

Budget Revision Process

An approved budget is awarded to each Title III/SAFRA Activity Director providing approved line items and a total budget according to the proposal submitted and approved by the U. S. Department of Education. In some cases, the approved budget may need to be modified within reason to accommodate purchases. This process provides step-by-step procedures to revise the activity budget.

Policy

In order to revise the approved Title III/SAFRA budget, Activity Directors must first make sure that the request is allowable. A simple review of the approved budget justification will reveal budget categories that are available to you. Be sure to avoid changing the scope of your approved objectives as that would require agency approval. Any change to the budget will require a justification of why the budget is incorrect; the objective that the change addresses; the line item from where you plan to move the additional funds.
