to the literary genres, the basic critical approaches, creative experiences, and research skills - including the major systems of documentation - culminating in a major paper.

Prerequisite: GE 104H, or GE 102 by written consent of the Honors Program Director. Offered: S.

**ENGL 200 - Introduction to Literature (3)**

This is a course in the basics of literary genres (poetry, fiction, and drama) and literary analysis and research. Topics include literary devices and common research contexts. A sourced research paper is a part of this course.

Offered: F, S.

**ENGL 201 - World Literature I (3)**

Selected masterpieces of world literature read, discussed, and critiqued for their comments on life and the meaning of existence. Emphasizes genres and literary tempers (Classicism, Romanticism, Realism). Students are required to maintain satisfactory standards of written and spoken expression.

Prerequisite: GE 103 or GE 105H. Offered: F; S; SS.

**ENGL 201H - World Literature I Honors (3)**

**ENGL 202 - World Literature II (3)**

Selected masterpieces of world literature read, discussed, and critiqued for their comments on life and the meaning of existence. Emphasizes genres and literary tempers (Classicism, Romanticism, Realism). Students are required to maintain satisfactory standards of written and spoken expression.

Prerequisite: GE 103 or GE 105H. Offered: F; S; SS.

**ENGL 203H - World Literature Honors Seminar I (3)**

A study of selected masterpieces of world literature with emphasis on the genres, tempers, and major literary movements. Opportunities for enrichment through special literary studies, in-depth research, independent study, creative writing, analytical thinking, and oral reporting.

Prerequisite: GE 104H, GE 105H, or written consent from the Honors Program Director. Offered: F; S.

**ENGL 204H - World Literature Honors Seminar II (3)**

A study of selected masterpieces of world literature with emphasis on the genres, tempers, and major literary movements. Opportunities for enrichment through special literary studies, in-depth research, independent study, creative writing, analytical thinking, and oral reporting.

Prerequisite: GE 104H, GE 105H, or written consent from the Honors Program Director. Offered: F; S.

**ENGL 301 - British Literature I (3)**

This survey course covers works from the Anglo-Saxon period to the beginning of the Romantic period.

Prerequisite: GE 201, GE 202 or GE 203H, GE 204H. Offered: F.

**ENGL 302 - British Literature II (3)**

This survey course covers works from British Romanticism to the present.
Prerequisite: GE 201, GE 202 or GE 203H, GE 204H, ENGL 200. Offered: S.

ENGL 303 - Literary Criticism (3)

An introduction to the schools of literary criticism important to English studies.
Prerequisite: GE 201, GE 202 or GE 203H or GE 204H, ENGL 200. Offered: S.

ENGL 305 - American Literature I (3)

This survey course emphasizes the continuity of historical and cultural elements in the works of major American writers from the Colonial Period through 1865.
Prerequisite: GE 201, GE 202, or GE 203H, GE 204H, ENGL 200. Offered: F.

ENGL 306 - American Literature II (3)

This course covers major American writers from 1865 to the present.
Prerequisite: GE 201, GE 202, or GE 203H, GE 204H, ENGL 200. Offered: S.

ENGL 316 - Introduction to Rhetoric and Composition (3)

The history of classical rhetoric and its influence on the theories and practice of literary analysis and composition studies.
Prerequisite: GE 103, GE 201, GE 202. Offered: F.

ENGL 317 - Advanced Composition (3)

Principles and skills of composition are developed; understandings and competencies are refined. Extensive practice in writing of various types of expository compositions. Class discussion on analyses of student writings and literary models.
Prerequisite: GE 103 or GE 105H, ENGL 200. Offered: F; S; SS.

ENGL 319 - Children's Literature (3)

Survey of world literature for children.
Prerequisite: GE 201, GE 202 or GE 203H, GE 204H, ENGL 200. Offered: F; S; SS.

ENGL 322 - Advanced English Grammar (3)

Study of modern English grammar. Analysis of current English usage and sentence patterns.
Prerequisite: GE 103 or GE 105H, ENGL 200. Offered: S.

ENGL 327 - History of the English Language (3)

The development of English sounds, pronunciations, spellings, etymology, syntax, and usage, from Old English to the present.
Prerequisite: GE 201, GE 202 or GE 203H, GE 204H, ENGL 200. Offered: F.

ENGL 336 - Literature for Adolescents (3)

Reading interests of adolescents.
Prerequisite: GE 201, GE 202 or GE 203H, GE 204H, ENGL 200. Offered: S.

ENGL 399 - Creative Writing (3)

Laboratory course: short story, poetry, the formal essay, and/or drama writing. Student writings are read and criticized informally by members of the class.
Prerequisite: GE 103 or GE 105H. Offered: S.

ENGL 401 - Technical Writing (3)

Fundamentals of English usage as essential criteria and background of modern technical writing. Exercises in the development of major types of technical reports are assigned. For practical application of the rhetoric of technical writing, students prepare several formal reports and complete reports related to their major. Oral presentations of written reports and technical materials are also assigned.
Prerequisite: GE 103 or GE 105H and Junior or Senior status. Offered: S.

ENGL 411 - New Literatures in English (3)

Studies the impact of the aesthetic, colonial, psychological, and discursive conditions of imperialism and colonialism in a postcolonial theoretical and literary perspective.
Prerequisite: GE 102, GE 103, ENGL 200. Offered: alternating S.

ENGL 425 - Shakespeare (3)

Selected Shakespearean plays and poetry in relation to the literary history and culture of the period.
Prerequisite: ENGL 200, ENGL 301, ENGL 302. Offered: F.

ENGL 427 - English Literature of the Renaissance

Poetry, prose, and drama (exclusive of Shakespeare) of representative authors studied against the
background of historical and cultural forces shaping Renaissance thought.

Prerequisite: ENGL 200, ENGL 301, ENGL 302.

**ENGL 428 - English Literature of the 18th Century**

Poetry and prose (exclusive of the novel) of the eighteenth century. Emphasis on the triumph and decline of Neoclassicism and approach of Romanticism, with review of historical and cultural forces affecting both.

Prerequisite: ENGL 200, ENGL 301, ENGL 302.

**ENGL 429 - English Literature of the 19th Century**

Major writings of the nineteenth century (exclusive of novel). Triumph of Romanticism and Victorian Age studied against historical and social influences of the times.

Prerequisite: ENGL 200, ENGL 301, ENGL 302.

**ENGL 430 - The British Novel (3)**

Development of the novel as a genre studied, in form and style, from seventeenth century to the nineteenth century.

Prerequisite: ENGL 200, ENGL 301, ENGL 302.

**ENGL 440 - Bible As Literature (3)**

Introduction to the Bible as literature. Students read the major books of the Hebrew Bible (Old Testament) and the four Gospels, Acts, major Epistles, and Revelation in the New Testament. Rather than focusing on doctrine, the course accents aesthetic values in scripture.

Prerequisite: GE 201, GE 202 or GE 203H, GE 204H. Offered: F.

**ENGL 440 - Bible As Literature (3)**

Introduction to the Bible as literature. Students read the major books of the Hebrew Bible (Old Testament) and the four Gospels, Acts, major Epistles, and Revelation in the New Testament. Rather than focusing on doctrine, the course accents aesthetic values in scripture.

Prerequisite: GE 201, GE 202 or GE 203H, GE 204H. Offered: F.

**ENGL 458 - Black Writers in American Literature I (3)**

A survey course of Black American writers. Emphasizes genres, literary tempers, and major movements influenced by historical, social, literary, and cultural factors. Covers the Colonial American Period to Reconstruction.

Prerequisite: GE 201, GE 202, ENGL 200. Offered: F.

**ENGL 459 - Black Writers in American Literature II (3)**

A continuation of the survey of Black American writers. Emphasizes the Post-Reconstruction to Post-modernist periods.

Prerequisite: GE 201, GE 202, ENGL 200. Offered: S.

**ENGL 465 - Contemporary American Literature (3)**

Historical, social, literary, and cultural study of selected works by contemporary American writers.

Prerequisite: GE 201, GE 202 or GE 203H, GE 204H, ENGL 200. Offered: S.

**ENGL 466 - The American Novel (3)**

The development of the American novel from the nineteenth century to the present.

Prerequisite: ENGL 200, ENGL 305, ENGL 306. Offered: S.

**ENGL 467 - Modern British Literature (3)**

Authors such as Conrad, Lawrence, Woolf, Yeats and Joyce. The literature of Britain, including Anglo-Irish writing, from the close of the Victorian age to the mid-twentieth century.

Prerequisite: ENGL 200, ENGL 301. Offered: Alternating years S.

**ENGL 479 - Special Studies & Research in Language and Literature (1-3)**

Independent or small group study in selected areas of language or literature, culminating in an approved project or research paper. May be repeated up to six semester hours.

Prerequisite: Consent of Department Chair. Offered: F; S; SS.

**ENGL 480 - Junior-Senior Honors Project (3)**

Junior and Senior English majors who are Honors students may, with faculty approval, engage in creative, independent-study projects. Non-English majors who are Honors students may request permission to enroll in this course. Project work is conducted on or off campus; project presentations are made to the department.

Prerequisite: Junior or Senior Honors Program status and Department Chair's written consent. Offered: S.

**ENGL 495 - Internship--English**

An opportunity for students to work one-on-one with designated faculty to conduct research in the field of English Studies.

Prerequisite: Completion of five upper level courses. Offered: F, S, SS.
ENGL 498 - Research Methods in English--Capstone (3)
Examines practical and theoretical issues in finding and using sources for scholarly research in English. This course is compulsory for English majors. An academic paper of publishable quality and length (15 + pages) is required for assessment.
Prerequisite: Graduating Senior. Offered: S.

ENGL 499 - Capstone in Biblical Literature
Provides students with the opportunity to integrate the knowledge gained from the core and specialty areas of the Religious Studies minor. Successful completion of the Capstone in Biblical Literature involves the written presentation of a research project that demonstrates mastery of some aspect of Biblical literature.
Prerequisite: ENGL 441, ENGL 442.

ENGT - ENGINEERING TECHNOLOGY COURSE DESCRIPTIONS
See Course Listings under Technology.

ENGT 101 - Introduction to Engineering Technology (3)
Topics include problem solving techniques, basic algebra and trigonometry functions, number notations, charts and graphs, report writing, concepts of energy, work and power, basic electricity, vectors and scalars, unit conversion, measurement and guaging, engineering materials, and computer networking. Codes of ethics and diversity in field of Engineering Technology will also be discussed.
Offered: F.

ENGT 101L - Introduction to Engineering Technology Lab (1)
This course is composed of laboratory experiments to reinforce the concepts covered in ENGT 100 such as vectors & scalar, physical measurement, data representation, basic electricity, energy & power, and material science. Students get a chance to work with electronics lab equipment such as power supplies, multi-meters, signal generators, resistors & circuits boards, and mechanical lab equipment and measurement equipment such material testing machines, calipers, and indicators.
Offered: S.

ENGT 105 - Computer-Aided Drafting (CAD) I (3)
(Formally TECH 105) Introduction to principles of drawing, including sketching, graphing, orthographic projections, section views, and pictorial views. Also introduces principles of Computer Aided Drafting (CAD) and using CAD to produce professional quality drawings.
Offered: S.

ENGT 200 - Introduction to Renewable Energy Technologies (3)
This is an interdisciplinary course suitable for both science and non-science majors who would like to learn about energy, renewable energy resources, and potential solutions to energy crisis. Topics include, in part, fossil fuel and nuclear energy, combined heat and power and renewable energy resources such as wind, hydro, tidal, photovoltaic solar, solar thermal, geothermal, fuel cell, and bioenergy.
Prerequisite: None. Offered: F.

ENGT 205 - Circuit Analysis (3)
Introduces fundamentals of direct and alternating current circuits. Topics include principles of DC and AC electrical systems, passive electrical components, circuit fundamentals, circuit theorems and conversions, and complex analysis techniques, magnetism, transformers, RC, RL, LC, and RLC series/parallel circuits, and passive filter design techniques. Computer-based circuit modeling and circuit drawing are covered.
Prerequisite: ENGT 100 or ENGT 100L. Offered: F.

ENGT 207L - Circuit Analysis Lab (1)
This lab covers laboratory experiences in DC resistor circuitry; Ohm's law; analyzing AC signals, including frequency, period, amplitude, and rms value; inductors, capacitors and DC transients; measuring phase shift in an AC circuit due to an inductor or capacitor; and basics of laboratory report writing.
Corequisite: ENGT 205. Offered: F.

ENGT 210L - Material and Process Lab (1)
This course is composed of laboratory experiments to reinforce the concepts covered in ENGT 210 such as crystal structures, physical properties, mechanical properties, material fabrications (ceramics & composites) and basics of laboratory writing.
Corequisite: ENGT 210. Offered: S.
ENGT 211 - Materials and Processes (3)
This course provides an introduction of basic engineering materials (metals, polymers, ceramics, and composites) and their manufacturing processes. Topics include classifications, structure, properties, and treatment of metals, inspection and testing techniques for engineering materials. Manufacturing topics include casting, cold and hot metal forming, machining and joining processes. Related laboratory activities include experiments with technical reports.
Offered: S.

ENGT 215 - PC Hardware & Software Support Technology (3)
(formerly PC Support Technology)
Covers basic personal computer system support including installation, configuration, and preventive maintenance, and troubleshooting and upgrading of hardware and software components. Topics include safety practices, configuration and documentation, use of diagnostic and recovery software, peripheral installation and testing, operating system and application software installation and support. Students taking this course are expected to know how to operate a PC computer.
Prerequisite: ENGT 100 or CSC 115. Offered: S.

ENGT 215L - PC Hardware & Software and Operating System Lab (1)
Laboratory experiments reinforce the concepts covered in ENGT 215 and develop hands-on skills in the troubleshooting of hardware and operating system installations.
Prerequisite: ENGL 215. Offered: S.

ENGT 220 - Instrumentation and Measurement System (3)
Covers the basics of graphical programming and adopts LabVIEW as design software to introduce basics of programming for data acquisition. Students implement data acquisition/measurement systems using DAQ devices and Virtual instruments.
Prerequisite: ENGT 100. Offered: F.

ENGT 230 - Material Science (3)
Emphasizes the relationship between structure and properties of industrial materials and their control through composition, mechanical processing, and thermal treatment.
Offered: F.

ENGT 235L - Analog & Digital Circuits I Lab (1)
Laboratory experiments reinforce the concepts covered in ENGT 235 and develop skills in the experimental set-up of basic analog and digital systems; and basics of laboratory report writing.
Corequisite: ENGT 235. Offered: S.

ENGT 236 - Analog and Digital Circuits I (3)
This course covers basics of analog and digital devices and circuits. Topics include diodes, rectifiers, BJTs, FETs, thyristors (SCR, TRIAC, DIAC), digital gates, Boolean algebra and digital logic circuits such as counters, oscillators, and memory systems.
Prerequisite: ENGT 205

ENGT 240 - Applied Statics (3)
Scalars and vectors, parallelogram law, equilibrium, trusses, friction theory, center of gravity and moment of inertia, and Newton's law of motion applied to linear and circular motion.
Prerequisite: PHYS 191. Offered: S.

ENGT 245 - Introduction to LAN & WAN Technology (3)
An overview of network communications terminology, protocols, and technologies. Students will construct and assess simple LANs and WANs networks and associated networking devices. Topics include TCP/IP and OSI models, TCP/IP fundamentals, network topologies, network classification, networking protocols, propagation media, data encoding and transmission, networking devices, routing techniques, subnetting, ATM and VoIP, wireless LAN (WLAN), virtual LAN (VLAN), and basic network security. Theory covered will be complemented by labs using network simulation tools.
ENGT 250 - Introduction to Wind and Hydro Power Systems (3)
This course introduces concepts, designs, tools, techniques, and material requirements for systems that convert wind and water energy into electricity and other usable energy. Topics include, in part, wind science, wind power, hydropower, site assessment, estimating output, economics, wind turbine technology, and systems types and installation.
Prerequisite: None. Offered: S.

ENGT 256L - Basic Networking Lab (2)
Laboratory experiments reinforce the concepts covered in ENGT 225.
Prerequisite: ENGT 215. Offered: F.

ENGT 300 - Solar Photovoltaic Systems (3)
Photovoltaic system is a method of generating electricity directly from sunlight using semiconductor devices called solar cells. The goal of this course is that students understand the operation of photovoltaic devices, systems and applications. Topics include, in part, introduction to photovoltaic systems, semiconductor basics, solar radiation, site surveys and preplanning, system components and configurations, system sizing, mechanical integration, utility interconnection, economic analysis, and PV system safety.
Prerequisite: None. Offered: S.

ENGT 305 - Introduction to Autonomous Mobile Robotics (3)
This course introduces students to the field of mobile robotics. Topics include robotic sensors, collision detection and avoidance, locomotion, mobile robot kinematics, mobile robot architecture, manipulation, basics of machine learning, path planning, and localization. Course will include lab experiments using educational mobile robotic platform.
Prerequisite: ENGT 220.

ENGT 310 - Applied Mechanics (3)
This course is divided into two parts. The first part includes vector mechanics of forces and moments, free-body diagrams, equilibrium of particles and rigid bodies, forces in members and structures, distributed forces, friction, centroids and center of gravity and moment of inertia. The second part covers topics on rectilinear motion, angular motion, plane motion, kinetics, work, energy, power, impulse and momentum.
Prerequisite: PHYS 191 or PHYS 181 or MATH 165. Offered: F.

ENGT 310L - Applied Mechanics Lab (1)
This course is composed of laboratory experiments to reinforce the concepts covered in ENGT 310 through hands-on activities and application of simulation software.
Corequisite: ENGT 310. Offered: S.

ENGT 315 - Network Operating Systems & Server Technology (3)
(formerly Operating Systems for Technology) Covers operating system concepts and procedures for installing and supporting computer systems. Topics include modern Windows OS, disk storage, and UNIX user commands, file system and management, Network Operating Systems, basic scripting, system support and security issues. (2hrs lecture, 2hrs lab)
Prerequisite: ENGT 100 or CSC 115. Offered: F.

ENGT 320 - Applied Fluid Mechanics (3)
Principles of static and dynamic behavior of incompressible fluids, buoyancy and stability of body fluids, momentum and energy consideration in fluid flow, and as introduction to compressible gas dynamics.
Prerequisite: ENGT 310. Offered: S.

ENGT 335 - Analog and Digital Circuits II (3)
This course covers advanced topics in analog and digital circuits. Topics include operational amplifiers, operational amplifier-based circuits such as oscillators, instrumentation amplifiers, A/D and D/A converters, PLDs, FPGAs, finite state machines, and design of combinational logic and sequential logic designs using digital ICs. Prerequisite: ENGT 235
Prerequisite: ENGT 235. Offered: F.

ENGT 335L - Analog & Digital Circuits II Lab (1)
Laboratory experiments reinforce the concepts covered in ENGT 335 and develop skills in the experimental set-up of advanced analog and digital systems; and basics of laboratory report writing.
Corequisite: ENGT 335. Offered: F.
ENGT 340 - Analog & Digital Communications (3)
(formerly Network Communication I) Covers topics from modern communication system. Topics include antenna theory, source coding, signals and systems, carriers and symbol synchronization algorithms, channel capacity and coding, cyclic redundancy checks, adaptive equalization, multichannel and multicarrier systems, and modulation schemes: ASK, PSK, FSK, and GMSK. Optical fiber communications and dense wavelength division multiplexing (DWDM). (2hrs lecture, 2hrs lab)
Prerequisite: ENGT 235. Offered: S.
ENGT 345L - Routing and Switching Protocols Lab (2)
Laboratory experiments reinforce the concepts covered in ENGT 345 and develop skills in the experimental set-up the router and switches for networking a system. We will implement advanced routing protocols and switching configuration using Windows XP laptops/tablet-PCs as hosts and CISCO Catalyst 2950 switches and 2600 routers; and basics of laboratory report writing.
Corequisite: ENGT 345. Offered: S.
ENGT 346 - Enterprise Routing and Switching Protocols (3)
(formerly Network Communications II) Covers TCP/IP Local Area Network (LAN) and basic Wide Area Network (WAN) connections using CISCO Discovery and Exploration as a guide and using Cisco routers and switches in laboratory. Topics include basic host and router configuration, static routing, TCP/IP configuration, cabling, basic LAN switching, wireless LAN, Distance Vector Protocol, RIPv1, RIPv2, CISCO IOS, WAN connections, and IP troubleshooting. Labs cover using Windows XP laptops/tablet-PCs as hosts and CISCO Catalyst 2950 switches and 2600 routers.
Prerequisite: ENGT 245. Offered: S.
ENGT 350 - Programmable Logic Controllers (PLC) (3)
Covers control of systems and industrial processes. Topics include I/O modules, binary concepts, programming languages, addressing, control relays, latching relays, sensors, programming timers, counters and troubleshooting, control instructions, and data compare instructions. (2 hrs lecture, 2 hrs lab)
Corequisite: ENGT 335. Offered: S.
ENGT 360L - Control System Lab (1)
Laboratory experiments reinforce the concepts covered in ENGT 260 and develop skills in the open and closed loop control systems; and basics of laboratory report writing.
Corequisite: ENGT 360. Offered: S.
ENGT 361 - Control Systems (3)
Covers control systems terminology, feed D.A.Back control systems, PID, PD, PI and relay controllers, lag-lead compensation, data-acquisition systems, stability, thermal, mechanical and optical sensors.
Prerequisite: ENGT 235 or MATH 265. Offered: S.
ENGT 365 - Computer Design and Implementation (3)
Studies the internal design of computer systems including data representation, registers, addressing techniques, processor organization. Topics include ALU data path design, arithmetic circuits, memory hierarchy, input/output device interfacing, and programming models. Topics also include multiplication and division algorithms, hardware description language (HDL) modeling, and RISC and CISC architectures. (3 hrs lecture, 2 hrs lab)
Prerequisite: ENGT 335. Offered: S.
ENGT 370 - Computer Aided Design and Manufacturing (3)
This course introduces students to the use of computers in several extended areas of product design and manufacturing. These areas include CAD, Computer Numerical Control (CNC) operations and programming, Computer-Aided Manufacturing (CAM) software, and the use of simulation software for virtual prototyping for Design/Manufacturing/Validation.
Prerequisite: ENGT 105. Offered: F.
ENGT 386 - Strength of Materials (3)
Students will have the opportunity to learn how to apply the fundamentals of strength of materials as relate to concepts of stress, strain, shear, bending, torsion, and deflection of deformable bodies such as bars, shafts, beams, columns, and pressure vessels. Students are required to demonstrate proficiency in calculating stresses and strains in bars, shafts, and shafts when subjected to axial forces, torsional/bending moments, thermally induced forces and combinations of these loadings; analyzing external and internal forces and moments; calculating...
deflections of beams; calculating angles of twist of shafts; and design of bars, shafts, and beams.
Prerequisite: ENGT 310 Applied Mechanics.
Offered: S.

**ENGT 400 - Advanced Mobile Robotics: UGV (3)**
Introduces the advanced mobile robotics system. Students learn fundamental of sensor fusion and estimation techniques, occupancy grid mapping, optimal control and motion planning. Course includes lab experiments leading to case studies in autonomous robotic vehicle system.
Prerequisite: CSC 300.

**ENGT 405 - Automation and Robotics (4)**
Covers theory and practice of systems used in an automated manufacturing environment to perform industrial functions. Topics include vision systems, application of control programming, CNC, and robotics programming. (3 hrs lecture, 2 hrs lab)
Prerequisite: ENGT 350 and CSC 115. Offered: F.

**ENGT 410 - Mechatronics System Design**
Introduces the field of mechatronics, synergy between electronics and mechanical systems. Topics include modeling and simulation of real-time embedded system, prototyping and programming of mechatronics systems, design of computer control system with sensor and actuator interfaces, and hardware-in-loop testing. Includes lab experiments using graphical programming, reconfigurable hardware and real-time hardware targets.
Prerequisite: ENGT 360.

**ENGT 415 - Machine Design (3)**
Covers topics related to stress analysis, the strength of mechanical elements, design of machine elements such as gears, belt drives, chain drives, screws, fasteners, connectors, and springs, welded, brazed, and bonded joints, bearings, shafts, cams and flexible mechanical elements, and statistical considerations in design.
Prerequisite: ENGT 385. Offered: F.

**ENGT 420 - Thermal Systems (3)**
This course provides a study of the fundamental laws of thermodynamics and heat transfer. Topics include thermodynamic system properties, properties of pure substances, ideal gases, open and closed systems, 1st and 2nd law of thermodynamics and their application to various ideal and real life thermal systems, and analysis of heat exchangers. Heat Transfer topics include analysis of 1-D heat transfer in solids and liquids by various heat transfer mechanisms (conduction, convection, and radiation).
Prerequisite: PHYS 191 Univ. Physics I. Offered: S.

**ENGT 425 - Thermal-Fluid Lab (1)**
This course is composed of a number of laboratory experiments that are designed to reinforce the principles of thermodynamics, heat transfer, and fluid power (concepts covered in ENGT 420 and ENGT 320) and develop skills in experimental set-up, data collection and analysis, interpretation of results, and writing reports. (2 hrs lab).
Corequisite: ENGT 420 Thermal Systems. Offered: S.

**ENGT 430 - Heating, Ventilation and Air Conditioning (HVAC) (3)**
Principles of heating, ventilation, and air conditioning and their applications to environmental comforting. Determination of building heating and cooling loads, heat pumps, humidity control, cooling ventilation, integrated systems, controls and instrumentation.
Prerequisite: ENGT 420. Offered: F.

**ENGT 440 - Mobile and Wireless Network (3)**
Covers the state of the art in mobile and wireless network systems that are currently being deployed. Topics include broadband wireless IEEE 802.16, wireless IEEE 802.11 wireless LAN, mobile ad hoc network, mobile IP, Bluetooth, and cellular systems fundamentals. Topics also include medium access control (MAC), quality of service (QOS), scheduling, location discovery, and routing and topology control in ad hoc networks.
Prerequisite: ENGT 340. Offered: S.

**ENGT 445 - Enterprise Ethernet Switching Technology (3)**
formerly Network Communications III Covers advanced Routing and Switching for LAN-WAN networking using CISCO Discovery and Exploration as guide and using CISCO routers and switches in laboratory. Topics include Variable Length subnetting (VLSM), Classless routing, Link-state routing, OSPF, EIGRP, VLAN's, VLAN Trunking. We will implement advanced routing protocols and switching configuration using Windows XP
laptops/tablet-PCs as hosts and CISCO Catalyst 2950 switches and 2600 routers. (3 hrs lecture, 2 hrs lab)
Prerequisite: ENGT 345. Offered: F.

ENGT 456 - Capstone Senior Project I (2)
This is first part of senior project. Covers topics in engineering technology to prepare students for the capstone senior project. The student performs the initial research needed for the senior project course and prepares the written proposal for senior project as well as works on project.
Prerequisite: Senior standing and permission of academic advisor. Offered: F.

ENGT 461 - Engineering Software Applications (3)
Covers software applications and theory in engineering analysis and Reverse Engineering and develops the fundamental concepts. Topics include cloud points and computer model, stress-strain relations, von Misses stress, mesh modeling, stress analysis for frames, beams, holes, pressure vessels, bolted jolts, and contract analysis.
Prerequisite: ENGT 415. or ENGT 385. Offered: S.

ENGT 466 - Microprocessor and Microcontroller (3)
Covers microprocessor /microcontroller hardware and software, and the theoretical and practical aspects of interface design. Architectural features of microcontrollers such as PIC or 8051 are examined. Peripheral devices for interfacing design are also covered. The laboratory portion provides practical hands-on experience with the PC trainer kits, PicBasic Pro programming, interfacing and application of the microprocessor/microcomputer to real world systems.
Prerequisite: ENGT 365. Offered: F.

ENGT 466L - Microprocessor & Microcontroller Lab (2)
Laboratory experiments reinforce the concepts covered in ENGT 465.
Corequisite: ENGT 465. Offered: F.

ENGT 471 - Enterprise Network Security & Administration (3)
formerly Network Administration and Security
Covers network administration and security using advanced routers and switches. Topics include advanced router and switch management, Firewall technologies, access control lists, encryption algorithms, authentication, Intrusion Detection and Prevention, VPN access, RADIUS and SYSLOG servers, WIRESHARK packet analyzer, and troubleshooting IP networks. Security labs using CISCO 2600/2811 routers and CISCO 2950/2960 switches will be covered. (3 hrs lecture, 2 hrs lab)
Prerequisite: ENGT 445. Offered: S.

ENGT 475 - Aerial Robotics/UAV: Sensors & Controls
Develops skills in configuring and utilizing network forensics tools to capture suspicious data and recognize traffic patterns associated with suspicious network behavior. Topics include principles and applications of network forensics analysis, configuring various forensics tools for network forensics analysis, reconstructing suspicious activities (e-mails, file transfers, or web browsing) for detailed analysis and evidentiary purposes, security threat recognition, encryption technologies, and defensive configurations of network infrastructure devices.
Prerequisite: ENGT 360.

ENGT 488 - Internship (3)
This course provides employment experiences in engineering field.
Prerequisite: Department Chair or Program Coordinator's written consent. Offered: F; S; SS.

ENGT 490 - Project Management (3)
Focuses on the fundamental aspects of managing complex projects, the central role of project management in organizations, the project life cycle, and techniques for project planning, scheduling, and controlling using situations from technical disciplines.
Prerequisite: Senior standing. Offered: F; S.

ENGT 495 - Research in Engineering Technology (3)
An upper level course involving an independent or group research and design project. Introduces techniques and procedures of technical research. The student learns by assisting the instructor with a research project in the laboratory and industry. All
students must complete a project and demonstrate their teamwork, communication, and problem-solving skills in the real work project. Submission of written report and final oral presentation are required. Prerequisite: Senior standing and written consent of the chair or engineering technology coordinator. Offered: F; S; SS.

ENGT 498 - Capstone Senior Project II (2)
This is second part of senior project. Individual students or teams propose and design a device, system, or process using senior level tools. Topic and implementation project to be jointly agreed upon by student and faculty member and should be related to the student's discipline. Includes planning, designing, testing, working on a team, writing a report, demonstrating, and presenting the project. Prerequisite: ENGT 455. Offered: S.

ENSC - ENVIRONMENTAL SCIENCE COURSE DESCRIPTIONS

ENSC 101 - General Environmental Science (3)
Critical examination of population, resources, and environment as they relate to the well-being of man. Comprehensive analysis and evaluation of environmental issues in terms of present and future generations of the world. Lecture: three hours. Prerequisite: None. Offered: F; S; SS.

ENSC 101L - General Environmental Science Laboratory (1)
Analysis and experiments geared toward understanding the underlying principles involved in determining the health of the environment. Includes the analysis for common pollutants in water, air, and soil. Laboratory: (2) hours. Prerequisite: Suggested taken in conjunction with ENSC 101. Offered: F; S; SS.

ENSC 440 - Global Environmental Issues Seminar (3)
Covers significant global environmental issues using case studies, debating and video conference format. Students assume "roles" of parties that have a stake in the outcome of issues that generally have no clear-cut solution and defend the position. The position is also defended through posting of position papers on electronic forums. Lecture: meets three hours; and video conference scheduled outside the formal meeting period as needed. Prerequisite: GE 102, GE 103, and instructor written consent. Offered: S.

FL - FOREIGN LANGUAGES COURSE DESCRIPTIONS

FL 479 - Special Studies in Non-English Languages and Literature (1-3)
Topics may include linguistics, languages and/or textural analysis in original languages, translation/interpretation, and language development. May be repeated up to 6 semester hours. Prerequisite: Written Consent of the Department Chair. Offered: F; S; SS.

FLT - FLIGHT COURSE DESCRIPTIONS

See Course Listings under Aviation Science (p. 215). (*Flight Lab fees are associated with all flight Lab courses*)

FLT 110 - Private Pilot Ground (3)
Provides the student with the knowledge necessary to pass the FAA Private Pilot Knowledge Test and to be a certified Private Pilot. Topics include aviation weather, airplane performance, cross-country planning and navigation, flight computers, aviation physiology, aeronautical decision-making, and Federal Air Regulations.

FLT 116L - Private Pilot Flight Lab (3)
Provides the student with the practical in-flight instruction and minimum flight time to complete all maneuvers and operations required by the Federal Aviation Regulations to earn the FAA Private Pilot Certificate. The course includes all dual and solo flights, evaluation flights, and preparations for the oral and flight examinations administered by the FAA or a FAA Designated Examiner. Prerequisite: FLT 110 and Permission from the Program Director or his assignee.

FLT 122 - Flight Safety Seminar (1)
Students within the Flight Education concentration are introduced to federal and university policies and procedures as they pertain to the flight program and student pilots.
Corequisite: FLT 110.

FLT 225L - Cross Country Flight Lab (2)
Prepares students to pass the FAA Instrument Knowledge Test and to be a certified Instrument Pilot. Topics include FARs and AIM, ATC system and procedures, IFR navigation and approaches, enroute and instrument approach charts, weather, safe and efficient aircraft operations in adverse weather conditions, and CRM.
Prerequisite: FLT 110 and FLT 115L.

FLT 320 - Instrument Ground (3)
Prepares students to pass the FAA Instrument Knowledge Test and to be a certified Instrument Pilot. Topics include FARs and AIM, ATC system and procedures, IFR navigation and approaches, enroute and instrument approach charts, weather, safe and efficient aircraft operations in adverse weather conditions, and CRM.
Prerequisite: FLT 110.

FLT 326L - Instrument Flight Lab (3)
Provides the student with the practical in-flight instruction and minimum flight time to complete all maneuvers and operations required to earn the FAA Instrument Rating. The course includes all dual and solo flights, evaluation flights, and preparations for the oral and flight examinations administered by the FAA or an FAA Designated Examiner.
Prerequisite: FLT 110, FLT 115L, pre- or co-requisites FLT 330; and consent from the Program Director or his assignee.

FLT 330 - Commercial Ground (3)
Provides the student with the knowledge necessary to pass the FAA Commercial Pilot Knowledge Test and to be a certified Commercial Pilot. Topics include FARs and AIM, aerodynamics and the principles of flight, meteorology and critical weather situations, weight and balance, performance charts, aircraft systems, National Airspace System, aeronautical decision making, safe and efficient aircraft operations, and aircraft limitations.
Prerequisite: FLT 110.

FLT 336L - Commercial Flight Lab (3)
Provides the student with the practical in-flight instruction and the minimum flight time to complete all maneuvers and operations required by the federal Aviation regulations to earn the FAA Commercial Pilot Certificate. The course includes all dual and solo flights, evaluation flights, and preparations for the oral and flight examinations administered by the FAA or a FAA Designated Examiner.
Prerequisite: FLT 110, FLT 115L; pre- or co-requisites FLT 330; and consent from the Program Director or his assignee.

FLT 340 - Multi-Engine Ground (2)
The students will study the design, construction, and flight characteristics of multi-engine aircraft. The course provides the student with the ground instruction to safely operate multi-engine aircraft complete the oral examination for the FAA Airplane Multi-engine Class Rating and be a certified Multi-engine Pilot.
Prerequisite: Meet minimum FAA Requirements and written consent from the Program Director.

FLT 345L - Multi-Engine Flight Lab (2)
Through ground and flight sessions, the student will develop the knowledge and skills necessary to safely operate multi-engine aircraft and to earn the FAA Airplane Multi-engine Class Rating. The course includes all dual and solo flights, evaluation flights, and preparations for the oral and flight examinations administered by the FAA or an FAA Designated Examiner.
Prerequisite: FLT 110, FLT 115L, FLT 225L, FLT 330, FLT 335 Land written consent from the Program Director or his assignee.

FLT 420 - Flight Instructor Ground (2)
Develops knowledge required to successfully complete the FAA Knowledge Test for the Airplane Flight Instructor certification. Topics include the learning process, effective teaching, student evaluation and testing, course development, lesson planning, aeronautical knowledge areas for recreational, private, and commercial pilots.
Prerequisite: Meet minimum FAA Requirements and written consent from the Program Director or his assignee.

FLT 425L - Flight Instructor Flight Lab (2)
Provides the student with the practical in-flight instruction and flight experience to complete all maneuvers and operations required to earn the FAA
Certified Flight Instructor Airplane Certificate. The course includes all dual flights and evaluation flights. Prerequisite: Meet minimum FAA Requirements and written consent from the Program Director or his assignee.

FLT 430 - Advanced Flight Instructor Ground (2)
Provides students desiring to be flight instructors with the knowledge to train advanced flight students. For the flight instructor interested in teaching instrument and multi-engine students, this course goes into greater detail about instructing in the classroom, conducting effective briefing and debriefing sessions, being effective in flight simulators and FTDs, recognizing learning styles, identifying and correcting subtle error patterns in students, and better understanding the role of the flight instructor. Prerequisite: FLT 420 & FLT 425, flight instructing experience, and written consent from the Program Director or his assignee.

FLT 435L - Instrument Flight Instructor Flight Lab (2)
Provides the student with the ground instruction, practical in-flight instruction, and flight experience to complete all maneuvers and operations required to earn the FAA Certified Flight Instructor Instrument Rating. The course includes all dual flights and evaluation flights. Prerequisite: Meet minimum FAA Requirements and written consent from the Program Director or his assignee.

FLT 445L - Multi-Engine Flight Instructor Lab (2)
Provides the student with the ground instruction, practical in-flight instruction, and in-flight experience to complete all maneuvers and operations required to earn the FAA Certified Flight Instructor Multi-engine Rating. The course includes all ground instruction, dual flights and evaluation flights. Prerequisite: Meet minimum FAA Requirements and written consent from the Program Director or his assignee.

FREN - FRENCH COURSE DESCRIPTIONS

FREN 101 - Elementary French (3)
Basic grammar, punctuation, pronunciation, and reading for vocabulary building, cultural aspects, and conversation. Laboratory practice required of all students. Offered: F; S; SS.

FREN 102 - Elementary French (3)
Basic grammar, punctuation, pronunciation, and reading for vocabulary building, cultural aspects, and conversation. Laboratory practice required of all students. Offered: F; S; SS.

FREN 201 - Intermediate French (3)
Review of grammatical principles; development of reading, writing, and conversational skills. Reading and interpretation of selected works; introduction to aspects of French culture. Laboratory practice required of all students. Prerequisite: FREN 101, FREN 102. Offered: F; S.

FREN 202 - Intermediate French (3)
Review of grammatical principles; development of reading, writing, and conversational skills. Reading and interpretation of selected works; introduction to aspects of French culture. Laboratory practice required of all students. Prerequisite: FREN 101, FREN 102. Offered: F; S.

FREN 301 - Survey of French Literature (3)
Great works of literature studied as representatives of French civilization and culture. Prerequisite: FREN 201, FREN 202 or advanced placement. Offered: F; S.

FREN 302 - Survey of French Literature (3)
Great works of literature studied as representatives of French civilization and culture. Prerequisite: FREN 201, FREN 202 or advanced placement. Offered: F; S.

GE - GENERAL EDUCATION COURSE DESCRIPTIONS

GE 103H - English Composition and Vocabulary Honors (3)
Reviews the fundamentals of algebra, including operations on real numbers, first-degree equations, and inequalities with applications, polynomials and exponents, rational expressions, rational exponents
and radicals. Three contact hours per week. Mathematics/independent lab sessions will be scheduled by the specialists. Students are assigned based on the Mathematics Placement Test. A minimum grade of "C" is required. Course credits cannot be used to fulfill graduation requirements.

Offered: F; S; SS.

GE 122T - Freshman Seminar (1)
Assists students with adjustment to the University and provides them with both knowledge of and practice in the skills necessary for successful academic performance. Provides applications of skill development in note-taking, test-taking, textbook reading, study, time management, concentration, and listening. This course is required of all students and meets one 50-minute period per week.

Offered: F; S; SS.

GE 130H - Art Appreciation Honors (2)
Designed especially for Honors Program students, offering opportunities for independent study, research, analytical thinking, oral reporting, and other special activities emphasizing the purpose and historical roles of the visual arts in Western and Non-Western cultures.

Offered: F.

GE 204 - World Literature II Honors (3)

GEOG - GEOGRAPHY COURSE DESCRIPTIONS

GEOG 142 - Introduction to Geography (3)
Study of basic terms and concepts in geography, study of maps with spatial variation. Study of the physical world and the forces that forged it. Patterns of weather and climate and their impact on vegetation, soils, and the distribution of the earth's resources. Review of human geography including population, culture, urbanization, and industrialization.

Prerequisite: No Prerequisites. Offered: F: S: SS.

GEOG 201 - World Geography (3)
Surveys the social, economic, demographic, cultural, and physical elements of major geographic regions in the world. Serves students in different disciplines with various interests. Completion of this course gives the student an appreciation for the lifestyles of people in various regions of the world and an added awareness of the physical environments where these people live and work.

Prerequisite: No Prerequisites. Offered: F.

GEOG 204 - Geography of the US and Canada (3)
This course surveys the social, economic, demographic, cultural, and physical aspects of major cities in the world. It focuses specifically on cities and urban development in North America, but it also considered cities in other regions of the developed world as well as cities in regions that are less developed. Completion of this course should give the student an appreciation for how cities originated and grow, their structure, and mobility between and among them. In addition, the course should benefit the student in terms of greater awareness of lifestyles and activities within urban environments.

Prerequisite: No Prerequisites.

GEOG 221 - Cartographic Principles (3)
Planning and construction of thematic maps for use in communicating the spatial relations of geographic and geologic information. Includes topographic, geographic, and thematic maps, and various grid location systems, computer printouts of data collections, and aerial photos. Elements of map design and introduction to computer mapping (GIS) are also covered. Lecture, two hours; laboratory, two hours.

Prerequisite: GE 142. Offered: S.

GEOG 305 - Economic Geography (3)
A regional and systematic analysis of the principal economic production systems in the world, including: 1) present regional and global patterns of economic activities; and 2) explanations for the location of these activities.

Prerequisite: GE 142 or written consent from the Instructor or Department Chair. Offered: F.

GEOG 308 - Weather and Climate (3)
Elements and principles of meteorology involved in understanding daily weather patterns with regional study of the world's climate controls and the relation between these factors.

Prerequisite: GE 142. Offered: S.
GEOG 406 - Geography of the U.S. and Canada (3)
The historical creation and expansion of North America from African, Asian, and European influences. Explores the contemporary geography of the continent, which includes cultural regions, economic characteristics, and political variations. Also includes the study of the continent's physical and human geography and the interactions between these two elements of the discipline.
Prerequisite: GE 142 and 9 hours of Geography courses.

GEOG 409 - Urban Geography (3)
The study of human interaction in urban environments including the ways in which people perceive, define, and behave in world cities and metropolitan areas. Cultural and social differences among ethnic and racial groups are discussed. Also reviews the city as a physical phenomenon, its historical growth patterns, and the consequences of this growth in various regions of the world.
Prerequisite: GE 142 and 9 hours of Geography courses.

GEOL - GEOLOGY COURSE DESCRIPTIONS

GEOL 110 - General Oceanography (3)
Study of physical and chemical properties of the sea's water, tides and their causes, current and wave action, ocean environments, and configuration of the ocean floor. Lecture: three hours and one field trip to observe wave and tidal action.
Offered: S; SS.

GEOL 135 - The Age Of Dinosaurs (3)
A survey of the major dinosaur groups, including origins, diversification, physiology, classification, life habits, and extinction theories. Also covered is a discussion of animals contemporary with the dinosaurs and the environment in which they all lived. Lecture: three hours.
Offered: S.

GEOL 140 - Introduction to Earth Science (4)
An introductory course for non-science majors that surveys basic concepts in geology, oceanography, meteorology, and astronomy including laboratory exercises.
Offered: S.

GEOL 142 - Physical Geology (3)
Introduction to physical aspects of the Earth and to factors responsible for shaping the earth, including internal and external forces. Lecture, three hours.
Offered: F.

GEOL 142L - Physical Geology Lab (1)
Laboratory includes techniques of identifying minerals and rocks, map interpretation, and field trips. Laboratory, two hours.
Offered: F.

GEOL 143 - Historical Geology (4)
Study of Earth history through interpretation of sedimentary, metamorphic, and igneous rock sequences, tectonics, and fossils. Lecture, three hours; laboratory, two hours.
Prerequisite: GE 158 or consent of Chairperson.
Offered: S.

GEOL 158 - Principles of Geological Science (3)
Study of the Earth and the composition of the earth's crust. Included are internal and external processes that account for geomorphological features and their characteristics, mountain-building forces, mineral and energy resources, and the earth's internal composition. Lecture, three hours.
Prerequisite: No Prerequisites. Offered: F; S; SS.

GEOL 158L - Principles of Geological Science Lab (1)
Hands-on study of minerals; sedimentary, igneous, and metamorphic rocks; and understanding of geomorphological features using topographic maps and cross-sections. Laboratory, two hours.
Prerequisite: Prerequisite or Co-requisite: GE 158.
Offered: F; S; SS.

GEOL 331 - Aerial Photo Interpretation
Methods and techniques used in gathering geological, environmental, physical, and political information from aerial photographs. Lecture, three hours.
Prerequisite: GE 158 or consent of Chairperson.
GEOL 332 - Geomorphology (3)
Reviews the fundamental geomorphic principles that govern the development and modification of landforms. Lecture and lab, three hours.
Prerequisite: GE 158 or consent of Chairperson. Offered: S.

GEOL 341 - Mineralogy (3)
Physical and chemical characteristics and crystal chemistry of minerals and their use and occurrence. Lecture, two hours; laboratory, two hours.
Prerequisite: GE 158. Offered: F.

GEOL 342 - Optical Mineralogy (3)
Identification of minerals with the polarizing microscope using optical properties of minerals including index of refraction and birefringence, uniaxial, and biaxial characters. Lecture, two hours; laboratory, two hours.
Prerequisite: GEOL 341. Offered: S.

GEOL 343 - Sedimentology (3)
Principles of sedimentology and sedimentation; analysis of depositional environments; mineralogy, textures, structures, and classification of sediments and sedimentary rocks. Lecture, two hours; laboratory, two hours.
Prerequisite: GE 158. Offered: F.

GEOL 344 - Stratigraphy (3)
Principles and methods of stratigraphy, including lithologic, seismic, and biologic methods. Interpretation of earth history through the study of layered sedimentary rocks. Graphic presentation of stratigraphic information. Lecture, two hours; laboratory, two hours.
Prerequisite: GE 158; GEOL 343. Offered: S.

GEOL 345 - Paleontology (3)
Principles of paleontology and evolution, morphology, and classification of major groups of invertebrate fossils, including their use in correlation and identification of paleoclimates and paleogeography.
Prerequisite: GEOL 143 or MAS 421 or BIOL 101 or GE 155. Offered: F.

GEOL 348 - Hydrogeology (3)
Sources, occurrence, movement, quality, and recovery of ground water. Investigation of aquifer systems, rock properties that regulate flow of ground water, contamination sources, and remediation techniques. Lecture, three hours.
Prerequisite: GE 158. Offered: F.

GEOL 360 - Principles of Geographic Information System (GIS) (4)
The course includes learning the basic GIS operations, design, preliminary exposure to geographic data structures, and hands-on experiences with several GIS programs through exercises. Lecture and laboratory, four hours.
Prerequisite: GE 111 or familiarity with computer usage. Offered: F.

GEOL 365 - Introduction to Remote Sensing and Digital Image Processing (4)
Basic principles of remote sensing and image analysis using a computer system with the end result of producing a map. Discussed are the introduction and basic principles, electro-optical sensors and imagery obtained, data acquisition and image processing, georeferencing, and terrain corrections. Lecture and laboratory, four hours.
Prerequisite: GE 111 or familiarity with computer usage. Offered: S.

GEOL 395 - Individual Study in Geology (1-3)
Allows students to pursue specialized study in geology that is outside general course offerings. Students carry out reading assignments, do laboratory work, and participate in discussions with the instructor.
Prerequisite: Instructor's written consent. Offered: F; S; SS.

GEOL 440 - Structural Geology (3)
Analysis of earth's structure including folds, faults, joints, cleavage, fracture patterns, and petrofabrics. Structure of mountain systems and theories of mountain-building and plate tectonics. Lecture, two hours; laboratory, two hours.
Prerequisite: GE 118; GEOL 143. Offered: S.

GEOL 441 - Petrology (3)
Fundamentals of igneous and metamorphic rock classification, identification, petrogenesis, and
evolution. Microscopic and macroscopic (thin sections and hand specimens) study of rocks and evaluation of their minerals, structures, and textures in relation to their origin. Lecture, two hours; laboratory, two hours.

Prerequisite: GEOL 341. Offered: F.

**GEOL 442 - Economic Geology (3)**

Origin, emplacement, structure, mineralogy, and petrology of metallic and non-metallic economic deposits and fossil fuels. Evaluation of economic and environmental factors for the development of resources. Lecture, two hours; laboratory, two hours.

Prerequisite: GEOL 341, GEOL 344, and GEOL 440. Offered: S.

**GEOL 444 - Field Geology (3)**

Methods and techniques used in geological field investigations including geological mapping, preparation of subsurface cross-sections and maps; introduction to geophysical exploration techniques. A field trip is required.

Prerequisite: GEOL 143, GEOL 344, and GEOL 440. Offered: S.

**GEOL 446 - Summer Practical Internship (6)**

Minimum of six weeks of training in field geology including field techniques, data collection, interpretation, preparation, and report writing.

Prerequisite: GE 118; GEOL 332, GEOL 344, GEOL 440, GEOL 441, GEOL 444. The course requires expenses for the field trip. Students must see the Chairperson before enrolling in the course. Offered: SS.

**GEOL 448 - Practicum in Geology (1)**

Practical experiences in the teaching of freshman laboratories under faculty supervision. An elective open to those students expecting to go to graduate school and who have the approval of the Chairperson.

Offered: F, S.

**GEOL 449 - Principles of Geochemistry (3)**

Topics covered include basics of major and trace element geochemistry, petrogenesis and mantle evolution, weathering and soil formation, geochemistry of ground and surface waters, geochemistry of pollutants, and petroleum and coal geochemistry. Lecture, three hours.

Prerequisite: GE 158, GEOL 341, GEOL 441, CHEM 101L, CHEM 102L. Offered: S.

**GEOL 461 - Advanced Geographic Information System (4)**

An advanced GIS course with emphasis on students' individual projects. Laboratory complements lecture, and will be a hands-on study of the discussion above, but the course concentrates mainly on individual projects. Lecture and laboratory, four hours.

Prerequisite: GEOL 360 and GEOL 365. Offered: F.

**GEOL 496 - Seminar in Geology (1)**

A review of all of the courses in the core areas of geology: physical, historical, mineralogy, petrology, sedimentology, stratigraphy, geomorphology, structural geology, paleontology, and field methods. This Capstone course is a requirement for graduating seniors in geology, and will serve as preparation for professional licensure. The course will integrate all of the fundamental concepts and skills that a geologist should have. Included will be problem solving, and other practical applications that will involve fieldwork. Lecture and field exercises: Three hours per week.

Prerequisite: Senior Standing. Offered: F; S.

**GEOL 499 - Research in Geology (1-3)**

An introduction to the mechanics of scientific research with actual hands-on projects. Students must design the investigation; research the problem in the field, in the library, and the laboratory as called for; and submit a written report of research project.

Prerequisite: Open to advanced Geology majors with written consent from Department Chair (Six semester credit hours maximum.). Offered: F; S; SS.

**GLBS - Global Studies Course Descriptions**

**GLBS 200 - Introduction to Global Studies (3)**

Introduction to globalization and a broad range of cultural, economic, political, and social issues confronting the globalized world today. Examines the current structure of globalization. Thematic categories: culture and society, governance and conflict, and markets. Designed to capture principal dimensions of diverse and complex connections among nation-states, nongovernmental organizations,
ethnicities, cultural and religious groups, and populations around the world.
Prerequisite: No Prerequisites, open to all students.
Offered: F; S.

GLBS 320 - World Societies and Cultures (3)
A historical and cultural examination of Africa, Asia, the Middle East, the Americas, and Europe from 1650 to the present. Emphasizes the dynamic evolution of modern society by emphasizing religious, intellectual, economic, and political aspects of life and history.
Prerequisite: No Prerequisite.

HIST 140 - History of World Civilization, Prehistoric to 1500 (3)
World Civilization from prehistoric times to the beginning of early modern times. Survey of political, economic, social, and intellectual history of major civilizations before the period of Western domination. Particular attention is devoted to ancient Egypt and Mesopotamia, ancient India and China, native cultures in the Americas, Islam at its height, Afro-Islamic kingdoms of West Africa, classical Mediterranean civilizations, medieval Europe, Renaissance, Reformation, and Age of Discovery. This course will also include the use of technology, critical reading, critical thinking, and critical writing assignments.
Prerequisite: No Prerequisite.

HIST 140H - History of World Civilization, Prehistoric to 1500, Honors (3)
World Civilization from prehistoric times to the beginning of early modern times. Survey of political, economic, social, and intellectual history of major civilizations before the period of Western domination. Particular attention is devoted to ancient Egypt and Mesopotamia, ancient India and China, native cultures in the Americas, Islam at its height, Afro-Islamic kingdoms of West Africa, classical Mediterranean civilizations, medieval Europe, Renaissance, Reformation, and Age of Discovery. This course will also include the use of technology, critical reading, critical thinking, and critical writing assignments.
Prerequisite: No Prerequisite.

HIST 141 - History of World Civilization, 1500 to the Present (3)
World Civilization from 1500 to the present. Survey of the political economic, social, and intellectual history of European, American, African, and Asian societies. Particular attention is devoted to the growth of nationalism, the age of revolution, new achievements in science and art, the effects of European colonialism on the indigenous peoples of Africa, Asia, Latin America, and the Middle-East, and the causes and results of the First World War, Second World War. This course will also include the use of technology, critical reading, critical thinking and critical writing assignments.
Prerequisite: No Prerequisite.

HIST 141H - History of World Civilization, 1500 to the Present, Honors (3)
World Civilization from 1500 to the present. Survey of the political economic, social, and intellectual history of European, American, African, and Asian societies. Particular attention is devoted to the growth of nationalism, the age of revolution, new achievements in science and art, the effects of European colonialism on the indigenous peoples of Africa, Asia, Latin America, and the Middle-East, and the causes and results of the First World War, Second World War. This course will also include the use of technology, critical reading, critical thinking and critical writing assignments.
Prerequisite: No Prerequisite.

HIST 200 - Introduction to History (3)
An introduction to the methods of historical research, historical terminology and historical theory with an emphasis on the use of technology in research and digitization, critical thinking, and critical writing. The portfolio for history majors is started in the sophomore year.
Prerequisite: No Prerequisite. Offered: F; S.

HIST 250 - African American History to 1877 (3)
Survey of African backgrounds of African Americans and the part they played in the exploration and development of America. Studies African Americans' relationships with the constitutional, political, economic, social, and cultural development of the United States to 1877.
Prerequisite: No Prerequisite. Offered: F; S.

**HIST 251 - African American History since 1877 (3)**

Survey of African Americans in America from the end of Reconstruction to the present. Examines constitutional, political, economic, social, and cultural developments related to the African American presence in America. Also included: the Diaspora.

Prerequisite: No Prerequisite. Offered: S.

**HIST 255 - American History to 1877 (3)**

General political, constitutional, cultural, social and economic development of the United States from first contact with native cultures to the end of Reconstruction. This course utilizes active learning strategies such as Reacting to the Past to engage students in the learning process.

Prerequisite: No Prerequisite. Offered: F; S; SS.

**HIST 256 - American History Since 1877 (3)**

Continuation of HIST 255. Analysis of the political, constitutional, social, and economic growth of United States from 1877 to present. Emphasizes industrial development, economic depressions, the two World Wars, and social movements for equality as factors in American growth and development. This course utilizes active learning strategies such as Reacting to the Past to engage students in the learning process.

Prerequisite: No Prerequisite. Offered: F; S; SS.

**HIST 320 - Introduction to Digital & Public History (3)**

This course will explore the development of the fields of digital and public history and examine the impact of digital media on the research, writing, teaching and presentation of history and the history, theory, and practice in both fields.

Offered: S.

**HIST 321 - Archives and Museum Management & Digitization (3)**

This course is designed to introduce students to the work of museums, archives, and other organizations in North Carolina, the United States, and around the world. The focus of the course will be on the physical practices of traditional as well as digital archives & museum management. Students will be expected to utilize class discussions, reading assignments, and independent research to explore relevant archival topics. Writing exercises, field work, online studies, and lectures will assist in advancing the student’s knowledge of the coursework.

Prerequisite: HIST 320. Offered: F.

**HIST 322 - Digital History Project Seminar (3)**

This research seminar course will examine leading works of digital history scholarship, explore theories of narrative in hypertext, and develop models of digital scholarly communication. Students will be expected to conduct research around selected topics in history, focus their work on the creation of a digital project, and participate in class discussion on methods and theories of digital media. The emphasis in this course, however, will be to develop in students an acute awareness of the opportunities and challenges inherent in communicating one's scholarship through a digital medium. Students will explore the possibilities of digital history and engage the theoretical implications at every stage of their work. The final research project will feature the completion of an original piece of digital scholarship equivalent in scope to a research seminar paper.

Prerequisite: HIST 320. Offered: F.

**HIST 331 - Prophets, Priests, and Radicals in the Atlantic World (3)**

A thematic approach to the contributions of African religion and politics to the African diaspora in the United States and the Caribbean. Analyzes the role of religion in resisting oppression and racial injustice as well as the role of religion and the church.

Prerequisite: Recommended: HIST 250 or HIST 251.

**HIST 332 - Global Religion (3)**

Studies the major religions of the world and takes a comparative approach to the examination of religion and its role in cultural, economic, and political development around the world.

Prerequisite: GE 140 and GE 141.

**HIST 351 - Colonial North America and the Atlantic World, 1492-1800 (3)**

The interactions of varying groups of people in colonial North America, including cultural, political, and economic exchanges, and military conflicts. Follows the development of the colonies through the American Revolution to the New Republic, focusing on the multivalent influences that forged a diverse society.
Prerequisite: HIST 200 (for History majors), HIST 250 or HIST 255 (for all majors). Offered: S, Even.

HIST 352 - Conflict, Reconstruction, and Imperialism, 1800-1919 (3)
Examines the role of slavery and freedom, labor, sectionalism, and empire in the making of the nineteenth and early twentieth-century United States. Focuses on the end of the Early Republic and the rise of sectionalism, the Civil War and Reconstruction, American empire and the rise of the U.S. in global affairs and conflict.
Prerequisite: HIST 200 (for History majors), HIST 250, or HIST 255 (for all majors). Offered: F, Odd.

HIST 358 - United States and the World, 1919-present (3)
American history from the First World War to the present, including the Great Depression and New Deal, the emergence of the welfare state, internationalism, the Second World War, the Cold War, conflicts in Korea, Vietnam, and the Middle East. Particular attention will be given to social and political movements.
Prerequisite: HIST 200 (for History majors), HIST 256 or HIST 251 (for all majors). Offered: S.

HIST 361 - Cold War: A Global History (3)
This course explores the Cold war as a global process through the lens of American foreign relations, probing its political and military and well as the social and cultural impact of the confrontation between the West and the Communist bloc.
Offered: S.

HIST 371 - Apartheid and Freedom in South Africa (3)
This course explores the history of South Africa – from colonization and apartheid to democracy. The course will explore the place of the anti-apartheid movement within larger global currents, of post-colonialism, pan-Africanism, trade unionism, and Communism, and in comparison to other twentieth-century struggles for political and social justice (the American Civil Rights movement, Quit India, the struggle for indigenous rights in New Zealand and Australia, etc.).

HIST 372 - The Black Atlantic (3)
This course will examine the role of people of African descent in the movement of traditions, ideas, politics, and cultures across the space of the Atlantic World. Particular attention will be given to the essential role of people of African descent, in the making of the modern world.
Offered: F.

HIST 373 - History of Human and Civil Rights (3)
This course examines the development of civil and human rights movements in world history, beginning in the nineteenth century. It encompasses the origins, history and the lasting influences of civil and human rights struggles, including contemporary controversies such as re-segregation, environmental and economic justice, and social justice (women’s, LGBT, aboriginal rights, anti-apartheid, the Arab Spring and others).
Offered: F.

HIST 376 - African-American Experience in North Carolina (3)
This course will explore the history of North Carolina and the Albemarle region from colonial times to the present day through the African-American experience. Particular attention will be given to the role of African Americans in forging modern North Carolina through political activism and cultural creativity.
Offered: F; S.

HIST 383 - Ancient and Medieval Worlds (3)
Examination of the historical development of Eurasia and Africa from 800 BCE to 1350 CE. Topics include the political and cultures of Greece, Rome, Persia, Swahili states, West Africa, and elsewhere. Particular attention will be given to cultural exchange, the role of religion, and imperialism.
Offered: F, Odd.

HIST 384 - The Birth of Modern Europe, 1350-1789 (3)
Examination of European history from the Italian Renaissance to the outbreak of the French Revolution. Topics include Renaissance art, exploration, the Reformation, absolute monarchy, the reign of Louis XIV, Russia, the English Civil War and Revolution, and the Enlightenment.
Prerequisite: GE 140, GE 141, (all majors), and HIST 200 (for History majors). Offered: S, Even.

HIST 385 - Revolution and Empire in Nineteenth Century Europe (3)
Examination of the social, political, intellectual history of Europe between the French Revolution and
the end of World War I. Topics include the rise and defeat of Napoleon, liberalism versus conservatism, the social effects of the Industrial Revolution, and the growth of Nationalism, Marxism, Imperialism, and Militarism.

Offered: F, Even.

HIST 386 - War of the Worlds: Europe in the Twentieth Century (3)
Examination of some of the major developments in Europe from the end of World War I to the present: rise of Fascism in Germany and Italy, the political careers of Lenin and Stalin, World War II, the Cold War, the birth of Solidarity, the rise to power of Gorbachev, the collapse of the Iron Curtain and the U.S.S.R., the reunification of Germany, and post-Soviet Russia. Emphasizes the origins of modern political crises.

Offered: S, Odd.

HIST 397 - Historical Methods and Historiography (3)
Trains History majors and Social Studies Education students in the approach and methods of the historian, emphasizing fundamentals of research and writing as well as the basic schools of historical thought.
Course includes use of technology. The portfolio is evaluated. Students will begin a major research paper to be completed in HIST 499.

Prerequisite: Junior status, completion of HIST 200 with a C" or higher.".

HIST 465 - China, East Asia, and the World (3)
Survey of the political, religious, social, cultural, economic, and intellectual development of China and East Asia. Special attention will be given to China’s encounter with the West, the role of colonization and trade, and the emergence of China as a superpower during the twentieth century.

Offered: F.

HIST 473 - Africa and the Making of the Modern World (3)
Examination of Africa and its place in the making of the modern world from c. 1500 to the present day. Attention given to pre-colonial African civilizations, colonial states and societies, African nationalisms and decolonization, and the independence era.

Offered: F.

HIST 475 - History of the Islamic World (3)
Survey of the political, religious, social, cultural, economic, and intellectual development of the Middle East. Special emphasis is on the role of Islam, the rise and fall of the Ottoman Empire, the role of oil, the origins of the Arab-Israeli conflict, and the history of terrorism.

HIST 481 - Global Women's History (3)
Women’s lives throughout the world have impacted their respective societies and vice versa. The unique voice of women has, until recently, either been dismissed or muted. The global impact of women’s work, ideas, political activities, and social activism is studied in this course. Women have made connections cross-culturally and many of their interactions will be explored. The course interjects the importance of women’s experiences as it relates to the larger historical narrative of world history.

Prerequisite: HIST 141. Offered: F.

HIST 482 - Women in the African Diaspora (3)
Women of the African Diaspora experienced unique circumstances in their daily lives as daughters, mothers, wives, sisters, politicians, activists, workers, etc. For women of African descent, diasporic identity was often an issue with which they struggle, manipulate, and, at times, conquer. Analytical frameworks of social constructs of gender, race and class differ globally, and for these women, constructing ideological bridges is challenging. Primary sources, monographs, works of fact and fiction, and site visits will constitute the context of this course.

Prerequisite: HIST 141. Offered: F.

HIST 490 - Internship in History ((3) (6))
Can be offered as a three-hour course or a six-hour course. Student is placed in an internship by the instructor, working with an agency relating to public history. Student must complete 75 contact hours of engaged internship activities approved by the agency supervisor and the instructor.

Prerequisite: HIST 200 and with permission of Instructor.

HIST 493 - Women's and Gender History Special Topics (3)
A study of one or more selected historical topics on women’s and gender history.
Prerequisite: 12 credit hours in History; instructor's permission. Offered: F.

**HIST 494 - African-American History Special Topics (3)**
A study of one or more selected historical topics in the instructor's specialty of African American History.
Prerequisite: At least 12 hours of History courses for all majors, HIST 200 (for History majors).

**HIST 495 - US History Special Topics (3)**
A study of one or more selected historical topics in the instructor's specialty of American History.
Prerequisite: At least 12 hours of History courses for all majors, HIST 200 (for History majors).

**HIST 496 - European History Special Topics (3)**
A study of one or more selected historical topics in the instructor's specialty of European History.
Prerequisite: At least 12 hours of History courses for all majors, HIST 200 (for History majors). Offered: F; S.

**HIST 497 - World History Special Topics (3)**
A study of one or more selected historical topics in the instructor's specialty of World History.
Prerequisite: At least 12 hours of History courses for all majors, HIST 200 (for History majors).

**HIST 498 - African History Special Topics (3)**
A study of one or more selected historical topics in the instructor's specialty of African History.
Prerequisite: At least 12 hours of History courses for all majors, HIST 200 (for History majors). Offered: S.

**HIST 499 - History Seminar (3)**
A continuation of HIST 397. It is the capstone course. Students complete the major research paper begun in HIST 397 that will demonstrate proficiency in historical research, critical thinking, critical analysis, historical writing techniques, use of appropriate technology; and presentation of research in the Program Research Day activities. The completed portfolio is due. History majors are required to earn a "C" or higher in this class to successfully complete the course.
Prerequisite: Senior status, successful completion of HIST 200 and HIST 397 with a grade of "C" or higher. Offered: F.

**HLTH - HEALTH COURSE DESCRIPTIONS**

**HLTH 185 - Health Concepts (2)**
Basic knowledge and behavior change techniques which allow the student to make intelligent decisions related to health and wellness. The course is usually taken during the freshman year and is a required course in the General Education program.
Offered: F; S; SS.

**HLTH 367 - First Aid, CPR and Safety (3)**
First Aid, CPR and Safety provides essential information that leads to certification for administering emergency care. Certification is a departmental requirement. The course is offered to all students.
Offered: S.

**HLTH 369 - Principles of Nutrition (3)**
Fundamentals of human nutrition, including the functions and essential nutrients necessary for optimum growth and the maintenance of physical and mental health. Open to all students.
Offered: F; S.

**HLTH 374 - School Health Education (3)**
This course provides an overview of skills-based health education. It provides a foundation for planning and implementing effective health education. It provides students with knowledge, methods and materials necessary to teach health in grades K-12.
Offered: S.

**HLTH 460 - Contemporary Health Education (2)**
A review of the techniques and principles relevant to the study of current health issues and problems in today's society. Health education methods and materials, instructional strategies, and the selection of resource materials are emphasized. This course is required of all Physical Education majors. Open to all students.
Offered: F.
HLTH 465 - Drug Education (3)
Study of social, psychological, and physiological aspects of drug use, misuse, and abuse. Open to all students.
Offered: S.

HON - HONORS COURSES
DESCRIPTIONS

HON 194/195 - Freshman Honors Colloquia (1 credit hour per course)
Students may take two semesters to complete the Senior Colloquium project (e.g., Senior Honors Thesis) with an IP (In Progress) grade for the first semester

HON 201 - Sophomore Honors Seminar (3)
The Honors Seminar is a facilitated course that can be taught by multiple faculty members. The course has an interdisciplinary theme. Designed for all sophomore-level or above Honors Program students. Faculty members propose the theme of the course and outline the format of the class. They organize the course, invite guest lecturers, lead primary discussions, give assignments, and evaluate students. The course includes intensive reading, writing, and research.
Offered: F/S.

HON 202 - Sophomore Honors Seminar (3)
The Honors Seminar is a facilitated course that can be taught by multiple faculty members. The course has an interdisciplinary theme. Designed for all sophomore-level or above Honors Program students. Faculty members propose the theme of the course and outline the format of the class. They organize the course, invite guest lecturers, lead primary discussions, give assignments, and evaluate students. The course includes intensive reading, writing, and research.
Offered: F/S.

HON 294/295 - Sophomore Class—Sophomore Honors Colloquia (1 credit hour per course)
An interdisciplinary approach is used in presenting themes and ideas which are related to and integrated with everyday events, world concerns, service learning, debate, etc.

HON 301 - Junior Honors Seminar (3)
The Honors Seminar is a facilitated course that can be taught by multiple faculty members. The course has an interdisciplinary theme. The Honors Seminar may be taken by all junior-level or above and transfer students. Faculty members propose the theme of the course and outline the format of the class. They organize the course, invite guest lecturers, lead primary discussions, give assignments, and evaluate students. The course includes intensive reading, writing, and research. An oral presentation of the research work of this course must be presented at an on-campus research forum.
Prerequisite: Instructor's or Honors Program Director's written consent. Offered: F/S.

HON 302 - Junior Honors Seminar (3)
The Honors Seminar is a facilitated course that can be taught by multiple faculty members. The course has an interdisciplinary theme. The Honors Seminar may be taken by all junior-level or above and transfer students. Faculty members propose the theme of the course and outline the format of the class. They organize the course, invite guest lecturers, lead primary discussions, give assignments, and evaluate students. The course includes intensive reading, writing, and research. An oral presentation of the research work of this course must be presented at an on-campus research forum.
Prerequisite: Instructor's or Honors Program Director's written consent. Offered: F/S.

HON 394/395 - Junior Class—Junior Honors Colloquia (1 credit hour per course)
A thematic approach involving the "Great Ideas" (Justice, Love, Death, etc.) as a frame of reference.

HON 399 - Honors Independent Study (3)
Study of special topic(s) in consultation with, and completed under the supervision of, a member of the Honors faculty or another faculty member upon approval of the Director of the Honors Program and the Honors Council.
Prerequisite: Junior or Senior standing in the Honors Program. Offered: F/S.

HON 494 - Senior Honors Colloquium (3)
This course includes a Senior Honors Thesis/Research Project which must be approved by an advisor in the major Department with consent of
the Honors Program Director and/or the Honors Council.

**HON 495 - Senior Honors Colloquium (1)**
This course is designed only for students to complete and defend the Senior Honors Thesis/Research Project begun in HON 494.

**HON 499 - Honors Independent Study (3)**
Study of special topic(s) in consultation with, and completed under the supervision of, a member of the Honors faculty or another faculty member upon approval of the Director of the Honors Program and the Honors Council.
Prerequisite: Junior or Senior standing in the Honors Program. Offered: F/S.

**HPE - PHYSICAL EDUCATION COURSE DESCRIPTIONS**

**HPE 201 - Principles of Nutrition (3)**
Basic course on the essentials of good nutrition, requirements of various food elements and diet patterns for specific age groups.

**HPE 291 - Independent Study (3)**
Individual study or research under direction of a faculty member. Study plan must be approved by the department chair.
Prerequisite: Consent of instructor.

**HPE 292 - Independent Study (2)**
Individual study or research under direction of a faculty member. Study plan must be approved by the department chair.
Prerequisite: Consent of instructor.

**HPE 293 - Independent Study (3)**
Individual study or research under direction of a faculty member. Study plan must be approved by the department chair.
Prerequisite: Consent of instructor.

**JOUR - JOURNALISM COURSE DESCRIPTIONS**

**JOUR 200 - Broadcast Laboratory (1)**
Hands-on experience at WRVS campus radio station. Laboratory setting where students work in area of special interest under supervision of a radio station staff member. Students meet with instructor by appointment to discuss work. Students design the semester's work with faculty approval.
Offered: F; S; SS.

**JOUR 346 - Journalism Laboratory (1)**
Practical laboratory for News Media Concentration students and staff members of student publications. Provides basic learning and direct application to school/college newspapers, particularly in writing, editing, layout, and production of The Viking Times, the university newspaper. May be repeated.
Prerequisite: Consent of the instructor. Offered: F; S.

**JOUR 347 - Publications Laboratory (1)**
Practical laboratory for students at all academic levels. Provides basic learning and direct application to university/departmental publications. May be repeated.
Prerequisite: Instructor's written consent. Offered: F; S.

**JOUR 349 - Mass Media (3)**
Introduction to the history, techniques, and psychology of mass media and their impact on society.
Prerequisite: GE 103 or GE 105H. Offered: F.

**JOUR 351 - Journalism I (3)**
Basic elements of journalism, format of newspapers, and organization and writing of news and feature stories.
Prerequisite: GE 103 or GE 105H. Offered: F.

**JOUR 352 - Journalism II (3)**
Study and practice of news writing, copy editing, proofreading, page makeup, type structure, headlining, and arranging of stories, and feature writing.
Prerequisite: JOUR 351 or Instructor's written consent. Offered: S.

**JOUR 449 - Photojournalism (3)**
Covers basic and advanced techniques and principles of contemporary photojournalism, including film processing and printing, use of the camera, metering, action and sports photography, feature and spot news
photography, use of the flash unit, and the photo essay.

Prerequisite: Photography I (ART 340) or equivalent experience, or instructor's written consent. Offered: S.

**JOUR 451 - Broadcast Journalism (3)**

Develops the critical thinking and decision-making skills needed to identify, research and develop dynamic news and feature stories for radio and television broadcasting. Covers news judgment, advanced broadcast writing and scripting, interviewing techniques, and developing and utilizing sources within a variety of environments, including news beats, computer-assisted reporting, and investigative journalism.

Prerequisite: JOUR 351 and MCOM 350 or instructor's written consent. Offered: F.

**JOUR 499 - Seminar Internship (3-6)**

Supervised field experience in news media. Includes newspaper and broadcast journalism, seminar sessions, and independent study.

Prerequisite: Completion of News Media sequence or the Department Chair's written consent. Offered: F; S; SS.

**LATN - FRENCH COURSE DESCRIPTIONS**

**LATN 101 - Introductory Latin (3)**

This course introduces students to the basics of basic Latin vocabulary, syntax, and grammar, as well as translation skills from Latin to English and English to Latin.

Offered: F.S.

**LATN 102 - Introductory Latin II (3)**

This course builds upon the concepts of vocabulary, grammar, and syntax taught in Introductory Latin I, and introduces students to more complex concepts such as the subjunctive mood, participles and infinitives, as well as more advanced readings and translations.

Offered: F.S.

**MAS - MARINE ENVIRONMENTAL SCIENCE COURSE DESCRIPTIONS**

**MAS 111 - Introduction to Marine Sciences (3)**

An introduction to the physical, chemical, geological, and biological processes of the ocean and interactions with adjacent waters, ocean environment, and configuration of the ocean floor. Lecture: (3) hours.

**MAS 224 - Marine and Coastal Resources (3)**

An introduction to the resources and economic potential of the marine and coastal environment. Topics include the search for and recovery of petroleum, metals, gemstones, bulk materials for construction, and agriculture and the ocean's biological wealth. Lecture three (3) hours.

Offered: F.

**MAS 226 - Beach and Island Environments (3)**

Examines the marine processes to which these coastal ecosystems are constantly subjected. Explores the importance of these regions to the human population and delicate balance that is needed to achieve the sustainable development of these regions. Lecture three (3) hours.

Offered: S.

**MAS 330 - Marine Geology (3)**

The formation and evolution of the world's ocean and coastal regions, focusing on their geologic setting and their responses to natural processes and human activities. Lecture three (3) hours.

Prerequisite: GE 155 or GE 158L. Offered: F.

**MAS 331 - Marine Biology (3)**

Physical, chemical, and biological processes emphasizing adaptation of marine organisms. Lecture: (3) hours.

Prerequisite: BIOL 101, BIOL 102. Offered: S.

**MAS 333 - Wetland and Ocean Chemistry (4)**

An overview of the various chemical processes that determine the environmental characteristics of wetland and ocean waters. Lecture three (3) hours; Lab two (2) hours.

Prerequisite: CHEM 101L; CHEM 102L. Offered: S.
MAS 340 - Field Internship (4)
Field work at an accredited facility such as a Marine Laboratory.
Prerequisite: MAS 331 and instructor's written consent. Offered: SS.

MAS 401 - Global Geochemical Cycles (3)
A seminar course evaluating the global geochemical cycle of carbon, nitrogen, water, and sulfur with emphasis on their impact on global climate. Lecture: (3) hours.
Prerequisite: CHEM 101L; CHEM 102L. Offered: F.

MAS 402 - Physical Oceanography (3)
Physical processes of the oceans, the dynamics of waves, tides, current, and transmission of light and sound. Lecture (3) hours; Field Trips.
Prerequisite: MAS 331; PHYS 182L. Offered: S.

MAS 420 - Marine Vertebrates (3)
Comparative physiology of marine animals with emphasis on responses of organisms to environmental factors. Lecture three (3) hours.
Prerequisite: BIOL 101, BIOL 102. Offered: F.

MAS 421 - Marine Invertebrates (3)
Structure, function, and development of marine invertebrates. Lecture three (3) hours.
Prerequisite: BIOL 101, BIOL 102. Offered: F.

MAS 422 - Marine Microbiology (3)
Morphology, reproduction, life history, and environment for the growth of benthic and planktonic marine life. Lecture: (3) hours.
Prerequisite: BIOL 101, BIOL 102. Offered: S.

MAS 425 - Independent Study (3)
Prerequisite: At least junior level with written consent from the appropriate instructor. Offered: S.

MAS 433 - Geological Oceanography (3)
The geology of ocean basin, including origin, bottom physiography, sediment distribution, and sedimentary processes. Lecture: (3) hours; Field Trips.
Prerequisite: GE 158L or MAS 111 and PHYS 181L; PHYS 182L. Offered: F.

MAS 440 - Hydrology of Coastal Water (3)
The discharge and current activity of coastal waters including estuaries, wetlands, and marine environment factors affecting water quality and ecological imbalance. Field oriented seminar course.
Prerequisite: CHEM 101L; CHEM 102L; MAS 331. Offered: F.

MAS 441 - Estuarine Environment (3)
Chemistry, microbiology, and pollution of estuaries, wetlands, and marine coastal waters. Lecture three (3) hours.
Prerequisite: CHEM 101L; CHEM 102L; MAS 331. Offered: F.

MAS 442 - Coastal Urbanization and Land Use Planning (3)
Review of the growth of the coastal urban areas, particularly North Carolina problems, practice, and policies of developing coastal urban area. Lecture three (3) hours.
Prerequisite: MAS 331 and GEOL 331 or MAS 330; Field Trips. Offered: S.

MAS 443 - Coastal and Marine Conservation (3)
Study of the resources found in coastal and marine waters; how human activities affect those resources; and the science and policies used to manage those resources. Lectures three hours.
Prerequisite: GE 158; GEOL 332 or MAS 331. Offered: F.

MAS 450 - Research in Marine Science I (1-3)
Directed research in marine science supervised by the faculty (written consent of instructor).
Offered: F; S; SS.

MAS 451 - Research in Marine Science II (1-3)
Directed research in marine science supervised by the faculty (written consent of instructor).
Offered: F; S; SS.

MATH - MATHEMATICS COURSE DESCRIPTIONS

MATH 114 - Math for Liberal Arts (3)
A survey course in mathematics for liberal arts students. Course covers an introduction to many topics including problem-solving, consumer
mathematics, sets, algebra, geometry, probability, and statistics, voting methods and flaws of voting methods. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE.

Offered: F; S.

**MATH 115 - College Algebra (3)**

Fundamental algebraic ideas; equations and inequalities, functions and graphs, linear and quadratic functions, and polynomial and rational functions. Emphasizes calculator and computer use and modeling of problems.

Prerequisite: GE 109 or Mathematics Placement Test. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S; SS.

**MATH 118 - Precalculus (3)**

Exponential and logarithmic functions, trigonometric functions, analytic trigonometry, trigonometric applications, and sequences and series. Emphasizes calculator and computer use and modeling of problems.

Prerequisite: GE 115 or Mathematics Placement Test. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S; SS.

**MATH 121 - Number Systems and Algebra (3)**

Designed for prospective elementary and middle school teachers. Emphasis on numeric and algebraic concepts, with applications to teaching. Topics include: sets; number systems and operations and properties of number; equations and inequalities; functions and graphs; appropriate use of technology; historical/cultural perspectives.

Prerequisite: Department Chair's written consent. Offered: F; S.

**MATH 122 - Geometry and Data Analysis (3)**

A second course designed for prospective elementary and middle school teachers. Topics covered include: basic data analysis and statistics; measurement and problem in solving geometry; a study of geometric concepts and construction of geometric figures; logical arguments.

Prerequisite: MATH 121. Offered: F; S.

**MATH 153 - Applied Calculus (3)**

Limits, differentiation, indefinite, and definite integrals with applications in business, economics, management, and behavioral sciences. The emphasis will be on an intuitive understanding gained from a graphical approach as opposed to a rigorous mathematical treatment.

Prerequisite: C or better in GE 118. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S; SS.

**MATH 165 - Calculus of Single Variable I (4)**

Limits and their properties, differentiation, indeterminate forms, definite integrals, fundamental theorem of calculus, applications of derivatives and integrals and use of computational tool.

Prerequisite: C or better in GE 118. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S.

**MATH 262 - Discrete Methods (3)**

Sequences, summations, algorithm design and analysis including computational complexity, counting techniques, mathematical induction and recursion, recurrence relations/functions and recursive algorithms, combinatorics, graphs, trees, and applications.

Prerequisite: GE 118 Precalculus and CSC 114 Introduction to Computer Science. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: S.

**MATH 265 - Calculus of Single Variable II (4)**

Techniques and applications of integration, Improper integrals, conic sections, parametric equations and polar coordinates, sequences, series, power series, Taylor's Theorem, and use of computational tools.

Prerequisite: MATH 165 or 3 and above score in AP Calculus AB exam. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S.

**MATH 267 - Calculus of Several Variables III (4)**

Vector algebra, and vector functions. Functions of several variables, partial derivatives, gradients, directional derivatives, maxima, and minima. Multiple integration. Line and surface integrals, Green’s Theorem, Divergence Theorems, Stokes’ Theorem, and application and use of computational tools.

Prerequisite: MATH 265 or 3 and above score in AP Calculus BC exam. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S.
MATH 275 - Foundations of Mathematics (3)
Development of theoretical tools for rigorous mathematics; Topics include: proof techniques, sets, logic, functions, relations, countable and uncountable sets. Gives students an introduction to the major and to provide the basic knowledge, overview and foundation for the curriculum.
Prerequisite: MATH 165. Offered: S.

MATH 345 - History of Mathematics (3)
(formerly MATH 451) A survey of the historical development of mathematics. The emphasis will be on mathematical concepts, problem solving, and pedagogy from a historical perspective.
Prerequisite: MATH 153 or MATH 165. Offered: S.

MATH 350 - Number Theory (3)
Integers, numbers in other bases, primes, greatest common divisors and Euclidean Algorithm, Diophantine Equations, congruences, applications of congruences, Wilson's, Fermat's, and Euler's theorems, multiplicative functions, and continued fractions.
Prerequisite: GE 118. Offered: F.

MATH 351 - Linear Algebra (3)
Systems of linear equations and matrix theory, finite dimensional vector spaces, and linear transformations. Applications of linear algebra to social, biological, and physical sciences.
Prerequisite: MATH 153 or MATH 165. Offered: F; S.

MATH 352 - College Geometry (3)
A survey of topics in advanced geometry from three historical perspectives: synthetic, analytic, and transformational. Topics include advanced results in Euclidean geometry, axiomatics of Euclidean geometry, axioms and results in non-Euclidean geometry, an introduction to projective geometry, the use of coordinates, and insights gained from transformations. Use of Geometric Sketchpad software.
Prerequisite: GE 118. Offered: F.

MATH 354 - Abstract Algebra I (3)
Binary operations, equivalence relations, groups, cyclic and symmetric groups, subgroups, Lagrange's theorem, homomorphisms and normal subgroups, factor groups, isomorphism theorem, and direct products.
Prerequisite: MATH 275 and MATH 351. Offered: F.

MATH 358 - Differential Equations (3)
Prerequisite: MATH 267. Offered: S.

MATH 360 - Applied Cryptography & Data Security (3)
Elementary concepts in cryptography; classical cryptosystems; modern symmetric cryptography; public key cryptography; digital signatures, authentic schemes; modular arithmetic, primality testing.
Prerequisite: MATH 262 or MATH 275 or consent by instructor. Offered: F.

MATH 365 - Exit Seminar for Juniors (2)
This course is designed to review all junior-level mathematics courses.
Prerequisite: Junior standing or Consent of Department Chairperson. Offered: S.

MATH 366 - Complex Variables (3)
Analytic functions, elementary functions, integrals, power series, residues, and conformal mapping.
Prerequisite: MATH 267. Offered: F.

MATH 400 - Operations Research Techniques (3)
Linear and non-linear programming, decision-making under uncertainty, some models for networks, inventory management, and waiting lines.
Prerequisite: MATH 351 and STAT 251/STAT 351. Offered: S.

MATH 410 - Linear Optimization (3)
This course develops the techniques used in linear programming such as the simplex method and the duality method. Linear programming techniques will be applied for solving real-world-decision optimization problems.
Prerequisite: MATH 351. Offered: F; S.

**MATH 452 - Internship (3)**

Students engage in supervised mathematics-related experience with academia, industry or government. Evaluation to be based on written reports by instructor.

Prerequisite: Internship offer, Junior standing, and consent of chairperson. Offered: SS.

**MATH 454 - Abstract Algebra II (3)**

Fundamental Theorem of Finite Abelian Groups, Sylow theorem and its application, introduction to rings and fields, ideals, factorization, extension of fields, automorphisms, and Galois theory.

Prerequisite: MATH 354. Offered: S.

**MATH 455 - Elements of Real Analysis (3)**

Rigorous development of the real number system and the theory of Calculus on the real number line. Topics include: sequences and series, limits and continuity, the derivative, and the Riemann Integral.

Prerequisite: MATH 267 and MATH 275. Offered: S.

**MATH 456 - Contemporary Issues in Math Education (3)**

Lectures and discussion on various issues in mathematics education, surveying trends, and developments with emphasis on content, meaning, methods, current status, and implications for the profession.

Prerequisite: Consent of Department Chair. Offered: Upon Request.

**MATH 459 - Special Studies/Seminars in Mathematics (1-3)**

Independent or small-group study in selected areas of mathematics, culminating in approved project or research paper. (This also may be used for organizing workshops or academic-year institutes for mathematics teachers of high schools and junior high schools.) These courses may be repeated.

Prerequisite: Consent of Department Chairperson. Offered: Upon Request.

**MATH 462 - Mathematical Modeling (3)**

Basic techniques for model formulation and model analysis in physical phenomena, engineering applications as well as biological systems will be considered. The main focus is on modeling dynamical systems using differential equalities and a system of differential equations.

Prerequisite: MATH 358. Offered: F.

**MATH 466 - Exit Seminar in Mathematics (2)**

The first component of the capstone course for mathematics majors. This course will provide the student the opportunity to demonstrate their accumulated knowledge, skills, and growth in the major. Review of upper level mathematics topics culminating in an exit test.

Prerequisite: Senior standing. Offered: F.

**MATH 467 - Senior Capstone (3)**

The Capstone course for Mathematics majors. Designed to give students the opportunity to demonstrate their accumulated knowledge, skills and growth in the major. Review of Computer Algebra Systems, written and oral report required.

Prerequisite: Senior Standing. Offered: F.

---

**MCOM - MASS COMMUNICATIONS COURSE DESCRIPTIONS**

**MCOM 250 - Introduction to Broadcasting (3)**

An introduction to modern electronic media including radio and television, cable, home video, the Internet, and new media. Examines the historical foundations of broadcast media formats. Other topics include how media are regulated, ratings and audience feedback, media effects, and the international media scene.

Prerequisite: GE 103 or GE 105H. Offered: S.

**MCOM 347 - Mass Communication Theory and Research (3)**

Review of communication concepts and theories in communication research methodology. Introduction to theory construction, mass communication research, literature, and related research techniques.

Prerequisite: ENGL 317, MCOM 250. Offered: F.

**MCOM 353 - Radio Production (3)**

Exposure to every facet of radio production. This course familiarizes students with the care and upkeep of production equipment and the proper way to use each piece of equipment in the studio. Students will be given various production assignments, beginning with simple tasks and progressing to intermediate and advanced assignments.

Prerequisite: MCOM 250. Offered: S.
MCOM 354 - Advanced Radio Production (3)
Exposes students to a more technical level of radio production. This course begins where Radio Production 353 concluded. By mid-semester students will be able to perform all production tasks, including sound effects, hominizer techniques, and fully computerized production.
Prerequisite: MCOM 353. Offered: F.

MCOM 355 - Television Production (3)
An introduction to the fundamentals of operating audio and video equipment in the studio. The course provides a basic understanding of the terms used and the crew position responsibilities in a studio setting. Operational skills are developed through several structured laboratory exercises.
Prerequisite: MCOM 250. Offered: F.

MCOM 356 - Advanced Television Production (3)
Allows students to work individually and gain more in-depth knowledge of all phases of television production. Students learn the advanced features and functions of audio and video equipment, focusing on post-production activities that emphasize editing and graphics.
Prerequisite: MCOM 355. Offered: S.

MCOM 357 - Introduction to Public Relations (3)
Introduction to the theories and practices of public relations, advertising and writing for public relations and advertising.
Prerequisite: JOUR 351. Offered: F; S.

MCOM 358 - Advanced Public Relations and Advertising (3)
Advanced theory and practice of public relations and advertising development. Practical application of management to public relations and advertising techniques, strategies, and campaign development.
Prerequisite: MCOM 357. Offered: S.

MCOM 359 - Interactive Video (3)
Introduction to visual and graphic communication in the print media involving perception, typography, picture editing, and basic computer skills.
Techniques of editing video and writing for electronic publishing.
Prerequisite: JOUR 349. Offered: S.

MCOM 360 - Film Appreciation (3)
An introduction to the appreciation of feature films, with concentrations on film genres and criticism. Emphasizes representative American films from the early 20th century to the present. Includes viewing representative films from various film genres and eras.
Prerequisite: MCOM 250 and JOUR 349, or instructor's written consent. Offered: F; S.

MCOM 361 - Television Appreciation (3)
An introduction to the appreciation of feature television, with concentrations on genres and criticism. Emphasizes representative American television programming from the "golden age" of television of the mid-20th century to the present. Includes viewing representative television programs from various genres and eras.
Prerequisite: MCOM 250 and JOUR 349, or instructor's written consent. Offered: F; S.

MCOM 365 - Digital Media Communications (3)
A course to study state-of-art theories and production of digital communication by developing artistic, academic, professional, and technical proficiency using digital media.
Prerequisite: ART 101 or COM 200. Offered: F; S.

MCOM 400 - Print & Broadcast Management (3)
Provides detailed descriptions of job positions in the print and broadcast industry. Students tour print and broadcast facilities to learn about print and broadcast managers and how they do their jobs. Role-playing activities will demonstrate how managers handle particular situations.
Prerequisite: MCOM 350; MCOM 354; MCOM 356. Offered: F.

MCOM 450 - Media Law and Ethics (3)
Introduces First Amendment doctrines and issues that impact freedom of expression. While international standards and variations are also covered, the course focuses on applications of the law with respect to the challenges and responsibilities of the working journalist in the U.S.
Prerequisite: JOUR 349, MCOM 250; MCOM 347. Offered: F.
MCOM 479 - Special Topics and Studies in Mass Communications (3)
Advanced study and analysis in Mass Communication, including problems and case studies. This course features different topics and may be repeated for credit.
Prerequisite: JOUR 349; MCOM 250; MCOM 347; or instructor's written consent. Offered: F; S.

MCOM 498 - Internship (3-6)
Supervised field experience in mass communication: television and radio broadcasting.
Prerequisite: Instructor's written consent. Offered: F, S.

MCOM 499 - Broadcast Seminar (3)
Advanced study and analysis of broadcasting, including problems and situations involving management of a broadcast enterprise. Topics include legal and ethical questions, personnel matters, government regulations, programming, and sales.
Prerequisite: Graduating senior. Offered: F, S.

MIS - MILITARY SCIENCE COURSE DESCRIPTIONS

MIS 101 - Basic Military Science I (2)
Study of the mission of the Reserve Officers' Training Corps and an orientation to the organization and roles of the U.S. Army and the customs and traditions of the service, leadership, and basic first aid. One and one-half hours of Leadership Laboratory per week.
Offered: F, S.

MIS 102 - Basic Military Science II (2)
Study of basic map reading, military correspondence, preventive medicine, and first aid. One and one-half hours of Leadership Laboratory per week.
Offered: S.

MIS 201 - Applied Leadership and Management I (2)
Study of basic military skills, organization for teamwork, and practical application to develop leadership and management techniques. Emphasizes self-discipline, knowledge of military subjects, and development of military skills. One and one-half hours of Leadership Laboratory per week.

MIS 202 - Applied Leadership and Management II (2)
Study of Army leadership doctrine, oral and written communication, basic military skills, and practical application to develop leadership skills. Emphasizes self-discipline and application of military knowledge during realistic practical exercises. One and one-half hours of Leadership Laboratory per week.
Offered: F.

MIS 236 - Leader's Training Course (4)
Four-week summer course conducted at a military installation. Provides training in lieu of the Basic Course and is designed to qualify students for the ROTC Advanced Course. Application for Leader's Training Course (LTC) must be submitted to the Department of Military Science.
Offered: SS.

MIS 301 - Leadership and Management I (3)
Instruction in and application of military leadership, physical training, military training, and land navigation. One and one-half hours of Leadership Laboratory per week.
Prerequisite: Basic Course or equivalent credit. Offered: F.

MIS 302 - Leadership and Management II (3)
Study of small-unit tactics, oral and written communication, advanced military skills, and practical application to develop leadership skills. Emphasizes teamwork, self-discipline, confidence, and application of leadership skills during realistic practical exercises. One and one-half hours of Leadership Laboratory per week.
Prerequisite: Basic Course or equivalent credit. Offered: S.

MIS 303 - U.S. Military History (3)
Survey of American military history from 1759 to present. Study of the American attitude toward war, the European influence, civil-military relationships and the impact of technology on operations and tactics. May be taken by non-cadets for elective course credit without military obligations.
Offered: F, S.
MIS 401 - Advanced Leadership and Management I (3)
Study of training management, Army officer professionalism and ethics, and the conduct of unit meetings and conferences to develop leadership and management techniques. Emphasizes the importance of prior preparation and self-confidence during realistic practical exercises. One and one-half hours of Leadership Laboratory per week.
Prerequisite: MIS 301, MIS 302. Offered: F.

MIS 402 - Advanced Leadership and Management II (3)
Leadership and management in the contemporary military environment, including oral communications, the administration of Military Justice, the rules of war, and an orientation to U.S. Army personnel support activities. Improves the student's ability to prepare effective staff studies, battle analysis, and briefings. Learn military commanders, strategies, and tactics. Leadership Laboratory periods continue to develop the practical experiences begun in earlier courses.
Prerequisite: MIS 301, MIS 302, MIS 401. Offered: S.

MNGT - MANAGEMENT COURSE DESCRIPTIONS

MNGT 221 - Principles of Management (3)
Study of management principles that apply to all types of business, government, and nonprofit organizations with special emphasis on planning, organizing, leading, controlling, and working in teams.
Prerequisite: BUAD 115 with a C or higher. Offered: F, S, SS.

MNGT 321 - Human Resource Management (3)
Introduction to fundamental theory and practices relating to interviewing, hiring, training, scheduling, placing, supervising, compensating, evaluating, promoting, and dismissing personnel.
Prerequisite: MNGT 221 with a C or higher. Offered: F, S, SS.

MNGT 322 - Organizational Behavior (3)
Emphasis on development of the understanding and knowledge of organizational settings. Instruction directed toward organizational behavior as a necessary ingredient of managerial effectiveness and understanding major theoretical and methodological approaches to studying behavior in organizations.
Prerequisite: MNGT 221 with a C or higher. Offered: F, S.

MNGT 345 - Leadership and Teamwork (3)
Provides an understanding of the theory and practice of leadership in organizations, as well as the theory and practice of teamwork. Provides opportunities to expand leadership skills and learn more about working in and leading teams.
Prerequisite: MNGT 221, and MNGT 322, each with a C or higher. Offered: F15, then S.

MNGT 398 - Special Topics in Management (3)
Topics of special interest to business students may be offered, or in response to a request by a group of students for a specific course not otherwise available. The students conduct study of these topics as business electives.
Prerequisite: Junior or Senior standing and permission of the instructor and department chair. Offered: F, S, SS.

MNGT 421 - Operations Management (3)
Principles and techniques underlying production and operations management. Topics include inventory/materials control, quality control, production methods and control, facilities, and supply chain management. These topics will be integrated using a systems approach to organizations' operations.
Prerequisite: ECON 260 or MATH 165 with a C or higher. Offered: F, S, SS.

MRKT - MARKETING COURSE DESCRIPTIONS

MRKT 231 - Principles of Marketing (3)
Survey of marketing organization and methods in the socio-economic system with discussion on pricing, promotion, production, distribution of goods and services, consumer problems, institutions, and methods and policies.
Prerequisite: BUAD 115 with a C or higher. Offered: F, S, SS.
MRKT 331 - Advertising and Promotion (3)

Studies promotions as persuasive communication. Examines promotion management and its relationship to the overall marketing program. Primary emphasis on advertising, sales promotion, personal selling, consumer and market information, message appeals, media selection and scheduling, and measuring effectiveness.

Prerequisite: MRKT 231 with a C or higher. Offered: F.

MRKT 332 - Consumer Behavior (3)

Analysis of the social, cultural, and psychological factors influencing the behaviors of consumers. Special emphasis on behavioral patterns, market segmentation research, attitude formation and change, brand loyalty, adoption of innovations, and store choice decisions.

Prerequisite: MRKT 231 with a C or higher. Offered: F; S.

MRKT 333 - Sales (3)

Covers the role and activities of the sales manager in modern marketing. Nature and importance of the selling function in organization, effective sales techniques, and managerial tasks of designing, developing, directing, and compensating sales force. Management activities include recruiting, testing, selection, training, motivation, compensation, and evaluation for effectiveness.

Prerequisite: MRKT 231 with a C or higher. Offered: F.

MRKT 365 - Marketing Research (3)

Students gain hands-on experience in the understanding and use of appropriate tools and techniques for analyzing, interpreting, and presenting information derived from marketing databases. Includes problem definition and solution approach to marketing research decisions.

Prerequisite: ECON 260 with a C or higher. Offered: F.

MRKT 398 - Special Topics in Marketing (3)

Topics of special interest to business students may be offered, or a request by a group of students for a specific course not otherwise available. The students conduct study of these topics as business electives.

Prerequisite: Business Administration major, junior or senior standing and the department chair's written consent. Offered: F, S, SS.

MRKT 431 - Retailing (3)

Analysis of factors underlying successful operation of retail store including location and design, stock arrangement, buying and selling, advertising and display, merchandise planning and control, retail market and financial analysis, personnel management, customer relations, and non-store and service retailing.

Prerequisite: MRKT 231 with a C or higher. Offered: S.

MRKT 432 - Marketing Management (3)

Studies the marketing function and its relationship to the total business organization and its environment. Emphasis is placed on the design of marketing strategies and systems. This is a case method course with readings from trade and academic journals to enhance understanding. Students learn application of the tools of analysis and critical thinking to the strategic challenges marketers face.

Prerequisite: MNGT 221, MRKT 231, MRKT 332, and either MRKT 331, or MRKT 431, each with a C or higher. Offered: S.

MUSA - MUSIC, APPLIED COURSE DESCRIPTIONS

010-090

MUSA 011-094 - Applied Music for Non-Music Majors (1)

Private instruction for the following instruments: piano, voice, winds, percussion and strings covering stylistic interpretation, performance health, sight-reading and improvisational techniques. One-hour credit will be given based on one 25-minute lesson and four hours practice per week.

Piano MUSA 011
Voice MUSA 025
Flute MUSA 039
Oboe MUSA 043
Clarinet MUSA 048
Bassoon MUSA 054
Saxophone MUSA 058
Trumpet MUSA 062
French Horn MUSA 090
Trombone MUSA 070
Cello MUSA 076
Baritone Horn MUSA 066
Tuba MUSA 094
Percussion MUSA 033
Double Bass MUSA 077
Violin MUSA 074
Guitar MUSA 088
Viola MUSA 075

Prerequisite: By audition only and by permission of instructor. Offered: F, S.

MUSA 311-394 - Applied Music (1 or 2)

Private instruction for the following instruments: piano, voice, winds, percussion and strings covering stylistic interpretation, performance health, sight-reading and improvisational techniques. Students in one-credit sections receive a 25-minute lesson, with the exception of Music Education majors, who receive a 50-minute lesson. All students in two-credit sections receive a 50-minute lesson. Music faculty members adjudicate all Final Examinations.

Piano MUSA 311
Voice MUSA 325
Flute MUSA 339
Oboe MUSA 343
Clarinet MUSA 348
Bassoon MUSA 354
Alto Saxophone MUSA 358
Trumpet MUSA 362
French Horn MUSA 390
Trombone MUSA 370
Baritone Horn MUSA 366
Tuba MUSA 394
Percussion MUSA 333
Violin MUSA 374
Viola MUSA 375
Cello MUSA 376
Double Bass MUSA 377
Guitar MUSA 388

Prerequisite: By audition only and the instructor’s written consent. Offered: F; S.

MUSA MUSA 311T-394T - Applied Music for Music Education Licensure Students (1)

Private Instruction for students in the Music Education Licensure Concentration on the following instruments: piano, voice, winds, percussion and strings, covering stylistic interpretation, performance health, sight-reading and improvisational techniques. This course will also focus on additional performance skills needed by prospective teachers. One-hour credit will be given based on one 50-minute lesson and four hours practice each week. Offered: F or S.

MUSA 365 - Applied Composition (2)

Private instruction for composition covering writing for solo instruments, voice, chamber ensembles, and/or large ensembles. Emphasis on aesthetic choices, melodic forms and organization of musical ideas. Performance of composition projects is integral. Two credit hours = 50 minute lesson.

Prerequisite: By audition only and by permission of instructor; prerequisites are identical to the prerequisites for all MUSA courses. Offered: F OR S.

MUS - MUSIC COURSE DESCRIPTIONS

MUS 015 - University Basketball Band (0 or 1)

The University Basketball Band fosters school spirit at basketball games and other athletic events. The Basketball Band is open to all interested instrumentalists at the university. Admission is by selection of the University Band Staff. Offered: S.

MUS 101 - Student Recitals (0)

Departmental student recitals give students an opportunity to perform for one another and the faculty. Performance Health and Recital Etiquette will be discussed. All students must perform at least once in a recital per semester. Students must successfully pass six semesters of Recital Attendance in order to graduate. Offered: F; S.

MUS 135H - Introduction to Music Literature Honors (2)

A study of music in Western and non-Western cultures through selected masterpieces. Emphasizes perceptive listening by providing an introduction to
the elements of music, a brief survey of historical periods in music, major composers, and the major genres from each period. Designed especially for Honors Program students, offering opportunities for enrichment through independent study, research, analytical thinking, oral reporting, and other special activities. No previous musical knowledge assumed. Emphasizes listening.

Prerequisite: Admission to the University Honors Program or written consent from the Honors Program Director. Offered: S.

MUS 103 - Aural Skills I (1)
Develops ability in sight singing and music dictation, including recognition of intervals and rhythmic, melodic dictation. The course is taken concurrently with MUS 108: Music Theory I.
Prerequisite: Music Theory Placement Exam. Offered: F; S.

MUS 104 - Aural Skills II (1)
A continuation of MUS 103, the course develops aural and visual techniques through ear training, dictation, and sight singing. The course is taken concurrently with MUS 109: Music Theory II.
Prerequisite: MUS 103. Offered: S.

MUS 108 - Music Theory I: Introduction To Functional Harmony (2)
A brief review of the elements of music (notation, meter, and major and minor key signatures) leads to an introduction of the function of primary chords in a tonal context. Skills include analysis and composition of homophonic music using tonic, dominant, and subdominant harmony. The course is taken concurrently with MUS 103: Aural Skills I.
Prerequisite: Music Theory Placement Exam. Offered: F; S.

MUS 109 - Music Theory II: Diatonic Harmony (2)
A study of two-voice counterpoint using a modified species technique develops an understanding of voice leading during the common practice period. The second half of the course completes a survey of diatonic, functional harmony including triads built on all scale degrees and the dominant seventh chord. Skills include analysis and composition of music using all course materials. The course is taken concurrently with MUS 104: Aural Skills II.
Prerequisite: MUS 108. Offered: S.

MUS 110 - Piano Class for Beginners I (1)
Group instruction in beginning piano for music majors whose principal performing medium is voice, or an orchestral or band instrument. Sight-reading and improvisation are included. This course is open to all majors.
Offered: F; S.

MUS 111 - Piano Class for Beginners II (1)
Group instruction in Class Piano II is for music majors whose principal performing medium is voice, or an orchestral or band instrument. Sight-reading and improvisation are included. Continuation of the skills introduced in MUS 110.
Offered: F; S.

MUS 112 - Piano Class for Beginners III (1)
Group instruction in Piano Class III is for music majors whose principal performing medium is voice, or an orchestral or band instrument. Sight-reading and improvisation are included. Continuation of the skills introduced in MUS 111.
Prerequisite: MUS 111 or consent of instructor. Offered: F.

MUS 113 - Piano Class for Beginners IV (1)
Group instruction in Piano Class IV is for music majors whose principal performing medium is voice, or an orchestral or band instrument. Sight-reading and improvisation are included. The final exam in the course is the keyboard proficiency exam for non-piano majors in the Music Education Licensure Program.
Prerequisite: MUS 112 or instructor's written consent. Offered: S.

MUS 115 - Emerging Media in Audio (2)
Technology and MIDI applications including sequencing are introduced; topics include the MIDI language, early synthesizers and the fundamentals of sound synthesis, oscillators, envelope generators, digital synthesizers, and drum machines. Hands-on experiences take place in the music theory lab.
Offered: F.

MUS 116 - Introduction to Music Industry Studies (3)
Examines the overall function and structure of the music industry. Topics include the business of
music, creative rights, publishing, music licensing, music law, arts management, concert promotion, record companies, and marketing. Corresponding activities may include advertising, jingle production, and film music as it pertains to the music industry. Open to all majors.

Offered: F.

MUS 118 - Music Theory Rudiments I (1)
An introduction to the fundamental materials of music theory, including an introduction to music notation, including pitch identification in various clefs, major and minor key signatures, as well as melodic intervals, triads, and meter.

Offered: F; S.

MUS 120 - Introduction to Music Education (1)
An orientation to the field of music education. It is a prerequisite to EDUC 428 and EDUC 429. This course explores the history of music education, careers in music education, and philosophical trends in the field. Students examine the roles of a music teacher; the role and importance of music in society; music advocacy; professionalism of the music educator; music curricula; basic music learning processes; and preparation for Praxis I. Students are expected to demonstrate critical thinking as it relates to the evolution of their personal philosophies regarding music education.

Offered: F.

MUS 123 - Voice Class (1)
A one-semester course instructing singers with little or no formal training in the development of fundamental principles and techniques of singing. Emphasizes correct posture, consistent breath control, a free, yet ringing tone, and diction that is clear and articulate through the performance of selected literature.

Offered: S.

MUS 125 - Introduction to the Recording Studio (3)
Provides an insightful look into modern record production. Students are exposed to recording technology history and current careers. Classes are primarily lecture-oriented with some hands-on experience in the on-campus professional 24-track recording studio. No previous knowledge of audio recording is required.

Prerequisite: MUS 115. Offered: F or S.

MUS 126 - Voice Diction (1)
Required of all vocal majors in the music education licensure program and in the performance concentration. Discussion and practice focus on the fundamentals of correct pronunciation and enunciation for singing in English, Italian, German, and French, utilizing the International Phonetic Alphabet. In-class performance of selected literature is required.

Offered: F.

MUS 135 - Introduction to Music Literature (2)
Study of elements of music and brief historical survey of musical style periods with discussion of major composers and types of compositions written in each. No previous musical knowledge assumed. Emphasizes listening.

Offered: F; S.

MUS 200 - University Marching Band (0 or 1)
This course develops instrumental pedagogy and performance skills of students within the marching band setting. This course will emphasize music and marching maneuvers with a difficulty level of 3 and above. This course is open to students in all majors. Seven contact hours.

Prerequisite: Successful audition before the university band staff. Offered: F.

MUS 201 - University Concert Band (0 or 1)
A continuation of MUS 200 during the spring semester with emphasis placed on the study of light standard band repertoire and the enhancement of students' musicianship.

Prerequisite: Successful audition before the university band staff. Offered: S (Offered on Demand).

MUS 202 - Arts Management (3)
A study of Arts Management, Presentations, and Research Techniques in preparation for the Senior Project. Topics include development, the professional management of arts organizations, foundations, arts education presentations, and research.

Prerequisite: MUS 116, MUS 208. Offered: S (Music Majors Only).
MUS 203 - Aural Skills III (1)
A continuation of MUS 104, adding chromatic lines, modulation and more complex rhythms. It is taken concurrently with MUS 208: Music Theory III.
Prerequisite: MUS 104. Offered: F.

MUS 204 - Aural Skills IV (1)
The course concludes the aural skills sequence, emphasizing more difficult rhythmic and melodic patterns and harmonic dictation.
Prerequisite: MUS 203. Offered: S.

MUS 208 - Music Theory III: Chromatic Harmony (2)
A study of part-writing using chromatically altered chords of the common practice period, the course examines substitutitative harmony, borrowed chords, secondary dominants, augmented sixth chords, and modulation. Includes analysis and composition of music using the course materials. It is taken concurrently with MUS 203: Aural Skills III.
Prerequisite: MUS 109. Offered: F.

MUS 209 - Music Theory IV: Chromatic And Post-Tonal Music (2)
Encompasses analysis and composition of music using techniques first developed in the 20th century, including extended and non-functional tertian harmony, exotic scales and modes, polytonality, quartal harmony and serialism, and an exploration of alternative systems of analysis.
Prerequisite: MUS 208. Offered: S.

MUS 210 - Brass Ensemble (0 or 1)
The study and performance of chamber music for combinations of brass instruments.
Offered: F; S.

MUS 211 - Jazz Theory (2)
Exploration of contemporary diatonic and chromatic chord progression and root motion found in current popular music styles. Focus is on Chord Symbols and Roman Numeral analysis, and principles of chord progressions and linear harmonic continuity. Substitute dominant chords, modulations, and blues progressions. Diminished chord patterns and appropriate substitutions are also examined.
Prerequisite: MUS 108, MUS 109, MUS 208. Offered: S (Offered on Demand).

MUS 212 - The African American in Music (2)
Emphasizes U.S. composers and performers, with a focus on the development and contributions of African American music from the 17th through 21st centuries. Covers the study of spirituals, folk music, ragtime, blues, gospel, jazz, rhythm and blues, rock and roll, and rap/Hip-Hop music.
Offered: F; S; SS (Open to All Majors).

MUS 220 - Woodwind Ensemble (0 or 1)
The study and performance of chamber music for combinations of woodwind instruments.
Offered: F; S.

MUS 221 - String Chamber Ensemble (1)
A study and performance of string chamber ensemble literature.
Prerequisite: Consent of the instructor. Offered: F; S (Offered on Demand).

MUS 230 - Percussion Ensemble (0 or 1)
The study and performance of chamber music for combinations of percussion instruments.
Offered: F; S.

MUS 233 - Afro-Latin-American Percussion (1)
This is a course designed to provide basic technical knowledge and rhythmic understanding of the many authentic popular and commercial performing practices through the study of playing and style techniques associated with the major Afro-Latin-American instruments.
Offered: F; S.

MUS 231 - String Class (1)
Focus is on techniques used in teaching orchestral stringed instruments, including playing and pedagogical techniques appropriate for young players, methods, materials, history, maintenance, and repair.
Prerequisite: Instructor's written consent. Offered: F.

MUS 240 - Collegians (Jazz Ensemble) (0 or 1)
The Collegians Jazz Ensemble is the university's big band musical ensemble dedicated to performing and experiencing jazz. The repertoire includes standard and contemporary jazz literature and provides opportunities for students to learn to improvise. Guitar music majors must take Collegians Jazz
Ensemble as part of the large ensemble requirement. Performances occur on and off campus.

Prerequisite: By audition only and by permission of instructor. Offered: F; S.

**MUS 254 - Audio Engineering I** (2)

Study of recording fundamentals, including the acoustics of sound, microphone design and placement, signal processing, audio console theory, digital signal processing, and basic mixing techniques. Students use the on-campus professional recording studio and music theory lab for individual projects and assignments.

Prerequisite: MUS 125. Offered: F.

**MUS 255 - Audio Engineering II** (2)

Critical listening and multi-track recording techniques such as studio and console set-up, tracking, overdubbing, and mixing will be developed. Students use the on-campus professional recording and music theory lab for individual projects and assignments.

Prerequisite: MUS 254. Offered: S (Music Majors Only or Permission from the Chair).

**MUS 260 - Orchestra** (0-1)

The ensemble studies and performs works representative of a broad spectrum of string orchestra and symphonic orchestra literature. Participation by string majors is required.

Prerequisite: Audition only and by instructor's written consent. Offered: F; S.

**MUS 300 - University Choir** (0 or 1)

A mixed ensemble designed to instill innovative thinking and leadership through the study and performances of diverse choral literature. The ensemble promotes cooperative group effectiveness and utilizes repertoire techniques aimed primarily at performances on and off campus. Five contact hours.

Prerequisite: By audition only and by instructor's written consent. Offered: F; S.

**MUS 301 - Junior Recital** (1)

The final performance requirement for the B.A. in music; Education and Performance majors perform recitals, Composition and Industry Studies students present a creative project that emphasizes the organization of musical ideas into logical homogeneous forms.

Prerequisite: Senior status; Department Chair's written consent and/or Applied Instructor. Offered: F; S.

**MUS 304 - History of Popular Music** (2)

The study of commercial music is presented through the sentimental ballad and popular song as related to music industry development, and to the socio-musical influences of the commercial song from around 1900 to the present. This course will also include a specialty study of Jazz, Rhythm and Blues and their beginnings.

Offered: F; S.

**MUS 305 - Music History I - Early through Classical** (3)

A survey of developments in Western Art Music from its early beginning through 1825. Includes study of styles, forms, contributions of major composers, extensive in-class listening, and study of scores.

Prerequisite: MUS 108 or permission of Chair. Offered: F.

**MUS 306 - Music History II - Classical to Contemporary** (3)

Traces the development of the major forms/genres from 1825 to present, through study of major European and American composers and representative pieces. An introduction to avant-garde techniques as well a variety of music representing various cultures.

Prerequisite: MUS 108 or Department Chair's written consent. Offered: S.

**MUS 307 - A Study of Non-Western Music** (1)

An introduction to the music and characteristics of non-western music. Music in various cultures will be explored. This course is open to all majors.

Offered: F (Open to all Majors).

**MUS 308 - Tonal Counterpoint** (3)

An analysis of contrapuntal writings of the outstanding composers of the 18th century, especially J. S. Bach leads to the distillation of appropriate rules for contrapuntal writing. Involves the writing of counterpoint for two and three voices.

Prerequisite: MUS 208. Offered: F.

**MUS 309 - Form and Analysis** (3)

Presents methods to analyze the structure of various classical forms in music delineated by harmonic,
contrapuntal and textural characteristics. Students write music using a predefined form as the central pre-compositional tool.

Prerequisite: MUS 208. Offered: S.

MUS 310 - Choral Ensemble (0 or 1)
This small ensemble is required of all vocal performance majors and is devoted to vocal performances on and off campus. This ensemble will focus on Patriotic, Broadway, Jazz and Gospel literature. Three contact hours.

Prerequisite: Open by audition. Offered: F; S.

MUS 312 - Orchestration (2)
Study of the art of writing for the orchestra and various instrumental ensembles. Focuses on the instruments, ranges, transpositions and clef notation, timbre, technical limitations, special effects, and the art of combining instrumental colors. Studies include vocal/instrumental arranging, score reading, and transcription.

Prerequisite: MUS 208. Offered: F or S.

MUS 315 - Popular Songwriting (2)
An evaluation of all aspects of songwriting: creating, composing, business aspects, lyric writing and song styles. Music industry perspectives are explored along with discussion on demo production and instrumentation of various musical styles.

Prerequisites: MUS 104, MUS 209 or equivalent; MUS 111 or equivalent.

Offered: On Demand.

MUS 319 - Music Merchandising & Marketing (3)
Covers the techniques and methods of salesmanship and marketing. Focuses on an in-depth examination of the principles of successful music manufacturing, marketing, planning, budgeting, retailing, promoting, and inventory selection.

Prerequisite: Junior status, MUS 202, MUS 209. Offered: F (Music Majors Only).

MUS 321 - Music Multimedia Applications (2)
An introduction and overview of the creation of multimedia projects for digital presentations. Students will be introduced to sound design for radio, foley studios, automatic dialogue replacement (ADR), sound effects for video, spotting cues, video editing and DVD creation, and synchronization.

Prerequisite: MUS 115, MUS 125 or the instructor's written consent. Offered: S.

MUS 322 - Chamber Music Literature for Strings (1)
An historical study of chamber music literature for strings alone, strings with keyboard, and strings with other instruments from Baroque through the contemporary.

Prerequisite: Instructor's written consent. Offered: F; S.

MUS 338 - Conducting (1)
Basic technical problems involved in conducting and interpreting instrumental and choral music are explored. Practical experiences are provided.

Prerequisite: MUS 208 or consent of Department Chair. Offered: S.

MUS 345 - Brass Class (1)
Focuses on brass pedagogy for young players. Topics may include performance, methods, materials, history, maintenance, and repair.

Prerequisite: Instructor's written consent. Offered: S (Music Majors Only).

MUS 346 - Woodwind Class (1)
This course examines the technique of teaching woodwind instruments, including playing and pedagogical techniques appropriate for young players, methods, materials, history, maintenance and repair.

Offered: F (Music Majors Only).

MUS 347 - Percussion Class (1)
The techniques of teaching percussion instruments, including playing and pedagogical techniques appropriate for young players, methods, materials, history, maintenance, and repair.

Offered: F (Music Majors Only).

MUS 357 - String Pedagogy (1)
A study of current and historical pedagogy concepts, materials, and techniques for teaching beginning through advanced string students in a private studio setting.

Prerequisite: Department Chair's written consent. Offered: F; S (Music Majors Only; Offered on Demand).
MUS 360 - Digital Audio Technology (2)
The principle of digital audio and its application in the current recording industry is discussed including digital audio fundamentals, recording and reproduction systems, and digital media encompassing compact disc, optical disk, mastering software and digital interfaces.
Prerequisite: MUS 125 and MUS 254. Offered: F (Music Majors Only).

MUS 400 - Senior Recital/Project (1)
This is the final performance/project requirement for the B.A. in Music. Education and Performance majors perform on recitals, and Composition and Industry Studies students present a creative project that emphasizes the organization of musical ideas into logical homogeneous forms. General (Liberal Arts) music students may perform on a recital or present a project.
Prerequisite: Senior status; Department Chair and/or Applied Instructor's written consent. Offered: F; S.

MUS 401 - University Symphonic Wind Ensemble (0 or 1)
The University Symphonic Wind Ensemble is a select ensemble of musicians, dedicated to a rigorous curriculum, excellent performances and diverse repertoire encompassing a wide variety of styles and composers. Membership is determined by audition and is open to all majors. Six contact hours.
Offered: F; S.

MUS 417 - Music Industry Internship (3)
A six-week internship in the music industry studies field.
Prerequisite: Senior status, the Music Industry Studies Instructor and the Department Chair's written consent. Offered: F; S; SS (Music Majors Only).

MUS 428 - Piano Literature (1)
Composers, forms and styles of literature for piano and its ancestors from 17th century to present are studied. Audiovisual experiences are provided.
Prerequisite: MUS 306 or Department Chair's written consent. Offered: (Offered on Demand).

MUS 429 - Piano Accompanying (1)
Techniques in the art of piano accompanying. Practical experiences in sight-reading and transposition along with accompanying soloists and various combinations of voices are examined. May be repeated for credit.

MUS 430 - Piano Pedagogy (1)
Emphasizes piano teaching problems and methods and materials used in teaching the instrument. Practical experiences in giving piano instruction to pupils at various levels of advancement are included.

MUS 431 - Music Business Seminar (3)
An advanced practicum that examines principles and practices of the music business. Topics include copyright, publishing, licensing, royalties, artist management, venue management, concert promotion, production and practices associated with the arts, including board development, fund raising, and grant writing.

MUS 435 - Special Topics in Music Education (1-2)
This course focuses on one or more chosen music topics in Music Education.
Prerequisite: Junior or Senior status; consent of Department Chair. Offered: F; S; SS.

MUS 436 - Special Topics in Music Business (1-2)
This course focuses on one or more chosen music topics in Music Business.
Prerequisite: Junior or Senior status; Department Chair's written consent. Offered: F; S; SS.

MUS 437 - Special Topics in Sound Recording Technology (1-2)
This course focuses on one or more chosen music topics in Sound Recording Technology.
Prerequisite: Junior or Senior status; Department Chair's written consent. Offered: F; S; SS.

MUS 438 - Special Topics in Music with Emphasis in Performance (1-2)
This course focuses on one or more chosen music topics in either Performance.
Prerequisite: Junior or Senior status; Department Chair's written consent. Offered: F; S; SS.

MUS 439 - Special Topics in Music with Emphasis in Composition (1-2)
This course focuses on one or more chosen music topics in Composition.
Prerequisite: Junior or Senior status; consent of Department Chair. Offered: F; S; SS.

MUS 440 - Independent Study (1-3)

Individual study or research under the guidance of a music faculty member is required. The Department Chair must approve the study plan.

Prerequisite: Senior Status. Offered: F; S; SS (Music Majors Only).

MUS 446 - Instrumental Techniques and Conducting (1)

Addresses methods of directing ensemble management, pedagogical practices and selection of literature and materials. Conducting experiences are provided.

Prerequisite: MUS 338. Offered: F.

MUS 447 - Choral Techniques and Conducting (1)

A cappella and accompanied literature for youth and adult choirs are examined. Conducting, styles and interpretation, development of tone, vocal problems, rehearsal procedures, and program building are discussed. Practical experiences are provided.

Prerequisite: MUS 338. Offered: F.

MUS 454 - Studio Production Seminar (2)

An advanced studio practicum integrating student-recording projects with discussion on advanced audio production techniques, audio and video production, and critical reviews of recordings from the 1940s to present day. Students plan, organize, budget, produce, and engineer a recording project. Emphasizes meeting current industry standards in artistic and technical proficiency. A studio project is required.

Prerequisite: MUS 254, MUS 255. Offered: F (Music Majors Only).

Ensemble

MUS Ensemble - (Small or Large) (1)

Participation in all musical ensembles is by audition only. Ensembles may be repeated for credit.

PE - PHYSICAL EDUCATION COURSE DESCRIPTIONS

KIN 200 - Theory of Coaching Football (3)

Defensive and offensive strategies. Emphasizes team conditioning, care and purchase of equipment, and public relations. Open to all students.

Offered: F; S.

KIN 201 - Coaching Basketball (3)

Fundamental concepts of coaching basketball. Emphasizes offensive and defensive play, playing strategies, team conditioning, and learning rules. Open to all students.

Offered: F; S.

KIN 206 - Coaching Baseball/Softball (2)

Fundamental knowledge needed to coach basketball and softball. Emphasizes team organization, basic techniques, terminology, player selection, and game strategies. Open to all students.

Offered: S.

KIN 210 - Applied Anatomy and Physiology (3)

Survey of the interrelationships between specialized human body structures and their functions. Emphasizes skeletal, muscular, respiratory, circulatory, and nervous systems. Offered for Physical Education majors. Lecture: three hours.

Prerequisite: GE 155 and GE 155L. Offered: F.

KIN 210L - Applied Anatomy and Physiology Lab (1)

Laboratory investigations which stress anatomical and physiological aspects of humans. Laboratory: one hour.

Prerequisite: GE 155 and GE 155L. Offered: F.

KIN 216 - Elementary Physical Education (3)

Introduces prospective physical education teachers to the unique needs and characteristics of young children in grades K-6. Special emphasis is placed on developmentally appropriate practice for educating students about motor skills, movement concepts, physical activity, fitness, personal and social responsibility, and valuing physical activity.

Offered: Spring.

|             | Students will be introduced to the principles of curriculum design and assessment techniques in Physical Education and Health. Major emphasis will
be placed on planning, organization, implementation and evaluation of educational lessons.

Offered: Fall.

KIN 383 - Aquatic & Fitness Instruction (3)

Emphasizes endurance swimming, water activities, games and sports to develop a cardiovascular fitness program in aquatics. Required for all PE majors entered into the Aquatic Fitness Track. Open to all students.

Prerequisite: GE 175. Offered: S; SS.

KIN 388 - Lifesaving (3)

Provides an opportunity to develop skills and knowledge in water safety swimming and rescue techniques that will enable students to save themselves and others in the event of accident. An elective course for the general student body that can be used to meet the physical education requirements in General Education.

Prerequisite: GE 175 or Department Chair's written consent. Taught by ARC guidelines. Offered: F; S.

KIN 390 - Water Safety (3)

Provides students with theory and practice in the use of methods, materials, and techniques in teaching swimming. Required course for students in the Aquatics Fitness track. Open to other students. Taught according to ARC guidelines.

Prerequisite: PE 388 or Teacher's written consent. Offered: F; S; SS.

KIN 401 - Motor Learning and Motor Behavior (3)

Basic concepts underlying motor learning including neurophysical bases, feedB.A ck, perception, and other factors influencing rate, behavior, and amount of learning. Normally taken during the senior year, it is required of all Physical Education majors.

Prerequisite: BIOL 306, PE 382, PE 370, and PE 300. Offered: F; S; SS.

KIN 403 - Research in Physical Education (3)

Conducting and evaluating research as an independent study opportunity on special problems or issues relating to physical education or other areas of interest. For individuals needing elective or refresher credits.

Prerequisite: Instructor's written consent. Open to all students. Offered: F; S; SS.

KIN 407 - Group Exercise Instruction (3)

Provide practical experiences in teaching group fitness exercises, including hi/lo, step, interval, and resistance training. Ace certification exam prep.

Offered: Fall.

KIN 416 - Advanced Kinesiology and Biomechanics (3)

This course bridges the gap between knowledge gained in curriculum coursework and practically applies that knowledge into the skills necessary to obtain a certification in personal training. It delves deeper into anatomy, kinesiology, and biomechanics correlating theory into safe and effective resistance training programs. Successful completion of this course will prepare the student for passing a national certification exam in personal training.

Prerequisite: PE 210/L or BIOL 207, PE 300, PE 370. Offered: S.

KIN 447 - Exercise Prescription and Testing (3)

Required course for all PE majors, to reinforce the basic principles of exercise physiology and to acquire skills necessary for exercise testing and conducting fitness assessments to be used for writing exercise prescriptions based on the needs of the individual. A three hour lab accompanies this course.

Prerequisite: BIOL 306, BIOL 307; PE 300. Offered: F.

KIN 447L - Exercise Prescription and Testing Lab (1)

Required course for all PE majors, to reinforce the basic principles of exercise physiology and to acquire skills necessary for exercise testing and conducting fitness assessments to be used for writing exercise prescriptions based on the needs of the individual. This is a three hour lab which accompanies the three (3) credit course PE 447.

Prerequisite: BIOL 306, BIOL 307; PE 300. Offered: F.

KIN 470 - Adapted Physical Education (3)

The Capstone course for Teaching Physical Majors. Assists the physical educator in developing skills and adaptive behaviors needed to determine and integrate the appropriate mechanics needed to maximize student potential. Normally taken during the junior year, it is required of all Physical Education majors. Open to all students.

Offered: S; SS.
KIN 471 - Professional Seminar In Health Care Management (3)
Provides opportunity to identify and discuss common problems and possible solutions of current and emerging challenges in organizing and financing the managerial functions in health care, more specifically, physical and occupational therapy.
Prerequisite: Restricted to students who are enrolled in the internship course (PE 495) or have the instructor's written consent. Offered: F.

KIN 478 - Swimming Pool Operation and Maintenance (3)
This course is designed to teach students essential information and knowledge about swimming pool operation and management that will enable them to properly maintain and operate and aquatics facility. There is an option to earn certification through the American Swimming Pool & Spa Association. This certification is an optional extra charge of $35.00. You must earn a 70% or higher on the American Swimming Pool & Spa Association standardized test to earn your certification. Course assignments, points, and schedule are subject to change however the course grading scale will always coincide with the ECSU 10% grading scale.

KIN 491 - Independent Study (1)
Individual study or research under direction of a faculty member. Study plan must be approved by the department chair.
Prerequisite: Consent of instructor.

KIN 492 - Independent Study (2)
Individual study or research under direction of a faculty member. Study plan must be approved by the department chair.
Prerequisite: Consent of instructor.

KIN 493 - Independent Study (3)
Individual study or research under direction of a faculty member. Study plan must be approved by the department chair.
Prerequisite: Consent of instructor.

KIN 495 - Practicum In Physical/Occupation Therapy (8)
Supervised field placement in a health care institution under a qualified PT, OT, or physician for a minimum of 125 hours. An additional 75 hours will be spent in a health care facility related to the student's career interest.

KIN 496 - Supervised Field Work In Coaching and Officiating (8)
Practical experience in coaching on the club level for 100 hours or the equivalent subject to the discretion of the site supervisor. An additional 100 hours will be spent officiating seasonal sports on an intramural varsity or club level under a certified official or supervisor.
Offered: F; S; SS.

KIN 499 - Aquatic & Fitness Internship (8)
A supervised field experience of 200 hours in applied commercial or institutional private fitness centers.
Prerequisite: Teacher's written consent. Offered: F; S; SS.

PESM - SPORT MANAGEMENT COURSE DESCRIPTIONS

PESM 110 - Introduction to Sport Management (3)
Introduces the sports industry, different kinds of opportunities involving sports, and the economical impact of sports in the world and America in particular.

PESM 210 - Introduction to Sport Sociology (3)
Introduces the concept of sport sociology. Considers the culture of sports, sport and socialization, sport and politics, religion and sport, sport education, and social change.

PESM 211 - Introduction to Sport Psychology (3)
Studies the psychological factors which impact behavior in management skills. Includes an analysis of learning process, motivation, adjustments, perception, memory, cognition, and behavior.

PESM 300 - Sport Finance (3)
Provides an introduction to financial strategies related to sport entities and organizations.

PESM 310 - Sport Management Practicum (3)
Provides majors with hands-on experience in an area of sport management. Selected off-campus experiences in physical education, leisure activities, and sport programs that will enable students to become more actively involved with field-based professionals.
Prerequisite: Permission of the instructor, Junior standing.

PESM 311 - Sport Marketing and Promotion (3)
Examines competitive market strategies as they apply to the sport industry. Emphasizes the relationship between sport products and sport markets.

Prerequisite: Junior standing.

PESM 312 - Legal Issues of Sport/Rec (3)
Introduces the legal structures, major laws, regulations, and precedents in law in amateur athletics, professional sports, and recreational sport programs.

PESM 313 - Governance in Sport (3)
Topics and issues involve the organizational theory, behavior, and structure of various sport organizations. Examines the evolution of power and political activity engulfing sport organizations. Concepts on leadership and management related to the sport industry are presented.

PESM 410 - Organization and Management (3)
Provides majors with comprehensive and contemporary information as it applies to managing sport organization. Emphasizes human resource management, supervision, program development, and office management.

PESM 411 - Facilities Management (3)
Presents the guidelines for designing, constructing, maintaining, scheduling, and managing an athletic facility. Emphasizes the factors involved in obtaining, running, and managing athletic events.

PESM 415 - Sport Sponsorship (3)
Provides a detailed examination of the relationship between sport and corporate sponsorship. P

Prerequisite: Junior standing.

PESM 416 - Sport Management Internship (8)
Supervised field placement in an approved sport-related agency. Interns work under the direction of an assigned site supervisor in their respective area of emphasis.

Prerequisite: Senior standing, and completion of all required courses in their area of concentration.

PHIL - PHILOSOPHY COURSE DESCRIPTIONS

PHIL 250 - Introduction to Philosophy (3)
Introductory study of core topics of philosophical concerns, human knowledge, the world, God, human freedom, morals, and politics to develop philosophic interests and skills in analysis of concepts basic to value decisions in education, art, religion, and life.

Prerequisite: No prerequisite. Offered: F, SS.

PHIL 251 - Social and Political Philosophy (3)
Contemporary and traditional problems concerned with moral evaluation of political power; individual rights, social responsibility, legal and civil authority, civil disobedience, war, and peace.

Prerequisite: No prerequisite. Offered: S.

PHIL 252 - Critical Thinking and Logic (3)
Introduction to the principles of critical reasoning and argumentative skills. Emphasizes evaluation of arguments, identification of logical fallacies, deductive inference, and elementary symbolic logic. These skills help students prepare for post-graduate standardized tests, such as GRE, LSAT, GMAT, and MCAT.

Prerequisite: No Prerequisite. Offered: F.

PHSC - PHARMACEUTICAL SCIENCE COURSE DESCRIPTIONS

PHSC 201 - Foundations of Pharmaceutical Sciences (3)
The course will give students overview of the major and basic knowledge and foundation for the curriculum. Students will be exposed to the principles, methods and strategies employed in solving mathematical problems in pharmacy and pharmaceutical sciences. Students will explore different career options in pharmaceutical sciences and pharmacy.

Offered: S.

PHSC 300 - Principles of Pharmacology I (3)
Provides an introduction to the principles of toxicology and drug therapy, including safety, management of medication administration, drug actions, adverse drug reactions, and patient dosing
(receptors, pharmacodynamics, pharmacokinetics, biotransformation, and toxicology, etc.).

Prerequisite: BIOL 215. Offered: S.

PHSC 302 - Principles of Pharmacology II (3)
Focuses on the key concepts in relation to cellular actions, therapeutic uses, side effects, and toxic actions of specific drug classes used in humans. An in-depth understanding of how various drugs exert beneficial therapeutic and adverse actions as well as drug interactions and the risks associated with drug abuse will be discussed in details.

Prerequisite: PHSC 300.

PHSC 320 - Pharmaceutical Analysis/L (3)
Focus on modern methods used in analyzing drugs and drug products that are routinely encountered in the pharmaceutical industries and research laboratories. Techniques include UV/Visible spectroscopy, mass spectroscopy, NMR, gas chromatography, HPLC, and capillary electrophoresis etc.

Prerequisite: CHEM 302/CHEM 302L. Offered: S.

PHSC 321 - Pharmaceutical Analysis II/Lab (4)
Focuses on the characterization of drug and drug products commonly encountered in the pharmaceutical laboratories using advanced analytical techniques. The laboratory experiments provide students with hands-on experience in drug analysis and competency in various analytical skills.

Prerequisite: PHSC 320. Offered: S.

PHSC 355 - Healthcare Informatics (2)
Introduction to Healthcare Informatics, broadly construed. Healthcare Informatics studies the organization of medical information, the effective management of information using computer technology, and the impact of such technology on medical research, education, and patient care.

Prerequisite: CSC 115. Offered: F, S.

PHSC 360 - Pathophysiology (3)
Designed to introduce the student to altered physiologic concepts affecting individuals and the biologic basis for disease. The course begins with the basics of cellular biology, cancer, the infection process, and the immune system. A focus on specific body systems and common disorders will be covered.

Prerequisite: PHSC 300. Offered: F, S.

PHSC 370 - Genomics & Proteomics (3)
Fundamentals of Genomics and Proteomics. Specifically, linkage and SNP analyses (DHPLC, micro sequencing, 3rd wave), and statistical and computational aspects of linkage and association, as well as automated sequencing, high throughput fluidics, genomics database resources and use will be covered. Topics in expression profiling including Affymetrix chip arrays, and spotted cDNA and oligonucleotide arrays as well as manipulation of large data sets in expression profiling will be discussed. Proteomics is the large-scale study of proteins, their partners and post-translation modification such as phosphorylation, glycosylation, and sulphation as well as other modifications that can determine activity, stability, localization and turnover protein function.

Prerequisite: CHEM 401/CHEM 401L. Offered: F; S.

PHSC 380 - Drug Discovery, Design & Development (4)
Covers the principles of how new drugs are found with emphasis on the drug discovery pipeline, target identification, screening methodologies and assays, mechanism-based design, structure-based design, in vitro and in vivo testing, chemical analogs and development issues. Connections to genomics, bioinformatics, pharmacokinetics and pharmacodynamics, immunology and parasitology will be explored and appropriate health science, pharmaceutical industry and clinical issues will be discussed.

Prerequisite: CHEM 302/CHEM 302L. Offered: F; S.

PHSC 401 - Drug Regulatory Affairs (2)
Provides a general introductory overview of the key role that Regulatory Affairs plays in a pharmaceutical company's launching of new drugs in the market. The laws, regulations, policies and procedures, and the FDA's Standard operating procedures (SOP's) that the FDA issues to drug companies to better understand FDA's expectations.

Prerequisite: PHSC 380. Offered: F, S.

PHSC 402 - Basis Pharmaceutics with Lab (4)
Introduces the student to the principles and technologies that are applied in the preparation of pharmaceutical dosage forms and drug delivery systems. It covers the design, preparation, properties,
stability, and evaluation of solutions, semisolids dispersions, and solid dosage forms. It also covers the characteristics and use of excipients. Three hours of lecture. Three hours of lab per week.

Prerequisite: PHSC 210. Offered: F, S.

PHSC 403 - Pharmaceutical Biochemistry I (3)
Focuses on the basic principles of protein structure and function, and an introduction to molecular mechanisms of drug action. Review of key concepts in general and organic chemistry, properties of drugs, amino acid, protein structure, enzyme function (catalysis), carbohydrates and their metabolism, electron transport and some regulatory mechanisms will be discussed.

Prerequisite: CHEM 302.

PHSC 404 - Pharmaceutical Biochemistry II (3)
Focuses on the structure and function of biological membranes, metabolism of lipids, amino acids, nucleic acids, and some regulatory mechanisms. Selected human disease states, their biochemical origins, and pharmaceutical treatment are also discussed in relation to all of the above, when applicable.

Prerequisite: PHSC 403.

PHSC 410 - Clinical Trials Management & Research Methods (3)
Introduces students to the three phases of clinical trials involved in drug development; development of research questions, basic elements of experiments and researches involving human subjects, government and institution mandated protocols, clinical trials methodology and practical and theoretical overview of the principles of managing and monitoring clinical trials.

Prerequisite: PHSC 380. Offered: F; S.

PHSC 420 - Biopharmaceutics/Pharmacokinetics (3)
Introduces students to the following: routes of drug administration, absorption, distribution, metabolism, and excretion (ADME) and the concepts of bioequivalence, bioavailability, half-life, and drug product testing. Quantitation of factors affecting the ADME and mathematical models to calculate the rates of drug and metabolite concentrations will be introduced.

Prerequisite: PHSC 210. Offered: F, S.

PHSC 422 - Methods in Biotechnology/L (4)
Uncovers present fundamental concepts in applied biotechnology, laboratory skills, exploratory data analysis, safety, and ethics.

Prerequisite: PHSC 404. Offered: F.

PHSC 430 - Ethics in Biomedical Research (1)
Discusses a comprehensive analysis of the major ethical issues raised by scientific research on animal and human subjects. It will emphasize emergence of an international dialogue about research resulted in the adoption of extensive official policies on a broad set of ethical issues. Cases will be discussed.

Prerequisite: PHSC 451. Offered: F, S.

PHSC 432 - Advanced Medicinal Chemistry (3)
Focuses on applications of foundational concepts of drug chemistry. Discusses chemical and pharmaceutical features of drugs and targets by evaluating molecular basis of actions from representative drug classes. Fundamental concepts in contemporary medicinal chemistry including computational chemistry and combinatorial/parallel methods of synthesis are covered in this course.

Prerequisite: CHEM 430.

PHSC 451 - Independent Research I (1)
Faculty supervision of students in research related to pharmaceutical sciences. Open to Junior students that have the ability to carry-out independent work in the laboratory. Laboratory: one hour and additional lab time scheduled as necessary.

Prerequisite: PHSC 380. Offered: F, S.

PHSC 452 - Independent Research II (1)
Faculty supervision of students in research related to pharmaceutical sciences. Laboratory: one hour and additional lab time scheduled as necessary.

Prerequisite: PHSC 451. Offered: F, S.

PHSC 453 - Independent Research III (1)
Faculty supervision of students in research related to pharmaceutical sciences. Laboratory: one hour and additional lab time scheduled as necessary.

Prerequisite: PHSC 452. Offered: F, S.

PHSC 460 - Clinical Technology (2)
Covers major types of clinical information technology with a focus on practical issues in design,
implementation, enterprise integration, and iterative refinement in clinical care delivery settings. These systems include the electronic medical record (EMR), Computerized Practitioner Order Entry (CPOE), Clinical Decision Support Systems (CDSS), Clinical Data Repository (CDR), and ancillary systems (e.g., PACS, Pharmacy, Lab). This course will train how to operate, calibrate and manage the technology, equipment, and instrumentation used in clinical settings. The course will provide Hands-on experience in a hospital or clinic with equipment used with Intravenous dosing, drug calculations and measurement, palm pilots, etc.

Prerequisite: PHSC 210. Offered: F; S.

PHS 498 - Scientific Communication/Capstone Seminar (3 credits)

Designed to evaluate a student's accumulated knowledge, abilities, and skills in the major. Course content focuses on recent advances in pharmaceutical sciences research with strong emphasis on student participation and general discussion.

Offered: F, S.

PHS - PUBLIC HEALTH COURSE DESCRIPTIONS

PHS 110 - Introduction to Public Health (3)

Study of the field of public health, covering a broad spectrum of community health services concerned with personal and environmental factors affecting the health status of individuals and populations.

Prerequisite: No Prerequisites. Offered: F; SS.

PHS 210 - Community Health, Safety, and Disease (3)

Health, safety, and disease trends and challenges in various communities. This course requires students to study and research in diverse or unfamiliar communities via direct experiences.

Prerequisite: Recommended prerequisites: Any physical, natural, or social science course. Offered: S; SS.

PHS 310 - Environmental Health and Sanitation (3)

Air, water, soil, on-site sewage, radiation, consumer product safety, occupational health, transportation safety, hearing and sight, waste water, housing, ergonomics, disease transmission, disaster preparedness and response, and portable toilets. Participation in direct experiences is required.

Prerequisite: PHS 110 or PHS 210. Can be taken concurrently with PHS 110. Offered: F; SS.

PHS 322 - Principles of Epidemiology (3)

Covers basic epidemiological principles, concepts and procedures and provides a basis for an understanding of the concepts and methodological skills necessary for designing and interpreting observational studies. These include validity (random error, bias and confounding), measures of disease occurrence and impact, measures of association, reliability and generalizability, causal inference, and critically reviewing evidence.

Offered: S.

PHS 410 - Terrorism, Disasters, and Epidemics (3)

Terrorism, disasters, and epidemic events are reviewed. Topics: Response roles of health professionals, health facility surge capacities, community resiliency, planning and mitigation strategies at policy and operational levels. Students complete incident command training en route. A project incorporating diverse communities is required. Can be taken concurrently with PHS 210.

Prerequisite: PHS 110 or PHS 310 or Instructor Approval. Offered: S; SS.

PHS 420 - Local Public Health Agency Field Experience (3)

Placement in a local public health agency of the student's choice. Each student assists in the development of his or her placement which reflects the student's particular areas(s) of interest.

Prerequisite: Consent of instructor and participating agency and completion of the PHS series: PHS 110, PHS 210, PHS 310, and PHS 410. Offered: F; S; SS.

PHS 421 - State PHS Agency Field Experience (3)

Placement in a state public health related agency of the student's choice serving health, safety, or sanitation needs of a targeted population. Each student assists in the development of his or her placement which reflects the student's particular areas(s) of interest.

Prerequisite: Written consent of instructor and participating agency, completion of 12 hours of Public Health courses. Offered: F; S; SS.
PHS 422 - Federal PHS Agency Field Experience (3)
Placement in a Federal public health related agency of the student's choice serving health, safety, or sanitation needs of a targeted population. Each student assists in the development of his/her placement which reflects the student's particular areas(s) of interest.
Prerequisite: Consent of instructor and participating agency, completion of 12 hours of Public Health courses. Offered: F; S; SS.

PHS 423 - Non-Profit Organization Field Experience (3)
Placement in a nonprofit organization of the student's choice serving health, safety, or sanitation needs of a targeted population. Each student assists in the development of his/her placement which reflects the student's particular areas(s) of interest.
Prerequisite: Consent of instructor and participating agency, completion of 12 hours of Public Health courses. Offered: F; S; SS.

PHS 424 - Private Corporation PHS Field Experience (3)
Placement in a private corporation of the student's choice serving health, safety, or sanitation needs of a targeted population. Each student assists in the development of his/her placement which reflects the student's particular areas(s) of interest.
Prerequisite: Consent of instructor and participating agency; completion of 12 hours of Public Health courses. Offered: F; S; SS.

PHS 425 - International PHS Field Experience (3)
Placement abroad through an international agency of the student's choice serving health, safety, or sanitation needs of a targeted population. Each student assists in the development of his/her placement which reflects the student's particular areas(s) of interest. Requirements: valid passport, updated and complete immunization record, ECSU travel waiver, life insurance, international travel insurance, demonstrated cultural familiarity, and demonstrated commitment toward promoting improvements in health, safety, and sanitation in diverse communities.
Prerequisite: Written consent of instructor and participating agency, completion of 12 hours of public health courses. Offered: F; S; SS.

PE - PHYSICAL EDUCATION COURSE DESCRIPTIONS

PE 160 - Basketball (1)
Focuses on the essential skills and techniques of basketball, as well as the fundamentals of the game. An elective course for the general student body that can be used to meet the Physical Education requirements in General Education.
Offered: F; S.

PE 161 - Dance (Elementary Modern) (1)
Designed to develop creativity, strength, coordination, and flexibility through Modern Dance. Dance techniques, spatial relationships and design, dynamic and movement qualities are explored in order to enhance the student's understanding of dance as an art form. This is an elective course for the general student body that can be used to meet the Physical Education requirements in General Education.
Offered: S.

PE 163 - Golf (1)
Designed to acquaint students with history, relevant terminology, and rules of golf. Equips the student with fundamental skills of scoring, playing, and strategies of golf. This elective course for the general student body can be used to meet the Physical Education requirements in General Education.
Offered: F; S.

PE 164 - Jogging (1)
Assists students interested in developing a personalized conditioning program and better fitness for health through jogging. This elective course for the general student body can be used to meet the Physical Education requirements in General Education.
Offered: F; S.

PE 168 - Volleyball (1)
Broadens the scope of knowledge about skills and techniques of the sport as well as to develop the spirit of fun, good fellowship, and sportsmanship. This course is open to all students. One semester hour of credit. This course can be used to meet the Physical Education requirements in General Education.
Offered: F.

**PE 169 - Weight-Training (1)**

A controlled program of weight-training exercises for students interested in developing individualized programs for fitness and strength improvements. This course is a part of the General Education sequence and may be used to fulfill the Physical Education requirements.

Offered: F; S.

**PE 172 - Badminton (1)**

Designed for beginning players. Covers beginning skills and knowledge that will enable one to be proficient in the game. This elective course for the general student body meets Physical Education requirements in the General Education Program.

Offered: F.

**PE 173 - Swimming I (1)**

Beginning swimming, elementary techniques, and safety procedures. Develops basic water safety skills and knowledge. This course or its equivalent is required of all Physical Education majors. This is elective course for the general student body can be used to meet the Physical Education requirements in General Education.

Offered: F; S; SS.

**PE 174 - Swimming II (1)**

Provides an opportunity to develop skills in breath control, rhythmic breathing, survival floating, treading, changing positions, elementary backstroke, crawl stroke, diving, and underwater swimming. This elective course for the general student body meets the physical education requirements in General Education.

Prerequisite: GE 173 or instructor's written consent.

Offered: F; S; SS.

**PE 175 - Intermediate Swimming (1)**

Provides opportunities to learn the elements of good swimming by providing a wide variety of strokes, treading, sculling, underwater swimming, and basic elements of rescue. This is an elective course for the general student body but a physical education requirement for majors.

Prerequisite: GE 174 or consent of the instructor.

Offered: F; S.

**PE 180 - Bowling (1)**

Develops skills in scoring, ball selection and grip, approaches, releases, methods of aiming, and the etiquette of bowling. This elective course for the general student body can be used to meet the physical education requirements in General Education.

Offered: F; S.

**PE 183 - Beginning Tennis (1)**

Familiarizes students with basic rules, regulations, and skills necessary to enjoy tennis as a recreational activity. Instruction includes proper grips, forehand and backhand strokes, and the serve. This elective for the general student body meets the physical education requirement for the General Education Program.

Offered: F; S; SS.

**PE 184 - Dance (Folk and Square) (1)**

Enhances the student's physical, cognitive, and social development through folk and square dance. History, terminology, and dance steps used in American square dance and international folk dance. This elective course for the general student body can be used to meet the Physical Education requirements in General Education.

Offered: S.

**PE 186 - Exercise and Health-Related Fitness (1)**

Develops knowledge and skills toward the attainment of physical fitness through appropriate, regular exercise, nutrition, stress management, weight control, good posture, and body mechanics. This course is required of all Physical Education majors and is an elective course for the general student body that can be used to meet the Physical Education requirements in General Education.

Offered: F; S.

**PE 187 - Intermediate Tennis (2)**

Develops a high degree of efficiency in advanced skills and strategies. Skill instruction includes volley, lob, drop, smash, and half-volley shots. Advanced students should know strategy and tactics for rallies, games, sets, and matches, along with developing single and double elimination tournaments.

Prerequisite: GE 183 or instructor's written consent.

Offered: F; S.
PE 191 - Racquetball (1)
Develops the basic knowledge, skills, strategy, and safety practices of racquetball. Instruction includes lecture, demonstration, practice, and competition. This elective course for the general student body can be used to meet the Physical Education requirements in General Education.
Offered: F; S; SS.

PE 193 - Modified Dance (1)
PE 195 - Outdoor Activities (1)
Promotes knowledge and skills of contemporary recreational outdoor leisure activities such as hiking, orienteering, cycling, tubing and rafting, canoeing, and camping. Emphasizes noncompetitive activities suitable for participation throughout life. This course is required of all Physical Education majors. This is also an elective course for the general student body that can be used to meet the Physical Education requirements for General Education.
Offered: F.

PE 199 - Lifetime Physical Activity (1)
The Lifetime Physical Activity course is designed to provide students with the knowledge and information necessary to lead a physically active lifestyle through goal setting, physical activity participation, and activity tracking. This course is delivered online and students must purchase a wearable accelerometer to complete the course work.
Offered: F, S.

PE 208 - Step Aerobics (2)
Provides a cardio-respiratory workout using muscles that are utilized in basic locomotor movements and various step-and-arm combinations to develop flexibility, strength, and muscular endurance. Low-impact or high-impact routines adjusted to music for the release of emotional and mental tension. This course is required of all majors in Physical Education.
Prerequisite: GE 173. Open to all students. Offered: F; S; SS.

PE 209 - Water Aerobics (2)
Provides choices for exercisers who benefit from water buoyancy, which reduces joint stresses associated with weight-bearing exercise. Emphasizes adapting land-based aerobics to water as well as familiarizing students with the psychological benefits of water aerobics.
Prerequisite: Teacher's written consent. Offered: S; SS.

PE 274 - Fundamentals of Self Defense (1)
Required course in martial arts for physical education majors. Open to all students.
Offered: F; S.

PE 276 - Taekwon-Do (1)
Required Course for physical education majors. Open to all students.
Offered: F; SS.

PE 279 - Pilates (1)
Introduction to the beginner and intermediate mat Pilates method of body conditioning. Pilates mat work emphasizes core musculature as it applies to everyday movement. Introduces a series of low impact resistance-based conditioning exercises designed to develop core strength, posture, breath control, body alignment, and flexibility. Benefits include balance, body awareness, injury prevention, stress reduction and increased self-confidence. No previous movement experience required.
Offered: F; SS.

PE 302 - Movement Education (2)
Required for Elementary Education majors (K-6). Designed to identify structure of the foundational knowledge of movement and the process of becoming physically educated. Emphasizes selection of material, teaching, and skill development of K-6 students.
Offered: F; S.

PE 363 - Group Games and Rhythms (1)
Focuses on the role of physical education in the lives of elementary school children (grades K-6) and the responsibilities of the teacher. Special attention is given to the characteristics of elementary school children and how physical education meets the needs as expressed by these characteristics. Emphasizes activities meeting the needs at the elementary level (grades K-6) in the areas of group games and rhythms. Usually taken in the junior year by Physical Education majors as well as Elementary Education (grades K-6) majors.
Offered: F; S.

PE 381 - Sports Officiating II in Football & Basketball (3)
The psychology and techniques of officiating. Mastery of knowledge of the rules will be required on a written test and in a practicum situation. Open to all students.

Offered: F; S; SS.

PE 471 - Professional Seminar in Health Care Management
Provides opportunity to identify and discuss common problems and possible solutions of current and emerging challenges in organizing and financing the managerial functions in health care, more specifically, physical and occupational therapy.

Prerequisite: Consent of Instructor. Offered: F.

PHYS - PHYSICS COURSE DESCRIPTIONS

PHYS 152 - Principles of Physical Science (3)
Gives students some of the major basic concepts of physics, chemistry, astronomy, geology, and meteorology with particular emphasis on their relevant applications. Emphasizes the role of physical science in the framework of contemporary society. Lecture: three hours per week.

Corequisite: GE 152L. Offered: F; S; SS.

PHYS 152H - Principles of Physical Science Honors (3)
Designed especially for students with high academic potential. Includes essential elements of system measurements, physics, chemistry, astronomy, and earth science. Challenge students to develop the spirit of scientific investigation and an appreciation for the physical universe. Lecture: three hours per week.

Corequisite: GE 152L. Offered: F.

PHYS 152L - Principles of Physical Science Lab (1)
Experiments are designed to help students learn laboratory skills and allow them to experience how scientific models are usually verified. Two hours of laboratory per week.

Corequisite: GE 152. Offered: F; S; SS.

PHYS 181 - General Physics I (3)
Fundamental principles of physics based on elementary algebra and trigonometry. Deals with vectors, mechanics of particles and rigid bodies covering kinematics and dynamics; heat and kinetic theory of gases. Lecture: three hours per week.

Prerequisite: GE 115 or equivalent. Corequisite: PHYS 181L. Offered: F; S.

PHYS 181L - General Physics I Lab (1)
Laboratory experiments reinforce the concepts covered in PHYS 181C and develop skills in the experimental set-up, data collection, and data analysis and interpretation of experimental data. Laboratory: two hours per week.

Prerequisite: PHYS 181 or PHYS 191. Offered: F; S.

PHYS 182 - General Physics II (3)
A continuation of PHYS 181. Topics include electrostatics and electromagnetism; and wave motions involving light and sound. Lecture: three hours per week.

Prerequisite: PHYS 181L. Corequisite: PHYS 182L. Offered: F; S.

PHYS 182L - General Physics II Lab (1)
Laboratory experiments reinforce the concepts covered in PHYS 182 and PHYS 192 and develop skills in the experimental set-up, data collection, data analysis and interpretation of experimental data. Laboratory: two hours per week.

Corequisite: PHYS 182 or PHYS 192. Offered: S.

PHYS 191 - University Physics I (3)
An introductory physics course based on calculus. Covers vectors and mechanics of particles and rigid bodies covering kinematics and dynamics. Lecture: three hours per week.

Prerequisite: MATH 157. Corequisite: MATH 158 and PHYS 181L. Offered: F.

PHYS 192 - University Physics II (3)
A continuation of PHYS 191. Topics include heat and kinetic theory of gases, electrostatics, and electrodynamics. Lecture: three hours per week.

Prerequisite: MATH 165. Corequisite: PHYS 182L. Offered: S.

PHYS 193 - University Physics III (3)
A continuation of Phys 192. Topics include Optics, modern physics, and other physics topics not covered
in PHYS 191 and PHYS 192. Lecture: 3 hours per week.

Prerequisite: PHYS 192. Offered: F.

PHYS 201 - Mechanics I (3)
Introduces the vector calculus and kinematics of particles. It also deals with dynamics of particles in one-dimensional problems. Lecture: 3 hours per week.

Prerequisite: Prerequisites or Co-requisites: PHYS 193; MATH 265. Offered: F.

PHYS 202 - Mechanics II (3)
Develops further, concepts built in PHYS 201. Deals with two- and three-dimensional motions more rigorously. The basic concepts of rigid body dynamics are also developed. Lecture: 3 hours per week.

Prerequisite: PHYS 201. Offered: S.

PHYS 203 - Astronomy (3)
For both science and non-science majors. Presents a clear, vivid, non-mathematical treatment of the frontiers of modern astronomy. Students become conversant and acquainted with new developments regarding pulsars, black holes, quasars, and controversies surrounding redshifts and other phenomenological concepts concerning astronomy. Lecture: 3 hours per week.

Offered: F; S.

PHYS 203L - Astronomy Lab (1)
Laboratory exercises, demonstration exercises, and elementary calculations to illustrate methods used in astronomy. Some constellation study with planetarium visits and occasional evening observation. Laboratory: 2 hours per week.

Corequisite: PHYS 203. Offered: F; S.

PHYS 211 - Principles of Biophysics (3)
The biological principles of physics. Discussions include optics of sight, corrective lenses for long and short sightedness, physics of heart pacers, nerve impulse conduction, cell membrane integrity and function, mechanics of muscle function, elasticity in cell biology, the physics of biological locomotion, and electromagnetism of the human body, a very efficient conductor of electricity (a basis for electrocution). Lecture: 3 hours per week.

Prerequisite: Prerequisites or Co-requisites: PHYS 193, BIOL 102 and PHYS 211L. Offered: F.

PHYS 211L - Principles of Biophysics Lab (1)
Students carry out experiments that illustrate physics in biological systems and how designs of various medical devices such as heart pace makers and hearing aids are based on the principles of biophysics.

Corequisite: PHYS 211. Offered: F.

PHYS 212 - Principles of Biophysics (3)
The biological principles of Physics. Discussions include a review of diffusion and random walk, Entropy, Temperature, and Free Energy, Entropic Forces, and Chemical Forces, Enzyme kinetics, force generation by kinesin, Mitochondria, proton pumps, ATP synthase, and flagellar motor. Lecture: 3 hours per week.

Prerequisite: PHYS 211. Corequisite: PHYS 212L. Offered: S.

PHYS 212L - Principles of Biophysics Lab (3)
Students carry out experiments that illustrate Physics in biological systems and learn how to operate various bio-physical instruments such as spectroscopy, electron microscopy, X-ray diffraction, crystallography, and NMR.

Corequisite: PHYS 212. Offered: S.

PHYS 301 - Electricity and Magnetism I (3)
Introduces principles of electricity based on vector calculus. Laplace's equation and simple solutions are derived. Lecture: 3 hours per week.

Prerequisite: Prerequisite or Co-requisite: PHYS 193; MATH 165. Offered: F.

PHYS 302 - Electricity and Magnetism II (3)
Principles introduced in PHYS 301 are further developed. The theory of magnetism is developed and the Maxwell's Equations of electrodynamics are derived. The solutions of such equations which lead to electromagnetic waves are also demonstrated. Lecture: 3 hours per week.

Prerequisite: PHYS 301. Offered: S.

PHYS 310 - Optics (3)
Basic ideas of propagation of light, first considered as rays and then as waves. Such topics as interferences, diffraction, and polarization treated in detail.
Knowledge of electricity and magnetism is desirable, but not necessary. Lecture: 3 hours per week.

Prerequisite: Prerequisite or Co-requisite: PHYS 193; MATH 165. Offered: F.

**PHYS 320 - Thermodynamics (3)**

Concepts of thermodynamics systems and laws of thermodynamics. Also treats the basis of kinetic theory of gases. Lecture: 3 hours per week.

Prerequisite: Prerequisite or Co-requisite: PHYS 192. Offered: S.

**PHYS 321 - Electronics (3)**

Intermediate course in applied electronics. Study of basic components, circuits and systems in modern electrical instrumentation. Emphasizes transistors, Field Effect Transistors (FET), and Silicon Controlled Rectifier (SCR). Lecture: 3 hours per week.

Prerequisite: Prerequisite or Co-requisite: PHYS 302. Offered: S.

**PHYS 330 - Junior Laboratory (2)**

Introduces experiment verification of some principle of physics which could not be done in General Physics/University Physics Laboratory. Laboratory: 4 hours per week.

Prerequisite: PHYS 192. Offered: F.

**PHYS 433 - Senior Laboratory (2)**

Acquaints students with advanced experiments. Laboratory: 4 hours per week.

Prerequisite: PHYS 330. Offered: S.

**PHYS 441 - Mathematical Methods of Physics I (3)**

Mathematical methods and applications necessary for work in theoretical physics. Lecture: 3 hours per week.

Prerequisite: PHYS 193; MATH 165. Offered: F.

**PHYS 442 - Mathematical Methods of Physics II (3)**

Further mathematical methods and applications used in theoretical physics. Lecture: 3 hours per week.

Prerequisite: PHYS 441. Offered: S.

**PHYS 470 - Medical Physics (3)**

Basic knowledge of atomic Physics and Quantum Mechanics as well as basic interactions of ionizing and non-ionizing radiation important in medicine.

Topics include photon, electron, and neutron interactions, high LET radiation, radioactivity, ultrasound interactions, and laser interactions. Also includes conventional X-ray radiology, digital radiography, computed tomography, ultrasound, and magnetic resonance imaging.

Prerequisite: PHYS 193. Offered: F.

**PHYS 481 - Modern Physics I (3)**

Elementary modern aspects of physics involving wave packets, special relativity theory, and photo electric efforts. Lecture: 3 hours per week.

Prerequisite: PHYS 202. Offered: F.

**PHYS 482 - Modern Physics II (3)**

The concepts developed in PHYS 481 are further developed. Topics involve X-ray, Compton Effect, pair production, classical quantum theory, Schrödinger equations, quantum mechanical treatment of hydrogen atom and some basic ideas of solid-state physics. Lecture: 3 hours per week.

Prerequisite: PHYS 481. Offered: S.

**PHYS 484 - Quantum Mechanics (3)**

Basics principles of quantum mechanics covering the Schrödinger Wave Equations, operators and transformation theory, angular momentum, atomic structure, and perturbation theory. Lecture: 3 hours per week.

Prerequisite: PHYS 481; MATH 358. Offered: F; S.

**PHYS 486 - Physics Seminar (1-3)**

Covers subjects related to current developments in physics.

Prerequisite: Department Chair's written consent. Offered: F; S.

**PHYS 487 - Sound (3)**

Fundamentals of periodic phenomena wave motion in solid, liquid, gaseous media; introduction to acoustics. Lecture: 3 hours per week.

Prerequisite: Prerequisites or Co-requisites: PHYS 193; MATH 265. Offered: F; S.

**PHYS 490 - Physics: An Integrated Approach (3)**

This Physics Capstone course is a requirement for all graduating seniors majoring in physics. It is a consolidation of fundamental concepts in classical mechanics, relativity, electromagnetism, optics,
waves, thermodynamics, statistical mechanics, quantum mechanics, atomic physics and special related topics. Lecture: 2 hours per week; Seminar: 1 hour per week.

Prerequisite: Senior Standing. Offered: F; S.

PHYS 499 - Physics Research (1-2)
Faculty supervision of student research in current topics of Physics. Open to juniors and seniors with demonstrated ability to carry out independent work in Physics. Students may enroll for up to two semester hours credit.

Prerequisite: Instructor/Department Chair's written consent. Offered: F; S.

POLS - POLITICAL SCIENCE COURSE DESCRIPTIONS

POLS 200 Prerequisite applies to Political Science majors only.

POLS 200 - Introduction to Political Science (3)
Basic study of political science, its scope, methodology, structure of government, political institutions, and ideologies. Emphasizes, critical thinking, and writing. POLS 200 serves as a General Education elective.

Prerequisite: No Prerequisite. Offered: F.

POLS 298 - American National Government (3)
Structure and functions of the American national government. Nature of the federal system, the Constitution, citizenship, and popular participation in governing. Extent and character of national power. Changing nature of relations of national government to the states and to the individual. Working knowledge of good citizenship in everyday life. No prerequisite

Prerequisite: No Prerequisite. Offered: F; S.

POLS 299 - State and Local Government (3)
Critical examination of state and local governments and their governing capacities. Examination of the social and economic characteristics, legal structures, political processes, fiscal strength, leadership resources, and policy choice of state and local governments. Emphasizes the similarities and differences among the states and their importance in the federal system of government. Discussion of topical issues pertaining to states would form a basis of additional discussion. Students will prepare an electronic portfolio. No prerequisite

Prerequisite: No Prerequisite. Offered: S.

POLS 305 - Political Theory (3)
Examines, evaluates and possibly alters students' personal value commitments through an exposure to varying political theories that have been adopted in addressing persistent political problems. Topics such as: political associations, the role of politics in personal growth, competing theories of justice; liberalism; conservatism; feminism; freedom and self-actualization, representation, social cohesion; the idea of moral communities are all theories covered in this class. No Prerequisites.

Prerequisite: No Prerequisite. Offered: S.

POLS 307 - American Political Ideas (3)
Analysis of American ideas on law and government, authority and civil liberty, oligarchy and democracy, from the Puritans to the present time. Emphasizes the thoughts of Hamilton, Jackson, Calhoun, Lincoln, Thoreau, Belany, Henry George, Wilson, Hoover, Roosevelt, Holmes, Dewey, Reagan, and others.

Prerequisite: No Prerequisite. Offered: S, F.

POLS 310 - American Presidency (3)
Covers the development of presidential power and functions, the contemporary operations of the presidency and the challenges which may confront the presidency in the future. No prerequisite

Prerequisite: No Prerequisite. Offered: S.

POLS 311 - Political Science Methods (3)
Introduces Political Science Research methods and procedures for collecting and analyzing political data. Student will learn research methods fundamentals as well as develop skills to conduct quantitative research. Data interpretation is essential. Research on a specific political data is required. Research project is evaluated

Prerequisite: Student from other majors needing a research methods course may take this class. Offered: F; S.

POLS 402 - Politics and Problems of Contemporary Africa (3)
A broad overview of politics and society in Africa, organized thematically to explore issues such as
colonialism, ethnicity, nationalism, class, ideology, legitimacy, sovereignty, and democracy.
Investigation of the role of the state in economic and political development, global political economy, international division of labor, international development, and the challenges and contradictory implications of globalization for African politics.

Prerequisite: No Prerequisite. Offered: S.

POLS 403 - American Foreign Policy (3)
Study of the United States' political, economic, social, and cultural involvements in the international arena, and major foreign policy decisions, including their short- and long-range impact on United States relations with other countries of the world. No prerequisite.
Prerequisite: No Prerequisite. Offered: S.

POLS 404 - Comparative Politics (3)
Search for similarities and differences between political systems, their environments, and structures. Examination of the functions of political systems (such as socialization, recruitment, and communications), process functions (such as interest articulation, interest aggregation, policy making, and policy implementation and adjudication), and policy functions (such as extraction, regulation and distribution). Systematic evaluation of how and why capitalist democracies differ and how differences in political representation, political design, and historical experience produce widely differing patterns of policy making. Discussion of area studies (Britain, France, Germany, Japan, China, Mexico, Brazil, Nigeria, Russia, India, Egypt, and the United States.

Prerequisite: No Prerequisite. Offered: F.

POLS 483 - International Relations (3)
Surveys major theoretical approaches to international relations, the nature of world politics, methods and goals of diplomacy, and controls of State behavior. No prerequisite.
Prerequisite: No Prerequisite. Offered: F.

POLS 484 - International Organization (3)
Explores membership in international and regional organizations, their genesis and historical evolution. Examines the activities of governmental and non-governmental organizations; their logic of design; their objectives; and some of the ways these organizations respond to global challenges such as threats to international peace and security and, in particular, terrorism; egregious international crimes; endemic poverty; global warming; and persistent underdevelopment among some members of the international community.

Prerequisite: No Prerequisite. Offered: S.

POLS 485 - Internship Seminar (1)
Prior to departing for fieldwork, students enroll in a one-credit course focusing on the mechanics of working in large organizations and personnel practices.
Prerequisite: Instructor's written consent.

POLS 486 - Internship Fieldwork In Political Science (3, 6)
Students enroll in internship or fieldwork programs under the direction of a faculty member. Students prepare and read substantial bibliography, write a major research paper or its equivalent on the internship assignment and confer regularly with the professor.
Prerequisite: Instructor's written consent.

POLS 490 - Independent Study or Special Problems in Political Science (1, 2, 3)
May be used as an elective in the major on special projects or research agenda proposed by a student working in consultation with faculty members. Faculty member provides a detailed synopsis of the work to the Departmental Chair for approval before student embarks on independent study.
Prerequisite: Senior Level Student.

POLS 499 - Seminar/Research in Political Science (3)
A capstone course which utilizes knowledge accrued by the student throughout the four years of study. Students demonstrate competence and readiness in applying knowledge, skills and abilities in the professional world. Students formulate their own research topic and write research reports of a substantive nature. Students demonstrate their complete understanding of the major paradigms within the discipline and their own world view of political and social phenomena. The completed portfolio is due at the end of the semester.
Prerequisite: Junior or Senior Status. Offered: S.
PSY - PSYCHOLOGY COURSE DESCRIPTIONS

PSY 212 - General Psychology (3)
An introductory course that promotes an understanding of scientific methods and application to the study of basic concepts of human behavior. Topics include motivation, sensory processes, perception, thinking, learning, personality, and social factors. This course is a prerequisite to all other courses offered by the department.
Prerequisite: No prerequisite. Offered: F; S; SS.

PSY 221 - Professional Perspectives in Psychology (1)
Course is intended for majors and will examine psychology as a discipline and a profession. Students will be introduced to career options in psychology at bachelor’s, master’s and doctoral level. Because course topics are highly relevant to their immediate and long-term success, students are strongly encouraged to take this course early in their undergraduate career, typically immediately after PSY212.
Offered: F; S.

PSY 250 - Developmental Psychology I (3)
A comprehensive study of development from birth through adolescence. An examination of psychological and biological factors that impact development is viewed within theoretical and cultural frameworks.
Prerequisite: PSY 212. Offered: F.

PSY 251 - Developmental Psychology II (3)
A comprehensive study of development from young adulthood through senescence. Changes in biological, intellectual, personality, and social process factors that impact development is explored within theoretical and cultural frameworks.
Prerequisite: PSY 212. Offered: S.

PSY 260 - Psychology of Adjustment (3)
An examination of personal growth and adjustment processes related to the demands of modern life. Theories, research, and real-life applications on adjustment and growth issues. Includes self-concept, stress, mental and physical health, gender and sexuality, relationships, marriage and family, work, aging, and cultural diversity.
Prerequisite: PSY 212. Offered: S.

PSY 295 - Topics in Psychology (3)
A lecture/seminar/research series which focuses upon various selected topics in the field of psychology.
Prerequisite: PSY 212 and the instructor's written consent. Offered: F.

PSY 296 - Environmental Psychology (3)
Understanding how people experience and interact with their environment is crucial for promoting sustainability and addressing climate change. This course explores all aspects of human-environmental interactions and the role of psychology in promoting sustainability, including issues related to sea-level rise, alternative energy, health, and environmental justice.
Prerequisite: PSY 212 or consent of instructor. Offered: F; S.

PSY 301 - Statistics and Research Design (4)
Introduction to the concepts, principles, theories, and research in social psychology. Social psychology is the study of how the actual, imagined or implied presence of others affects our behavior. Topics such as attitude change, social perception, interpersonal attraction, aggression, altruism, prejudice, and group dynamics will be discussed.
Prerequisite: A 'C' or better grade in PSY 212, and PSY 220. Offered: F; S; SS.

PSY 311 - Psychological Tests and Measurement (3)
Surveys the field of psychological tests with attention to measures of intelligence, attitude, personality, and interest. Test construction, validation, and standardization. Laboratory experiences include the administration, scoring, interpretation, and use of test results.
Prerequisite: PSY 212, PSY 220, and PSY 300. Offered: S.

PSY 320 - Psychology of Social Behavior (3)
An introduction to the concepts, principles, theories, and research in social psychology. Social psychology is the study of how the actual, imagined, or implied presence of others affects our behavior. Topics such as attitude change, social perception, interpersonal attraction, aggression, altruism, prejudice, and group dynamics will be discussed.
Prerequisite: PSY 212. Offered: F; S.
PSY 330 - Psychology of Personality (3)
Study of the basic theories underlying the structure, organization, and adjustment mechanism of personality. Examines the development of "normal" personality with an emphasis on principal factors controlling human behavior. Historical and contemporary theories are investigated.
Prerequisite: PSY 212. Offered: F.

PSY 340 - Psychology of Cultural Diversity (3)
Survey of concepts, theories and research that have contributed to the field of psychology. Historical and contemporary perspectives of diversity within psychology are examined in relation to theory, practice, social justice and social policy.
Prerequisite: PSY 212, PSY 250 or PSY 251. Offered: F.

PSY 351 - Experimental Psychology (4)
A reading and writing intensive course introducing to the methods of science in psychology. Through lecture and laboratory experiences, the development, design, interpretation, and reporting of psychological research are examined leading to experimental research proposal to be completed in Psychology Senior Seminar course.
Prerequisite: A 'C' or better grade in PSY 212, PSY 220, and PSY 300. Corequisite: Commitment to read, write, think critically and apply statistical concepts. Offered: F; SS.

PSY 360 - Abnormal Psychology (3)
A systematic appraisal of the development of human behavior that focuses on the contribution of biological and social factors to psychopathological thinking and behavior. Includes an examination of the formation of deviancy and current diagnostic procedures. Also presents clinical cases, treatment modalities, and legal and social issues.
Prerequisite: PSY 212. Offered: S.

PSY 370 - Physiological Psychology (3)
The study of anatomical and physiological bases of behavior. Emphasizes the function of nervous, sensory, motor, and endocrine systems in motivation, emotion, perception, and learning.
Prerequisite: GE 155, PSY 212, and PSY 350. Offered: S.

PSY 375 - Health Psychology (3)
Examines how biological, psychological, and social factors affect (1) health promotion efforts and the prevention and treatment of illness; (2) coping with stress, illness, and pain and; (3) the recovery and psychosocial adjustment of patients. Topics include lifestyle factors, health communication, and health promotion strategies.
Prerequisite: PSY 212. Offered: S.

PSY 380 - Psychology of Group Behavior and Inter-group Conflict (3)
Examines how human behavior is influenced by group membership. Application to the group influence in business, industry, politics, and education. Topics include group development and structure, group leadership and decision-making, crowd behavior and group conflict. Students can expect to participate in small group activities during the course.
Prerequisite: PSY 212. Offered: S.

PSY 390 - Psychology of Addictions (3)
Psychological and physiological aspects of drug use, abuse, and other addictions. Emphasis on the effects of major psychoactive drugs (including alcohol) on behavior, the psychological determinants of drug use, and treatment of drug abuse. Topics will also include other addictions, such as gambling.
Prerequisite: PSY 212. Offered: F; S.

PSY 400 - Sensation and Perception (3)
A study of sensory input function and the processes of interpreting and evaluating sensory information. Research methodology, theories, and research are examined in a way that emphasizes the major sensory system and its relationship to human perceptual processes.
Prerequisite: PSY 212, PSY 220, and PSY 300. Offered: F; S.

PSY 407 - Community Psychology (3)
A comprehensive survey of the community as a functioning entity of the social environment with an emphasis on mental health problems, life stresses, and inter-group relations. The history, development, and current trends in community mental health. This course considers the application of psychological principles to overall community interaction.
Prerequisite: PSY 212/SOC 201. Offered: F.

PSY 410 - Industrial/Organizational Psychology (3)
The application of psychological principles to a variety of human problems in industry and organizations. Topics covered are personnel selection, training, and evaluation; human factors and engineering psychology; and the organizational and social context of human work.
Prerequisite: PSY 212. Offered: F.

PSY 420 - Counseling Principles and Practices (3)
An introduction to current counseling theories and expanded treatment practices. Provides a conceptual framework for implementing representative approaches in diverse counseling settings. Emphasizes meeting client needs by maximizing personal and academic development through the counseling process.
Prerequisite: PSY 212, PSY 330 or PSY 360. Offered: S.

PSY 450 - Learning and Cognition (3)
An investigation of the manner in which new information is acquired and retained and how this affects learning acquisition. Emphasizes research methodology, findings, and the appropriate application to human learning and thinking.
Prerequisite: PSY 212, PSY 220, and PSY 350. Offered: S.

PSY 480 - Practicum in Psychology (3)
Participants spend 36 hours of laboratory/field experience under the joint supervision of a field supervisor and a member of the departmental faculty. Emphasizes the application of concepts and principles from coursework to applied field experiences. Students must attend orientation sessions prior to placement as well as debriefing and evaluation sessions during and following the practicum.
Prerequisite: Psychology major in senior year and Departmental Chair's written consent. Offered: S.

PSY 490 - Senior Seminar in Psychology (3)
Explores psychological concepts and issues through research projects. Students present individual reports of findings and defend research results. **This course is the capstone course for completion of the major in psychology.**
Prerequisite: PSY 350 and Psychology major in senior year and Departmental Chair's written consent. Offered: F; S.

PSY 495 - Topics in Psychology (3)
A lecture/seminar/research series which focuses upon various selected topics in the field of psychology.
Prerequisite: PSY 212. Offered: F.

**RELG - RELIGION COURSE DESCRIPTIONS**

RELG 200 - Introduction to Religion (3)
Religion as historical and cultural phenomenon, explored in its aesthetic, anthropological, ethical, historical, literary, philosophical, political, psychological, and sociological dimensions. This course is one of four required courses needed for the Religious Studies Minor (HIST 330, HIST 331, HIST 332).
Prerequisite: No Prerequisites.

**RETIREMENT PLANNING COURSE DESCRIPTIONS**

See Course Listings under Banking & Finance (p. 220).

**SOC - SOCIOLOGY COURSE DESCRIPTIONS**

SOC 201 - Introduction to Sociology (3)
Explore the nature of sociology as a social science, the sociological perspective or "sociological imagination," the key concepts and theories of sociological analysis, and the structure and changing nature of America's culture and social institutions.
Prerequisite: No Prerequisite. Offered: F; S.

SOC 201H - Introduction to Sociology Honors (3)
Sociology is the systematic and scientific study of human social behavior. Introduces sociological concepts, theories, methods, and research findings and includes topics such as social stratification, race relations, sex roles, and deviance. Entails self-directed study and in-class discussion of independent research projects.
SOC 202 - Social Problems (3)
Defining and analyzing social problems, including the social construction of social problems, the nature and the extent of different social problems such as drugs and alcohol, poverty, unemployment health care, aging, crime and delinquency, prejudice and discrimination, and social problem research or policy connections.
Prerequisite: No Prerequisite. Offered: F; S.

SOC 297 - Social Research Methods (3)
Examine the nature and the methodology of social sciences, the nature of causality in social sciences, theory-research connections, competing methods of social research, techniques of social surveys, GSS (General Social Survey) data, and research-policy connections.
Prerequisite: SOC 201 or equivalent and SOC 346. Offered: S.

SOC 304 - Sociology of Gender (3)
Sociology of Gender will highlight causes and consequences of behavioral expectations associated with masculine and feminine gender roles in modern societies. Emphasis is given to social learning, role conflict and social movement associated with social inequalities related to sex status.
Offered: F.

SOC 305 - Sociology of the African-American (3)
Explore the historical nature of the formation of African-American families, the shifting structure and nature of African-American families in the post-civil rights era, and the emerging service economy in the United States.
Prerequisite: No prerequisite. Offered: S.

SOC 306 - Urban Sociology (3)
Examine the emergence and the evolution of cities, the historical nature of urbanization in America, theories of urbanization and "urbanism as a way of life," the emergence of new cities in the context of globalization, and the social and cultural impact of cities and suburbanization.
Prerequisite: SOC 297. Offered: F.

SOC 325 - Sociology of Race and Crime (3)
Sociology of Race and Crime focuses on the dynamics of the relationship between race and crime. This course also examines various theories using crime and victimization datasets on the socio-economic and cultural variables.
Offered: F; S.

SOC 330 - Sociology of Deviant Behavior (3)
This course examines behaviors considered deviant in the United States. In addition, this course will explore major types of deviant behavior such as corporate crimes, extremist groups, sexual deviance, violence, suicide, alcoholism and other drug addictions and cyber deviance.
Offered: F.

SOC 346 - Social Statistics (3)
Explore the nature of scientific methods and the art of scientific research, significance of statistics for social research and social policy-making, methods of data collection, organization, analysis, and interpretation including different descriptive and inferential statistical principles.
Prerequisite: SOC 201. Offered: F.

SOC 345 - Introduction to SPSS (3)
This course is an introduction to the Statistical Package for the Social Sciences (SPSS), a computer software for data processing and statistical analysis, enabling students without knowledge of programming or without programming aspirations to utilize the computer for scientific research.
Prerequisite: No prerequisite. Offered: F.

SOC 350 - Sociology of Media (3)
Sociology of Media will focus on mass media representations of gender, race, class, and politics, as well as the cultural, legal, economic, and institutional factors influencing the production of media texts. Types of Media to be discussed in the classroom include advertisements, film, news media, comic books, video games, “reality” television, and sitcoms.
Offered: F; S.

SOC 360 - Social Psychology (3)
Examine individuals and society from a socio-psychological perspective, particularly focusing on the influence of society on individuals, personality
development, adult socialization, role behavior, self-evaluation, and conformity.

Prerequisite: SOC 201, PSY 212. Offered: S.

SOC 371 - Digital Sociology (3)

Digital Sociology will cover the sociological underpinnings of apps, likes, shares, profiles, and swipes. This course will primarily focus on critical perspective in regards to labor and new media, surveillance and privacy on social media networks, and contemporary issues of digital technologies and stratification by race, class, gender, and citizenship.

Offered: F or S.

SOC 385 - Social Theory (3)

Examine the role of theorizing in science and the history of social theory, the rise of classical sociological theories including the writings of Comte, Marx, Durkheim, Simmel and Weber, and the nature of the contemporary sociological theories of Parsons, Merton, C.W. Mills, Goffman and Wallerstein.

Prerequisite: SOC 201. Offered: F.

SOC 391 - Sociology of Terrorism (3)

This course emphasizes the histories, types, and theories of terrorism with a special focus on sociological approaches (e.g., social movement theories, network analysis, and ideology) in analyzing the economic and political costs of such terrorism, and the forecast of terrorist acts in the future.

Offered: F; S.

SOC 401 - The Family (3)

Examine the history, origin, structure, functions, and roles of families as a core social institution.

Prerequisite: SOC 385. Offered: S.

SOC 412 - Social Stratification (3)

Examine the characteristics of social stratification, theories of social stratification, the rise of a new professional and corporate class, forms of social stratification; equal opportunities and the growth of civil rights issues and legislation; and the changing nature of class structure in America.

Prerequisite: SOC 201. Offered: S.

SOC 480 - Seminar in Human Terrain Systems in South Asia (3)

Examine the nature of the Human Terrain Systems (HTS) in South Asia, which is now a diaspora of

many conflicting and contrasting ideals and ideologies in the socio-political-cultural spheres of the region, to enhance the socio-political-cultural knowledge base for effective operational decision making of the US military.

Prerequisite: SOC 201. Offered: S.

SOC 481 - Population (3)

Examine the composition and characteristics of population and population processes such as fertility, mortality, migration trends in population growth, the nature of contemporary global migration, identify social and economic impact of population changes, and the nature of problems of the graying of America.

Prerequisite: SOC 385. Offered: S.

SOC 488 - Seminar in Sociology (3)

This course is a comprehensive survey of the fields of sociology with emphasis on independent study and group discussion of recent developments and trends. Students will complete independent reading and research on a topic to be selected under the supervision of an instructor. (Papers and oral reports as appropriate.)

Prerequisite: SOC 297 and SOC 385. Offered: F; S.

SOC 490 - Sociology of Globalization (3)

This course focus on the dynamics of global development and globalization and the roots and nature of social change by reviewing various theories (social, cultural, technological, political, and economic dimensions of global change).

Offered: F; S.

SOWK - SOCIAL WORK COURSE DESCRIPTIONS

SOWK 205 - Introduction to Social Work (3)

This course provides an overview of the profession of social work and introduces students to the history, mission, methods, and value base of the profession. Emphasis is on vulnerable and disadvantaged populations, generalist practice, and diverse fields of practice where professional social workers are employed.

Prerequisite: No Prerequisite. Offered: F; S.
SOWK 210 - Fundamentals of Interviewing (3)
This course introduces the various skills needed in conducting professional interviews. Students gain knowledge and practice skills to interact and engage with individuals and families. Special emphasis is placed on communication skills, verbal and non-verbal behaviors, and professional observations (first course in the professional social work practice sequence).
Prerequisite: No Prerequisite (Non-Majors), Prerequisite SOWK 205 (Social Work Majors). Offered: F; S.

SOWK 220 - Human Diversity (3)
This course introduces students to the various dimensions of human diversity. These dimensions include, but are not limited to, race, ethnicity, gender, sexual orientation, age, and social class.
Prerequisite: No Prerequisite (Non-Majors), Prerequisite SOWK 205 (Social Work Majors). Offered: F; S.

SOWK 247 - Rural Social Work Practice (3)
This course introduces students to social work practice in rural communities. The course examines problems, issues, needs, strengths, challenges, and other conditions unique to rural and isolated communities. Emphasizes community-based service providers and public policies that impact rural and isolated communities.
Prerequisite: SOWK 205. Offered: S.

SOWK 250 - Introduction to Social Welfare (3)
This course provides an overview of the historical and contemporary development of social welfare in the United States. It also examines social problems, social policies, and service delivery systems.
Prerequisite: SOWK 205 and SOWK 210. Offered: S.

SOWK 255 - Faith-Based Organizations
This course explores and examines the historical and contemporary roles of faith-based organizations as informal social welfare providers. The course introduces students to the different types of faith-based organizations and newly enacted social welfare policies such as Charitable Choice and other faith-based initiatives developed to increase church-state partnerships. Emphasis is placed on the role of faith-based organizations in social service delivery and community development.
Prerequisite: SOWK 205. Offered: S.

SOWK 260 - Human Behavior in the Social Environment I: Childhood and Adolescence
Part one of a sequence of two courses that examines human behavior from a generalist social work practice perspective within the context of cultural, biological, psychological and sociological dimensions of human development. This course focuses on stages of human development from infancy to adolescence.
Prerequisite: SOWK 205. Offered: S.

SOWK 280 - Introduction to Gerontology (3)
This course introduces students to basic knowledge concerning the elderly. It is designed to demystify myths and provides realities about the aging process. Students are introduced to aging demographics, housing arrangements, financial services, and various organizations that assist the elderly population.
Prerequisite: No Prerequisites. Offered: F.

SOWK 310 - Advanced Interviewing and Intervention Skills (3)
This course introduces the various skills needed in conducting professional social work interviews. Students gain knowledge and practice skills to engage with individuals, families, groups, organizations, and communities. Students will demonstrate verbal, non-verbal, and observation skills necessary for culturally competent social work practice. This course also reinforces the values and ethical principles embedded in the NASW Code of Ethics as students learn to use communication skills with a variety of client populations. Role-plays and video-taped interviews will provide students opportunities to demonstrate the professional use of self.
Prerequisite: SOWK 205 (Social Work Majors); No Prerequisite (Non-Majors). Offered: F; S.

SOWK 325 - Social Work with Military Families (3)
This course introduces students to military culture in which military personnel, veterans, and their families function. Special attention is given to the problems, needs, strengths, and challenges of military families. Students also gain knowledge, professional values, and practice skills to work effectively and ethically with military families at the beginning level.
SOWK 333 - Social Work in Health Care (3)
This course introduces students to the specialized knowledge, skills, and ethical standards central to effective social work practice in health care settings. Special attention will focus on advanced practice skills and strategies relevant to health care settings with individual, families, groups, interdisciplinary teams, and service providers. This course also examines the roles and functions of health and medical social workers working in a variety of health care settings. Social work practice will be explored in the context of the psychosocial crisis of short and long term illnesses, disabilities and community-wide disasters, crisis related to injury, and loss throughout the lifespan.
Prerequisite: SOWK 205, SOWK 210, and SOWK 220. Offered: S.

SOWK 342 - Crisis Intervention (3)
This course provides students with knowledge and skills needed to recognize and intervene appropriately in crisis situations. Special attention is given to the history of crisis intervention. Various crisis situations (i.e. homelessness, divorce, injury, unemployment, and natural disasters) will be explored.
Prerequisite: SOWK 205, SOWK 210, or written consent from the Instructor. Offered: S.

SOWK 343 - Social Work with Children (3)
This course focuses on problems, needs and services for children. Psychosocial development, intervention skills, theories, and techniques for working with children are emphasized in this course.
Prerequisite: SOWK 205, SOWK 210, SOWK 220, or Instructor's written consent. Offered: F.

SOWK 350 - Introduction to Forensic Social Work (3)
Forensic Social Work is a special field of social work practice that focuses on intervention with various size systems who are involved in the criminal justice, legal, or other systems. This course provides an introduction and overview of Forensic Social Work. Special attention is given to problems and issues related to child welfare, custody, crime, delinquency, violence, and divorce. This course also explores the vulnerable populations that Forensic Social Worker serves. In addition, the wide range of settings where Forensic Social Workers are employed are also examined.
Prerequisite: SOWK 205. Offered: S.

SOWK 367 - Social Work Practice I: Individuals, Families, and Groups (3)
This course focuses on generalist social work practice with individuals, families, and groups in the rural context. Students apply the Generalist Intervention Model to work with various size systems.
Prerequisite: SOWK 205, SOWK 210, SOWK 220, SOWK 247, SOWK 250 and SOWK 260 and Admission to the Social Work Program. Offered: F.

SOWK 370 - Social Welfare Policy (3)
This course examines national and international social welfare policies and programs that impact populations-at-risk. Students will be provided with an analytical framework for examining social welfare policies and programs.
Prerequisite: SOWK 205, SOWK 210, SOWK 220, SOWK 250 and SOWK 260 and Admission to the Social Work Program. Offered: F.

SOWK 372 - Human Behavior in the Social Environment II: Adulthood (3)
This course is Part two of a sequence of courses that examine human behavior from a generalist social work practice perspective within the context of cultural, biological, psychological and sociological dimensions of human development. Focuses on young to later adulthood.
Prerequisite: SOWK 205, SOWK 210, SOWK 220, SOWK 250, SOWK 260 and Admission to the Social Work Program. Offered: F.

SOWK 377 - Social Work in the School (3)
This course is designed to help prepare students for social work in the public school system. A special focus is placed on educational services to diverse groups of students including special needs immigrants, physically and mentally challenged and homeless individuals. A range of contemporary issues relevant to school-based services are explored (i.e. bullying, weapons in school and school violence). This course also addresses current federal and state (NC) laws and school social work ethics as they relate to practice with children and their families.
Prerequisite: Admission to the Social Work Program or Instructor's written consent. Offered: S.

**SOWK 385 - Spirituality and Social Work Practice (3)**

This course provides an opportunity for students to explore the role of spirituality in social work practice. This course provides an overview of the specialized knowledge, values, and skills needed to prepare students for spiritually-sensitive and culturally competent social work practice. Emphasis is on the various definitions of spirituality, the difference between spirituality and religion, major world religions and spiritual traditions, spiritual assessment tools, and how to conduct spiritual assessments across cultures.

Prerequisite: SOWK 205. Offered: S.

**SOWK 390 - Research Methods in Social Work (3)**

Introduces the social work research process. Topics include basic principles in social work research, problem formulation, research questions and hypotheses, data collection and analysis, single subject designs and social work research ethics.

Prerequisite: SOWK 205, SOWK 210, SOWK 220, SOWK 250, SOWK 260, SOC 245 and Admission to the Social Work Program. Offered: S.

**SOWK 395 - Women and Religion (3)**

This course examines women's historical and contemporary beliefs, practices, and roles as they relate to religion and gender issues.

Prerequisite: No Prerequisite. Offered: F.

**SOWK 445-B - Social Work Field Experience and Seminar II: Part II (3)**

A continuation of the Field Education Experience and Seminar I (SOWK 444-A & SOWK 444-B). 110 hours are required for completion of eight weeks of the Field Education Experience. Students gain an opportunity to discuss pertinent issues and concerns. Emphasizes the application of theory, intervention techniques, policy, research, and the professional use of self.

Prerequisite: Completion of all pre-professional and professional social work courses, SOWK 444-A & SOWK 444-B with a "C" or higher and written consent from the Director of Field Education. Offered: F.

**SOWK 400 - The Aged and Society (3)**

This course focuses on the social development of the elderly. Emphasis is on social security, housing, long-term care, Medicaid, Medicare, and activities of daily living as it impacts the elderly population.

Prerequisite: SOWK 205, SOWK 280 and SOWK 372 or written consent from the Instructor. Offered: S.

**SOWK 405 - Social Work and the Law (3)**

Emphasis is placed on crime and domestic violence, delinquency and juvenile justice, child welfare education, guardianship, mental health, and disabilities. Students will be given the opportunity to review legal documents, read case laws and statutes, and observe courtroom proceedings.

Prerequisite: Admission to the Social Work Program, SOWK 372, or Instructor's written consent. Offered: F.

**SOWK 440 - Perspectives on Death and Dying (3)**

This course provides historical and contemporary perspectives on death, dying, and bereavement. Students will explore various cultural, religious, and spiritual beliefs and practices used to embrace the death and dying process.

Prerequisite: SOWK 260 and SOWK 372 or Instructor's written consent. Offered: F.

**SOWK 443 - Social Work Practice II: Organizations and Communities (3)**

This course introduces students to generalist practice with organizations and communities in rural areas. Emphasis is placed on community organizing and development, community resources, supervisors and supervision, and Macro theories.

Prerequisite: SOWK 205, 210, 220, 247, 250, 260, 367, 370, and 372. Admission to the Social Work Program. Offered: S.

**SOWK 444 - Social Work Field Education and Seminar I (6)**

Students work in selected human service agencies. 220 hours are required for the completion of the first half of the Field Education Experience. The Field Seminar is designed to enhance the field education experience. Students gain an opportunity to integrate theory and practice, discuss pertinent issues and concerns, and to share new insights as they relates to the social work profession. Emphasizes the
knowledge, values, and skills of generalist social work practice.

Prerequisite: Completion of all pre-professional and professional social work courses, Admission to the Social Work Program, and written consent from the Director of Field Education. Offered: F.

SOWK 444-A - Social Work Field Experience & Seminar 1: Part I (3)
The Social Work Field & Seminar 1-A is an internship requirement in the BSW program. SOWK 444-A is the first part of the internship process in which students will be required to complete a total of 110 hours per each eight weeks during their senior year at an assigned agency. Weekly Seminar classes will accompany the field experience which will be held on an alternate day.

Prerequisite: Completion of all required pre-professional and professional social work courses in the curriculum. Offered: S.

SOWK 444-B - Social Work Field Experience & Seminar 1: Part II (3)
The Social Work Field & Seminar 1-B is for social work majors during the summer semester of their senior year. It includes an internship placement at selected agencies two days per week. As part of the program, students will be completing 110 hours per eight weeks for a total of 220 hours. A weekly seminar class is held on alternate dates.

Prerequisite: Completion of all required pre-professional and professional social work courses in the curriculum. Offered: SS.

SOWK 445 - Social Work Field Education and Seminar II (6)
A continuation of the Field Education Experience (SOWK 444). 220 hours are required for the completion of the second half of the Field Education Experience. Students gain an opportunity to discuss pertinent issues and concerns. Emphasizes the application of theory, intervention techniques, policy, research, and the use of the professional self.

Prerequisite: Completion of SOWK 444 with a C" or higher and written consent from the Director of Field Education.". Offered: S.

SOWK 445-A - Social Work Field Experience and Seminar II: Part I (3)
A continuation of the Field Education Experience and Seminar I (SOWK 444-A & SOWK 444-B). 110 hours are required for completion of eight weeks of the Field Education Experience. Students gain an opportunity to discuss pertinent issues and concerns. Emphasizes the application of theory, intervention techniques, policy, research, and the professional use of self.

Prerequisite: Completion of all pre-professional and professional social work courses, SOWK 444-A & SOWK 444-B with a "C" or higher and written consent from the Director of Field Education.

Offered: F.

SOWK 450 - Life and Living: Coping with Dying (3)
This course is part two of a sequence of courses focused on dying and bereavement. It is designed to provide intervention techniques to help individuals cope and adapt to life after the death of a loved one. Emphasis is placed on cultural, religious, and legal issues facing survivors readjusting to society.

Prerequisite: SOWK 260, SOWK 372, and SOWK 440 or written consent from the Instructor. Offered: S.

SOWK 469 - Independent Research for Special Populations (3)
This course is designed to assist students in independent research on a selected special population of interest with emphasis on older adult issues and concerns.

Prerequisite: SOC 245 and SOWK 390 or related research course or written consent from the Instructor. Offered: F; S.

SOWK 499 - Capstone Course In Religion and Social Work (3)
Students will engage in Directed Independent Study that emphasizes an area of interest in religion and social work. Students will work with a Professor on an individual basis who have an interest in the selected topic

Offered: F:S.

SPACE SCIENCE COURSE DESCRIPTIONS
See Course Listings under Aviation Science (p. 216).
SPAN - SPANISH COURSE DESCRIPTIONS

SPAN 101 - Elementary Spanish (3)
Basic grammar, pronunciation, and reading for vocabulary building, cultural aspects and conversation.
Offered: F; S; S.

SPAN 102 - Elementary Spanish (3)
Basic grammar, pronunciation, and reading for vocabulary building, cultural aspects and conversation.
Offered: F; S; S.

SPAN 111 - Conversational Spanish (3)
Emphasizes the development of skills needed for oral communication. Practical vocabulary is applied to everyday activities through conversation.
Offered: F; S; S.

SPAN 112 - Conversational Spanish (3)
Emphasizes the development of skills needed for oral communication. Practical vocabulary is applied to everyday activities through conversation.
Offered: F; S; S.

SPAN 201 - Intermediate Spanish (3)
Review of grammatical principles; development of reading, writing, and conversation skills. Reading and interpretation of selected works; introduction to aspects of Spanish culture. Laboratory practice required of all students.
Prerequisite: SPAN 101, SPAN 102 or advanced placement (as determined by the instructor). Offered: F; S.

SPAN 202 - Intermediate Spanish (3)
Review of grammatical principles; development of reading, writing, and conversation skills. Reading and interpretation of selected works; introduction to aspects of Spanish culture. Laboratory practice required of all students.
Prerequisite: SPAN 101, SPAN 102 or advanced placement (as determined by the instructor). Offered: F; S.

SPAN 303 - Grammar and Composition (3)
Advanced study of Spanish grammar with emphasis on intensive practice writing and composition. A two semester course sequence. It is required for the minor in Spanish.
Prerequisite: SPAN 201, SPAN 202 or written consent of the department chair. Offered: F; S.

SPAN 304 - Grammar and Composition (3)
Advanced study of Spanish grammar with emphasis on intensive practice writing and composition. A two semester course sequence. It is required for the minor in Spanish.
Prerequisite: SPAN 201, SPAN 202 or written consent of the department chair. Offered: F; S.

SPAN 401 - Survey of Spanish Literature (3)
Great works of literature representing Spanish and Spanish American writers as representatives of Spanish civilization and culture.
Prerequisite: SPAN 303, and SPAN 304 or advanced placement (as determined by the instructor). Offered: F.

SPAN 402 - Survey of Spanish Literature (3)
Great works of literature representing Spanish and Spanish American writers as representatives of Spanish civilization and culture.
Prerequisite: SPAN 303, and SPAN 304 or advanced placement (as determined by the instructor). Offered: F.

SPCH - SPEECH COURSE DESCRIPTIONS

SPCH 201 - Voice and Diction (3)
Introduces principles of enunciation, elocution, voice development and improvement, vocal variety and expressiveness. Focuses on using the voice effectively, including volume, projection, rate and phrasing, inflection, and resonance. A cursory study of the International Phonetic Alphabet is presented.
Offered: F.

SPCH 214 - College Speech (2)
An introductory course in the principles of rhetoric, organization, style, and delivery as employed in formal public speaking.
SPCH 312 - Oral Interpretation of Literature (3)
Study and practice in analysis and presentation of literature through oral interpretation. Techniques of oral reading studied and applied in classroom assignments and demonstrations. Designed for future teachers of English and language arts, as well as students of drama.
Prerequisite: GE 103 or GE 105H; GE 201, GE 202 or GE 203H, GE 204H and speech proficiency as determined by instructor. Offered: F.

SPCH 314 - Public Speaking (3)
A study of the principles of rhetoric, organization, style, and delivery as employed in the formal public speaking mode. Students present speeches that inform and persuade. Delivery techniques and impromptu theories of public address are introduced.
Offered: F; S; SS.

SPCH 316 - Argumentation and Debate (3)
Enhances learning skills in the areas of writing, speaking, critical thinking, research, and analysis by utilizing principles of planned discussion and persuasion. It is specifically intended to improve the oral expression of students through the delivery of arguments in debates and critiquing the arguments of others.
Offered: F.

SPED - SPECIAL EDUCATION

course descriptions

SPED 291 - Independent Study (1)
Gives the candidate the opportunity for individual focused study or research under direction of a faculty member. The student must submit a research or study plan, which must be approved by the department chair.
Prerequisite: Consent of instructor.

SPED 292 - Independent Study (2)
Gives the candidate the opportunity for individual focused study or research under direction of a faculty member. The student must submit a research or study plan, which must be approved by the department chair.
Prerequisite: Consent of instructor.

SPED 293 - Independent Study (3)
Gives the candidate the opportunity for individual focused study or research under direction of a faculty member. The student must submit a research or study plan, which must be approved by the department chair.
Prerequisite: Consent of instructor.

SPED 301 - Reading Practicum (2)
Candidates work individually with K-12 learners who are experiencing challenges in learning to read. They will implement the research-validated strategies that they learn in SPED 300 Assessing and Teaching Beginning Reading.
Corequisite: SPED 300. Offered: F.

SPED 302 - Assessing and Teaching Beginning Reading (4)
In this course, candidates will learn to assess and teach beginning reading using research-validated strategies. Emphasis will be on phonemic awareness, phonic and structural analysis, vocabulary development, fluency, and comprehension. 30 hour field experience required
Corequisite: SPED 301. Offered: F.

SPED 334 - Assessment in Special Education (3)
Provides students with a basic overview of standardized and teacher-constructed assessment tools. Class discussions emphasize the possible uses, application, underlying concepts, and issues associated with standardized and teacher-constructed tests. Acceptable methods of selecting, administering, and interpreting an array of tests will be addressed.
Offered: F, SS.

SPED 370 - Introduction to Positive Behavior Support (3)
Provides students with the knowledge and skills to conduct functional behavior assessments, develop and implement behavior plans based on results of those assessments, and utilize the principles of positive behavior support. Research-validated instructional strategies will be utilized to facilitate learning across the curriculum.
Prerequisite: Consent of Department Chair or Advisor. Offered: S.
SPED 390 - Social Studies Methods in the Inclusive Classroom (3)
Addresses major concepts in Social Studies, such as problem-solution-effect, multiple perspectives, and factors of group success. Students plan, modify, and adapt instruction that assumes a global perspective on content and calls for distinct and developmentally appropriate pedagogies for 21st century learning. Technology use will be required.
Prerequisite: Admission to Teacher Education. Crosslisted as: ELEM 390. Offered: S.

SPED 395 - Science Methods in the Inclusive Classroom (3)
Addresses major concepts in Science, utilizing scientifically-validated strategies to assist learners struggling in content area courses. Technology use will be required.
Prerequisite: Admission to Teacher Education. Offered: S.

SPED 400 - Methods of Assessing & Teaching Writing to Diverse Learners (2)
Focuses on research-validated strategies in writing instruction. Concepts include: author versus secretary; writing process; writing workshops and peer-mediated instruction; embEd.D.ed mechanics instruction; and assessing writing using scoring rubrics.
Prerequisite: Admission to Teacher Education. Offered: F.

SPED 431 - Mathematics Practicum (2)
A 30-hour field experience in a K-12 setting in which candidates will implement strategies learned in SPED 430.
Corequisite: SPED 430. Offered: S.

SPED 432 - Assessing & Teaching Mathematics to Diverse Learners (4)
Candidates learn to assess and teach mathematics to diverse learners. Candidates will provide instruction that moves from the concrete to the abstract and will utilize formative assessment data to make instructional decisions. Emphasis is placed on addressing underlying basic concepts while meeting grade level competencies. 30 hour field experience required
Prerequisite: Admission to Teacher Education. Corequisite: SPED 431. Offered: S.

SPED 450 - Implementing Positive Behavior Support (3)
This course builds on SPED 370. Candidates utilize their knowledge, skills, and dispositions to conduct Functional Behavior Assessments and to develop and implement a Behavior Change Plan in the K-12 setting.
Prerequisite: SPED 370 and Admission to Teacher Education. Offered: S.

SPED 460 - Methods of Management & Organization (2)
Putting it all together: developing interdisciplinary instructional units that include research-based strategies; managing the case load; organizing the resource room; and special education process and procedures from RTI to ITP.
Prerequisite: Admission to Teacher Education. Offered: F; S.

SPED 461 - Advanced Practicum: Secondary Schools (2)
Candidates practice and implement the skills and strategies they learn in SPED 460 and SPED 465.
Corequisite: SPED 460 and/or SPED 465. Offered: F; S.

SPED 466 - Advocacy & Collaboration (4)
This course will assist candidates to develop the leadership and communication skills required to be effective advocators of diverse students who struggle to successfully access the general curriculum. A special emphasis will be on post-secondary transitions. 30 hour field experience required
Prerequisite: Admission to Teacher Education. Offered: F.

SPED 491 - Independent Study (1)
Provides the candidate the opportunity to engage in individual study or research under direction of a faculty member. The department chair must approve the study plan.
Prerequisite: Written consent of instructor.

SPED 492 - Independent Study (2)
Provides the candidate the opportunity to engage in individual study or research under direction of a faculty member. The department chair must approve the study plan.
Prerequisite: Written consent of instructor.
SPED 493 - Independent Study (3)

Provides the candidate the opportunity to engage in individual study or research under direction of a faculty member. The department chair must approve the study plan.

Prerequisite: Written consent of instructor.

STAT - STATISTICS COURSE DESCRIPTIONS

STAT 251 - Basic Statistics (3)

Introduction of display of data, numerical descriptive measures of data, basic idea of probability and probability distributions, sampling distribution of mean, estimation and hypothesis testing of one mean and one proportion, simple linear regression, and correlation.

Prerequisite: GE 115. STUDENTS MUST PURCHASE MATHXL FOR THIS COURSE. Offered: F; S.

STAT 351 - Probability and Statistics I (3)

Calculus-based course in probability and statistics covering random variable, probability distributions, probability densities, distribution functions, sampling distributions, expectation, and moment generating functions. Also covers introduction of multivariate distribution including regression and correlation.

Prerequisite: MATH 165 or MATH 153. Offered: F.

STAT 352 - Probability and Statistics II (3)

Prerequisite: STAT 351. Offered: S.

THEA - THEATER COURSE DESCRIPTION

THEA 221 - Appreciation of Drama (2)

Introduction of both the practice and literature of the theatre, with emphasis on drama as an art form: how the actor, director, and designer, function. Outstanding plays of major periods demonstrate technical, aesthetic aspects of theatrical production. Illustrated lectures, demonstrations, and classroom exercises.

Offered: F; S.

UAS - UNMANNED AERIAL SYSTEMS COURSE DESCRIPTIONS

UAS 100 - Unmanned Aerial Systems (3)

This course is an overview of various available unmanned aerial systems (UAS) and their role in the aviation industry. Instruction will provide a comprehensive overview of the capabilities, requirements, and business opportunities associated with the UAS industry. It covers the background and impact of UAS, the legislation and regulatory requirements, concerns and considerations, business opportunities for civilian applications, and the future of UAS.

Prerequisite: None.

UAS 200 - UAS and NAS: Laws and Regulations (3)

This course will focus on the expanded use of UAS in the NAS along with the potential issues this surge in popularity may bring. Instruction will provide a comprehensive overview of the current regulations, the plan for integration, and the future implications.

Prerequisite: UAS 100.

UAS 250 - UAS Sensors and Payloads (3)

This course will examine how sensors and payloads on UAS are used and will provide students with a broad familiarity of the many different sensors utilized. Topics in sensor applications include commercial, wildlife management, precision agriculture, and other usages. Future UAS sensor forecasts and applications as well as legal considerations will be discussed.

Prerequisite: UAS 100.

UAS 350L - UAS Applications Lab1 (Design and Construction) (3)

Course Catalog Description: This course will provide the students with the knowledge to build and test UAVs. Topics include: UAV platform, payload and component design, system integration and test and evaluation processes. Focus will be on design for reliability while always employing safety.

Prerequisite: UAS 250.
UAS 400L - UAS Applications Lab II (Precision Agriculture/Surveying) (3)

Course Catalog Description: This course reviews the current state and future potential of UAS in precision agriculture and surveying. Students will learn about small UAS (sUAS) platforms for Precision Agriculture and surveying, sensors for Precision Agriculture, sensor data analysis, NDVI processing, software flight planning, and safety considerations. Hands-on lab activities using eBee Ag, Aeromapper EV2, and Robo Flight (RF) platform will take students through detail steps in deploying sUAS for Precision Agriculture and/or Survey Mapping applications.

Prerequisite: UAS 100.

UNIV - UNIVERSITY STUDIES

COURSE DESCRIPTIONS

UNIV 110 - Freshman Seminar (1)

Assists students with adjustment to the University and provides them with both knowledge of and practice in the skills necessary for successful academic performance. Provides applications of skill development in note-taking, test-taking, textbook reading, study, time management, concentration, and listening. This course is required of all students and meets one 50-minute period per week.

Offered: F; S; SS.

UNIV 120 - Freshman Seminar II

ENTR - ENTREPRENEURSHIP

INDS - INTERDISCIPLINARY STUDIES

INDS 300 - Introduction to Interdisciplinary Studies (3)

The gateway course for the Interdisciplinary Studies degree program. Students will engage with faculty and disciplines from across the Interdisciplinary Studies program and develop and justify a proposed degree pathway. Interdisciplinary thinking and global awareness will be emphasized.

Offered: F; S; SS.

INDS 400 - Capstone in Interdisciplinary Studies (3)

The capstone experience for students in the Interdisciplinary Studies program. This is a project-based course during which students will reflect on and justify their academic pathway with an interdisciplinary final project developed in coordination with the course instructor.

Offered: F; S; SS.
Eyualem Abebe, *Professor, Biology*
- BS, MS, Addis Ababa University
- MS, Ph.D., Ghent University

Adetayo Adedeji, *Associate Professor, Physics*
- BS, University of Ilorin (Nigeria)
- MS, Obafemi Awolowo; University (Nigeria)
- Ph.D., Auburn University

Dolapo Adedeji, *Assistant Professor, Chemistry*
- BS, University of Agriculture Abeokuta, (Nigeria)
- Ph.D., Auburn University

Julian Allagan, *Assistant Professor, Mathematics*
- Ph.D., MS, Auburn University

Mohammad Alweh, *Visiting Assistant Professor, Engineering*
- Ph.D., MS-Electrical and Computer Engineering
- Southern Illinois University

Confidence Amadi, *Professor, Finance*
- BS, MS, University of Michigan
- MBA, D.B.A., Louisiana Tech University

Felicia Amadi, *Assistant Professor, Accounting*
- MS, Nova Southeastern University
- D.B.A., Argosy University

Hirendra Nath Banerjee, *Professor, Biology*
- BS, Calcutta University, (India)
- MS, New York University
- Ph.D., Howard University

Lynnette Barnes, *Associate Professor, Criminal Justice*
- BS, University of North Carolina-Chapel Hill
- MS, California State University, Los Angeles
- Ph.D., Rutgers University

Kimberly Bazemore, *Associate Professor, Special Education*
- BA, Beaver College (Arcadia University)
- MASEd, MSA, East Carolina University
- Ph.D., University of Virginia

Ronald H. Blackmon, *Senior Research Professor, Biology*
- BS, Delaware State University
- MS, Ph.D., Howard University

Glen Bowman, *Professor, History*
- BA, Cedarville College
- MA, West Virginia University
- Ph.D., University of Minnesota

Juliet Boykins, *Lecturer, Music*
- MMED, Norfolk State University
- MEd, Educational Leadership, Regent University

Scott D. Bradshaw, *Professor, Psychology*
- BS, MS, Old Dominion University
- Ph.D., Virginia Commonwealth University

Melody Brackett, *Associate Professor, Social Work*
- BS, Elizabeth City State University
- MSW, D.S.W., Norfolk State University

Flora Bryant Brown, *Professor, History*
- BA, St. Augustine University
- MA, UNC Greensboro
- Ph.D. South Carolina State University

Jennifer Brown, *Associate Professor, Kinesiology*
- Ph.D., MEd, Old Dominion University

Mary Lynn Chambers, *Associate Professor, English*
- BA, University of West Ontario, Canada
- MA, Ph.D., East Carolina University

Lin Chen, *Assistant Professor, Computer Science*
- MS-Physical Chemistry-New Mexico State
- Ph.D., Old Dominion University

Saundra S. Copeland, *Associate Professor, Education*
- BS, Elizabeth State University
- MS Ed., Old Dominion University
- CAGS, Ed.D., Virginia Polytechnic Institute and State University

Margery Coulson-Clark, *Professor, Political Science*
- BS, Berea College
- MPA, Ph.D., University of Kentucky

Chyna Crawford, *Assistant Professor, Criminal Justice*
MA – Forensic Psychology-Marymount University
Ph.D., Prairie View A & M

Shyamal Das, Associate Professor, Sociology
BA, MA, University of Dhaka, Khaka (Bangladesh)
MA, Institute of Social Studies, The Hague (The Netherlands)
Ph.D., Southern Illinois University

Antonio Davis, Lecturer, History
Ms, NC A&T State University

Malcolm Deosta, Assistant Professor, Computer Science
MS, Ph.D., University of Houston

Kacey DiGiacinto, Associate Professor, Kinesiology
BA, MA, MS, Ph.D., West Virginia State University

Kim Downing, Assistant Professor, Clinical Social Work
BSW, MSW, D.S.W., Norfolk State University

Reshema Downing Combs, Mathematics Specialist
BS, Elizabeth City State University
MS, Cambridge College

Paulette Edmunds, Associate Professor, Marketing
BS, Howard University
MBA, Ph.D., Kent State University

Mehran Elahi, Professor, Mechanical Engineering
BS, MS, Mississippi State University
Ph.D., Virginia Polytechnic Institute

Anthony Emekalam, Associate Professor, Clinical Pharmacy
ND, HND, Imo-State College of Agriculture (Nigeria)
PGD, University of Nigeria
PharmD., Howard University

Akbar Eslami, Professor, Mechanical Engineering
BS, National University (Iran)
MS, Ph.D., Old Dominion University

Carlos Espinosa, Assistant Professor, Music
DMA, University of Kansas
MMA, Michigan State University
BME, University of Kansas

Robert Freeland, Assistant Professor, Sociology
Ph.D./MA, Duke University

Roberto Frontera-Suau., Professor, Biology
BS, MS, University of Puerto Rico
Ph.D., Medical University of South Carolina

Delbert F. Garnes, Professor, Psychology
BA, Ohio State University
MS, Xavier University
Ph.D., St. Louis University

Frank Gaskill, Associate Professor, Business Administration
BA, Michigan State University
MBA, Eastern Michigan University
D.B.A., Nova Southeastern University

José S. Gil, Professor, Foreign Languages
BA, Pablo Montesinos Teachers’ College
MA, Ph.D., The Catholic University of America

James Goar, Assistant Professor, English
BA, University of Arizona
MFA, Naropa University
Ph.D., University of East Anglia, Norwich, UK

Orestes Gooden, Assistant Professor, Aviation Science
BS, Virginia State University
MAS, Embry Riddle Aeronautical University

Clarence Goss, Assistant Professor, Graphic Design
BA, Elizabeth City State University
MFA, Full Sail University

Gary L. Harmon, Professor, Biology
BS, Old Dominion University
MS, Hampton University
Ph.D., Howard University

Linda B. Hayden, Research Professor, Mathematics/Computer Science
BS, Virginia State University
MAT, University of Cincinnati
MS, Old Dominion University
Ph.D., The American University

Geraldine Hill, Lecturer, Education
BA, SUNY College
MEd, East Carolina University
Ed.D., International University

John Hill, Lecturer, Sport Management
MS, California University of Pennsylvania
MS, NC A&T State University

Marcus Hilliard, Lecturer, Sport Management
Undergraduate Faculty | 319

Walter Iriarte, Assistant Professor, Communications
Ph.D., Clemons University

Douglas Jackson, Associate Professor, Music
BA, Xavier University of Louisiana
MM, California State University, Los Angeles

Michael Jasper, Associate Professor, Literature
BA, MS University of South Carolina
Ph.D., Kent State University

Amber Jenkins, Associate Professor, English
BA, MA, Johns Hopkins University
MFA, University of Virginia
Ph.D., University of Kentucky

Kenneth L. Jones, Professor, Mathematics
BS, MA, Campbell University
M.Eng. North Carolina State University
MBA, Strayer University
Ph.D., American University

Kenneth E. Jones, Endowed Professor-Communications
BA, University of Mississippi
MS, Clarion University
Ph.D., Howard University

Boung Jin Kang, Assistant Professor, Health & Physical Education
BS, MA, Kyung-Hee University, Seoul, (Korea)
MA, Ball State University
Ph.D., Purdue University

Debjani Kanjilal, Associate Professor, Economics
BS, MS University of Calcutta, (India)
MA, Ph.D., University of Memphis

Kulwinder Kaur-Walker, Professor, Psychology
BEd, Maharishi Dayanand University
MA, Guru Nanak Dev. University
Ph.D., Delhi University

Dorothy Kersha-Aerga, Associate Professor, Juvenile Justice
BL, University of Abuja School of Law, (Nigeria)
LLM, Ahmadu Bello University, (Nigeria)
MSC, Ph.D., Prairie View A & M University

Sharon Key-Sutton, Lecturer, Education
BS, Elizabeth City State University
MEd, University of North Carolina - Chapel Hill
National Board Certified Teacher
Ed.S, George Washington University

Gloria J. Knight, Professor, Music
BM, University of North Carolina at Greensboro
Ed, Virginia State University
Ed.D., Pennsylvania State University

Edmond B. Koker, Professor, Chemistry
BS, Ph.D., Howard University

Krishna H. Kulkarni, Professor, Mathematics
BS, Karnatak University
MS, University of Alabama at Birmingham
Ph.D., Karnatak University

Kevin Kupietz, Assistant Professor, Sociology/Emergency Management
Ph.D., Capella University
MS, East Carolina University
BS, Bucharest National University of Arts

Ellis E. Lawrence, Professor, Technology
BS, MS, North Carolina Agricultural & Technical State University
Ed.D., Virginia Polytechnic Institute & State University

Peter Loebach, Assistant Professor, Sociology/Emergency Management
Ph.D./MS, University of Utah

Eric Luchian, Assistant Professor, Graphic Design
Ph.D., Lancaster University
MFA, Florida Atlantic University

Claudie J. Mackey, Basnight Endowed Professor, Education
BS, Elizabeth City State University
MSEd, Hofstra University
Ed.D., Virginia Polytechnic Institute & State University

Robin Mangham, Lecturer, Aviation Science
BS, Excelsior College
MS, Embry-Riddle Aeronautical University

Vinod P. Manglik, Professor, Mathematics
BSc, MS, Lucknow University (India)
Certificate, Professional Statistician, Institute of Agricultural Research Statistics (India)
Ph.D., University of North Carolina at Chapel Hill
Adam McKee, *Assistant Professor, English*  
Ph.D., Florida State  
MA, Kent State University

Jenna Miller, *Lecturer, English*  
BA, MA, East Carolina University

Lloyd W. Mitchell, III, *Associate Professor, Health and Physical Education*  
BA, University of Washington  
BA, Eastern Oregon State College  
MPH, Oregon State University  
MS, Ph.D., University of North Dakota

Brenda Norman, *Professor, Social Work*  
BSW, MSW, D.S.W., Norfolk State University

Kingsley N. Nwala, *Professor, Economics*  
BBA, MBA, University of the District of Columbia  
Ph.D., Howard University

Alex I. Ogwu, *Professor, Accounting*  
BS, Grambling State University  
MA, Prairie View A&M University  
Ph.D., Howard University

Ebere A. Oriaku, *Mickey L. Burnim Endowed Professor, Economics*  
BBA, University of Arkansas -- Little Rock  
MA, Clark Atlanta University  
JD, Roosevelt University (Netherlands)  
MA; Antioch University  
Ph.D., Howard University

Ngozi E.A. Oriaku, *Professor, Business Administration*  
BBA, University of the District of Columbia  
MS, Norfolk State University  
Ph.D., Clark-Atlanta University

Christopher Palestrant, *Professor, Music*  
BA, College of Wooster  
MA, New York University  
MM, DMA, Peabody Conservatory

Gloria Payne, *Rausch Endowed Professor, Biology*  
BS, Saint Augustine’s College  
Ph.D., Atlanta University

Dana Poole, *Mathematics Specialist*  
BS, MS, Elizabeth City State University

Kuldeep Rawat, *Associate Professor, Computer Engineering*  
BS, Bombay University (India)  
MS, Ph.D., Computer Science, University of Louisiana at Lafayette

Sharon Raynor, *Associate Professor, English*  
BA, MA-English-East Carolina University  
Ph.D.-English-Indiana University of Pennsylvania

Charles Reed, *Associate Professor, History*  
BA, Wheeling Jesuit University  
MA, Marquette University  
Ph.D., University of Maryland

Deborah A. Riddick, *Associate Professor, Social Work*  
BS, Elizabeth City State University  
MSW, Ph.D., Norfolk State University

Tarsha Rogers, *Writing Specialist*  
BA, Elizabeth City State University  
MA, East Carolina University

Antonio Rook, *Lecturer, Computer Science*  
BS, Elizabeth City State University  
MS, North Carolina A & T State University

Jeffrey M. Rousch, *Professor, Biology*  
BS, University of Hartford  
BS, Johnson State College  
MS, Indiana University of Pennsylvania  
Ph.D., Arizona State University

Josiah Sampson, *Associate Professor, Biology*  
BS, Jackson State University;  
MEd, Tennessee State University  
Ph.D., Meharry Medical College

Dipendra C. Sengupta, *Professor, Mathematics*  
BSc, MSc, University of Kalyani (India)  
MA, Ph.D., State University of New York at Stony Brook

Jharna D. Sengupta, *Professor, Mathematics*  
BSc, MSc, University of Kalyani (India)  
MA, Ph.D., State University of New York at Stony Brook

Tesfaye Serbessa, *Associate Professor, Chemistry*  
BA, Asmara University, (Iran)  
MS, Addis Ababa University
Ph.D., Auburn University

Linita Shannon, Assistant Professor, Communications
Ph.D., Syracuse University

Shirin Siddiqui, Visiting Associate Professor, Chemistry
BA, MS, University of Dhaka, Bangladesh
Ph.D., University of Pittsburgh

Narendra Sharma, Associate Professor, Accounting
BS, MS; University of Delhi (India)
Ph.D., Northcentral University

Joy Turnheim Smith, Professor, Business Administration
AB, Dartmouth College
JD, Northwestern University
MBA, DePaul University
Ph.D., University of British Columbia

Sase Singh, Assistant Professor, MIS
MS, University of Liverpool, England
Ph.D., University of British Columbia

Melissa Stuckey, Assistant Professor, History
Ph.D., MA, Yale University

Walter R. Swan, Associate Professor, Music
BM, Alcorn State University
MM, Mississippi College
DMA, University of Southern Mississippi

M Hanif Talukder, Associate Professor, Mathematics
BS, RJahangirnagar University, Dakar (Bangladesh)
MS, Tennessee Technological University;
Ph.D., Texas Technological University

Kungpo Tao, Assistant Professor, Marketing
BA, National Pingtung University of Science & Technology (Taiwan)
MBA, National Dong Hwa University (Taiwan)
MS, Texas A&M University at Commerce
Ph.D., Old Dominion University

Waverly Tillar, Lecturer, Sociology
BA, Virginia Union University
MA, Norfolk State University

Jingbin Wang, Associate Professor, History
BA, Heilongjiang University
MA, Beijing Foreign Studies University
MA, Ph.D., University of Chicago

Eric A. Weil, Associate Professor, English
BS, Bowling Green State University
MFA, MA, Ph.D., UNC Greensboro

Jeffrey Whelan, Assistant Professor, Art
BFA, University of Southern Maine
MFS, East Carolina University

Gwendolyn Williams, EV Wilkins Endowed Chair, Education
BA, Psychology, Spelman College
MEd, EdS, Ph.D., Georgia State University

Sheila Williams, Assistant Professor, Elementary Education & Director of Teacher Education
BA, Elizabeth City State University
MEd, East Carolina University
Ed.D., Argosy University, Sarasota

Earnest Wilson, Lecturer, Sports Administration
BS, MS Texas Tech University

Michael A. Winrow, Associate Professor, Biology
BS, MS, Tennessee State University
Ph.D., Wayne State University

Margaret M. Young, Associate Professor, Biology
BS, M. Phil, University of West Indies, MONA
Ph.D., Mississippi State University

Jinchun Yuan, Professor, Chemistry
BS, Peking University (China)
MS, University of Science & Technology of China
MS, University of Hawaii at Manoa
Ph.D., University of Southern Mississippi

Xiaoli Yuan, Associate Professor, Accounting
BA, Economics, Changchun Taxation College
MBA, Finance, Xiamen University
MS, Accounting, University of Illinois at Urbana-Champaign
Ph.D., Accounting, Florida International University

Paula Viltz, Professor, Special Education
BA, MA, Northern Illinois University
Ed.D., Grambling State University
